Historical Note

The University of Sheffield developed from three local institutions: the Sheffield School of Medicine, Firth College and the Sheffield Technical School. The School of Medicine, founded 1828, was by far the oldest. Its early history was very insecure and it was saved from collapse by the opening of Firth College, which took over the teaching of all basic science subjects to medical students.

Firth College was one of a group of university colleges founded in the later 19th century. It developed out of the Cambridge University Extension Movement, a scheme designed to bring university teaching to the large towns and cities of England, most of which lacked any university provision. The success of these courses in Sheffield led Mark Firth, a local steel manufacturer, to establish the College in 1879 as a centre for teaching Arts and Science subjects.

The Sheffield Technical School

The Sheffield Technical School was the product of local concern about the need for better technical training of the men responsible for running the great industries of Sheffield, particularly steelmaking. A movement was started within Firth College to collect funds to create a technical department, which was established in 1884 as the Sheffield Technical School. In 1886 the School moved to new premises on the site of the old Grammar School at St George's Square.

In 1897, the three institutions were amalgamated by Royal Charter to form the University College of Sheffield. This step was part of the plan to link up with the Victoria University, a federation of the University Colleges at Manchester, Liverpool and Leeds.

By 1900, however, the Federal University was disintegrating and within a few years independent universities were formed from the three University Colleges.

On 31 May 1905 the University of Sheffield was granted its Royal Charter, and in July the new Firth Court Building on Western Bank was opened by King Edward VII and Queen Alexandra. St George's Square remained the centre of Applied Science departments, with Arts, Medicine and Science being housed at Western Bank.

The University in 1905

At the time of the University's foundation in 1905 there were 114 full-time students reading for degrees in Arts, Pure Science, Medicine and Applied Science. In 1919 when returning ex-servicemen were admitted in large numbers, the full-time student figure rose to a short-lived peak of about 1,000. By then the Faculty of Applied Science had split into Engineering and Metallurgy; the University's first Hall of Residence (the original Stephenson Hall) had been established; and the Edgar Allen library had opened (1909).

At that time the University was as committed to non-degree teaching as to teaching full-time students. Courses covered not only many conventional academic subjects but also topics as diverse as cow-keeping, railway economics, mining and razor-grinding. During the First World War some of these were replaced by teaching of (and participation in) munitions making, medical appliances design and production, translation and politics.

Between the two wars full-time student numbers stabilised at about 750 and expansion into new areas of specialist teaching and research continued slowly. The Second World War brought with it new areas of specialist research and training - in, for example, radar, dietary and vitamin studies, production of anaesthetics and chemicals (as substitutes for materials previously imported from Europe), magnetism, fuel production and economy, naval cartography, glass manufacture and English language teaching.

Since the Second World War

Since the Second World War, many older houses have been brought into academic use and major new buildings have been constructed - the Main Library in 1959, and the Arts Tower, Hicks Building, Alfred Denny Building, Sir Robert Hadfield Building, Chemical Engineering Building, University House, five Halls of Residence and the Union of Students in the 1960s.

New buildings for Geography and Psychology followed in the 1970s, along with the Crookesmoor Building (for Law and Management), the Royal Hallamshire Hospital, and purpose-built student flats. The next decade saw the opening of the Octagon Centre, the Sir Henry Stephenson Building (for engineering), and major extensions at the Northern General Hospital.

In the 1990s, new premises for the School of Clinical Dentistry, the Management School, the Division of Education, St George's Library (incorporating Blackwell's University Bookshop) and St George's Flats and Lecture Theatre were opened, together with extensions to Stephenson, Halifax, and Tupton Halls of Residence, and three new blocks of student flats.

The Regent Court building, which houses the Departments of Computer Science and Information Studies and the Sheffield Centre for Health and Related Research, were also completed. The Union of Students underwent a £5 million development programme, improving welfare, social and meetings facilities.

Following the University's integration with the Sheffield and North Trent College of Nursing and Midwifery in 1995, a building programme provided new facilities for nursing and midwifery teaching and research. This includes the extension and conversion of the St George's Hospital site on Winter Street, and the construction of a new building at the Northern General Hospital.

The 21st Century

The University's ambitious estates strategy has continued into the new millennium. Campus additions include the £80 million refurbishment programme for laboratories in the medical, biological and physical sciences:

- Custom-built University Health Centre
- The Sheffield Bioincubator
- Multidisciplinary Informatics Collaboratory for the Social Sciences

Other developments include:

- The inauguration of the £20 million North Campus (housing the Kroto Research Institute and the Nanoscience and Technology Centre).
- The construction of a £24 million library building (known as the Information Commons).
- Commencement of a £160 million building programme to redevelop residential accommodation on the Endcliffe and Ranmoor sites.
- The award-winning Faculty of the Future which forms the heart of the Advanced Manufacturing Research Centre.
- The new building and renovations around the former Jessop's Hospital, providing a focus for the Faculty of Arts and Humanities.
- The ongoing refurbishment of the Arts Tower.

The mile-long 'campus' now stretches almost unbroken from St George's Square into Crookesmoor, with student residences concentrated in suburbs to the west of the University. For the first fifty years of its existence the University's full-time student population did not rise above 2,000. By 1980, however, it had reached 8,000 and in 2006 the number of full-time students had risen to 21,000. The total student population now tops 24,500 and includes students from all over the world.

The Arms of the University of Sheffield

The University Arms, whose background colour is azure, contains a gold-edged open book at its centre, on which is inscribed *Disce Doce* (Learn and Teach). On either side is a sheaf of eight silver arrows, being derived from the shield of old Sheffield. The gold crown is the Crown of Success and the White Rose of York denotes the University's home county. The scroll carries the motto of Firth College, *Rerum Cognoscere Causas* (To Discover the Causes of Things; from Virgil's *Georgics* II, 490).

The Coat of Arms should not be confused with the University's logo, which consists of a redrawn version of the Coat of Arms set alongside the University's name in our own distinctive Stephenson font, on a white background. Introduced in 2005, the University's centenary year, the logo complements but does not supersede the Coat of Arms, which remains the University's official heraldic symbol.

Reproduction of the University's Coat of Arms is restricted by copyright to formal University of Sheffield documents. It may not be used by external organisations in their marketing activities, whether in hard copy or on the web.

The power to make Regulations shall include the power to add to amend alter or repeal any Regulations theretofore made.

Charter of Incorporation

22. It shall be the duty of the Council from time to time to bring before the Court the Senate and the Faculties any matters which in its opinion should be dealt with by these bodies respectively.

23. It is a fundamental condition of the constitution of the University that no religious test shall be imposed upon any person in order to entitle him or her to be admitted as a Member Professor Teacher or Student of the University or to hold office therein or to graduate thereat or to hold any advantage or privilege thereof.

24. There shall be no discrimination on the basis of gender in respect of eligibility for any office in the University or for membership of any of its constituent bodies or of admission to any degree or course of study in the University.

25. The University shall not make any dividend gift division or bonus in money unto or between any of its members except by way of prize reward or special grant.

26. The Council may at any time alter amend or add to these Presents and their provisions by a Special Resolution in that behalf and such alteration amendment or addition shall when allowed by Us Our Heirs and Successors by and with the advice of Our Privy Council become effectual so that these Presents shall thenceforward continue and operate as though they had been originally granted and made as so altered amended or added to in manner aforesaid.

This Article of these Presents shall apply to this Charter as altered amended or added to in manner aforesaid.

27. In this Our Charter "Statutes" means the Statutes set forth in the Schedule hereto and any Statutes altering amending adding to or repealing the same or any of them which may hereafter be made and may be allowed by Us in Council or by a Committee of Our Council. "Ordinances" means Ordinances made under the powers conferred by this Our Charter to which Our further sanction is not hereby or by Statute required. "Regulations" except when otherwise required by the context means Regulations made pursuant to this Our Charter or to the Statutes. "Special Resolution" means a Resolution passed by the affirmative vote of not less than three quarters of those present and voting.

28. Our Royal Will and Pleasure is that these Presents shall ever be construed benevolently and in every case most favourably to the University of Sheffield and the promotion of the objects of this Our Charter.

Schedule

The Statutes of the University

SECTION 1:

Definitions

1. In these Statutes

UNIVERSITY means the University of Sheffield.

CHARTER means the Charter of the University.

COURT means the Court of the University.

COUNCIL means the Council of the University.

SENATE means the Senate of the University.

FACULTY means a Faculty of the University.

UNION OF STUDENTS means the body known as the Union of Students of the University.

STATUTES means the Statutes of the University.

ORDINANCES means Ordinances made pursuant to the Charter or Statutes.

REGULATIONS means Regulations made pursuant to the Charter or Statutes.

UNIVERSITY YEAR means the period of 12 calendar months ending on the last day of July in each year or on such other day in each year as the Council shall from time to time determine.

2. Words importing the masculine shall include the feminine and, unless the context otherwise requires, words in the singular shall include the plural and words in the plural shall include the singular.

SECTION 2:

The Auditor

1. The Council shall from time to time appoint an Auditor or Auditors. Every such Auditor shall be a member of a body of accountants established in the United Kingdom and recognised by the Secretary of State for the purposes of Section 389 (1)(a) of the Companies Act 1985, but no person shall be appointed Auditor who is, or one of whose partners is, a Member of the Council or of the Senate or of the Board of any Faculty or of the Teaching or Administrative Staff of the University.

2. The Auditor shall hold office for three calendar years and shall receive such remuneration as may be determined by or in accordance with a resolution of the Council.

SECTION 3:

The Council

1. The Council shall consist of the following persons, *viz.*:

Class (1): The Pro-Chancellors, The Vice-Chancellor, and The Treasurer.

Class (2): One Pro-Vice-Chancellor appointed annually by the Chairman of Council in consultation with the Vice-Chancellor.

Class (3): The Chairman of Convocation.

Class (4): Six persons elected by the Council, one of whom shall be a member of Convocation.

Class (5): One Faculty Pro-Vice-Chancellor appointed annually by the Vice-Chancellor.

Class (6): Three members of the Senate, of whom not more than two may be Professors, elected by the Senate.

Class (7): One person to be elected by and from the employees of the University who are not members of the Academic or Academic Related Staff.

Class (8): The President of the Union of Students.

2. Subject to the Statutes, Members of Class (4) shall hold office for three University years. At the end of every University year four Members of this Class (five at the end of the University year 2002-2003 and every third University year thereafter) shall retire, those longest in office retiring on each occasion. Members so retiring may be re-elected, provided that a Member may not serve for more than three consecutive periods of office unless the Council by an express resolution waives this limit in respect of a named person.

3. Members of Class (5) shall hold office for one University year and shall be eligible for re-appointment, provided that a Member may not serve for more than three consecutive periods of office.
4. Members of Class (6) shall hold office for three University years. At the end of every University year two Members of this Class (one at the end of the University year 2002-2003 and every third University year thereafter) shall retire, those longest in office retiring on each occasion. Members so retiring may be re-elected, provided that a Member may not serve for more than three consecutive periods of office.
5. Members of Class (7) shall hold office for three University years and shall be eligible for re-election, provided that a Member may not serve for more than three consecutive periods of office.
6. A person who has held office as a Member of Class (4), (5), (6) or (7) and who has ceased by reason of length of service to be eligible for re-election shall after an interval of three University years again become eligible for election in that Class.
7. Members of Class (8) are members in respect of all business of the Council except matters
 - (a) Relating to those powers of the Senate listed under Ordinance XVI paragraphs 1 and 2,
 - (b) Concerning the admission and academic assessment of individual students.
8. A Member of Council shall vacate office on ceasing to hold any office or other qualification by virtue of which that person became a Member of the Council, and a non-professorial Member of Class (6) shall vacate office on appointment as a Professor if that appointment increases the number of Professors who are Class (6) Members beyond two. Any Member of the Council may resign at any time by letter addressed to the Secretary of the Council.
9. Casual vacancies in Classes (4), (5), (6) and (7) shall be filled by the persons or body which elected or appointed the Member whose place has become vacant. Members elected to casual vacancies shall retire at the time when the persons whom they respectively succeed should have retired.
10. Seven Members of the Council of whom not more than three may be members of the staff of the University shall form a quorum.
11. A Member of Class (5) or (7) who is unable to attend a meeting of the Council may be represented by a deputy for that meeting, being (a) in the case of Class (5), a person duly appointed to be available to serve as such deputy by and from the Vice-Chancellor, and (b) in the case of Class (7), a person duly elected to be available to serve as such deputy by and from the employees of the University who are not members of the Academic or Academic Related Staff.
12. The Member of Class (8) may be accompanied at meetings of the Council by another Officer of the Union of Students appointed by the President of the Union, who may also serve as a deputy in the absence of the Member of Class (8). This Officer shall have the right to vote only when serving as a deputy.

SECTION 6:

Academic Staff

PART I: CONSTRUCTION, APPLICATION AND INTERPRETATION

Construction

1. This Section and any Ordinance or Regulation made under this Section shall be construed in every case to give effect to the following guiding principles, that is to say:—

- (a) to ensure that academic staff have freedom within the law to question and test received wisdom, and to put forward new ideas and controversial or unpopular opinions, without placing themselves in jeopardy of losing their jobs or privileges;
- (b) to enable the University to provide education, promote learning and engage in research efficiently and economically; and
- (c) to apply the principles of justice and fairness.

Reasonableness of decisions

2. No provision in Part II or Part III of this Section shall enable the body or person having the duty to reach a decision under the relevant Part to dismiss any member of the academic staff unless the reason for his dismissal may in the circumstances (including the size and administrative resources of the University) reasonably be treated as a sufficient reason for dismissing him.

Application

3. (1) This Section shall apply
- (a) to the Professors, Readers, Senior Lecturers and Lecturers;
 - (b) to such other senior members of the staff in academic or academic related grades who shall be granted the status of Members for the purposes of Section 2; and
 - (c) to the Vice-Chancellor to the extent and in the manner set out in the Annex to this Section.
- (2) In this Section any reference to “academic staff” is a reference to persons to whom this Section applies.

Interpretation

Meaning of “dismissal”

4. In this Section “dismiss” and “dismissal” mean dismissal of a member of the academic staff and:—
- (a) include remove or, as the case may be, removal from office; and
 - (b) in relation to employment under a contract, shall be construed in accordance with section 55 of the Employment Protection (Consolidation) Act 1978.

Meaning of “good cause”

5. (1) For the purposes of this Section “good cause” in relation to the dismissal or removal from office or place of a member of the academic staff, being in any case a reason which is related to conduct or to capability or qualifications for performing work of the kind which the member of the academic staff concerned was appointed or employed to do, means:—
- (a) conviction for an offence which may be deemed by a Tribunal appointed under Part III to be such as to render the person convicted unfit for the execution of the duties of the office or employment as a member of the academic staff; or
 - (b) conduct of an immoral, scandalous or disgraceful nature incompatible with the duties of the office or employment; or
 - (c) conduct constituting failure or persistent refusal or neglect or inability to perform the duties or comply with the conditions of office; or
 - (d) physical or mental incapacity established under Part IV.
- (2) In this paragraph:—
- (a) “capability”, in relation to such a member, means capability assessed by reference to skill, aptitude, health or any other physical or mental quality; and
 - (b) “qualifications”, in relation to such a member, means any degree, diploma or other academic, technical or professional qualification relevant to the office or position held by that member.

Meaning of “redundancy”

6. For the purposes of this Section dismissal shall be taken to be a dismissal by reason of redundancy if it is attributable wholly or mainly to:—
- (a) the fact that the University has ceased, or intends to cease, to carry on the activity for the purposes of which the member of the academic staff concerned was appointed or employed by the University, or has ceased, or intends to cease, to carry on that activity in the place in which the member concerned worked; or

- (b) the fact that the requirements of that activity for members of the academic staff to carry out work of a particular kind, or for members of the academic staff to carry out work of a particular kind in that place, have ceased or diminished or are expected to cease or diminish.

Incidental, supplementary and transitional matters

- 7. (1) In any case of conflict, the provisions of this Section shall prevail over those of any other Section and over those of the Ordinances and Regulations and the provisions of any Ordinance made under this Section shall prevail over those of any other Ordinance:

Provided that Part III of and the Annex to this Section shall not apply in relation to anything done or omitted to be done before the date on which the instrument making these modifications was approved under subsection (9) of section 204 of the Education Reform Act 1988.

- (2) Nothing in any appointment made, or contract entered into, shall be construed as over-riding or excluding any provision made by this Section concerning the dismissal of a member of the academic staff by reason of redundancy or for good cause:

Provided that nothing in this sub-clause shall prevent waivers made under section 142 of the Employment Protection (Consolidation) Act 1978 from having effect.

- (3) Nothing in any other Section or in any Ordinance or Regulation made thereunder shall authorise or require any officer of the University to sit as a member of any Committee, Tribunal or body appointed under this Section or to be present when any such Committee, Tribunal or body is meeting to arrive at its decision or for the purpose of discussing any point of procedure.
- (4) References to numbered Parts, paragraphs and sub-paragraphs are references to Parts, paragraphs and sub-paragraphs so numbered in this Section.

PART II: REDUNDANCY

Purpose of Part II

- 8. This Part enables the Council, as the appropriate body, to dismiss any member of the academic staff by reason of redundancy.

Exclusion from Part II of persons appointed or promoted before 20th November 1987

- 9. (1) Nothing in this Part shall prejudice, alter or affect any rights, powers or duties of the University or apply in relation to a person unless:—
 - (a) his appointment is made, or his contract of employment is entered into, on or after 20th November 1987;
 - (b) or he is promoted on or after that date.
- (2) For the purposes of this paragraph in relation to a person, a reference to an appointment made or a contract entered into on or after 20th November 1987 or to promotion on or after that date shall be construed in accordance with subsections (3) to (6) of section 204 of the Education Reform Act 1988.

The Appropriate Body

- 10. (1) The Council shall be the appropriate body for the purposes of this Part.
 - (2) This paragraph applies where the appropriate body has decided that it is desirable that there should be a reduction in the academic staff:—
 - (a) of the University as a whole; or
 - (b) of any faculty, school, department or other similar area of the University by way of redundancy.
- 11. (1) Where the appropriate body has reached a decision under paragraph 10(2) it shall appoint a Redundancy Committee to be constituted in accordance with sub-paragraph (3) of this paragraph to give effect to its decision by such date as it may specify and for that purpose
 - (a) to select and recommend the requisite members of the academic staff for dismissal by reason of redundancy; and
 - (b) to report their recommendations to the appropriate body.
 - (2) The appropriate body shall either approve any selection recommendation made under sub-paragraph (1), or shall remit it to the Redundancy Committee for further consideration in accordance with its further directions.

- (3) A Redundancy Committee appointed by the appropriate body shall comprise:
 - (a) a Chairman; and
 - (b) two members of the Council, not being persons employed by the University; and
 - (c) two members of the academic staff nominated by the Senate.

Notices of intended dismissal

12. (1) Where the appropriate body has approved a selection recommendation made under paragraph 11(1) it may authorise any person to act as its delegate to dismiss any member of the academic staff so selected.
- (2) Each member of the academic staff selected shall be given separate notice of the selection approved by the appropriate body.
- (3) Each separate notice shall sufficiently identify the circumstances which have satisfied the appropriate body that the intended dismissal is reasonable and in particular shall include:—
 - (a) a summary of the action taken by the appropriate body under this Part;
 - (b) an account of the selection processes used by the Redundancy Committee;
 - (c) a reference to the rights of the person notified to appeal against the notice and to the time within which any such appeal is to be lodged under Part V (Appeals); and
 - (d) a statement as to when the intended dismissal is to take effect.

PART III: DISCIPLINE, DISMISSAL AND REMOVAL FROM OFFICE

Disciplinary Procedures

13. (1) Minor faults shall be dealt with informally.
- (2) Where the matter is more serious but falls short of constituting possible good cause for dismissal the following procedure shall be used:—

Stage 1— Oral Warning

If conduct or performance does not meet acceptable standards the member of the academic staff will normally be given a formal ORAL WARNING. The member will be advised of the reason for the warning, that it is the first stage of the disciplinary procedure and of the right of appeal under this paragraph. A brief note of the oral warning will be kept but it will be spent after 12 months, subject to satisfactory conduct and performance.

Stage 2 — Written Warning

If the offence is a serious one, or if a further offence occurs, a WRITTEN WARNING will be given to the member of the academic staff by the Head of Department. This will give details of the complaint, the improvement required and the timescale. It will warn that a complaint may be made to the Registrar and Secretary seeking the institution of charges to be heard by a Tribunal appointed under paragraph 16 if there is no satisfactory improvement and will advise of the right of appeal under this paragraph. A copy of this written warning will be kept by the Head of Department but it will be disregarded for disciplinary purposes after 2 years subject to satisfactory conduct and performance.

Stage 3 — Appeals

A member of the academic staff who wishes to appeal against a disciplinary warning shall inform the Registrar and Secretary within two weeks. A Pro-Vice-Chancellor shall hear all such appeals and the resulting decision shall be final.

Preliminary examination of serious disciplinary matters

14. (1) If there has been no satisfactory improvement following a written warning given under Stage 2 of the procedure in paragraph 13, or in any other case where it is alleged that conduct or performance may constitute good cause for dismissal or removal from office, a complaint seeking the institution of charges to be heard by a Tribunal appointed under paragraph 16 may be made to the Registrar and Secretary who shall bring it to the attention of the Vice-Chancellor.
- (2) To enable the Vice-Chancellor to deal fairly with any complaint brought to his attention under sub-paragraph (1) he shall institute such investigations or enquiries (if any) as appear to him to be necessary.

