

The University
Of Sheffield.

DO OUR URGENT AND EMERGENCY HEALTHCARE SERVICES WORK FOR YOU?

IF YOU COULD START AGAIN WITH THE URGENT AND EMERGENCY CARE SERVICES IN SHEFFIELD, WHAT WOULD YOU LIKE TO SEE?

Researchers from the University of Sheffield are undertaking a study where they would like to hear your views on 'The ideal urgent and emergency care system'. This would involve attending a small group discussion lasting no longer than 2-3 hours.

We would particularly like to hear from people who have used an Emergency Department, an ambulance, NHS 111, GP out of hours, walk in centre or, a minor injuries unit in the last 12 months and fall into any of the following categories:

-  18-45 years
-  75 years and older
-  Adults with young children
-  Healthcare staff working in the urgent & emergency care system
-  Adults with long term conditions

For your time, refreshments and a light lunch or dinner will be provided, and as a thank you, you will also receive a £30 high-street shopping voucher (at the end of the workshop).