- (3) If it appears to the Vice-Chancellor that a complaint brought to his attention under sub-paragraph (1) relates to conduct or performance which does not meet acceptable standards but for which no written warning has been given under paragraph 13 or which relates to a particular alleged infringement of rules, regulations or byelaws for which a standard penalty is normally imposed in the University or within the faculty, school, department or other relevant area, or is trivial or invalid he may dismiss it summarily, or decide not to proceed further under this Part.
- (4) If the Vice-Chancellor does not dispose of a complaint under sub-paragraph (3) he shall treat the complaint as disclosing a sufficient reason for proceeding further under this Part and, if he sees fit, he may suspend the member on full pay pending a final decision.
- (5) Where the Vice-Chancellor proceeds further under this Part he shall write to the member of the academic staff concerned inviting comment in writing.
- (6) As soon as may be following receipt of the comments (if any) the Vice-Chancellor shall consider the matter in the light of all the material then available and may:—
 - (a) dismiss it himself; or
 - (b) refer it for consideration under paragraph 13; or
 - (c) deal with it informally himself if it appears to the Vice-Chancellor appropriate to do so and if the member of the academic staff agrees in writing that the matter should be dealt with in that way, or
 - (d) direct the Registrar and Secretary to prefer a charge or charges to be considered by a Tribunal to be appointed under paragraph 16.
- (7) If no comment is received within 28 days the Vice-Chancellor may proceed as aforesaid as if the member concerned had denied the substance and validity of the alleged case in its entirety.

Institution of Charges

15. (1) In any case where the Vice-Chancellor has directed that a charge or charges be preferred under paragraph 14(6)(d), he shall request the Council to appoint a Tribunal under paragraph 16 to hear the charge or charges and to determine whether the conduct or performance of the member of the academic staff concerned constitutes good cause for dismissal or otherwise constitutes a serious complaint relating to the member's appointment or employment.
- (2) Where the Council has been requested to appoint a Tribunal under paragraph 16 the Registrar and Secretary or, if he is unable to act, another officer appointed by the Vice-Chancellor shall take charge of the proceedings.
- (3) The officer in charge of the proceeding shall formulate, or arrange for the formulation of, the charge or charges and shall present, or arrange for the presentation of, the charge or charges before the Tribunal.
- (4) It shall be the duty of the officer in charge of the proceedings
 - (a) to forward the charge or charges to the Tribunal and to the member of the academic staff concerned together with the other documents therein specified, and
 - (b) to make any necessary administrative arrangements for the summoning of witnesses, the production of documents and generally for the proper presentation of the case before the Tribunal.

The Tribunal

16. A Tribunal appointed by the Council shall comprise:—
 - (a) a Chairman; and
 - (b) one member of the Council, not being a person employed by the University; and
 - (c) one member of the academic staff nominated by the Senate.

Provisions concerning Tribunal procedure

17. (1) The procedure to be followed in respect of the preparation, hearing and determination of charges by a Tribunal shall be that set out in Ordinances made under this paragraph.
- (2) Without prejudice to the generality of the foregoing such Ordinances shall ensure:—
 - (a) that the member of the academic staff concerned is entitled to be represented by another person, whether such person be legally qualified or not, in connection with and at any hearing of charges by a Tribunal;
 - (b) that a charge shall not be determined without an oral hearing at which the member of the academic staff concerned and any person appointed by him to represent him are entitled to be present;
 - (c) that the member of the academic staff and any person representing the staff member may call witnesses and may question witnesses upon the evidence on which the case against him is based; and

- (d) that full and sufficient provision is made:—
 - (i) for postponements, adjournments, dismissal of the charge or charges for want of prosecution, remission of the charge or charges to the Vice-Chancellor for further consideration and for the correction of accidental errors; and
 - (ii) for appropriate time limits for each stage (including the hearing) to the intent that any charge thereunder shall be heard and determined by a Tribunal as expeditiously as reasonably practicable.

Notification of Tribunal decisions

- 18. (1) A Tribunal shall send its decision on any charge referred to it (together with its findings of fact and the reasons for its decision regarding that charge and its recommendations, if any, as to the appropriate penalty) to the Vice-Chancellor and to each party to the proceedings.
- (2) A Tribunal shall draw attention to the period of time within which any appeal should be made by ensuring that a copy of Part V (Appeals) accompanies each copy of its decision sent to a party to the proceedings under this paragraph.

Powers of the appropriate officer where charges are upheld by Tribunal

- 19. (1) Where the charge or charges are upheld and the Tribunal finds good cause and recommends dismissal or removal from office, but in no other case, the appropriate officer shall decide whether or not to dismiss the member of the academic staff concerned.
- (2) In any case where the charge or charges are upheld, other than where the appropriate officer has decided under sub-paragraph (1) to dismiss the member of the academic staff concerned, the action available to the appropriate officer (not comprising a greater penalty than that recommended by the Tribunal) may be:—
 - (a) to discuss the issues raised with the member concerned; or
 - (b) to advise the member concerned about his future conduct; or
 - (c) to warn the member concerned; or
 - (d) to suspend the member concerned for such period as the appropriate officer shall think fair and reasonable, not to exceed 3 months after the Tribunal's decision; or
 - (e) any combination of any of the above or such further or other action under the member's contract of employment or terms of appointment as appears fair and reasonable in all the circumstances of the case.

Appropriate Officers

- 20. (1) The Vice-Chancellor shall be the appropriate officer to exercise the powers conferred by paragraph 19 and any reference to the appropriate officer includes a reference to a delegate of that officer.
- (2) Any action taken by the appropriate officer shall be confirmed in writing.

PART IV: REMOVAL FOR INCAPACITY ON MEDICAL GROUNDS

- 21. (1) This Part makes separate provision for the assessment of incapacity on medical grounds as a good cause for dismissal or removal from office.
- (2) In this Part references to medical grounds are references to capability assessed by reference to health or any other physical or mental quality.
- (3) In this Part references to the appropriate officer are references to the Vice-Chancellor or an officer acting as his delegate to perform the relevant act.
- (4) References to the member of the academic staff include, in cases where the nature of the alleged disability so requires, a responsible relative or friend in addition to (or instead of) that member.
- 22. (1) Where it appears that the removal of a member of the academic staff on medical grounds would be justified, the appropriate officer:—
 - (a) shall inform the member accordingly; and
 - (b) shall notify the member in writing that it is proposed to make an application to the member's doctor for a medical report and shall seek the member's consent in writing in accordance with the requirements of the Access to Medical Reports Act 1988.
- (2) If the member shares that view the University shall meet the reasonable costs of any medical opinion required.

- (3) If the member does not share that view the appropriate officer shall refer the case in confidence, with any supporting medical and other evidence (including any medical evidence submitted by the member), to a Board comprising one person nominated by the Council; one person nominated by the member concerned or, in default of the latter nomination, by the Senate; and a medically qualified chairman jointly agreed by the Council and the member or, in default of agreement, to be nominated by the President of the Royal College of Physicians.
- (4) The Board may require the member concerned to undergo medical examination at the University's expense.

Termination of Employment

23. If the Board determines that the member shall be required to retire on medical grounds, the appropriate officer shall direct the Registrar and Secretary or his delegate to terminate the employment of the member concerned on those medical grounds.

PART V: APPEALS

Purpose of Part V

24. This Part establishes procedures for hearing and determining appeals by members of the academic staff who are dismissed or under notice of dismissal or who are otherwise disciplined.

Application and interpretation of Part V

25. (1) This Part applies:—
- (a) to appeals against the decisions of the Council as the appropriate body (or of a delegate of that body) to dismiss in the exercise of its powers under Part II;
 - (b) to appeals arising in any proceedings, or out of any decision reached, under Part III other than appeals under paragraph 13 (Appeals against disciplinary warnings);
 - (c) to appeals against dismissal otherwise than in pursuance of Part II or Part III;
 - (d) to appeals against discipline otherwise than in pursuance of Part III; and
 - (e) to appeals against decisions reached under Part IV and “appeal” and “appellant” shall be construed accordingly.
- (2) No appeal shall however lie against:—
- (a) a decision of the appropriate body under paragraph 10(2);
 - (b) the findings of fact of a Tribunal under paragraph 18(1) save where, with the consent of the person or persons hearing the appeal, fresh evidence is called on behalf of the appellant at that hearing;
 - (c) any finding by a Board set up under paragraph 22 (3).
- (3) In this Part references to “the person appointed” are references to the person appointed by the Council under paragraph 28 to hear and determine the relevant appeal.
- (4) The parties to an appeal shall be the appellant and the Registrar and Secretary and any other person added as a party at the direction of the person appointed.

Institution of Appeals

26. A member of the academic staff shall institute an appeal by serving on the Registrar and Secretary, within the time allowed under paragraph 27, notice in writing setting out the grounds of the appeal.

Time for appealing and notices of appeal

27. (1) A notice of appeal shall be served within 28 days of the date on which the document recording the decision appealed from was sent to the appellant or such longer period, if any, as the person appointed may determine under sub-paragraph (3).
- (2) The Registrar and Secretary shall bring any notice of appeal received (and the date when it was served) to the attention of the Council and shall inform the appellant that he has done so.
- (3) Where the notice of appeal was served on the Registrar and Secretary outside the 28 day period the person appointed under paragraph 28 shall not permit the appeal to proceed unless he considers that justice and fairness so require in the circumstances of the case.

Persons appointed to hear and determine appeals

28. (1) Where an appeal is instituted under this Part the Council shall appoint a person described in sub-paragraph (2) to hear and determine that appeal.
- (2) The persons described in this sub-paragraph are persons not employed by the University holding, or having held, judicial office or being barristers or solicitors of at least ten years' standing.
- (3) The person appointed shall sit alone unless he considers that justice and fairness will best be served by sitting with two other persons.
- (4) The other persons who may sit with the person appointed shall be:—
- (a) one member of the Council not being a person employed by the University; and
- (b) one member of the academic staff nominated by the Senate.

Provisions concerning appeal procedures and powers

29. (1) The procedure to be followed in respect of the preparation, consolidation, hearing and determination of appeals shall be that set out in Ordinances made under this paragraph.
- (2) Without prejudice to the generality of the foregoing such Ordinances shall ensure:—
- (a) that an appellant is entitled to be represented by another person, whether such person be legally qualified or not, in connection with and at any hearing of his appeal;
- (b) that an appeal shall not be determined without an oral hearing at which the appellant, and any person appointed by him to represent him are entitled to be present and, with the consent of the person or persons hearing the appeal, to call witnesses;
- (c) that full and sufficient provision is made for postponements, adjournments, dismissal of the appeal for want of prosecution and for the correction of accidental errors; and
- (d) that the person appointed may set appropriate time limits for each stage (including the hearing itself) to the intent that any appeal shall be heard and determined as expeditiously as reasonably practicable.
- (3) The person or persons hearing the appeal may allow or dismiss an appeal in whole or in part and, without prejudice to the foregoing, may:—
- (a) remit an appeal from a decision under Part II to the Council as the appropriate body (or any issue arising in the course of such an appeal) for further consideration as the person or persons hearing the appeal may direct; or
- (b) remit an appeal arising under Part III for re-hearing by a differently constituted Tribunal to be appointed under that Part; or
- (c) remit an appeal from a decision of the appropriate officer under Part IV for further consideration as the person or persons hearing the appeal may direct; or
- (d) substitute any lesser alternative penalty that would have been open to the appropriate officer following the finding by the Tribunal which heard and pronounced upon the original charge or charges.

Notification of decisions

30. The person appointed shall send the reasoned decision, including any decision reached in exercise of his powers under paragraph 29(3)(a), (b) or (c), on any appeal together with any findings of fact different from those come to by the Council as the appropriate body under Part II or by the Tribunal under Part III, as the case may be, to the Vice-Chancellor and to the parties to the appeal.

PART VI: GRIEVANCE PROCEDURES

Purpose of Part VI

31. The aim of this Part is to settle or redress individual grievances promptly, fairly and so far as may be, within the faculty, school, department or other relevant area by methods acceptable to all parties.

Application

32. The grievances to which this Part applies are ones by members of the academic staff concerning their appointments or employment where those grievances relate:—

- (a) to matters affecting themselves as individuals; or
- (b) to matters affecting their personal dealings or relationships with other staff of the University, not being matters for which express provision is made elsewhere in this Section.

Exclusions and Informal Procedures

33. (1) If other remedies within the faculty, school, department or other relevant area have been exhausted the member of the academic staff may raise the matter with the Pro-Vice-Chancellor of the relevant Faculty or with the Registrar and Secretary.
- (2) If the member of the academic staff is dissatisfied with the result of an approach under sub-paragraph (1) or if the grievance directly concerns the Pro-Vice-Chancellor of the Faculty or the Registrar and Secretary, the member may apply in writing to the Vice-Chancellor for redress of the grievance.
- (3) If it appears to the Vice-Chancellor that the matter has been finally determined under Part III, IV or V or that the grievance is trivial or invalid, he may dismiss it summarily, or take no action upon it. If it so appears to the Vice-Chancellor he shall inform the member and the Council accordingly.
- (4) If the Vice-Chancellor is satisfied that the subject matter of the grievance could properly be considered with (or form the whole or any part of):—
- (a) a complaint under Part III;
 - (b) a determination under Part IV; or
 - (c) an appeal under Part V
- he shall defer action upon it under this Part until the relevant complaint, determination or appeal has been heard or the time for instituting it has passed and he shall notify the member and the Council accordingly.
- (5) If the Vice-Chancellor does not reject the complaint under sub-paragraph (3) or if he does not defer action upon it under sub-paragraph (4) he shall decide whether it would be appropriate, having regard to the interests of justice and fairness, for him to seek to dispose of it informally. If he so decides he shall notify the member and proceed accordingly.

Grievance Committee Procedure

34. If the grievance has not been disposed of informally under paragraph 33(5), the Vice-Chancellor shall refer the matter to a Grievance Committee for consideration.
35. A Grievance Committee shall be appointed by the Chairman of the Council shall comprise:—
- (a) a Chairman selected from a panel of persons appointed for this purpose;
 - (b) one member of the Council selected from a panel of members, not being persons employed by the University, appointed for this purpose by the Council; and
 - (c) one member of the academic staff selected from a panel of persons nominated for this purpose by the Senate.

Procedure in connection with determinations and right to representation

36. The procedure in connection with the consideration and determination of grievances shall be determined in Ordinances in such a way as to ensure that the aggrieved person and any person against whom the grievance lies shall have the right to be heard at a hearing and to be accompanied by a friend or representative.

Notification of decisions

37. A Grievance Committee shall inform the Council whether the grievance is or is not well-founded and if it is well-founded the Committee shall make such proposals for the redress of the grievance as it sees fit.

Annexe to Paragraph 3(1)(c):

PROVISIONS AS TO THE VICE-CHANCELLOR

1. The Council may request its Chairman to remove the Vice-Chancellor from office for good cause in accordance with the procedure described in this Annex.
- (1) A complaint seeking the removal from office of the Vice-Chancellor for good cause may be made by not less than three members of the Council to the Chairman of the Council.
 - (2) If it appears to the Chairman of the Council, on the material before him, that the complaint raises a prima facie case and that this could, if proved, constitute good cause for dismissal or removal from office he shall request the Council to appoint a Tribunal to hear and determine the matter.
 - (3) If it appears to the Chairman of the Council that complaint made to him under sub-paragraph (1) does not raise a prima facie case or is trivial or invalid, he may recommend to the Council that no further action be taken upon it.
 - (4) When the Council has appointed a Tribunal under sub-paragraph (2) it shall instruct a solicitor or other suitable person to formulate a charge or charges and to present, or arrange for the presentation of, the charges before the Tribunal.

- (5) A Tribunal appointed by the Council shall comprise:—
 - (a) an independent Chairman; and
 - (b) one member of the Council, not being a person employed by the University; and
 - (c) one member of the academic staff.
 - (6) Subject to the principles of justice and fairness the Tribunal may determine its own procedure.
 - (7) The Tribunal shall send its reasoned decision on any charge referred to it together with its findings of fact regarding the charge and its recommendations, if any, as to the appropriate penalty to the Chairman of the Council and to the Vice-Chancellor drawing attention to the period of time within which any appeal should be made.
 - (8) Persons appointed to hear such an appeal shall be persons independent of the University holding, or having held, judicial office or being barristers or solicitors of at least 10 years' standing and the person so appointed shall, subject to the principles of justice and fairness, determine the procedure to be adopted in hearing the appeal.
 - (9) A person appointed shall send the reasoned decision on the appeal, together with any findings of fact different from those come to by the Tribunal and his recommendations, if any, as to the appropriate penalty, to the Vice-Chancellor and to the Chairman of the Council.
 - (10) Where a charge or charges have been upheld by the Tribunal and not dismissed on appeal, the Chairman of the Council shall decide whether or not to dismiss the Vice-Chancellor.
2. Where a complaint is to be referred to a Tribunal under this Section, the Chairman of the Council may suspend the Vice-Chancellor from his duties and may exclude the Vice-Chancellor from the precincts of the University or any part thereof without loss of salary.
 3. "Good cause" in this Annex has the same meaning as in paragraph 5 of this Section.
 4. For the purpose of the removal of the Vice-Chancellor for incapacity on medical grounds, Part IV of this Section shall have effect subject to the following modifications:—
 - (a) for references to a member of the academic staff there shall be substituted references to the Vice-Chancellor;
 - (b) for any reference to the office of Vice-Chancellor there shall be substituted a reference to the office of Chairman of the Council;
 - (c) for paragraph 23 there shall be substituted:—

"23. If the Board determines that the Vice-Chancellor should be required to retire on medical grounds, it shall ask the Chairman of the Council as the appropriate officer, to decide whether or not to terminate the appointment of the Vice-Chancellor on those medical grounds."

Transitional Provisions

1. The changes to Section 3 of the Statutes approved by the Council in the year 2005 shall come into effect on 1 August 2005 save that in paragraph 1 as amended the number of members in Class (4) shall for the period 1 August 2005 to 31 July 2008 not exceed ten.
2. Notwithstanding paragraph 2 of Section 3 of the Statutes,

a person who is on 31 July 2000 a Member of the Council of Class (3) or (9) shall be eligible for election as a Member of the Council in Class (4) of Section 15 for one further period of office of three University years, or in the case of a person whose continuous service as a Member of the Council of Class (3) or (9) does not exceed four years on that date two such further periods of office; and on the expiry of any service as a Member under this provision shall (without prejudice to paragraph 6 of Section 15) be ineligible for further service unless the Council by an express resolution waives this prohibition in respect of a named person.
3. Notwithstanding paragraph 4 of Section 3 of the Statutes,

a person who is on 31 July 2000 a Member of the Council of Class (5) as an appointed representative of the Senate shall be eligible for election as a Member of the Council in Class (6) of Section 15 of the Statutes for one further period of office of three University years, or in the case of a person whose continuous service as a Member of the Council of Class (5) as an appointed representative of the Senate does not exceed three years on that date two such further periods of office.

 - (c) conduct constituting failure or persistent refusal or neglect or inability to perform the duties or comply with the conditions of office whether such failure results from physical or mental incapacity or otherwise.

XXIX PROCEDURE IN RESPECT OF THE PROCEDURE OF THE GRIEVANCE COMMITTEE UNDER PART VI OF SECTION 6 OF THE STATUTES

1. This Ordinance shall govern the procedure to be followed in respect of matters referred to a Grievance Committee by the Vice-Chancellor under paragraph 34 of Section 6 of the Statutes.
2. In this Ordinance, "the aggrieved person" means the person who has applied in writing to the Vice-Chancellor under paragraph 33(2) of Section 6 of the Statutes for the redress of a grievance falling within Part VI of that Section, "the Grievance Committee" means the Grievance Committee appointed to hear the grievance under paragraph 35 of that Section, and "the Chairman" means the Chairman of that Committee. Where the grievance lies against the Vice-Chancellor or the Vice-Chancellor considers it for any reason inappropriate that he should act, the powers of the Vice-Chancellor under paragraphs 33 and 34 of that Section and this Ordinance shall be exercisable by a Pro-Vice-Chancellor or former Pro-Vice-Chancellor designated by the Chairman of the Council.

3. The aggrieved person and every person who is identified by that person as, or who is determined by the Chairman to be, a person against whom the grievance lies (“a respondent”) shall be entitled to be represented by another person, whether such person be legally qualified or not, in connection with and at any hearing of the grievance and a reference in this Ordinance to the aggrieved person or a respondent includes such a representative.
4. Where a grievance has been referred to the Committee, the Vice-Chancellor shall appoint an officer (“the officer”) to make, on the instructions of the Committee, any necessary administrative arrangements for the proper conduct of the proceedings and to keep an appropriate record.
5. The officer shall provide copies of the document by which the person aggrieved applied for the redress of the grievance to the respondents.
6. If, in respect of the hearing of any particular grievance, the Chairman or any member of the Committee is unable to take part or it is inappropriate that he or she should take part by reason of a conflict of interest or for any other sufficient reason, a substitute shall be appointed by the Chairman of the Council from amongst the other members of the panels appointed under paragraph 35 of Section 6 of the Statutes. If during the hearing of a particular grievance, it becomes impossible or inappropriate for the Chairman or any member of the Committee to continue to take part, the hearing shall be suspended and the matter referred to the Chairman of the Council. The Chairman of the Council shall give appropriate directions and may direct that the grievance be reheard by a Committee with a different composition.
7. The Chairman shall give such directions as are expedient for the conduct of the grievance proceedings and desirable in the interests of justice and to protect the rights of the parties, and without prejudice to the generality of the foregoing such directions may include directions
 - (a) adding an additional person as a respondent;
 - (b) inviting the aggrieved person to amplify the document by which application was made for the redress of the grievance;
 - (c) requiring the respondents to respond in writing to the aggrieved person’s written statement or statements of grievance, copies of such responses to be provided to the aggrieved person;
 - (d) requiring the parties to give notice of the names of any witnesses they wish to call;
 - (e) requiring the parties to list, or to produce, or to provide to the other parties copies of, any documents on which they propose to rely;
 - (f) setting appropriate time-limits for the preparatory steps in the proceedings.
8. The officer shall give the parties not less than twenty-one nor more than twenty-eight days notice of the date and time of the hearing.
9. The Committee (or between meetings of the Committee, the Chairman) may from time to time postpone or adjourn the hearing if it appears necessary or expedient to do so for the proper determination of the grievance.
10. If the aggrieved person or any respondent does not attend and is not represented at the hearing, the Committee may, if it is satisfied that it would be just and proper so to do, determine that the hearing may be proceeded with in that party’s absence.
11. If at any stage, it appears to the Committee (or between meetings of the Committee, the Chairman) that it is desirable in the interests of justice to allow an amendment to the statement of grievance or the correction of any accidental error in any document relevant to or procedural step in the proceedings, the Committee or the Chairman may order that amendment or correction to be made and may give such consequential directions as will ensure that no unfairness is caused thereby to any party.
12. The Committee shall hold an oral hearing at which the aggrieved person shall address the Committee on the substance of the grievance and the proposals which the Committee is requested to make for the redress of the grievance, and may present documents and call witnesses. Any witnesses may be questioned by the respondents and the Committee. After the aggrieved person has been heard, the respondents may address the Committee and present documents and call witnesses. Any witnesses may be questioned by the aggrieved person and the Committee, and by any respondent. If any respondent has been heard, the aggrieved person may make a closing address.
13. The hearing shall be in private, and at its conclusion the Committee shall deliberate in private.
14. The decisions reached by the Committee, with a statement of its reasons, shall be communicated to the Council in accordance with paragraph 37 of Section 6 of the Statutes and to the parties.

XXX PROCEDURE IN RESPECT OF TRIBUNALS UNDER SECTION 6 OF THE STATUTES

1. This Ordinance shall govern the procedure to be followed in respect of the preparation, consolidation, hearing and determination of charges by a Tribunal under paragraphs 14 to 18 of Section 6 of the Statutes.
2. The Registrar and Secretary or another person appointed by the Vice-Chancellor shall, in accordance with paragraph 15 of Section 6 of the Statutes, carry out the duties there prescribed in connection with the formulation and presentation of the charge or charges before the Tribunal and keep an appropriate record.

3. Within 14 days of the Vice-Chancellor directing that a charge or charges be preferred the officer in charge of the proceedings (“the officer”) shall send to the member a written statement of the charge or charges.
4. No charge shall be determined without an oral hearing at which the member is entitled to be present.
5. The hearing shall be in private.
6. The member of the academic staff concerned (“the member”) may be represented by another person, whether such person be legally qualified or not, in connection with and at any hearing, and a reference in this Ordinance to the member includes such a representative.
7. The officer shall give the member not less than 21 days notice of the date and time of the hearing.
8. If it appears necessary or expedient so to do for the due hearing of the case, the Tribunal may from time to time postpone or adjourn the hearing but not, without the consent of the member, for a period of more than 28 days.
9. If the member has indicated in writing that he or she does not wish to attend or to be represented at the hearing, the hearing may be proceeded with and concluded in the member’s absence. In any other case in which the member does not attend and is not represented at the opening of the hearing, the hearing shall be adjourned for not less than 24 hours and not more than seven days. If at the resumed hearing the member is again absent and unrepresented without good reason, the hearing may be proceeded with and concluded in the member’s absence.
10. If the officer does not attend the hearing or is unable or unwilling to proceed, the charge or charges may be dismissed for want of prosecution, or the hearing may be postponed or adjourned.
11. If, at any time during the hearing, it appears to the Tribunal that it is desirable in the interests of justice to make any addition to, or omission from, or alteration in a charge, they may, if such addition, omission, or alteration can be made without unfairness to the member, so amend the charge.
12. If at any time during the hearing, it appears to the Tribunal that it is desirable in the interests of justice so to do, the tribunal may remit the charge or charges to the Vice-Chancellor for further consideration. The Vice-Chancellor may direct the Tribunal to proceed with the hearing, with or without any such amendment as is permissible under the preceding paragraph, or may direct the withdrawal of the charge or charges or any of them, or may direct that the hearing be renewed before a different Tribunal.
13. At the hearing, each charge shall be put to the member who shall be invited to admit or deny it. If the member does not admit a charge, the hearing shall proceed as though the member denied the charge.
14. If a charge is not admitted –
 - (a) the officer shall outline the facts alleged and the nature and general effect of the evidence proposed to be adduced, and shall then call and examine witnesses who may be questioned by the member and by the Tribunal and may, subject to paragraph 16, submit documents in evidence;
 - (b) the member may make an introductory statement and may then call and examine witnesses who may be questioned by the officer and by the Tribunal and may, subject to paragraph 16, submit documents in evidence;
 - (c) the officer may be allowed by the Tribunal to call or recall a witness to give evidence on any matter raised by the member in the course of the hearing which the officer could not properly have mentioned to the Tribunal before the member raised the matter or which the officer could not reasonably have foreseen;
 - (d) the officer and the member may each make a closing address to the Tribunal as to whether the charge or charges should or should not be upheld;
 - (e) the Tribunal shall deliberate in private and shall then resume the hearing to announce its determination.
15. If the charge or charges are admitted, or if charges which are not admitted are upheld, the officer and the member may each address the Tribunal
 - (a) as to whether the Tribunal should or should not determine that the conduct or performance of the member as disclosed in the charges admitted or upheld constitutes good cause for dismissal or otherwise constitutes a serious complaint relating to the member’s appointment or employment; and
 - (b) as to the recommendation the Tribunal should make as to the appropriate penalty or consequence of the member’s conduct or performance as so disclosed, on which issue the officer and the member may each call and examine witnesses who may be questioned by the other party and the Tribunal.
16.
 - (a) Subject to the provisions of this paragraph, at any stage in the hearing a document made by any person who is not called as a witness may be tendered to and received in evidence by the Tribunal.
 - (b) Where the officer or the member proposes to tender a document, a copy of it shall be supplied to the other party not less than seven days before the hearing, and the other party may object and require the author of the document to be called as a witness.
 - (c) Notwithstanding sub-paragraph (b) above, the Tribunal may, with the consent of the other party, allow a document, a copy of which has not been supplied in accordance with that sub-paragraph, to be tendered in evidence.

- (d) The Tribunal may, notwithstanding that a document has been received, request that the author of the document be called as a witness, and in such case unless the author of the document gives oral evidence the Tribunal shall be entitled to disregard the document.

17. The Tribunal's decisions on the charges and the matters referred to in the preceding paragraph shall be sent to the Vice-Chancellor, the officer and the member in accordance with paragraph 18 of Section 6 of the Statutes.

XXXI PROCEDURE IN RESPECT OF APPEALS UNDER PART V OF SECTION 6 OF THE STATUTES

1. This Ordinance shall govern the procedure to be followed in respect of the preparation, consolidation, hearing and determination of appeals under Part V of Section 6 of the Statutes.
2. The appellant, the Registrar and Secretary as respondent, and each other party is entitled to be represented by another person, whether such person be legally qualified or not, in connection with and at any hearing of the appeal, and a reference in this Ordinance to the appellant or a party includes such a representative.
3. In this Ordinance, "the person appointed" means the person appointed to hear the appeal and "the tribunal" means that person together with the other persons, if any, sitting with the person appointed in accordance with paragraph 28 of Section 6 of the Statutes. Where other persons are to sit, they shall be selected from amongst those eligible by the person appointed after consultation with the Chairman of the Council.
4. Where an appeal has been instituted, the Vice-Chancellor shall appoint an officer ("the officer") to make, on the instructions of the person appointed, any necessary administrative arrangements for the proper conduct of the appeal proceedings and to keep an appropriate record.
5. The officer shall provide copies of the appellant's notice setting out the grounds of appeal to the other parties.
6. The person appointed shall give such directions as are expedient for the conduct of the appeal proceedings, and without prejudice to the generality of the foregoing such directions may include directions
 - (a) adding an additional person as a party to the proceedings;
 - (b) requiring the other parties to respond in writing to the appellant's grounds of appeal, copies of such responses to be provided to the appellant;
 - (c) requiring the parties to give notice of the names of any witnesses they wish to call;
 - (d) requiring the parties to list, or to produce, or to provide to the other parties copies of, any documents on which they propose to rely;
 - (e) consolidating the appeal proceedings with other appeal proceedings instituted under Part V of Section 6 of the Statutes in which the grounds of appeal raise the same or similar issues; and
 - (f) setting appropriate time-limits in accordance with paragraph 29 of that Section.
7. No appeal shall be determined without an oral hearing at which the appellant is entitled to be present and to address the tribunal, and, with the consent of the person appointed, to call witnesses.
8. The officer shall give the parties not less than twenty-one nor more than twenty-eight days notice of the date and time of the hearing.
9. If it appears necessary or expedient so to do in the interests of justice and for the proper determination of the appeal, the person appointed may from time to time postpone or adjourn the hearing.
10. If the appellant does not attend and is not represented at the hearing or is unwilling to proceed, the tribunal may, if it is satisfied that it would be just and proper so to do, dismiss the appeal for want of prosecution.
11. If another party does not attend and is not represented at the hearing, the hearing may be proceeded with and the appeal determined in that party's absence.
12. If at any stage, it appears to the person appointed that it is desirable in the interests of justice to allow an amendment to the grounds of appeal or the correction of any accidental error in any document relevant to or procedural step in the appeal proceedings, the person appointed may order that amendment or correction to be made and may give such consequential directions as will ensure that no unfairness is caused thereby to any party.
13. Any issue as to whether the appeal may properly be brought, having regard to the provisions of paragraph 25 of Section 6 of the Statutes shall be determined by the tribunal at the opening of the hearing.
14. At the hearing, the appellant shall address the tribunal on the grounds of the appeal and may present documents and call witnesses. Any witnesses may be questioned by the other parties and the tribunal. After the appellant has been heard, the other parties may address the tribunal and present documents and call witnesses. Any witnesses may be questioned by the appellant, the tribunal, and by any other party. If any party other than the appellant has been heard, the appellant may make a closing address. Where two or more appeals have been consolidated, the person appointed may give such directions as are expedient as to the order in which the parties are to be heard.
15. The hearing shall be in private, and, where the person appointed is not sitting alone, the tribunal shall deliberate in private.

16. The decisions reached by the tribunal shall be communicated in accordance with paragraph 30 of Section 6 of the Statutes.

XXXII WITHDRAWAL OF DEGREES AND DISTINCTIONS

1. The Senate may on good cause shown withdraw any Degree (other than an Honorary or Ex Officio Degree) Diploma Certificate Associateship or Distinction which has been awarded to or conferred upon any person.
2. The Council may on good cause shown and after report from the Senate withdraw an Honorary or Ex Officio Degree conferred upon any person.

XXXIII CONTRACTS

Contracts made by or on behalf of the University shall be validly made and binding on the University if made as follows:

- (a) Any contract which if made between private persons would be by law required to be in writing and if made according to English law to be under Seal may be made on behalf of the University in writing under its Common Seal and such contract may be in the same manner varied or discharged.
- (b) Any contract which if made between private persons would be by law required to be in writing and signed by the parties to be charged therewith may be made on behalf of the University in writing signed by any person acting under the express or implied authority of the Council and such contract may in the same manner be varied or discharged.
- (c) Any contract which if made between private persons would by law be valid although made verbally only and not reduced into writing may be made either in writing or verbally on behalf of the University by any person acting under the express or implied authority of the Council and such contract may be in the same way varied or discharged.

XXXIV NOMINATION OF MEMBERS OF THE COUNCIL

Before exercising its power under Section 3 of the Statutes to elect Members of the Council of Class (4), the Council shall receive a report from a Nominations Committee, comprising:

- (a) the Chairman of the Council;
- (b) one other Pro-Chancellor nominated for this purpose by the Chairman of the Council;
- (c) the Vice-Chancellor;
- (d) a Pro-Vice-Chancellor nominated for this purpose by the Vice-Chancellor;

2. AIMS AND OBJECTIVES
 - 2.1 The Students' Union shall advance the education of students at the University of Sheffield for the public benefit by:
 - 2.1.1 representing the students of the University locally and nationally, organising services and activities to meet their needs, and providing opportunities for their involvement and personal development.
 - 2.1.2 taking positive measures to encourage and build a student community which respects and celebrates the diversity of its membership, and seeking to create an environment in which individuals and groups of students are free from discrimination, harassment and intimidation on Students' Union premises or in events and activities organised by the Students' Union. In meeting the needs of all students, the Students' Union may provide services and activities for the exclusive use of specific groups.

3. MEMBERSHIP

3.1 Full Membership

- 3.1.1 All persons who are registered students of the University, as full-time or part-time candidates for degrees, diplomas or certificates shall, subject to this Constitution, and except for students of the International Faculty, be Full Members of the Students' Union, provided that a candidate for a Higher Degree by research who is required to pay the University a writing up fee shall cease to be a Full Member on the expiry of twelve months from the date on which that fee first became payable.
- 3.1.2 All persons who are full-time registered students of the University for at least fifteen weeks at the English Language Teaching Centre or on Erasmus, visiting or study abroad programmes, shall, subject to the Constitution, be Full Members of the Students' Union.
- 3.1.3 All persons who are provisionally registered students of the University, as defined above, shall be deemed to be Provisional Members and shall be entitled to all the rights of Full Members for the period of their provisional registration.
- 3.1.4 Any student who wishes not to be a member, or who decides to withdraw from membership, of the Students' Union shall inform the President of the Students' Union and the Registrar and Secretary of the University in writing. Any such student shall not be entitled to take up, or renew, membership until the end of the academic session.
- 3.1.5 Students who are eligible for Full Membership, but who choose not to be members of the Students' Union shall be entitled to access to the services and activities provided by the Students' Union on the same basis as Full Members, except that they may be charged a differential rate for such services and activities as are agreed between the Students' Union and the University, and that they may not participate in the government of the Students' Union as defined in Clause 4 of this Constitution or hold office in any Students' Union working committee, club or society.
- 3.1.6 Full Members shall be entitled to participate in the government of the Students' Union, subject to any provision made in the Bye-Laws limiting eligibility to stand or vote in elections to specific categories of students.
- 3.1.7 Full Members who are employed by the Students' Union and who are registered as part-time students of the University, shall not be eligible to hold office as Students' Union Officers or members of Students' Union Council.
- 3.1.8 Full Members who are employed by the Students' Union and who are registered as full-time students of the University, may be required not to hold office on any Committee relating to their area of employment.
- 3.1.9 Full Members shall be entitled to participate in the activities, and use the facilities, of the Students' Union in accordance with the arrangements specified in the Bye-Laws.
- 3.1.10 Any rights of Full Members may be withdrawn, or suspended, in accordance with the disciplinary regulations specified in the Bye-Laws

3.2 Other Membership

- 3.2.1 The Bye-Laws may make provision for Associate, Extended, Honorary and Reciprocal Members.
- 3.2.2 Such members shall be entitled to participate in such activities, and use such facilities, of the Students' Union as are determined by the Students' Union Council or other Committees of the Students' Union.
- 3.2.3 Such members may not participate in the government of the Students' Union.
- 3.2.4 Such membership, or any rights of such membership, may be withdrawn, or suspended, in accordance with the disciplinary regulations specified in the Bye-Laws.

4. GOVERNMENT OF THE STUDENTS' UNION

4.1 Referenda

- 4.1.1 Referenda may determine the policy of the Students' Union, changes to the Students' Union's Constitution and Bye-Laws, the removal of Officers or other elected officials and the removal of specific duties from an Officer or other elected official and may resolve disputes between the Officers and Students' Union Council, subject to the Bye-Laws. Bye-laws shall specify the circumstances in which Referenda shall be organised. They shall be conducted by a secret ballot of all Full Members in accordance with the Bye-Laws.
- 4.1.2 Referenda shall have a quorum of 2,500 Full Members.

4.2 Committees and Students' Union Council

- 4.2.1 Representative Committees shall represent, and organise services and activities for categories of Full Members as specified in the Bye-Laws.
- 4.2.2 Students' Union Council shall have authority over Representative and Working Committees, as specified in the Bye-Laws. Representative Committees shall be bound by any decision made by a two-thirds majority at Students' Union Council.
- 4.2.3 Students' Union Council shall have authority over clubs, societies, and other bodies established under the provisions of Constitution and Bye-Laws, although such responsibility may be delegated to appropriate Working and Representative Committees.
- 4.2.4 Students' Union Council may establish sub-committees and Select Committees, in accordance with the Bye-Laws.

4.3 *Officers of the Students' Union*

- 4.3.1 The posts and duties of the Officers shall be specified in the Bye-Laws.
- 4.3.2 The posts shall be full-time for the period of office, and the postholders shall receive a salary determined by Students' Union Council, which shall be reviewed each year during the first semester. Unless s/he has completed her/his academic course before taking up office, the postholder must seek leave of absence from the University for the period of office.
- 4.3.3 All Full Members shall be eligible to vote in the elections for the posts.
- 4.3.4 Candidates for the posts shall be Full Members at the time of the election, and shall be deemed to be Full Members during their periods of office.
- 4.3.5 No Full Member shall be eligible to serve as a Students' Union Officer for more than one term of office or part thereof.

4.4 *Policy*

- 4.4.1 Policy may be established by referenda, in accordance with the procedure outlined in Bye Law 2, or by Students' Union Council, in accordance with the procedure outlined in Bye Law 3. If there is a conflict between policy approved by referendum and that approved by Council, the decision of the referendum shall take priority.
- 4.4.2 Policy shall be binding on all Committees, Officers, Officials or employees acting on behalf of the Students' Union.
- 4.4.3 Policy shall remain valid until the first meeting of Students' Union Council convened in the third academic year following its adoption. It shall then lapse, unless re-affirmed in accordance with the procedure specified in the Bye-Laws.
- 4.4.4 A document detailing all valid policy shall be maintained by the President and shall be available to all Full Members.

4.5 *Trustees of the Students' Union*

- 4.5.1 The Trustee Board of the Students' Union shall consist of the eight Students' Union Officers, the Officer Trustees, as specified in Bye-Law 4, and four External Trustees and four Student Trustees, as defined and specified in Bye-Law 5.
- 4.5.2 The responsibilities of the Trustee Board, the method of selecting and the terms of appointment of the External Trustees and Student Trustees shall be specified in Bye-Law 5.

4.6 *Election*

- 4.6.1 Elections shall be conducted in accordance with regulations specified in the Bye-Laws and approved by the University Council.
- 4.6.2 The Students' Union Council shall appoint a Returning Officer, or Officers, who shall be responsible for all matters relating to the conduct of elections. Returning Officers shall not be candidates in any election for which they are responsible. Any decision of Returning Officers shall be subject to appeal to the Elections Appeals Committee. Any decision of the Election Appeals Committee shall be subject to appeal to Students' Union Council. Any decision of Students' Union Council shall be subject to appeal to the University Registrar and Secretary, whose decision shall be final.

5. *FINANCES AND AUTONOMY*

- 5.1 Subject to the provisions of this Constitution, the Students' Union shall be entitled to act independently of the University; and the University, its officers and employees, shall have no authority to intervene in the conduct of the affairs of the Students' Union or management of its services and activities.

- 5.2 Subject to the provisions of this Clause, the Students' Union shall be entitled to determine the use of its own funds.
- 5.3 Subject to the provisions of this Clause and the terms of any lease, licence or other agreement between the Students' Union and the University, the Students' Union shall have full authority to manage and control the use of all premises of the Students' Union.
- 5.4 An annual budget for all activities of the Students' Union and its companies shall be prepared by the Students' Union Officers, and submitted to the Students' Union Council for consideration. Students' Union Council may then make amendments and shall submit a budget to the Trustee Board for approval. The budget shall then be submitted not later than one month before the commencement of the relevant financial year to the University Council for ratification, in accordance with the Education Act 1994. Any amendment to the budget subsequently made in accordance with the Bye-Laws shall be submitted as soon as practicable to the Trustee Board for approval and to University Council for ratification.
- 5.5 Annual audited accounts of the Students' Union and its companies, including details of all affiliations to external bodies, shall be presented to the Trustee Board for approval, and subsequently shall be presented to the Students' Union Council and University Council.
- 5.6 The Students' Union shall take any action required by the University to comply with the Education Act 1994 or any subsequent amendment of that Act.
6. INDEMNITY INSURANCE
- 6.1 To further its objects, but not to further any other purpose, the Students' Union may pay out of the funds of the Students' Union the cost of any premium in respect of any indemnity insurance to cover the liability of the Trustees (or any of them) which by virtue of any rule of law would otherwise attach to them in respect of any negligence, default, breach of trust or breach of duty of which they may be guilty in relation to the Students' Union provided that no such insurance shall extend to:
- 6.1.1 any claim arising from any liability incurred by the Trustees to pay a fine imposed in criminal proceedings or a sum payable to a regulatory authority by way of a penalty in respect of non-compliance with any requirement of a regulatory nature (however arising);
- 6.1.2 any liability incurred by the Trustees in defending any criminal proceedings in which the Trustees are convicted of an offence arising out of any fraud or dishonesty, or wilful or reckless misconduct; or
- 6.1.3 any liability incurred by the Trustees to the Students' Union that arises out of any conduct which the Trustees knew (or must reasonably be assumed to have known) was not in the interests of the Students' Union or in the case of which they did not care whether it was in the best interests of the Students' Union or not.
- 6.2 The Trustees shall have power to resolve pursuant to Clause 6.1 to effect trustees' indemnity insurance, despite their interest in such policy.
7. LIMITATION ON PRIVATE BENEFITS
- 7.1 The income and property of the Students' Union shall be applied solely towards the promotion of its objects.
- 7.2 Except as provided below no part of the income and property of the Students' Union may be paid or transferred directly or indirectly by way of dividend, bonus or otherwise by way of profit to any Member of the Students' Union. This shall not prevent any payment in good faith by the Students' Union of:
- 7.2.1 any payments made to any Member in their capacity as a beneficiary of the Students' Union;
- 7.2.2 reasonable and proper remuneration to any Member for any goods or services supplied to the Students' Union provided that if such Member is a Trustee Clause 7.3 shall apply;
- 7.2.3 interest on money lent by any Member to the Students' Union at a reasonable and proper rate; and
- 7.2.4 any reasonable and proper rent for premises let by any Member to the Students' Union
- 7.3 Except as provided below no Trustee may sell goods, services or any interest in land to the Students' Union; be employed by, or receive any remuneration from, the Students' Union; or receive any other financial benefit from the Students' Union. This shall not prevent any payment in good faith by the Students' Union of:
- 7.3.1 any payments made to any Trustee or Connected Person in their capacity as a beneficiary of the Students' Union;
- 7.3.2 reasonable and proper out of pocket expenses of the Trustees;
- 7.3.3 reasonable and proper remuneration to any Officer Trustee or Connected Person for any goods or services supplied to the Students' Union on the instructions of the Trustees provided that
- 7.3.3.1 for the avoidance of doubt, the authorisation under this provision shall extend to the remuneration of the eight Officer Trustees and Connected Persons under contracts of employment with the Students' Union;

- 7.3.3.2 subject to Clause 7.3.3(a), the authorisation under this provision shall not extend to the service of acting as Trustee;
- 7.3.3.3 if the person being remunerated is a Trustee the procedure described in Clause 8.1 (Conflicts of Interest) must be followed in considering the appointment of the Trustee and in relation to any other decisions regarding the remuneration authorised by this provision;
- 7.3.3.4 if the person being remunerated is a Connected Person the procedure described in Clause 8.2 (Conflicts of Interest) must be followed by the relevant Trustee in relation to any decisions regarding such Connected Person; and
- 7.3.3.5 at all times the provisions of the Education Act are complied with;
- 7.3.4 interest on money lent by any Trustee or Connected Person to the Students' Union at a reasonable and proper rate;
- 7.3.5 any reasonable and proper rent for premises let by any Trustee or Connected Person to the Students' Union;
- 7.3.6 reasonable and proper premiums in respect of indemnity insurance effected in accordance with Clause 6;
- 7.3.7 any payments made to any Trustee or officer under the indemnity provisions set out at Clause 9; and
- 7.3.8 any payments authorised in writing by the Charity Commission.
- 7.4 In Clauses 7.2 and 7.3, references to the Students' Union shall be read as references to the Students' Union and/or any Subsidiary Company.
- 7.5 For any transaction authorised by Clause 7.3 or Clause 7.4, the Trustee's duty (arising under the Companies Act 2006) to avoid a conflict of interest with the Students' Union shall be disappplied provided the relevant provisions of Clause 7.3 or Clause 7.4 have been complied with.

8. CONFLICTS OF INTEREST

- 8.1 Whenever a matter is to be discussed at a Trustee Board meeting and a Trustee has a Personal Interest in respect of that matter then he or she must:
 - 8.1.1 declare his or her interest to the Trustees;
 - 8.1.2 remain only for such part of the meeting as in the view of the other Trustees is necessary to inform the debate;
 - 8.1.3 not be counted in the calculation of the quorum for that part of the meeting; and
 - 8.1.4 withdraw during the vote and have no vote on the matter.
- 8.2 If any question arises as to whether a Trustee has a Personal Interest, the question shall be decided by a majority decision of the other Trustees.
- 8.3 In particular, Clause 8.1 shall apply to any matter that may directly or indirectly relate to the position of an Officer Trustee who is or is to be remunerated as an employee by the Students' Union

9. LIABILITY AND INDEMNITY

- 9.1 No Officer, Official or employee of the Students' Union shall be liable for any loss, damage or misfortune which may be incurred by the Students' Union as a result of the proper execution of her/his duties, except where otherwise stated in the Bye-Laws.
- 9.2 This indemnity does not cover liability for the consequences of any act which is malicious, or contrary to the Constitution, Bye-Laws or policy of the Students' Union.
- 9.3 Without prejudice to any indemnity to which a Trustee may otherwise be entitled, every Trustee shall and every other officer or auditor of the Students' Union may be indemnified out of the assets of the Students' Union against any liability incurred by him or her in defending any proceedings, whether civil or criminal, in which judgment is given in his or her favour or in which he or she is acquitted or in connection with any application in which relief is granted to him or her by the court from liability for negligence, default, breach of duty or breach of trust in relation to the affairs of the Students' Union, and against all costs, charges, losses, expenses or liabilities incurred by him or her in the execution and discharge of his or her duties or in relation thereto.

10. DISCIPLINE

- 10.1 The Students' Union shall be responsible for maintaining discipline in the Students' Union premises and in relation to the services and activities organised by the Students' Union.
- 10.2 Disciplinary regulations shall be specified in the Bye-Laws and approved by the University Senate.

11. CONSTITUTION AND BYE-LAWS

11.1 Amendments

- 11.1.1 Amendments to the Constitution, Bye-Law 1 Membership, Bye-Law 2 Referenda, Bye-Law 3 Students' Union Council, Bye-Law 4 Students' Union Officers, Bye-Law 5: Trustees of the Students' Union, Bye-Law 17 Election Regulations, Bye-Law 18 Policy and Bye-Law 19 Ethical Policy may only be made by referenda in accordance with the procedure outlined below.
- 11.1.2 Proposals for the amendment of the Constitution and Bye-Laws specified above may be submitted by petition of 1,000 Full Members, or by the Students' Union Council in accordance with the Bye-Laws.
- 11.1.3 A proposal for amendment shall require a two-thirds majority in a Referendum to be approved.
- 11.1.4 Amendments to Bye-Laws other than those specified above may be made by Students' Union Council, in accordance with procedures outlined in Bye-Law 3, or by referenda as specified above. Any decision taken by referenda shall have precedence over a decision of Students' Union Council in relation to these Bye-Laws.
- 11.1.5 Amendments shall take immediate effect unless otherwise specified in the proposal approved in the Referendum, or in the case of those amendments requiring the approval of the University, as specified below.
- 11.1.6 Amendments to the Constitution, and to Bye-Laws concerning elections, shall be effective only when approved by University Council. Amendments to Bye-Laws concerning discipline shall be effective only when approved by University Senate. Other Bye-Law changes, dependent on amendments to Constitution or Bye-Laws specified in this Clause, shall only take effect when those amendments have received the necessary approval.
- 11.1.7 The University Council may at any time review this Constitution in accordance with the Education Act 1994 and make amendments by Regulation.
- 11.1.8 Amendments to the Students' Union's Aims and Objectives shall only be effective when approved by the Charity Commission.
- 11.1.9 Subject to Clause 11.1.5 and 11.1.8 in respect of University and Charity Commission approval respectively but notwithstanding the above Clauses 11.1.1-11.1.4 inclusive, 11.1.6 and 11.1.7 and notwithstanding Bye-Law 21, the Constitutional Committee of Students' Union Council and the Trustee Board may by agreement make amendments of a minor nature to the Constitution and Bye-Laws necessary to better enable the Students' Union to further its charitable objectives. Such changes shall be published promptly and notified to Students' Union Council and shall be subject to subsequent revision or deletion by any referendum.

11.2 Interpretation

- 11.2.1 Students' Union Council shall be responsible for the interpretation of the Constitution and Bye-Laws, subject to the Charter and statutes of the University.
- 11.2.2 In any matter of interpretation in which there may appear to be a conflict between clauses of the Constitution and clauses of the Bye-Laws, the clauses of the Constitution shall take precedence.
- 11.2.3 The President of the Students' Union shall have the authority to rule on any matter of interpretation of the Constitution and Bye-Laws, pending a meeting of Students' Union Council.
- 11.2.4 Voting shall be by simple majority unless otherwise stated.

11.3 Definition

- 11.3.1 'Connected Person' shall mean any person falling within one of the following categories and where payment to that person might result in the relevant Trustee obtaining benefit: (a) any spouse, civil partner, parent, child, brother, sister, grandparent or grandchild of a Trustee; or (b) the spouse or civil partner of any person in (a); or (c) any other person in a relationship with a Trustee which may reasonably be regarded as equivalent to such a relationship; or (d) any company or LLP or firm of which a Trustee is a paid director, member, partner or employee, or shareholder holding more than 1% of the capital.
- 11.3.2 'Day' shall mean a period of 24 hours, excluding Saturday, Sunday, Bank Holidays and any day outside the academic sessions of the University.
- 11.3.3 'Employee' shall mean any person employed by the Students' Union, except the Officers.
- 11.3.4 'Full Member' shall mean Full Member of the Students' Union.
- 11.3.5 'Officer' shall mean Officer of the Students' Union.
- 11.3.6 'Personal Interest' shall mean a financial interest or an interest that does not arise in the ordinary course of being a Member or a Trustee
- 11.3.7 'Official' shall mean any person, other than a Students' Union Officer, who is a member of any Committee of the Students' Union or who represents the Students' Union to the University or any other body.
- 11.3.8 'Paid elected union office', for the purpose of the 1994 Education Act, shall mean only the positions of Students' Union Officers.

- 11.3.9 A paper 'petition' shall require the names, registration numbers and signatures of the appropriate number of full members. An electronic 'petition' shall be submitted on the Students' Union's website (or on another website specifically designated by the Students' Union) and shall require the names and registration numbers of the appropriate number of full members, which shall be submitted from the University computer accounts of the relevant students.
- 11.3.10 'Quorum' shall mean the least number of Full Members whose presence at a meeting, or participation in a Referendum, is necessary to make valid decisions. In a Referendum the quorum shall be determined by a count of votes cast for, against and in abstention, but shall not include spoilt papers.
- 11.3.11 'Simple majority' shall mean the greater number of votes cast, excluding abstentions.
- 11.3.12 'Two-thirds majority' shall mean at least two-thirds of the votes cast, excluding abstentions.
- 11.3.13 'Students' Union' shall mean the University of Sheffield Students' Union.
- 11.3.14 'University' shall mean the University of Sheffield.
- 11.3.15 'Publish' shall mean to place a notice on the Students' Union website, on a designated noticeboard in the Students' Union Building and in such other places as deemed appropriate.
- 11.3.16 For the purposes of Bye-Law 3 (Students' Union Council) and Bye-Law 6 (Representative Committees) students shall be able to self-define as black; lesbian, gay, bisexual and trans; mature; students with disabilities; and women so that for example "Women Students" shall mean self-defining women students.

A Degree of Master may be awarded to a person who has been admitted as a candidate for the Degree of PhD, DBA or EdD, has completed the programme of research and presented the thesis prescribed in the Regulations for that Degree, and has paid the prescribed fees, in the circumstances prescribed in the Regulations governing that Degree.

7. For the purposes of the preceding Ordinances, the Senate may:

- (i) recognise attendance at some other University or place of learning as equivalent to attendance at this University; and
- (ii) recognise courses of study and examinations as equivalent to courses of study and examinations prescribed for degrees or other qualifications of this University.

8. The Senate may make Regulations as to the attendance, conduct and progress of students and as to the exclusion of students from further attendance at lectures, classes and/or examinations.

9. The Senate may make, after report from the Faculty concerned, or the Board of Extra-Faculty Provision, Regulations prescribing the courses of study, examinations and other requirements for Degrees and other qualifications of the University.

10. A Degree, Diploma or Certificate may be awarded jointly by the University and one or more other institutions ('the partner institution') under the terms of

a scheme agreed between the University and the partner institution and approved by the Senate.

11. Any such scheme shall

- (a) prescribe (or establish a mechanism for prescribing)
 - (i) the nature and location of the programme of study or research to be pursued by a candidate;
 - (ii) the nature and location of the examination, ensuring that for each subject or group of subjects there shall be at least one Examiner of the University and one External Examiner who shall be independent of the University and the partner institution;
 - (iii) the procedure by which changes in the programme of study or research or in the examination are to be considered;
 - (iv) the fees to be paid and the procedure for their payment;
 - (v) the circumstances in which a candidate is required to register as a student of this University; and
 - (vi) in the case of a programme of research: the arrangements for supervision, ensuring that there shall be at least one supervisor from the University and at least one from the partner institution; the minimum period of study of the programme of research; the language of the thesis; the requirements for the Research Training Programme; and the arrangements for academic appeals; and
- (b) provide so far as this University is concerned
 - (i) that the programme of study or research and the examination shall be contained in Regulations of the Senate; and
 - (ii) that no award may be made except in pursuance of a resolution of the Senate.

12. A candidate for a joint award shall, for such periods as he or she is a registered student of this University (and whether or not also registered as a student of the partner institution), be subject to the General Regulations as to Progress of Students and the Regulations as to the Discipline of Students. The General Regulations as to Academic Appeals shall not apply to a candidate for a joint award.

13. It shall be a condition of registration as a candidate for a joint award that the candidate

- (a) agrees that the legal relationship between this University and the candidate shall be governed by the law of England; and
- (b) undertakes to use only such title or description as makes it plain that a joint award is a single award and does not comprise distinct awards made by the University and the partner institution.

14. A Degree awarded under a scheme for joint awards may, unless the scheme makes other provision, be conferred either at a congregation of members of this University held for that purpose or in accordance with the procedures of the partner institution. So far as this University is concerned, the Regulations as to Academic Costume may make provision as to the

academic costume appropriate to the Degree or other award.

Special Ordinances

1. HONORARY DEGREES

Honorary Degrees shall be conferred after approval by a Joint Committee of the Senate and the Council.

2. EX-OFFICIO DEGREES

A Degree not higher than that of Master in any Faculty may be conferred Ex Officio on a full-time or part-time member of the staff of the University, or on a former such member of staff, or on an Officer of the University, but no person shall be so admitted to a Degree who is or was of less than two years' standing as a member of staff or as an Officer; provided that in the Faculty of Medicine, Dentistry and Health such a Degree shall be conferred only where it is not a registrable qualification.

Ex Officio Degrees shall be conferred after approval by a Joint Committee of the Senate and the Council.

An Ex Officio Degree shall not qualify the holder to become a candidate for a further degree.

3. CONFERRMENT OF DEGREES

Unless otherwise determined by Ordinance, all Degrees shall be conferred at a congregation of members of the University to be held for that purpose, at such time and place as the Council may determine, but at least once a year; and Degrees, other than Honorary Degrees, may be conferred upon persons in absentia on conditions approved by the Senate.

General University Regulations

APPLICATION AND INTERPRETATION

1. Unless stated otherwise, these and the following Regulations apply to students in all Faculties, including the International Faculty:

General Regulations for First Degrees;

General Regulations for Higher Degrees, Postgraduate Diplomas and Postgraduate Certificates;

General Regulations as to Examinations;

General Regulations as to the Progress of Students;

General Regulations as to Academic Appeals;

General Regulations relating to Student Fitness to Practise;

Regulations as to the Discipline of Students;

Regulations relating to Intellectual Property Rights;

Regulations on the Use of Computing Facilities;

Regulations relating to the Library.

2. In the General Regulations and all other Regulations relating to programmes of study and degrees, unless the context otherwise requires,

“approved” in relation to a unit means one approved as one of those available to a candidate in a particular phase of that programme;

“candidate” means a candidate for the degree or other qualification or one of the degrees or qualifications governed by the Regulation in question;

“candidate without attendance” means a candidate who is a graduate of this University of not less than two years’ standing admitted as a candidate with no requirement of attendance during the programme of study or research;

“credit” means a value assigned to a programme of study or a part of a programme of study or a unit comprised therein;

“date of notification of the first result” means the date of the letter by which the Registrar and Secretary informed the candidate of the result of the first examination;

“days” means working days;

“Department” includes, where appropriate, Centre, Division, School or other academic unit;

“EPSRC Doctoral Training Centre” means a centre providing doctoral training in specific research areas which are funded by the Engineering and Physical Sciences Research Council;

“examination” means a process of assessment (whether by written examination papers, viva voce examinations, written or practical assignments (including placements), continuous assessment of coursework, or other means) which enables the Examiners to return a mark or grade; and “examined” shall be construed accordingly;

“Faculty” means the Faculty (including the Board of Extra-Faculty Provision and any International Faculty)

in which the relevant degree or other qualification is located;

“FHEQ” means the Framework for Higher Education Qualifications in England, Wales and Northern Ireland published by the Quality Assurance Agency;

“full-time student candidate” means a candidate who is a registered student of the University and who is admitted as a candidate with a requirement of full-time attendance at a programme of study or research;

“Head of Department” means the Head or Chairman of the relevant Department (and, where two or more Departments are concerned, the Heads of those Departments) or a person nominated by the Head of Department to act on his or her behalf;

“higher Degree” includes a Postgraduate Diploma and Postgraduate Certificate;

“Hospital Staff candidate” means a candidate who is a member of staff or a research worker in a hospital or centre which is a functional part of one of the Schools of the Faculty of Medicine, Dentistry and Health;

“Integrated Master’s Degree” means the First Degree of MArch, MBiolSci, MBiomedSci, MChem, MComp, MEng, MEnvSci, MLA, MMath, MPhys or MPlan;

“jointly awarded Degree” means a programme of study or research that is jointly developed, delivered and quality assured by the University of Sheffield in conjunction with one or more partner institutions and leads to a Degree awarded by the University of Sheffield in conjunction with the partner institution(s) to a student who has met, in the case of a programme of study, the University of Sheffield minimum credit threshold, or, in the case of a programme of research, the University of Sheffield’s requirements for research away from the University;

“Level” is to be interpreted in accordance with Regulation 3 below;

“part-time student candidate” means a candidate who is a registered student of the University and who is admitted as a candidate with a requirement of attendance at a programme of study or research which is wholly or mainly part-time;

“prerequisite” means a requirement which a candidate must meet before taking a unit or other part of a programme of study;

“Pro-Vice-Chancellor” means the Pro-Vice-Chancellor of the Faculty, the Chairman of the Board of Extra-Faculty Provision or the Principal of City College or a designate nominated by that person;

“recognised graduate” means holder of a degree awarded by a University, institute or body recognised for the purpose by the Senate;

“Research Fellowship or Independent Research Worker candidate” means a candidate who is *either* the holder of a Research Fellowship specified for this purpose in the regulations for the relevant Degree or Diploma *or* an Independent Research Worker;

“session” means a period of two consecutive semesters beginning with the Autumn Semester;

“special candidate” means a candidate who ceases to fall within the category applicable at the time of admission but desires to complete the programme of study or research;

“unit” means a component of a programme of study in respect of which the Examiners return a grade and which in the case of modular programmes is assigned a value in terms of credits;

“University Staff candidate” means a candidate for a programme of research who is a member of the Academic, Administrative, Clerical, Computer, senior Library, Other Related, Research or Technical Staff of the University, and any International Faculty, and who

- (a) holds an appointment which is either full-time or part-time; *and*
- (b) holds an appointment for the duration of the minimum period of registration (usually two years for the Degree of PhD, two years during the research element of the degrees of DMedSci and EdD, one year for the Degrees of MPhil and LLM, and nine months for the Degree of MMus); *and*
- (c) in the case of a person holding an appointment arising from external finance, is not prevented from becoming a candidate by the terms of the contract between the sponsoring body and the University and any International Faculty or the member of staff concerned;

“unrestricted unit” means a unit offered in any programme of study;

“weighted mean grade” means

- (a) the mean of the grades awarded to a candidate (expressed to one decimal place, 0.05 and higher values being rounded up and values below 0.05 being rounded down), the grades being weighted in proportion to the number of credits assigned to the work to which it relates; and
- (b) in respect of a programme of study
 - (i) (in the case of a candidate commencing Level 2 of a programme of study prior to September 2006) where the Faculty has so decided, a grade awarded at Level 3 or Level 4 has twice or, as the case may be, three times the weight of a grade at Level 2; or
 - (ii) (in the case of a candidate commencing Level 2 of a programme of study in or after September 2006) a grade awarded at Level 3 or Level 4 has twice the weight of a grade awarded at Level 2;

“year” means a period of twelve months.

3. In these Regulations and all other Regulations relating to programmes of study and degrees, “Level” means a phase of a programme of study corresponding to a session of full-time study, provided that

- (a) sessions spent in study at Level 0 are to be ignored in counting sessions for this purpose; and
- (b) a phase of a programme of study intercalated in the programme of study for a Bachelor’s Degree (such as the session spent abroad by certain students in

modern languages) is deemed for this purpose to be a Level corresponding to the session of full-time undergraduate study which immediately follows.

Subject to the above provisions,

“Level 0” means a phase of a programme of study comprising foundation studies to be undertaken before Level 1;

“Level 1” means that phase of a programme of study corresponding to the first session of full-time undergraduate study;

“Level 2” means that phase of a programme of study corresponding to the second session of full-time undergraduate study;

“Level 3” means that phase of a programme of study corresponding to the third session of full-time undergraduate study; and

“Level 4” means, in the case of Integrated Master’s Degrees, that phase of a programme of study corresponding to the fourth session of full-time undergraduate study.

SEMESTERS

4. There shall be two semesters in each academic year, to be known as the Autumn and Spring semesters. A semester shall comprise a period of fifteen weeks.
5. The dates of semesters shall be fixed by the Council on the recommendation of the Senate.

MINIMUM AGE FOR ADMISSION

6. There is no minimum age for admission. Applicants who will be under the age of eighteen at the point of admission will, however, be required to demonstrate that they have the required level of maturity to study in an adult environment and that they have guardianship in the UK.

ACADEMIC REQUIREMENTS FOR ADMISSION¹

7. Before admission an applicant must satisfy the requirements for entry prescribed by the Senate and any particular requirements prescribed by relevant Faculty. An applicant whose mother tongue is not English may be required to pass a test in English.
8. The admission of a person as a candidate for a higher Degree shall be determined by the Senate on the recommendation of the Faculty. Application for admission shall be made through the Head of Department to the Faculty. A person seeking to follow a programme of research for the Degree of PhD or MPhil in which their own creative work would form a significant part of the intellectual enquiry shall set out the form of their intended submission and proposed method of assessment in their application.

¹ Additional Regulations apply for admission to programmes of study in the International Faculty (www.city.academic.gr/docs/ifgenspec.pdf).

OTHER REQUIREMENTS FOR ADMISSION

9. A student who has previously been expelled from membership of the University will not be admitted onto a programme of study or a component of a programme of study except with the permission of the Pro-Vice-Chancellor for the relevant Faculty or any person authorised to act on their behalf.

ETHICS APPROVAL

10. A person seeking to undertake research which would involve human participants, personal data or human tissue must comply with the University's Ethics Policy Governing Research Involving Human Participants, Personal Data and Human Tissue, and prior to the commencement of the research, must ensure that appropriate ethics approval has been obtained. Any breach of this Regulation may be dealt with under the Regulations as to the Discipline of Students.

DISCLOSURE OF CRIMINAL CONVICTIONS

11. Where admission to or continued registration on a programme is dependent on a disclosure of convictions, any registration shall be regarded as provisional until a disclosure acceptable to the Head of Department has been obtained. Any registration may be revoked in the case of an unacceptable disclosure.

HEALTH REQUIREMENTS

Reference in these Regulations to the Pro-Vice-Chancellor means the Pro-Vice-Chancellor for the relevant Faculty and includes any person authorised to act on their behalf.

12. Where the Pro-Vice-Chancellor is satisfied, by virtue of a certificate to that effect of the Medical Director in the University Health Service or of another registered medical practitioner, that an applicant's or student's state of health is such that it is not in their interest or that of the University or (in the case of the Faculty of Medicine, Dentistry and Health) of patients with whom there will be contact that the applicant should begin or the student should continue a programme of study, the Pro-Vice-Chancellor may

- (a) at the request of the applicant, grant a deferral of entry for a stated period, which period may be renewed from time to time;
- (b) at the request of the student, grant the student leave of absence for a stated period, which leave of absence may be renewed from time to time;
- (c) require the applicant to defer admission until the Pro-Vice-Chancellor is satisfied that the applicant may begin the programme of study;
- (d) require the student to discontinue the programme of study either permanently or until the Pro-Vice-Chancellor is satisfied that the student may resume.

Before exercising the power under (c) or (d) above, the Pro-Vice-Chancellor shall invite the applicant or student to make any observations in writing and to tender any further medical evidence. Where the

circumstances of the case are such that a student required to discontinue a period of study may properly be permitted to transfer to some other programme of study, the Pro-Vice-Chancellor may permit such transfer on such conditions as it deems appropriate.

13. A student who has been granted leave of absence on medical grounds may only be permitted to return to the University on conditions specified by the Medical Director in the University Health Service or (in the case of students in the Faculty of Medicine, Dentistry and Health) conditions specified by the relevant Occupational Health Service.

14. A student in the Faculty of Medicine, Dentistry and Health who is to have contact with patients in a clinical setting as part of a programme of study or research is required to have, and to produce on request evidence of, appropriate immunity as agreed between the University and the NHS Trust or other relevant authority.

REGISTRATION

15. No student shall be permitted to attend lectures, classes or examinations or to receive materials issued by the University under distance learning arrangements until fully, provisionally or temporarily registered in accordance with the following Regulations. A registered student shall be issued with a U-Card.

16. On registration, a student must sign a declaration undertaking to observe the Charter, Statutes, Ordinances and Regulations of the University from time to time in force, and to observe the Code of Practice relating to Health and Safety.

17. The Regulations may require or permit a candidate to complete clinical, practical or other placements, or periods of study or research or work experience in other institutions or abroad. During such periods, students may be subject to supervision, disciplinary and health and safety requirements of an institution, agency or body other than the University and, when abroad, to the requirements of a foreign system of law. A student must comply with all such requirements in addition to those of the Statutes, Ordinances and Regulations of the University.

18. A full-time undergraduate student is required to register each session at a time determined by the Registrar and Secretary.

19. A part-time undergraduate student is required to register in each session forming part of the programme of study at a time or times determined by the Registrar and Secretary.

20. A postgraduate student and any student pursuing a programme of study outside Sheffield under Distance Learning arrangements is required to register at the start of the programme of study and annually thereafter at the start of each year forming part of the programme of study at a time or times determined by the Registrar and Secretary.

21. A student following a programme of study validated under the Regulations for Validated Programmes of Study shall comply with such registration procedures as are specified in the

Regulations applying to the relevant programme of study.

22. A student shall keep the Registrar and Secretary informed of his or her current address, and any alteration must be communicated to the Registrar and Secretary without delay.

23. A student in the UK subject to immigration regulations must comply with statutory immigration requirements and shall keep the Registrar and Secretary informed of information relating to their immigration conditions, in accordance with those requirements.

DATA PROTECTION

24. It shall be a condition of registration of a student that the student agrees to comply with the terms of any relevant Data Protection legislation, and with the University Statement, Policy, and Guidelines on Data Protection.

FEES²

25. Fees are determined from time to time by the Council, which reserves the right to alter fees at any time.

26. The composition fee falls due at the beginning of each session (or at other appropriate times for students entering later in the session) and payment will be sought from the student or from the institution or body (if any) sponsoring the student. In respect of particular programmes of study, Regulations may provide that the composition fee is payable at the start of the programme of study and in respect of the whole period of the programme of study.

27. Before admission a student must provide satisfactory evidence of ability to pay all academic fees, cover maintenance expenditure and pay other dues. A student who does not provide such evidence may be granted temporary registration by the Registrar and Secretary. A temporary registration shall lapse if the evidence is not provided within three weeks.

28. Except with the express permission of the Registration Panel, neither provisional nor full registration shall be granted for any session to a student who has not paid all monies due to the University from any previous session. Such monies shall include composition fees, accommodation fees and rents and loan repayments.

29. Subject to the preceding Regulation, a student who has completed registration procedures and has paid the composition fee which then falls due or has made arrangements acceptable to the Registrar and Secretary for the planned payment of that fee shall be fully registered.

30. A student who is not able to pay the composition fee or make arrangements acceptable to the Registrar

and Secretary for the planned payment of that fee may only be granted provisional registration by the Registrar and Secretary or (on appeal from a decision of the Registrar and Secretary) the Registration Panel. The student shall be given a statement of the payments required as a condition of the provisional registration.

31. A student who is provisionally registered will become fully registered on making the last of the payments required as a condition of the provisional registration. A student who is fully registered may be made provisionally registered if agreed payments are not made.

32. A provisional registration shall lapse if the payments required are not made, unless it is extended or renewed by the Registrar and Secretary or the Registration Panel on conditions agreed with the student.

33. Should the Registrar and Secretary refuse to grant, extend or renew a registration, notice in writing shall be given to the student and the Registration Panel. The student may appeal to the Panel by giving notice in writing to the Chairman. The Panel shall consider the case and may vary, reverse or uphold the earlier decision.

34. The Registration Panel shall consist of a University or Faculty Pro-Vice-Chancellor (or ex Pro-Vice-Chancellor) as Chairman, an Officer of the Union of Students and a member of the Academic, Administrative or Managerial and Professional Staff appointed annually by the Senate.

35. A student who is temporarily or provisionally registered shall not be eligible to receive the emoluments of any fellowship, studentship, scholarship or prize awarded by the University.

36. A student permitted to repeat an examination without attendance at lectures or classes is not required to register under these Regulations but shall not be permitted to attend the examination without completion of an entry form and payment of the prescribed fees by a date determined by the Registrar and Secretary.

37. In the case of a continuing postgraduate student the payment of the appropriate fee is required even if the candidate has completed the minimum period of study or research specified in the relevant Regulations.

38. In the case of the withdrawal from the University of a student, it shall be for the University to decide whether or not to grant any remission of the liability to pay fees.

39. Students considering withdrawing from programmes of study or research to which they have been admitted should consult the Head of Department and seek appropriate advice before leaving the University.

40. The award of any qualification shall be withheld until four weeks after the student has paid all monies due to the University.

² Regulations 24-39 apply to students in the Sheffield-based Faculties. Separate Regulations apply to students in the International Faculty (www.city.academic.gr/docs/ifgenspec.pdf).

ATTENDANCE³

41. Any reference to a programme of study or research implies the attendance of the candidate to pursue that programme in the University or at some place approved in the case of a particular candidature under these Regulations.

42. Except where other provision is made in the relevant Regulations, a full-time student is required to pursue a programme of study in the University throughout the whole of each semester. A student unable to comply with this requirement may seek leave of absence from the Pro-Vice-Chancellor. In case of enforced absence without such leave, a written explanation must be sent to the Pro-Vice-Chancellor as soon as possible. However, an Affiliated Institutions Staff candidate may pursue a programme of research in the Affiliated Institution, a Hospital Staff candidate in the relevant hospital or centre, and a designated college candidate in the designated college.

43. Every student is required (a) to attend punctually and regularly lectures and classes; (b) to complete all written assignments, practical or other coursework; (c) to keep appointments to meet with the candidate's supervisor; and (d) to attend all examinations, as appropriate in each case to the relevant programme of study or research. A candidate who fails to comply with this Regulation may be failed in the examination for, and (in the case of modular programmes) be denied the credits assigned to, the relevant units or other parts of the programme of study or dealt with under the General Regulations as to the Progress of Students.

STUDY FOR OTHER DEGREES

44. Registered study for any other Degree or qualification of any university shall not be undertaken during a programme of study or research without the special permission of the Senate except that a full-time or part-time student candidate may register for the programme of study leading to the Certificate in Higher Education and a full-time student candidate for the Degree of PhD in this University may register for the programme of study leading to the Postgraduate Certificate in Higher Education.

TRANSCRIPTS

45. Where a person has

- (a) completed a programme of study for a Degree, Diploma or Certificate; or
- (b) requires evidence of credits obtained in the University

the Registrar and Secretary shall, at the request of such a person, provide a Transcript in a form approved by the Senate which shall specify for each unit for which that person registered the Level at which it was offered

and its value in terms of credits, and shall certify the grades awarded and the credits (if any) obtained.

³ Regulations 40-42 apply to students in the Sheffield-based Faculties. Additional Regulations apply to students in the International Faculty (www.city.academic.gr/docs/ifgenspec.pdf).

General Regulations for First Degrees

SCOPE OF THESE REGULATIONS⁴

1. These Regulations apply, subject to any different provision in the Regulations for a particular programme of study, to all Certificates, Diplomas and Bachelor's Degrees and Integrated Master's Degrees, but where any programme of study is designated as a non-modular programme, Regulation 14 and subsequent Regulations shall not apply to that programme.
2. The Senate shall on the recommendation of the Faculty make Regulations providing for one or more programmes of study leading to the award of the Degree.

CONTENT OF PROGRAMMES OF STUDY

3. The Regulations for each programme of study shall specify the units required of or available to candidates at each Level, and may specify other requirements (which may include requirements assigned no value in terms of credits) to be met by a candidate before successful completion of the programme of study. The availability of units specified in the Regulations for a programme of study is subject to the conditions as to pre-requisites and unacceptable combinations of units published on the authority of the Senate. Where a candidate is required to register for a unit, that registration may only be amended with the permission of the Faculty, on the recommendation of the Head of Department.
4. A reference in a Regulation to a particular programme of study or unit does not mean that the programme or unit will necessarily be available in any particular session. The availability of any unit may be subject to conditions as to the minimum or maximum size of classes, the availability of accommodation, timetabling restraints, and, where the Regulations for a programme of study contain requirements satisfaction of which depends upon the provision of facilities by another institution or body, the agreement of that institution or body.
5. Where a Regulation enables or requires a candidate to make a choice, the candidate's choice requires approval. The approval of the Head of the Department responsible for the programme of study is required for the subject of a special topic, special study, dissertation, extended essay or project and, where the Regulations require a candidate to make a choice between units, for the candidate's choice of units. Where the programme of study is the responsibility of more than one Department, the Heads of those Departments will agree on the procedure for giving such approval and publish it to candidates. Except where these Regulations or the Regulations for a particular programme of study provide otherwise, the choice of a unit as an unrestricted unit within a programme of study requires

the approval only of the Head of the Department offering the unit.

ATTENDANCE OTHER THAN FOR UNIVERSITY QUALIFICATIONS

6. A person, whether or not registered for a programme of study leading to the award of a Degree or other qualification of the University, may be permitted by a Head of Department on payment of the appropriate fee to attend a programme of study in respect of one or more units and take the examination in respect of those units on the basis that any grades and credits awarded may not be taken into account for the purposes of the award of any qualification of the University.
7. A student attending the University under the Erasmus exchange programme shall normally register for 60 credits in each semester attended. Such a student shall normally register for units at the appropriate level of a programme of study offered by the relevant department.

STUDY ABROAD

8. A candidate may be permitted by the Faculty, on the recommendation of the Head of Department, to spend a period of not more than two consecutive semesters at an overseas University under a scheme approved by the Faculty; such a candidate shall pursue courses and take examinations under arrangements approved by the Head of Department.

DEGREES WITH EMPLOYMENT EXPERIENCE

9. A candidate may be permitted to spend one session undertaking an approved placement in employment, the arrangements being subject to the approval of the Head of Department, and for which no grades shall be awarded. Subject to successful completion of the requirements for the programme of study for which the candidate is registered, the Examiners may recommend that a candidate who successfully completes such a placement be awarded the named Degree 'with Employment Experience'.

TRANSFER BETWEEN PROGRAMMES OF STUDY AND FACULTIES

10. A candidate may, with the permission of the Faculty, transfer to another programme of study. The Faculty shall determine in each case the extent to which parts of the original programme already completed by a candidate shall be treated as forming part of the new programme. Where parts of the original programme are so treated the credits and grades (including any fail grades) already obtained by the candidate shall be counted in respect of the new programme. Where parts of the original programme are not so treated, the fact that the candidate has previously taken the relevant units and the grades and credits (if any) awarded shall be disregarded for the purposes of these Regulations except those dealing with time-limits and transcripts. A transfer from one Faculty to another requires the

⁴ Additional Regulations apply to students in the International Faculty (www.city.academic.gr/docs/ifgenspec.pdf).

permission of both Faculties concerned. Permission to transfer shall not imply the waiver of any requirements as to prerequisites.

TIME-LIMITS

11. Except with the permission of the Faculty,
 - (a) a full-time candidate must complete the Final Examination for a Degree within a period two years greater than the minimum required to complete the programme of study; and
 - (b) a part-time candidate must complete the Final Examination for a Degree within a period of nine years from the date of initial registration.

Any period during which the Faculty has granted a candidate leave of absence shall be ignored in calculating the time-limit.

RECOGNITION OF CREDITS AND EXAMINATIONS

12. The Faculty may recognise credits obtained or examinations passed in other institutions as equivalent to credits awarded at Level 1, Level 2 or Level 3 under the Regulations of this University, provided that the work attracting the credits has not been and will not be submitted for any other Degree and that (except in the case of non-modular programmes) a Bachelor's Degree or the First Degree of MBiolSci, MBiomedSci, MChem, MComp, MEng, MEnvSci, MMath, MPlan or MPhys may not, without the special permission of the Senate, be awarded to any candidate who has not been awarded at least 180 credits at Level 1, Level 2 or Level 3 under the Regulations of this University, at least 100 of which were at Level 3. "Credits awarded under the Regulations of this University" includes credits obtained in respect of a part of a programme of study which a candidate registered in this University is permitted or required by the Regulations to complete away from the University.

AEGROTAT CASES

13. Where the Examiners are satisfied by appropriate medical evidence that a candidate was prevented by illness from completing an examination but are satisfied that the work done by the candidate shows beyond reasonable doubt that the candidate would have passed the examination, they may recommend that the candidate be deemed to have passed the examination and that the candidate be awarded the credits assigned to relevant units but without the award of a grade. The credits awarded in respect of such units shall not be taken into account in determining the class of Degree to be awarded.

14. Where the Examiners are satisfied by appropriate medical evidence that a candidate was prevented by illness from completing a substantial part of the Final Examination for a Degree, and are satisfied that the work done by the candidate shows beyond reasonable doubt that the candidate would have passed the examination but that it is impossible to determine the appropriate class in which the candidate should be

placed, they may recommend that the candidate be awarded an Aegrotat Degree.

REGISTRATION FOR PROGRAMMES AND UNITS

15. A candidate shall register for a particular programme of study and for the units the candidate proposes to complete. The programme of study of a full-time student, other than one repeating part of the programme of study at a particular Level, must be to the value of not fewer than 120 credits in a session and of not fewer than 40 credits in any semester. A full-time student may register for more than 120 credits in any one session only with the permission of the Faculty. Where a unit is available at more than one point in the Regulations for a programme of study, a candidate may only register for the unit at one such point.

16. A candidate shall register for units to the value of not fewer than 120 credits at each of Level 2 and Level 3, of which not fewer than 90 credits shall be at FHEQ Level 6 or above. A candidate at Level 4 shall register for units to the value of not fewer than 120 credits. Not fewer than 90 credits of those taken at Levels 3 and 4 shall be at FHEQ Level 7.

17. Except where the Regulations for a programme of study expressly so provide or special permission is given under arrangements approved by the Pro-Vice-Chancellor of the Faculty, a unit which is available at Level 1 of any programme of study may not be taken by any candidate at a subsequent Level.

18. A candidate may amend the registration in respect of any semester with the consent of the Head of Department but not after the end of the third week of the relevant semester. Amendment to registration after the end of the third week of the relevant semester shall be made only with the permission of the Faculty.

EXAMINATIONS

19. Where a unit is taken in the Autumn or the Spring Semester, an examination shall be held for that unit in the relevant semester. Where a unit is taught over both semesters, an examination shall be held for that unit in the Spring Semester.

20. At Level 0 and Level 1, a second examination in respect of each unit shall be held in August or September following the date of the first examination. Except with the permission of the Faculty, entry for the second examination is open only to candidates who have failed in the first examination.

21. At Level 2 in certain programmes of study determined by the Faculty, a second examination in respect of each unit shall be held in August or September following the date of the first examination. Except with the permission of the Faculty, entry for the second examination is open only to candidates who have failed in the first examination.

22. Where some part of the programme of study carrying a value in terms of credits is not in the form of a unit, the Regulations shall specify the time or times at which the examination is to be held.

AWARD OF CREDITS

23. Subject to the requirements of these Regulations as to attendance, a candidate who satisfies the Examiners in the examination for a unit shall be awarded the credits assigned to that unit.

24. A candidate who has been awarded credits in respect of any unit may not repeat the examination for that unit.

FIRST UNIVERSITY EXAMINATION

25. Within each programme of study there shall be an Examination, referred to in these Regulations as the First University Examination.

Level 1

26. A candidate shall complete units at Level 1 to a total value of not less than 120 credits. For the purposes of this Regulation 'completed units' are those for which a candidate has obtained

- (a) a pass grade or pass outcome;
- (b) a fail grade; *or*
- (c) where formal exemption as a result of previous study has been approved.

A candidate at Level 1 of a programme of study other than one offered by the Institute of Lifelong Learning may not, without the permission of the Head of Department responsible for the candidate's programme of study, take as unrestricted units ACE units to the value of more than 20 credits.

27. A candidate who is awarded 120 credits shall thereby pass the First University Examination. The Examiners may in their discretion recommend that a candidate who is awarded not fewer than 100 credits and who obtains a grade or grades of not less than 30 in the unit(s) in respect of which credits are not awarded be deemed to have passed the First University Examination. Such a recommendation shall take into account the performance of the candidate in the units in respect of which credits are not awarded and the extent to which the candidate's performance in other units provides compensation for failure in those units, and shall not imply the waiver of any requirements as to prerequisites involving the award of credits in respect of specified units.

28.

For candidates commencing Level 1 of a modular programme of study in or after September 2012

- (i) In the case of a candidate commencing Level 1 of a modular programme of study in or after September 2012, the Examiners shall adopt the following Regulation.

A candidate who fails to satisfy the Examiners in respect of any unit at Level 1 may (subject to the General Regulations relating to the Progress of Students) enter for a subsequent examination in respect of the unit on no more than two occasions. A candidate may re-sit under this Regulation despite having been deemed to have passed the First University

Examination at the end of the Spring semester. A candidate satisfying the Examiners in a subsequent examination will be awarded a bare pass grade in respect of that unit. In the event that the grade achieved following a subsequent examination is lower than that achieved on a previous occasion, the higher grade shall be awarded.

For candidates commencing Level 1 of a programme of study before September 2012 and candidates on a non-modular programme of study

- (ii) In the case of a candidate commencing Level 1 of a programme of study before September 2012 or a candidate on a non-modular programme of study, the Examiners shall adopt the following Regulation.

A candidate who fails to satisfy the Examiners in respect of any unit at Level 1 may enter for a subsequent examination in respect of the unit on one or (subject to the General Regulations relating to the Progress of Students) more occasions. A candidate may re-sit under this Regulation despite having been deemed to have passed the First University Examination at the end of the Spring semester. In the event that the grade achieved following a subsequent examination is lower than that achieved on a previous occasion, the higher grade shall be awarded.

29. The Faculty may permit a candidate who has, at the end of any session, failed to pass the First University Examination to re-commence the programme of study at the following (or a later) session. In such a case, the fact that the candidate has previously taken any unit and the grades and credits (if any) awarded shall be disregarded for the purposes of these Regulations except those dealing with time-limits and transcripts.

FINAL EXAMINATION

30. Within each programme of study there shall be an Examination, referred to in these Regulations as the Final Examination.

31. A candidate shall complete units to a total value of not less than 120 credits at each of Levels 2, 3 and (where applicable) 4. For the purpose of this Regulation 'completed units' are those for which a candidate has obtained

- (a) a pass grade or pass outcome;
- (b) a fail grade; *or*
- (c) where formal exemption as a result of previous study has been approved.

Where the Regulations for a particular programme of study provide for a phase of the programme to be intercalated (for example a session spent abroad in a programme of study in a modern language) a candidate shall in addition complete the requirements of that phase bearing a value in terms of credits prescribed in the relevant programme Regulations.

A candidate at Level 2, 3 or 4 (other than a candidate on a programme of study offered by the Institute of Lifelong Learning) may not take as an unrestricted unit:

- (a) an ACE unit, without the permission of the Head of Department,
- (b) a unit available at Level 1 in any programme of study, unless the programme Regulations expressly so provide or with special permission given under arrangements approved by the Pro-Vice-Chancellor.

Level 2

32. A candidate must have passed the First University Examination before proceeding to Level 2.

33. A candidate who fails to satisfy the Examiners in respect of any unit at Level 2 may enter for a subsequent examination in respect of the unit, on one or (subject to the General Regulations as to Progress of Students) more occasions. A candidate satisfying the Examiners in a subsequent examination will be awarded a bare pass grade in respect of that unit. In the event that the grade achieved following a subsequent examination is lower than that achieved on a previous occasion, the higher grade shall be awarded.

Level 3

34. A candidate for a Degree other than an Integrated Master's Degree who has been awarded fewer than 120 credits at Level 2 may proceed to Level 3 only with the permission of the Faculty. The Examiners may in their discretion recommend that a candidate who is awarded not fewer than 100 credits at Level 2 be permitted to proceed to Level 3. Such a recommendation shall not imply the waiver of any requirements as to prerequisites involving the award of credits in respect of specified units.

35. A candidate for an Integrated Master's Degree who has been awarded fewer than 120 credits at Level 2 or who has obtained a weighted mean grade less than 54.5 may proceed to Level 3 only with the permission of the Faculty. The Examiners may in their discretion recommend that a candidate who is awarded not fewer than 100 credits at Level 2 and who obtains a weighted mean grade of not lower than 49.5 be permitted to proceed to Level 3. Such a recommendation shall not imply the waiver of any requirements as to prerequisites involving the award of credits in respect of specified units.

36. A candidate for a Degree other than an Integrated Master's Degree who fails to satisfy the Examiners in respect of any unit(s) at Level 3 and who has not been recommended for the award of a Degree may (subject to the General Regulations as to Progress of Students) enter for a subsequent examination in respect of any failed unit(s) taken at Levels 2 or 3 on one occasion. A candidate satisfying the Examiners in a subsequent examination will be awarded a bare pass grade in respect of that unit and shall not be recommended for the award of Honours. In the event that the grade achieved following a subsequent examination is lower than that achieved on a previous occasion, the higher grade shall be awarded.

37. A candidate for an Integrated Master's Degree who fails to satisfy the Examiners in respect of any unit(s) at Level 3 and who has not been recommended for the award of a Degree may (subject to the General Regulations as to Progress of Students) enter for a subsequent examination in respect of the same unit(s) on one or more occasions. A candidate satisfying the Examiners in a subsequent examination will be awarded a bare pass grade in respect of that unit. In the event that the grade achieved following the subsequent examination is lower than that achieved on the first occasion, the higher grade shall be awarded.

Level 4

38. The Examiners may in their discretion recommend that a candidate who is awarded not fewer than 100 credits at Level 3 and who obtains a weighted mean grade at Level 3 of not lower than 49.5 be permitted to proceed to Level 4. Such a recommendation shall not imply the waiver of any requirements as to prerequisites involving the award of credits in respect of specified units.

39. A candidate who fails to satisfy the Examiners in respect of any unit at Level 4 and who has not been recommended for the award of a Degree may (subject to the General Regulations as to Progress of Students) enter for a subsequent examination in respect of the same unit on one occasion. A candidate satisfying the Examiners in a subsequent examination will be awarded a bare pass grade in respect of that unit. In the event that the grade achieved following the subsequent examination is lower than that achieved on the first occasion, the higher grade shall be awarded.

GRADES FOR UNITS

40. In respect of candidates commencing Level 1 or Level 2 of a programme of study in or after September 2000, the Examiners shall award in respect of each unit a grade expressed as a whole number on the following numerical scale:

70-100	work to a standard appropriate to Class I
60-69	work to a standard appropriate to Class II— Division 1
50-59	work to a standard appropriate to Class II— Division 2
45-49	work to a standard appropriate to Class III
40-44	work of a Pass standard
0-39	work in respect of which the candidate fails

Work not submitted, or work submitted but deemed to be of no academic merit, or work submitted in respect of which credit is refused or denied may not normally be awarded a grade.

In respect of other candidates, reference should be made to Regulation 36 of the Regulations for First Degrees in the Calendar for 2005-06.

CLASSIFICATION OF CANDIDATES

General: for all candidates

41. The class of Degree to be awarded to each candidate shall be recommended to the Faculty by the Examiners. The recommendations shall take into

account the performance of the candidate at Level 2, Level 3 and, where applicable, Level 4.

42. In every case, the Examiners shall recommend the classification which, having regard to all the evidence before them, best reflects the overall performance of the candidate.

43. A candidate who is awarded the required number of credits at Levels 2 and 3, but to whom the Examiners do not recommend the award of Honours shall be recommended for the award of a Pass degree.

44.

(i) The Examiners may recommend that a candidate for a Degree other than an Integrated Master's Degree who is awarded not fewer than 200 credits at Levels 2 and 3, of which not fewer than 90 credits are at FHEQ Level 6 or above, and to whom the Regulation as to Aegrotat cases is inapplicable, be deemed to have passed the Final University Examination provided that the candidate has obtained a weighted mean grade of not less than 39.5 in the Examination as a whole. The Examiners may, having regard to the following Regulations, recommend the award of Honours to such a candidate. A candidate who is awarded not fewer than 200 credits at Levels 2 and 3 but who fails to satisfy the Examiners in respect of the other criteria above may be recommended for the award of a Pass Degree.

(ii) The Examiners may recommend that a candidate for an Integrated Master's Degree who is awarded not fewer than 320 credits at Levels 2 and 3 and 4, of which not fewer than 90 credits of those taken at Levels 3 and 4 are at FHEQ Level 7, and to whom the Regulation as to Aegrotat cases is inapplicable, be deemed to have passed the Final University Examination provided that the candidate has obtained a weighted mean grade of not less than 49.5 in the Examination as a whole. A candidate who is awarded not fewer than 320 credits at Levels 2, 3 and 4 but who fails to satisfy the Examiners in respect of the other criteria above may be recommended for the award of a Bachelor's Degree, with or without Honours.

45. The Examiners may in their discretion, but only with the specific concurrence of the External Examiner, recommend that a candidate who is awarded not fewer than 180 credits at Levels 2 and 3 (or 280 credits at Levels 2, 3 and 4), and to whom the Regulation as to Aegrotat cases is inapplicable, be deemed to have passed the Final University Examination, but shall not recommend the award of Honours to such a candidate.

For candidates commencing Level 2 of a programme of study in or after September 2006

46. In the case of a candidate commencing Level 2 of a programme of study in or after September 2006, a grade awarded at Level 3 or Level 4 has twice the weight of a grade awarded at Level 2.

47. In the case of a candidate commencing Level 2 of a programme of study in or after September 2006, the

Examiners for each programme of study shall adopt the method set out in the following Regulations.

Calculations

48. The Examiners shall have regard to the outcome of the following Calculations, which shall in each case be either a class or a borderline to a higher class.

49. **Calculation 1** (the weighted mean grade) is made in accordance with the following principles

(a) where a candidate's weighted mean grade is of a value indicated in the first column, the outcome of Calculation 1 shall be the corresponding class indicated in the second column

69.5 or higher	Class I
59.5 or higher	Class II—Division 1
49.5 or higher	Class II—Division 2
44.5 or higher	Class III
39.5 or higher	Pass

(b) (For candidates commencing Level 3 or Level 4 of a programme of study in September 2010) where a candidate's weighted mean grade falls within the band indicated in the first column, the outcome of Calculation 1 shall be the borderline to the corresponding class indicated in the second column

67.0-69.4	Class I
57.0-59.4	Class II—Division 1
47.0-49.4	Class II—Division 2
43.5-44.4	Class III
37.0-39.4	Pass

(c) (For candidates commencing Level 1 or Level 2 of a programme of study in or after September 2010) where a candidate's weighted mean grade falls within the band indicated in the first column, the outcome of Calculation 1 shall be the borderline to the corresponding class indicated in the second column

68.0-69.4	Class I
58.0-59.4	Class II—Division 1
48.0-49.4	Class II—Division 2
43.5-44.4	Class III
38.0-39.4	Pass

50. **Calculation 2** (the distribution of grades) is made in accordance with the following principles

(a) where the best half of a candidate's weighted grades are of a value indicated in the first column, the outcome of Calculation 2 shall be the corresponding class indicated in the second column

69.5 or higher	Class I
59.5 or higher	Class II—Division 1
49.5 or higher	Class II—Division 2
44.5 or higher	Class III
39.5 or higher	Pass

(b) where the best five twelfths of a candidate's weighted grades are of a value indicated in the first column, the outcome of Calculation 2 shall be the borderline to the corresponding class indicated in the second column above.

Classifications

51. In recommending the class of degree to be awarded to each candidate, the Examiners shall take into account

the outcomes of Calculations 1 and 2 in accordance with the following principles

- (a) where one Calculation places the candidate in one class and the other Calculation places the candidate in either the same class or the borderline to the same class, the candidate shall normally be recommended for the award of a degree of that class;
- (b) where one Calculation places the candidate in one class, and the other Calculation places the candidate in the borderline to the class immediately above, the candidate shall normally be recommended for the award of a degree of the lower class;
- (c) where one Calculation places the candidate in one class, and the other Calculation places the candidate in the class immediately below, the candidate shall be considered as being in the borderline to the higher class, and the class of the degree to be recommended by the Examiners shall normally correspond to the class indicated by the weighted mean of the grades at the final Level of study;
- (d) where both Calculations place the candidate in the same borderline, the class of the degree to be recommended by the Examiners shall normally correspond to the class indicated by the weighted mean of the grades at the final Level of study;
- (e) where one Calculation places the candidate in one class, or borderline to a class, and the other Calculation places the candidate in another class, or borderline to a class, neither immediately above nor below, the Examiners shall recommend the classification which, having regard to all the evidence before them, best reflects the overall performance of the candidate.

52. In the case of a candidate for the Degree of MBiolSci, MBiomedSci, MChem, MEng, MEnvSci, MMath, MPlan or MPhys who is being considered for the award of a Bachelors Degree, the recommendation of the Examiners as to the class of Degree to be awarded shall take into account the performance of the candidate at Level 2 and Level 3.

For candidates commencing Level 2 of a programme of study in or after September 2000

53. In the case of a candidate commencing Level 2 of a programme of study in or after September 2000, the Examiners for each programme of study shall, in carrying out their task, adopt one of Methods A and B set out in the following Regulations as the primary determinant of the appropriate classification. The Examiners may also take into account the effect of adopting the other Method. That effect must be taken into account where a significant proportion of the programme of study consists of units taught in Departments or Faculties where the other Method would be applied by the Examiners. The practice to be followed under this Regulation for a programme of

study shall be published to candidates following that programme.

Method A

54. The Examiners shall take into account the weighted mean grade in accordance with the following principles:

- (a) where the weighted mean grade is of a value indicated in the first column, the candidate shall normally be placed in a class not lower than that indicated in the second column:

69.5 or higher	Class I
59.5 or higher	Class II—Division 1
49.5 or higher	Class II—Division 2
44.5 or higher	Class III
39.5 or higher	Pass

- (b) where the weighted mean grade falls within the band indicated in the first column, the Examiners shall give consideration to placing the candidate in the class indicated in the second column:

68.0-69.4	Class I
58.0-59.4	Class II—Division 1
48.0-49.4	Class II—Division 2
44.0-44.4	Class III
38.0-39.4	Pass

Method B

55. The Examiners shall take into account the distribution of grades in accordance with the following principles:

- (a) the grades received for a candidate shall be converted so that a grade falling within the band indicated in the first column is represented by the number of points indicated in the second column:

70 or higher	5
60-69	4
50-59	3
45-49	2
40-44	1
0-39	0

- (b) where the weighted mean of the points so obtained is of a value indicated in the first column, the candidate shall normally be placed in a class not lower than that indicated in the second column:

4.5 or higher	Class I
3.5 or higher	Class II—Division 1
2.5 or higher	Class II—Division 2
1.5 or higher	Class III

- (c) where the weighted mean of the points so obtained falls within the band indicated in the first column, the Examiners shall give consideration to placing the candidate in the class indicated in the second column:

4.33-4.49	Class I
3.33-3.49	Class II—Division 1
2.33-2.49	Class II—Division 2
1.33-1.49	Class III

SUBSTITUTION OF UNITS

56. A candidate entitled under the above Regulations to enter for a subsequent examination at any Level may, with the permission of the Faculty, substitute another unit for that in respect of which the candidate has failed to satisfy the Examiners. Permission to make a substitution under this Regulation shall not increase the

number of occasions on which a candidate may enter an examination.

57. Except for Level 1 candidates commencing Level 1 before September 2012, a candidate satisfying the Examiners in the examination for the substituted unit or other part will be awarded a bare pass grade in that examination.

General Regulations for Higher Degrees, Postgraduate Diplomas and Postgraduate Certificates

SCOPE OF THESE REGULATIONS

1. These Regulations apply to
 - the Degree of PhD in all Faculties
 - the Degree of PhD with Integrated Studies
 - the Degree of EdD
 - the Degree of DBA
 - the Degree of DClinPsy
 - the Degree of DDSc
 - the Degree of DEdCPsy
 - the Degree of DEdPsy
 - the Degree of DMedSci
 - the Degree of EngD
 - the Degree of MD
 - Master's Degrees in all Faculties (except Integrated Master's Degrees)
 - Postgraduate Diplomas in all Faculties
 - Postgraduate Certificates in all Faculties.
2. These Regulations are subject to provisions relating to a specific higher Degree, provided that where any programme of study is designated as a non-modular programme, Regulations 14 to 20 shall not apply to that programme.

MINIMUM QUALIFICATIONS FOR ADMISSION AS A CANDIDATE

3. A person may be admitted as a candidate who
 - (a) is a recognised graduate and who has attained a standard at least equivalent to that of a good Honours Degree in a subject related to that of the proposed programme of study or research; *or*
 - (b) has passed a qualifying examination in such a subject at a standard equivalent to Level 3 and at a time and subject to such conditions (which may include attendance for an appropriate programme of study) as may be prescribed by the Faculty; *or*
 - (c) has been deemed qualified for admission as a candidate by the Faculty; *or*
 - (d) being a candidate for a Postgraduate Diploma, is permitted by the Faculty to transfer to candidature for a Master's Degree in the same subject.

SPECIAL CANDIDATES

4. Where a candidate ceases to fall within the category applicable at the time of admission but desires to complete the programme of study or research, the candidate may be permitted to do so as a special candidate under conditions approved in each case by the Senate, other than those admitted under a remote location scheme approved by the Senate.

Regulations for Higher Degrees by coursework (or coursework and dissertation)

5. The following Regulations apply to the Degree of EdD, the Degree of DEdPsy, the Degree of DEdCPsy,

the Degree of PhD with Integrated Studies, the Degree of DMedSci, the Degree of EngD and to all Master's Degrees and Postgraduate Certificates and Postgraduate Diplomas except

- (a) those listed in Regulation 29;
- (b) Integrated Master's Degrees; and
- (c) those in the province of the Board of Extra-Faculty Provision.

PROGRAMMES OF STUDY

6. For each higher Degree by coursework (or by coursework and dissertation), the Senate shall on the recommendation of the Faculty make Regulations providing for one or more programmes of study leading to the award of the Degree.

7. The Regulations for each programme of study shall specify the units required of or available to candidates, and may specify other requirements (which may include requirements assigned no value in terms of credits) to be met by a candidate before successful completion of the programme of study. Where the Regulations for a modular programme of study require a dissertation, the dissertation shall be assigned a value of not more than 90 credits. The availability of units specified in the Regulations for a programme of study is subject to the conditions as to pre-requisites and unacceptable combinations of units published on the authority of the Senate. Where a candidate is required to register for a unit, that registration may only be amended with the permission of the Faculty, on the recommendation of the Head of Department.

8. A reference in a Regulation to a particular programme of study or unit does not mean that the programme or unit will necessarily be available in any particular session. The availability of any unit may be subject to conditions as to the minimum or maximum size of classes, the availability of accommodation, timetabling restraints, and, where the Regulations for a programme of study contain requirements satisfaction of which depends upon the provision of facilities by another institution or body, the agreement of that institution or body.

9. Where a Regulation enables or requires a candidate to make a choice, the candidate's choice requires approval. The approval of the Head of the Department responsible for the programme of study is required for the subject of a special topic, special study, dissertation, extended essay or project and, where the Regulations require a candidate to make a choice between units, for the candidate's choice of units. Where the programme of study is the responsibility of more than one Department, the Heads of those Departments will agree on the procedure for giving such approval and publish it to candidates. Except where these Regulations or the Regulations for a particular programme of study provide otherwise, the choice of a unit as an unrestricted unit within a programme of study requires

the approval only of the Head of the Department offering the unit.

10. A candidate may amend the registration in respect of any semester with the consent of the Head of Department but not after the end of the third week of the relevant semester. Amendment to registration after the end of the third week of the relevant semester shall be made only with the permission of the Faculty.

RECOGNITION OF CREDITS AND EXAMINATIONS

11. The Faculty may recognise credits obtained or examinations passed in other institutions as equivalent to credits awarded under the Regulations of this University, provided that the work attracting the credits has not been and will not be submitted for any other degree and that a higher Degree may not, without the special permission of the Senate, be awarded to any candidate who has not been awarded

- (a) in the case of Degrees wholly awarded by the University, at least one-half of the required number of credits under those Regulations;
- (b) in the case of Degrees wholly awarded by the University in respect of a programme of study that is jointly developed and delivered in conjunction with one or more partner institutions, at least one-third of the required number of credits under those Regulations;
- (c) in the case of jointly awarded Degrees, at least one-third of the required number of credits under those Regulations;
- (d) in the case of jointly awarded Postgraduate Diplomas, at least one-half of the required number of credits under those Regulations.

“Credits awarded under the Regulations of this University” includes credits obtained in respect of a part of a programme of study which a candidate registered in this University is permitted or required by the Regulations to complete away from the University.

AEGROTAT CASES

12. Where the Examiners are satisfied by appropriate medical evidence that a candidate was prevented by illness from completing an examination but are satisfied that the work done by the candidate shows beyond reasonable doubt that the candidate would have passed the examination, they may recommend that the candidate be deemed to have passed the examination and that the candidate be awarded the credits assigned to relevant units but without the award of a grade. The credits awarded in respect of such units shall not be taken into account in determining the candidate's eligibility for the award of merit or distinction.

13. Where the Examiners are satisfied by appropriate medical evidence that a candidate was prevented by illness from completing a substantial part of the Examination for a Degree, and are satisfied that the work done by the candidate shows beyond reasonable doubt that the candidate would have passed the examination, they may recommend that the candidate be awarded an Aegrotat Degree.

MINIMUM PERIOD OF STUDY

14. The programme of study and research for a Master's Degree by coursework (or coursework and dissertation) shall be not less than one year for a full-time candidate and not less than two years for a part-time candidate.

GRADES

15. The Examiners shall award in respect of each unit or other part of the programme of study a grade expressed as a whole number on the numerical scale set out in Regulation 39 of the General Regulations for First Degrees, provided that a grade of 50 shall indicate work of a standard to pass.

AWARD OF CREDITS

16. A candidate who satisfies the Examiners in the examination for a unit or other part of a programme of study shall be awarded the credits assigned to that unit or other part

17. A candidate who has been awarded credits in respect of any unit or other part of the programme of study may not repeat the examination for that unit or other part.

CREDITS REQUIRED FOR A MASTER'S DEGREE OR POSTGRADUATE DIPLOMA OR CERTIFICATE

18. A candidate who is awarded 180 credits shall thereby pass the Examination for a Master's Degree. Where the Regulations for a Master's Degree make provision for a related Postgraduate Diploma or Postgraduate Certificate, a candidate who is awarded 120 credits shall be eligible for the award of the Postgraduate Diploma, and a candidate who is awarded 60 credits shall be eligible for the award of the Postgraduate Certificate.

19. The Examiners may in their discretion recommend that a candidate who is awarded not fewer than 165 credits be deemed to have passed the Examination for a Master's Degree, providing that the candidate has obtained an average grade of not less than 50 and a grade or grades of not less than 40 in the elements of the programme of study in respect of which credits are not awarded, this calculation to include all units.

20. The Examiners may in their discretion recommend that a candidate who is awarded not fewer than 105 credits be deemed to have passed the Examination for a Postgraduate Diploma, providing that the candidate has obtained an average grade of not less than 50 and a grade or grades of not less than 40 in the elements of the programme of study in respect of which credits are not awarded. In the case of a candidate for a Master's degree who is being considered for the award of a Postgraduate Diploma or Postgraduate Certificate, calculation of the average grade shall exclude the dissertation grade.

DISTINCTIONS AND MERITS

21. The Examiners may in their discretion recommend the award of a mark of distinction or merit to a candidate registered for a Master's degree, such that

- (a) a candidate who obtains a weighted mean grade of not less than 69.5 in the Examination as a whole and a grade of not less than 70 in units to the value of not less than 90 credits may be recommended for the award of the Degree with distinction; *and*
- (b) a candidate who obtains a weighted mean grade of not less than 59.5 in the Examination as a whole and a grade of not less than 60 in units to the value of not less than 90 credits may be recommended for the award of the Degree with merit.

22. The Examiners may in their discretion recommend the award of a mark of distinction or merit to a candidate registered for a Postgraduate Diploma, such that

- (a) a candidate who obtains a weighted mean grade of not less than 69.5 in the Examination as a whole and a grade of not less than 70 in units to the value of not less than 60 credits may be recommended for the award of the Postgraduate Diploma with distinction; *and*
- (b) a candidate who obtains a weighted mean grade of not less than 59.5 in the Examination as a whole and a grade of not less than 60 in units to the value of not less than 60 credits may be recommended for the award of the Postgraduate Diploma with merit.

23. The Examiners may in their discretion recommend the award which, having regard to all the evidence before them, best reflects the overall performance of the candidate notwithstanding Regulations 21 and 22 above.

DISSERTATIONS

24. Where a programme of study includes a dissertation, the dissertation shall be of a length and be presented in typed form not later than the time prescribed by the Head of Department.

25. A candidate shall state in the dissertation the sources from which the information it contains is derived and the extent to which the candidate has made use of the work of others.

26. A candidate may not submit a dissertation a substantial part of which consists of material which has been submitted for any other Degree or qualification.

FAILURE

27. A candidate who fails to satisfy the Examiners in respect of any unit or other part of the programme of study (including the dissertation if any) and who has not been recommended for the award of a Master's Degree or a Postgraduate Diploma may (subject to the Regulations for the particular programme of study and to the General Regulations as to the Progress of Students) enter for a subsequent examination in respect of the unit or submit a revised dissertation on one occasion only. A candidate satisfying the Examiners in

a subsequent examination or in respect of a revised dissertation will be awarded a bare pass grade in respect of that unit. In the event that the grade achieved following the subsequent examination is lower than that achieved on the first occasion, the higher grade shall be awarded.

The Faculty may prescribe conditions to be satisfied by the candidate, and in the absence of any other provision, the re-examination or re-submission shall be within one year of the notification of the first result.

TIME-LIMITS AND EXTENSIONS

28. Except with the permission of the Faculty, or where the Regulations for a particular programme of study provide otherwise

- (a) a full-time candidate must complete the programme of study for a Master's Degree within a period one year greater than the minimum required to complete the programme of study; and
- (b) a part-time candidate must complete the programme of study for a Master's Degree within a period of two years greater than the minimum required to complete the programme of study.

Any period during which the Faculty has granted a candidate leave of absence shall be ignored in calculating the time-limit.

Applicable time-limits for full-time and part-time candidates may, for good reason, be extended by not more than one year by the Faculty and, in exceptional cases, by a further period by the Senate on the recommendation of the Faculty. In any case in which the Faculty refuses to extend or recommend the extension of a time-limit, the Senate shall consider the case (including the views of the Faculty) and may grant the extension.

Regulations for Higher Degrees by Research

SCOPE OF THESE REGULATIONS

29. Regulations 29 to 54 apply to
- the Degree of PhD in all Faculties
 - the Degree of PhD with Integrated Studies (in respect of the programme of research and thesis)
 - the Degree of PhD undertaken in an EPSRC Doctoral Training Centre
 - the Degree of EdD (in respect of the thesis)
 - the Degree of DBA
 - the Degree of DCLinPsy
 - the Degree of DDSc
 - the Degree of DEDPsy (in respect of the thesis)
 - the Degree of DEDCPsy (in respect of the thesis)
 - the Degree of DMedSci (in respect of thesis)
 - the Degree of EngD
 - the Degree of MD
 - the Degree of MPhil in all Faculties
 - the Degree of MSc(Res) (in respect of the research project)
 - the Degree of LLM by research
 - the Degree of MMus by research.

SUPERVISORS

30. One or more Supervisors shall be appointed by the Senate on the recommendation of the Faculty for each candidate except a candidate without attendance, a Research Fellowship or an Independent Research Worker candidate. A Supervisor may be appointed for a Research Fellowship or Independent Research Worker candidate. At least one Supervisor shall be a member of the Academic Staff of the University.

RESEARCH AWAY FROM THE UNIVERSITY

31. Subject to Regulation 35, a full-time or part-time student candidate may be permitted by the Senate on the recommendation of the Faculty to pursue the whole or part of the programme of research at a specified place away from the University where the topic of the proposed research is in accord with the research interests of the department concerned. In the case of a candidate to whom this Regulation applies, a report on the progress of the research shall be submitted annually by the Supervisor to the Faculty and shall include a statement that the provisions of these Regulations continue to be met.

32. Subject to Regulation 35, a part-time student candidate for the Degree of MPhil or PhD may be permitted by the Senate on the recommendation of the Faculty to pursue the whole of the programme of research away from the University in accordance with the terms of a remote location scheme approved by the Senate, being a scheme under which the University provides research training and supervision for candidates drawn from the staff or membership of an organisation designated in the scheme.

33. Subject to Regulation 35, a Hospital Staff candidate may be permitted by the Senate on the recommendation of the Faculty to spend a limited period pursuing the programme of research at a specified place away from the University (or in the case of a Hospital Staff candidate, the hospital or centre).

34. Permission may only be granted under Regulations 31, 32 or 33 if

- (a) the proposed place of research is appropriate; and
- (b) the research remains under the continual supervision of the University; and
- (c) the Supervisor has the authority and the facilities for visiting the place of research so that the supervision is positive and effective.

The Senate may appoint an additional Special Supervisor to cover the period away from the University.

THESES

35. A candidate for a Higher Degree by Research shall, on the completion of the programme of research:

- (a) present a thesis containing the results of the candidate's research and showing the sources from which the information it contains is derived and the extent to which the candidate has made use of the work of others; *and*

- (b) pass an oral examination in matters relevant to the subject of the thesis.

At the oral examination, no person other than the candidate and the Examiners may be present except with the agreement of those persons.

36. The language of the thesis shall be English. Exceptionally, and with the permission of the Faculty, a candidate may present their thesis in a language other than English where this is of demonstrable significance to the impact and dissemination of the research.

37. Where the programme of research for a higher Degree leads to the production of material additional to the thesis, such as creative work or supporting material submitted on electronic media, the thesis shall clearly present the additional material in its relevant theoretical, historical, critical or design context and shall be accompanied by a permanent record of the additional material, where practicable, bound with the thesis.

38. A candidate for the Degree of PhD, PhD with Integrated Studies, EdD, DBA, DClinPsy, DDSc, DEdPsy, DEdCPsy, DEng or MD shall additionally satisfy the Faculty that the thesis forms an addition to knowledge, shows evidence of systematic study and of ability to relate the results of such study to the general body of knowledge in the subject, and is worthy of publication either in full or in an abridged form.

39. A candidate in Music for the Degree of PhD or MPhil in the Faculty of Arts may

- (a) supplement a thesis in the area of music performance practice with a public instrumental or vocal recital illustrating aspects of the thesis; *or*
- (b) in place of a thesis, offer a portfolio of original compositions with accompanying commentary not exceeding 10,000 words in length, and satisfy the Faculty that the compositions show coherence, invention and originality in a variety of extended structures; *or*
- (c) in the case of a candidate for the Degree of PhD, submit a portfolio of creative music technology research and accompanying thesis of 30,000 – 40,000 words contextualising the research within a critical artistic and/or technological perspective.

In the case of a candidate electing to proceed under this Regulation, any reference to a thesis includes a thesis as supplemented by a recital or a portfolio of original compositions.

40. A thesis may not be presented before the completion of the minimum period of the programme of research specified in the Regulations for the relevant Degree, unless otherwise stated in the Regulations for the relevant Degree.

41. A candidate in Practical Drama for the Degree of PhD or MPhil in the Faculty of Arts may

- (a) in the case of a candidate for the Degree of MPhil, submit a practical component as part of the thesis, accompanied by a written commentary of 8,000 words, which contextualises the project and includes a retrospective critical analysis of the process and outcomes;

- (b) in the case of a candidate for the Degree of PhD, submit a practical component as part of the thesis, accompanied by a written commentary of 30-40,000 words. The practical component must demonstrate a high level of performance skill and involve a research inquiry. The written component will contextualise the project, offering a retrospective analysis of the process and outcomes, and reflecting on the chosen research methodologies and production processes and the relation between them. The thesis will be supplemented by a permanent record of the research process, which may include electronic media, drawings and photographs.

In the case of a candidate electing to proceed under this Regulation, any reference to the thesis includes a thesis supplemented by a practical component.

42. A candidate for a Master's Degree in the Faculty of Engineering may present a design study accompanied by a critical discussion in place of the thesis.

43. A candidate may not submit a thesis a substantial part of which consists of material which has been submitted for any other Degree or qualification. This shall not apply so as to preclude the inclusion of material submitted in part satisfaction of the requirements for the Degree of MSc(Res) or as part of the Research Training Programme.

44. A candidate shall include in the thesis

- (a) a declaration concerning access to and reproduction of the thesis;
- (b) a summary, not exceeding 300 words in length, which may be drawn up in consultation with the Supervisor.

45. Two hard copies of the thesis must be submitted to the Registrar and Secretary. An identical third copy must also be provided in electronic format, preferably on CD, and shall be retained by the University as a Master copy, pending the outcome of the examination. The hard copies shall be properly bound using the University Print Service's binding service or equivalent. When a thesis has been approved following examination, one properly bound copy shall be deposited in the University Library. Students who registered from 2008-09 onwards are additionally required to submit an identical copy of the final bound thesis in electronic format, in accordance with the University's procedures for e-theses.

46. The award of any qualification shall be withheld until a hard and/or electronic copy (as directed by the University) of the final version of the thesis following examination is submitted to the Registrar and Secretary.

MINIMUM PERIOD OF STUDY

47. The programme of research for a Master's Degree by Research shall be not less than one year for a full-time candidate and not less than two years for a part-time candidate.

TIME-LIMITS AND EXTENSIONS

48. Time-limits for the presentation of theses shall be calculated from the date of the candidate's initial registration at the commencement of the programme of research.

49. A University Staff candidate may apply for admission as a candidate at any time within one year after the commencement of the programme of research.

50. If, on the recommendation of the Examiners, a candidate is required to submit a revised thesis, such submission shall be within one year of the date of notification of the first result.

51. Applicable time-limits, including that set by the preceding Regulation, may, for good reason, be extended for one year by the Faculty and by a second year (and, in exceptional cases, by a further period) by the Senate on the recommendation of the Faculty. In any case in which the Faculty refuses to extend or recommend the extension of a time-limit, the Senate shall consider the case (including the views of the Faculty) and may grant the extension.

EXAMINERS

52. At least two Examiners shall be appointed to report to the Faculty on the thesis and oral examination. At least one Examiner shall be an External Examiner. Prior to appointment an Examiner shall declare any conflict of interest with respect to the candidate or their research project. The following special provisions apply to particular categories of candidate:

- (a) in the case of a University Staff candidate or a Research Fellowship or Independent Research Worker candidate, at least two External Examiners shall be appointed;
- (b) in the case of a University Staff candidate holding a non-established appointment arising from external financing, one Examiner may be a member of the Academic Staff of the University other than the grant-holder; at the discretion of the Pro-Vice-Chancellor, the grant-holder may be appointed as an additional Examiner.

FAILURE

53. A candidate for a Master's Degree or for the Degree of DClinPsy who fails to satisfy the Examiners may be permitted, on the recommendation of the Examiners, to present a revised thesis, or take a further oral examination, or both.

54. A candidate for the Degree of PhD, PhD with Integrated Studies, EdD, DBA, DDDSc, EngD or MD who fails to satisfy the Examiners may, on the recommendation of the Examiners:

- (a) be permitted on one occasion only to present a revised thesis, or take a further oral examination, or both; or
- (b) be awarded instead a Master's Degree; or
- (c) be permitted to become instead a candidate for a Master's Degree and to submit on one occasion only a revised thesis, and, if required by the

Examiners, take a further oral examination for the Master's Degree.

REGULATIONS FOR THE DEGREE OF PHD IN ALL FACULTIES

1. A person may be admitted as a candidate in one of the following categories:

- full-time student candidate;
- part-time student candidate;
- University Staff candidate;
- Hospital Staff candidate;
- Research Fellowship or Independent Research Worker candidate.

2.(a). (For candidates who commenced the programme of study and research before 1 August 2012)

The Senate may permit a candidate for a Master's Degree by research in any Faculty to become instead a candidate for the Degree of PhD and may recognise as part of the period of research for the Degree of PhD some or all of the time spent as a candidate for the Master's Degree.

2.(b). (For candidates commencing the programme of study and research on or after 1 August 2012)

A candidate's registration for the Degree of PhD will be considered probationary until such time as the candidate successfully passes the departmental Confirmation Review. A candidate may be permitted a maximum of two attempts to pass the Confirmation Review. The final decision regarding whether a candidate may be permitted to pass the Confirmation Review must be taken within 18 months of the candidates' initial registration. A candidate who fails the Confirmation Review will be required to transfer to candidacy for the Degree of MPhil.

3(a) (For candidates who commenced the programme of study and research before September 2010)

A full-time student candidate may not be awarded the Degree of PhD unless the candidate has been awarded a total of *forty-five* credits or *forty-five* less exemptions in respect of units prescribed in the Regulations for the Research Training Programme. A person may not be admitted as a full-time student candidate (or be permitted to transfer to that status from candidacy for a Master's Degree) unless (a) the candidate has taken units from those prescribed in the Regulations for the Research Training Programme and has been awarded at least *twenty* credits in respect of such units or *twenty* less exemptions; or (b) in exceptional circumstances, the candidate who has not yet satisfied that requirement is admitted (or permitted to transfer) subject to such condition as to satisfaction of that requirement by a specified date as the Senate may impose. The candidate may be exempted by the Senate from the whole or part of the requirements of this Regulation on account of credits awarded in another institution or of the candidate's previous study and/or experience, or in other exceptional circumstances.

3(b) (For candidates commencing the programme of study and research in or after September 2010)

Candidates will be required to undertake the Doctoral Development Programme as prescribed in the Regulations for the Doctoral Development Programme.

RECOGNITION OF ATTENDANCE AT OTHER INSTITUTIONS

4. The Senate may recognise as part of the period of research for the Degree of PhD other time already spent in another institution by a candidate under approved supervision on research relevant to the subject of the thesis, provided that:

- (a) the work done during that time has been approved by the Faculty as of sufficiently high standard; *and*
- (b) the work has not been and will not be submitted for any other Degree; *and*
- (c) the remaining period of research is at least two years.

PERIOD OF STUDY, REGISTRATION AND TUITION FEE PAYMENT

5. The programme of research shall be pursued for not less than the following periods:

- (a) full-time student candidates, two years in the case of the holder of a Bachelor's Degree with Honours or an equivalent qualification, or a Master's Degree, or (with the permission of the Senate) the Degrees of MB, ChB, and three years in all other cases, which must be spent in full-time work on the research, the permission of the Head of Department being required before the candidate undertakes any other work during the period;
- (b) part-time student candidates, four years (provided that the Faculty may require a particular candidate to spend some part of this period in full-time work in the University on the research topic);(c) University Staff candidates, a period not less than two years determined in each case by the Senate having regard to the candidate's qualifications and the proportion of time to be spent on the research, and so the total time devoted to the research shall not be less than that required of a full-time student candidate(except in the case of a person admitted as a University Staff candidate as a condition of external funding and who would otherwise have been admitted as a full-time student candidate, in which case Regulation 5(a) applies);
- (d) Hospital staff candidates, a period of not less than two years determined in each case by the Senate having regard to the candidate's qualifications and the proportion of time to be spent on the research and so the total time devoted to the research shall not be less than that required for a full time candidate;
- (e) Research Fellowship or Independent Research Worker candidates, two years in the case of the holder of a Bachelor's Degree with Honours or an equivalent Degree, or a Master's Degree, or (with the permission of the Senate) the Degrees of MB,

ChB, and three years in all other cases, which must be spent in full-time work on the research, the permission of the Head of Department being required before the candidate undertakes any other work during the period.

6. The normal period of registration and tuition fee payment shall be as follows:
- full-time student candidates, three years;
 - part-time student candidates, six years;
 - University Staff candidates, two years (except in the case of a person admitted as a University Staff candidate as a condition of external funding and who would otherwise have been admitted as a full-time student candidate, in which case Regulation 6(a) applies);
 - Hospital Staff candidates, six years;
 - Research Fellowship or Independent Research Worker candidates, three years.

TIME LIMITS

7. The time-limit for the presentation of the thesis shall be as follows:
- full-time student candidates, four years;
 - part-time student candidates, eight years;
 - University Staff candidates, eight years; (except in the case of a person admitted as a University Staff candidate as a condition of external funding and who would otherwise have been admitted as a full-time student candidate, in which case Regulation 7(a) applies);
 - Hospital Staff candidates, eight years;
 - Research Fellowship or Independent Research Worker candidates, four years.

SUPERVISION

8. In the case of a part-time student candidate (other than one admitted under a remote location scheme approved by the Senate), the supervision of the candidate shall be personal and not by correspondence only. The candidate shall meet the Supervisor at such frequent and regular intervals as the Faculty may direct. A report on the progress of the research shall be submitted annually by the Supervisor through the Faculty to the Senate.

Regulations for the Degree of PhD with Integrated Studies

- A person may be admitted in the following category:
full-time student candidate
- The programme of study and research shall be pursued for not less than four years.
- A candidate shall be admitted as a candidate for a Master's Degree approved for this purpose and pursue the programme of study for not less than one year.
- A candidate who after completing the minimum period of study has obtained not less than *one hundred*

and twenty credits may be permitted to become additionally a candidate for the Degree of PhD with Integrated Studies (in the case of a candidate commencing the programme of study and research before September 2010 or on or after 1 August 2012) or a candidate for the Degree of MPhil with Integrated Studies (in the case of a candidate commencing the programme of study and research in or after September 2010 but before 1 August 2012). Such a candidate shall

- pursue a programme of research for not less than three years, and present a thesis for examination in accordance with the Regulations for Higher Degrees by Research;
- (For candidates commencing the programme of study and research before September 2010)**
successfully complete the departmental upgrading process before progressing to the third year of study.
 - (For candidates commencing the programme of study and research in or after September 2010 but before 1 August 2012)**
successfully complete the departmental upgrading process before becoming a candidate for the Degree of PhD.
 - (For candidates commencing the programme of study and research on or after 1 August 2012)**
successfully pass the departmental Confirmation Review (prior to this the candidate's registration for the Degree of PhD with Integrated Studies will be considered probationary). A candidate may be permitted a maximum of two attempts to pass the Confirmation Review. The final decision regarding whether a candidate may be permitted to pass the Confirmation Review must be taken within 18 months of the candidates' initial registration for the Degree of PhD with Integrated Studies. A candidate who fails the Confirmation Review will be required to transfer to candidacy for the Degree of MPhil with Integrated Studies.
- successfully complete the departmental upgrading process before progressing to the third year of study (in the case of a candidate commencing the programme of study and research before September 2010) and additionally (in the case of a candidate commencing the programme of study and research in or after September 2010) before becoming a candidate for the Degree of PhD;
- obtain a total of not less than *forty-five* credits (or *forty-five* less exemptions) in respect of Research Training units prescribed by the Head of Department (in the case of a candidate who commenced the programme of study and research before September 2010), or undertake the Doctoral Development Programme as prescribed in the Regulations for the Doctoral Development Programme (in the case of a candidate commencing the programme of study and research in or after September 2010); and

(e) complete satisfactorily such of the additional non-credit-bearing requirements of the Regulations for the relevant programme as are specified to be met in the relevant year.

5. The time-limit for the Master's Degree shall be two years. The time-limit for the presentation of the thesis for the Degree of PhD with Integrated Studies shall be five years from initial registration as a candidate for the Master's Degree.

6. A candidate who completes the requirements of the programme of study and research for the Master's Degree may be awarded that Degree and a candidate who completes the requirements of Regulation 4 may also be awarded the Degree of PhD with Integrated Studies.

7. The following programmes of study and research are specified for the purposes of Regulation 3 above.

AAPT90 ARCHAEOLOGICAL MATERIALS (MSc)
(FACULTY OF ARTS AND HUMANITIES)
(For initial registration of a candidate for the Degree of PhD with Integrated Studies in Archaeological Materials only)

ACST90 CONTROL SYSTEMS (MSc)
(FACULTY OF ENGINEERING)
(For initial registration of a candidate for the Degree of PhD with Integrated Studies in Control and Systems Engineering only)

ARCT190 SUSTAINABLE ARCHITECTURAL STUDIES (MArchStudies) (FACULTY OF SOCIAL SCIENCES)
(For initial registration of a candidate for the Degree of PhD with Integrated Studies in Sustainable Architectural Studies only)

ARCT134 SUSTAINABLE ARCHITECTURE AND COMPUTER AIDED ENVIRONMENTAL DESIGN (MSc)
(FACULTY OF SOCIAL SCIENCES)
(For initial registration of a candidate for the Degree of PhD with Integrated Studies in Sustainable Architecture and Computer Aided Environmental Design only)

ARCT135 URBAN DESIGN (MA)
(FACULTY OF SOCIAL SCIENCES)
(For initial registration of a candidate for the Degree of PhD with Integrated Studies in Urban Design only)

ARCT136 ARCHITECTURAL DESIGN (MA)
(FACULTY OF SOCIAL SCIENCES)
(For initial registration of a candidate for the Degree of PhD with Integrated Studies in Architectural Design only)

ARCT137 CONSERVATION AND REGENERATION (MA)
(FACULTY OF SOCIAL SCIENCES)
(For initial registration of a candidate for the Degree of PhD with Integrated Studies in Conservation and Regeneration only)

ARCT138 DESIGNING LEARNING ENVIRONMENTS (MA)
(FACULTY OF SOCIAL SCIENCES)
(For initial registration of a candidate for the Degree of

PhD with Integrated Studies in Designing Learning Environments only)

BMST02 STEM CELL AND REGENERATIVE MEDICINE (MSc)
(FACULTY OF SCIENCE)
(For initial registration of a candidate for the Degree of PhD with Integrated Studies in Biomedical Science only)

CHMTXX MOLECULAR SCALE ENGINEERING (MSc) (FACULTY OF SCIENCE)
(For initial registration of a candidate for the Degree of PhD with Integrated Studies in Molecular Scale Engineering only)

CIVT90 ENVIRONMENTAL MANAGEMENT OF URBAN LAND AND WATER (MSc(Eng))
(FACULTY OF ENGINEERING)
(For initial registration of a candidate for the Degree of PhD with Integrated Studies only)

CIVT91 EARTHQUAKE AND CIVIL ENGINEERING DYNAMICS (MSc)
(FACULTY OF ENGINEERING)
(For initial registration of a candidate for the Degree of PhD with Integrated Studies only)

CIVT95 CONCRETE ENGINEERING (MSc)
(FACULTY OF ENGINEERING)
(For initial registration of a candidate for the Degree of PhD with Integrated Studies only)

CIVT96 STEEL CONSTRUCTION (MSc)
(FACULTY OF ENGINEERING)
(For initial registration of a candidate for the Degree of PhD with Integrated Studies only)

CIVT97 STRUCTURAL ENGINEERING (MSc)
(FACULTY OF ENGINEERING)
(For initial registration of a candidate for the Degree of PhD with Integrated Studies only)

COMT90 ADVANCED COMPUTER SCIENCE (MSc)
(FACULTY OF ENGINEERING)
(For initial registration of a candidate of the Degree of PhD with Integrated Studies in Computer Science only)

CPET90 ENVIRONMENTAL AND ENERGY ENGINEERING (MSc(Eng))
(FACULTY OF ENGINEERING)
(For initial registration of a candidate for the Degree of PhD with Integrated Studies only)

EDUT118 EDUCATION POLICY AND PRACTICE (MA)
(FACULTY OF SOCIAL SCIENCES)
(For initial registration of a candidate for the Degree of PhD with Integrated Studies in Education Policy and Practice only)

GEMT93 MOLECULAR AND GENETIC MEDICINE (MSc)
(FACULTY OF MEDICINE, DENTISTRY AND HEALTH)
(For initial registration of a candidate for the Degree of PhD with Integrated Studies only)

HART90 PUBLIC HEALTH (MPH)
(FACULTY OF MEDICINE, DENTISTRY AND HEALTH)
(For initial registration of a candidate for the Degree of PhD with Integrated Studies in Public Health or the Degree of PhD with Integrated Studies in Health Sciences Research only)

MATT91 ADVANCED METALLURGY (MMet)
(FACULTY OF ENGINEERING)
(For initial registration of a candidate for the Degree of PhD with Integrated Studies only)

MATT92 AEROSPACE MATERIALS (MSc (Eng))
(FACULTY OF ENGINEERING)
(For initial registration of a candidate for the Degree of PhD with Integrated Studies in Advanced Materials Science only)

MATT93 CERAMIC SCIENCE AND ENGINEERING (MSc (Eng))
(FACULTY OF ENGINEERING)
(For initial registration of a candidate for the Degree of PhD with Integrated Studies only)

MATT94 POLYMER AND POLYMER COMPOSITE SCIENCE AND ENGINEERING (MSc (Eng))
(FACULTY OF ENGINEERING)
(For initial registration of a candidate for the Degree of PhD with Integrated Studies only)

MATT95 WASTE IMMOBILISATION (MSc (Eng))
(FACULTY OF ENGINEERING)
(For initial registration of a candidate for the Degree of PhD with Integrated Studies in Waste Immobilisation only)

PAST90 STATISTICS (MSc)
(FACULTY OF SCIENCE)
(For initial registration of a candidate of the Degree of PhD with Integrated Studies in Probability and Statistics only)

PHYT90 NANOSCALE SCIENCE AND TECHNOLOGY (MSc)
(FACULTY OF SCIENCE) (Joint programme with the University of Leeds). (For initial registration of a candidate for the degree of PhD with Integrated Studies in Nanoscale Science and Technology only)

PHYT91 STUDIES AT THE LIFE SCIENCE/PHYSICAL SCIENCES INTERFACE (MSc)
(FACULTY OF SCIENCE)
(For initial registration of a candidate for the Degree of PhD with Integrated Studies only)

POLT90 RESEARCH METHODS IN POLITICS AND INTERNATIONAL RELATIONS (MA)
(FACULTY OF SOCIAL SCIENCES)
(For initial registration of a candidate for the Degree of PhD with Integrated Studies in Politics only)

TRPT90 PLANNING RESEARCH AND THEORY (MA)
(FACULTY OF SOCIAL SCIENCES)
(For initial registration of a candidate for the Degree of PhD with Integrated Studies in City, Society and Planning only)

Regulations for the Degree of PhD undertaken in an EPSRC Centre for Doctoral Training the Degree of EngD undertaken in an EPSRC Centre for Doctoral Training

1. A person may be admitted as a full-time student candidate.
2. The programme of study and research shall be pursued for not less than three years.
3. A candidate shall be admitted initially as a candidate for the Degree of MPhil leading to PhD/EngD (in the case of a candidate commencing the programme of study and research before 1 August 2012), or as a candidate for the Degree of PhD/EngD (in the case of a candidate commencing the programme of study and research on or after 1 August 2012) or as a candidate for a Postgraduate Diploma.
4. A candidate admitted initially for a Postgraduate Diploma approved for this purpose and who has obtained not less than *one hundred and twenty* credits may be permitted to become instead
 - (a) a candidate for the Degree of MPhil leading to PhD/EngD (in the case of a candidate commencing the programme of study and research before 1 August 2012), or as a candidate for the Degree of PhD/EngD (in the case of a candidate commencing the programme of study and research on or after 1 August 2012); and
 - (b) a candidate for an appropriate Postgraduate Diploma in professional skills, as specified in the Regulations for the relevant EPSRC Centre for Doctoral Training..
5. A candidate for the Degree of MPhil leading to PhD/EngD or the Degree of PhD/EngD and, where applicable also for the appropriate Postgraduate Diploma in professional skills shall
 - (a) pursue the programme of research for not less than three years on a full-time basis; and
 - (b) pursue the appropriate Postgraduate Diploma in professional skills on a part-time basis; and
 - (c) (i) **(For candidates commencing the programme of study and research before 1 August 2012)** successfully complete the relevant departmental upgrading procedure before progressing to the third year of study and becoming a candidate for the Degree of PhD/EngD or
(ii.) **(For candidates commencing the programme of study and research on or after 1 August 2012)** successfully pass the departmental Confirmation Review before progressing to the third year of study (prior to this the candidate's registration for the Degree of PhD/EngD will be considered probationary. A candidate may be permitted a maximum of two attempts to pass the Confirmation Review. A candidate who fails the Confirmation Review will be required to transfer to candidacy for the Degree of MPhil); and

(d) present a thesis for examination in accordance with the General Regulations for Higher Degrees by Research.

6. A candidate who successfully completes the requirements of the programme of study and research for the Degree of PhD/EngD may be awarded that Degree, and a candidate who successfully completes the requirements of the programme of study for the appropriate Postgraduate Diploma in professional skills may be awarded that Diploma.

7(a) For candidates who commenced the programme of study and research before September 2010

A candidate for the Degree of PhD/EngD undertaken in an EPSRC Centre for Doctoral Training shall complete either an appropriate Postgraduate Diploma in professional skills or *forty-five* credits of the Research Training Programme, as appropriate to the individual EPSRC Centre for Doctoral Training.

7(b) For candidates commencing the programme of study and research in or after September 2010

A candidate for the Degree of PhD/EngD undertaken in an EPSRC Centre for Doctoral Training shall complete an appropriate Postgraduate Diploma in professional skills and/or undertake the Doctoral Development Programme, as appropriate to the individual EPSRC Centre for Doctoral Training.

8. The time-limit for the presentation of the thesis for the Degree of PhD/EngD shall be five years from the date of initial registration as a candidate, this period may include some or all of the time spent as a candidate for the Degree of MPhil.

Regulations for the Degree of PhD by Publication in all Faculties

1. A person may be admitted as a candidate in the following category:

University Staff candidate.

2. A person may be admitted as a candidate who
(a) is a member of staff of at least two years' standing, *or* is the holder of at least two years' standing of an Honorary Academic Title conferred by the University; *and*

(b) has been deemed qualified for admission by the Faculty.

3. A candidate may, with the permission of the Senate, transfer registration from the Degree of PhD to registration for the Degree of PhD by Publication; the power to grant this permission may be devolved to Faculties where the Senate deems this to be appropriate.

4. The normal period of registration shall be no longer than 12 months.

5. The time-limit for the presentation of the published work shall be 12 months.

6. An academic advisor shall be appointed to provide guidance to the candidate on the presentation of the published work. The academic advisor shall be a senior member of the academic staff of the University who is

familiar both with the standard required and with the candidate's field of work.

7. A candidate who submits published work for examination for a doctoral degree shall:

(a) submit the published work (which will normally include only work published in scholarly books and journals within the last eight years);

(b) submit a substantial commentary not exceeding 15,000 words, linking the published work and outlining its coherence and significance;

(c) submit a signed statement advising how far the work submitted is based on the candidate's own independent study, making it clear, for each publication, how far the work was conducted in collaboration with or with the assistance of others and the conditions and circumstances in which the work was carried out;

(d) submit a CV, focusing on the candidate's research career and on the circumstances under which the research work leading to the publications submitted was carried out;

(e) pass an oral examination in matters relevant to the subject of the published works.

8. A candidate shall satisfy the Faculty that the published work shows convincing evidence of the capacity of the candidate to pursue research and scholarship and make an original contribution and substantial addition to knowledge. The amount and quality of the work should be at least equivalent to that expected for the Degree of PhD.

9. Published work submitted for the degree must be substantially different from any work which may have previously been submitted for any degree at this or any other institution.

10. At least two External Examiners shall be appointed to report to the Faculty on the thesis and oral examination. In addition, a member of academic staff shall be appointed by the Faculty to act as an internal co-ordinator. Prior to appointment, an Examiner shall declare any conflict of interest with respect to the candidate or their research project.

11. No person other than the candidate and the Examiners may be present at the oral examination except with the agreement of those persons.

12. A candidate who fails to satisfy the Examiners may, on the recommendation of the Examiners, be permitted on one occasion only to present a revised commentary linking the published work to address minor amendments, or be permitted to take a further oral examination, or both.

13. If the Senate decides on the recommendation of the Faculty that the Degree be not awarded, a candidate may not make another submission for the degree within two years of the first candidature.

14. A candidate shall submit appropriate copies of the published works as prescribed in Regulations 44-46 of the Regulations for Higher Degrees by Research.

Regulations for the Degree of MPhil in all Faculties

1. A person may be admitted as a candidate in one of the following categories:

- full-time student candidate;
- part-time student candidate;
- candidate without attendance;
- University Staff candidate;
- Hospital Staff candidate;
- Research Fellowship or Independent Research Worker candidate.

2. A candidate for the degree of MPhil commencing the programme of study and research in or after September 2010 will be required to undertake the Doctoral Development Programme as prescribed in the Regulations for the Doctoral Development Programme.

MINIMUM PERIOD OF STUDY

3. The programme of research shall be for not less than the following periods:

- (a) full-time student candidates (except in the Faculty of Medicine), one year;
- (b) full-time student candidates in the Faculty of Medicine, one year in the case of the holder of the Degrees of MB,ChB or BDS, or BMedSci with Honours or BSc with Honours of the University or an equivalent award of another institution or body recognised by the Senate, and two years in all other cases;
- (c) part-time student candidates, two years (provided that the Faculty may require a particular candidate to spend some part of this period in full-time work in the University on a research topic);
- (d) candidates without attendance, one year;
- (e) University Staff candidates, a period not less than one year determined in each case by the Senate having regard to the candidate's qualifications and the proportion of time to be spent on the research, and so that the total time devoted to the research shall not be less than that required of a full-time student candidate;
- (f) Hospital Staff candidates, a period not less than one year determined in each case by the Senate having regard to the candidate's qualifications and the proportion of time to be spent on the research, and so that the total time devoted to the research shall not be less than that required of a full-time student candidate;
- (g) Research Fellowship or Independent Research Worker candidates, one year, which must be spent in full-time work on the research, the permission of the Head of Department being required before the candidate undertakes any other work during the period.

4. In the case of part-time student candidates, the supervision of the candidate shall be personal and not by correspondence only. The candidate shall meet the

Supervisor at such frequent and regular intervals as the Faculty may direct. A report on the progress of the research shall be submitted annually by the Supervisor through the Faculty to the Senate.

TIME-LIMITS

5. The time-limit for the presentation of the thesis shall be as follows:

- (a) full-time student candidates, three years;
- (b) part-time student candidates, six years;
- (c) candidates without attendance, four years;
- (d) University Staff candidates, six years;
- (e) Hospital Staff candidates, six years;
- (f) Research Fellowship or Independent Research Worker candidates, four years.

Note: The attention of candidates seeking to transfer to candidacy for the Degree of PhD is drawn to Regulation 3 for that Degree.

Regulations for the Research Training Programme (for candidates who commenced the programme of study and research before September 2010)

1. These Regulations apply to candidates required under Regulation 3 of the Regulations for the Degree of PhD, Regulation 6 of the Regulations for the Degree of MD, and Regulation 6 of the Regulations for the Degree of DDSc to participate in the Research Training Programme.

2. The choice of units shall be made in consultation with the candidate's supervisor and Head of Department and is subject to the approval of the Faculty.

- (a) A candidate for the Degree of PhD shall take units to the value of *forty-five* credits - or in the case of a candidate exempted in part from the requirement of Regulation 3 of the Regulations for the Degree of PhD, such lower number as may be specified by the Senate. Not less than *twenty* of the prescribed credits must have been awarded before admission as a full-time student candidate or transfer to that status, in accordance with Regulation 3 of the Regulations for the Degree of PhD.
 - (b) A candidate for the Degree of MD or DDSc shall take units to the value of *thirty* credits (or in the case of a candidate exempted in part from the requirement of Regulation 6 of the Regulations for the Degree of MD or DDSc, such lower number as may be specified by the Senate). Not less than *twenty* of the prescribed credits must have been awarded before admission as a full-time student candidate or transfer to that status, in accordance with Regulation 6 of the Regulations for the Degree of MD or DDSc .
3. Units shall be selected from
- (a) those listed in the current handbook "Research Training at the University of Sheffield";

- (b) exceptionally and where the needs of a particular candidate so require, from units in any Degree programme for a Bachelor's or Master's Degree.
4. A candidate for the degree of PhD with Integrated Studies shall take RTP units as an integral part of the Degree Programme and units to be taken shall be prescribed by the Head of Department.
5. The Faculty may permit a candidate to amend the registration in respect of the units to be taken.
6. Where a candidate fails to be awarded credits in respect of a unit or units, the Faculty may permit the candidate to repeat the unit or units or to take another unit or units, in each case on such conditions as the Faculty may determine.

Regulations for the Doctoral Development Programme (for candidates commencing the programme of study and research in or after September 2010)

1. These Regulations apply to all candidates for Higher Degrees by Research listed in Regulation 29 of the General Regulations for Higher Degrees, Postgraduate Diplomas and Postgraduate Certificates, except candidates for the Degree of PhD/EngD undertaken in an EPSRC Centre for Doctoral Training (unless otherwise specified in the Regulations for the Degree of PhD or EngD undertaken in an EPSRC Centre for Doctoral Training), the Degree of MSc(Res), the Degree of LLM by research or the Degree of MMus by research.
2. The candidate shall undertake a Training Needs Analysis at the start of each year (or other appropriate period of study) in consultation with the supervisory team, in order to identify the additional skills and experience required to meet the levels of competence outlined in the appropriate Faculty's Needs Analysis Framework.
3. A candidate shall undertake an individual programme of training and skills development during each year (or other appropriate period of study) based on the outcomes of the Training Needs Analysis, to be agreed in consultation with the supervisory team subject to the approval of the Head of Department and the Faculty.
4. In the case of a candidate for the Degree of PhD, PhD with Integrated Studies, MD, DSc, EngD or EdD a candidate may not be permitted to transfer to that status from candidacy for a Master's degree, (in the case of a candidate commencing the programme of study and research before 1 August 2012), or to pass the Confirmation Review (in the case of a candidate commencing the programme of study and research on or after 1 August 2012), unless the candidate has presented a portfolio demonstrating that they have undertaken the agreed programme of training and skills development and have achieved an appropriate level of competency as agreed by the supervisory team.

5. Where a candidate fails to successfully complete a part or parts of the programme of training and skills development, the Faculty may permit the candidate to repeat that part or parts, or to undertake other training or skills development, in each case on such conditions as the Faculty may determine.

General Regulations as to Examinations⁵

INVIGILATED EXAMINATIONS

1. A candidate shall not use or attempt to use any unfair means (e.g. plagiarism) and shall not communicate with or attempt to communicate with any other candidates. Answers must be the candidate's own work. Where other material is quoted, the candidate shall state the source(s) from which it is derived.
2. A candidate shall not use any answer book, writing paper or blotting paper other than that supplied in the examination hall.
3. All unauthorised material (such as revision notes, books and data tables) and electronic devices (such as electronic dictionaries, mobile phones, radios and personal audio equipment) shall be left outside the examination hall or surrendered to an invigilator before entering the hall. Any material required for any particular examination will be provided in the hall. (If candidates are permitted to introduce books, notes or other material into an examination hall, they will be informed by the Department concerned, and the nature and extent of the authorised material will be stated on the question paper.)
4. No part of an answer book shall be torn off and all answer books and other material supplied in the examination hall shall be left behind on candidates' desks at the end of the examination.
5. A candidate whose first language is not English may use a dictionary during examinations, provided that
 - (i) the candidate has obtained the written permission of the Pro-Vice-Chancellor of the relevant Faculty; and
 - (ii) the candidate presents the dictionary, together with the written authority for inspection of the Chief Invigilator at the beginning of each examination in which the dictionary is to be used.
 - (iii) electronic dictionaries may not be used in invigilated examinations.
6. A candidate may use an electronic calculator in examinations (unless such use has been prohibited in any particular examination by the Examiners), subject to the following conditions:
 - (i) the calculator shall be of a type officially approved in advance by the University;
 - (ii) each calculator to be used in an examination shall be approved in advance by the Pro-Vice-Chancellor of the relevant Faculty or by the Pro-Vice-Chancellor's representative, and such approval shall be symbolised by the attachment of a distinctive marker to the calculator;
 - (iii) the calculator shall be presented for inspection by an invigilator on request at the beginning of each examination in which the calculators are to be used;

- (iv) the calculator shall be self-contained, battery-operated and noiseless;
 - (v) spare batteries may be taken into the examination hall, but instruction manuals, battery chargers, battery packs and spare parts are not permitted, nor any attachments which extend the capabilities of the calculator (such as printers or memory packs);
 - (vi) any time signals on the calculator shall be switched off before entry into the examination hall;
 - (vii) a candidate who brings into the examination hall any calculator not approved in accordance with these Regulations will be considered to have used or attempted to use unfair means.
7. A candidate should also refer to the Notes on the Use of Unfair Means in the Assessment Process: Advice to Students.

NON-INVIGILATED EXAMINATIONS

8. A candidate shall not use or attempt to use any unfair means (eg plagiarism).
9. A candidate shall comply with any conditions prescribed by the relevant Department in respect of the submission of material for the purpose of assessment. Such conditions may include the date and place of submission of material, the method of submission (e.g. hard copy and/or electronic copy) the number of copies required, the method of presentation (e.g. typewritten), the need to obtain an official receipt and any other special requirements.
10. Submitted material must be a candidate's own original work. Where other material is used, the candidate shall state the source(s) from which the information is derived and the extent to which the candidate has made use of the work of others.
11. A candidate should also refer to the Notes on the Use of Unfair Means in the Assessment Process: Advice to Students.

BREACH OF REGULATIONS

12. Any breach of the preceding Regulations will constitute the use of unfair means.

NOTES FOR CANDIDATES ON INVIGILATED EXAMINATIONS¹

Before the Examination

1. The use of calculators in examinations
A candidate wishing to use an electronic calculator in an examination should note Examination Regulation 6 and request approval for the particular calculator no later than week 10 of the relevant Semester. Approval for a calculator to be used in University examinations is granted on an individual basis and each calculator to be

⁵ Regulations 1-12 apply to students in all Faculties, including the International Faculty. The Notes for Candidates on Invigilated Examinations apply only to students in the Sheffield-based Faculties. Separate Regulations apply to students in the International Faculty (www.city.academic.gr/docs/ifgenspec.pdf).

used must be presented by the student for the attachment of a distinctive marker.

If you expect to use a calculator in an examination you must comply with the following instructions:

- (a) Consult the lists of approved/prohibited models displayed in Departmental Offices, the Student Services Information Desk (SSiD) in the Union of Students Building and in the Registration and Examinations Office, Level 6 University Houses. (Students are advised not to buy a new calculator without consulting the latest edition of the lists.)
- (b) If your calculator is shown on the list of approved models, take it to SSiD where a marker will be attached.
- (c) If your calculator is shown on the list of prohibited models, do not attempt to use it in an examination. If you do you will be judged to have “used or attempted to use unfair means” and disciplinary action may be taken against you.
- (d) If your calculator is on neither list, take it to SSiD as soon as possible and preferably no later than mid-December in any year, and complete the application for it to be approved. You will be able to keep your calculator. A decision will be available before the Christmas vacation. Further applications can be considered after the Easter vacation but no later than the beginning of May in any year. Calculators which do not have external means of programming and have numeric function only will almost certainly be permitted. Among the calculators which are prohibited are:
 - (i) those having an alphabetic display of stored data (including text) or equations or alphabetic formulae; (models which produce alphabetic output only in the form of messages in the normal course of operation are permissible).
 - (ii) those capable of external programmability, whether by detachable modules or the insertion of cards, tape, bar codes or cassettes, or by any other means (other programmable calculators are normally acceptable).

Approval given to calculators in previous years remains valid. Any calculators which are already marked as approved do not need to be re-submitted for approval.

2. All candidates should read carefully the General Regulations as to Examinations.

3. Fee: No fee is payable when a candidate takes an examination at the first sitting. A re-examination fee must be paid when a candidate has failed at the first sitting or been absent on that occasion without good cause.

4. Timetables: For invigilated examinations draft timetables will be displayed in departments in week 9 or 10 of each Semester. Students are asked to check that all their papers appear on the draft. If there are any clashes or missing papers, students should contact the Registry Office, Level 6, University House immediately. The final examination timetables will be displayed in academic departments and on the

University’s web-site in week 11 and 12 of each Semester. The numbers of the question papers will be indicated on the timetables and printed in bold type in the top right-hand corner of the papers. The examination halls in which papers are being held will be included on the final timetable. As desks are allocated by paper numbers, candidates should note the number of the paper to be taken and not just the title.

5. Anonymous marking and U-cards: Candidates will write their Registration Numbers on all answer books. Candidates must bring their UCard (which bears the Registration Number) to every examination. Any candidate who does not possess such a card must consult the Registry Office, Level 6, University House at least 14 days before the first examination.

6. Religious beliefs: Any student who is not able, for religious reasons, to take examinations on any day on which examinations may be set during the year (including Saturdays but not Sundays), is asked to notify the Registry Office at the beginning of each session for which he/she registers. Once examination timetables have been set it is difficult for alterations to be made.

7. Alternative examination arrangements: The Examinations Team will make alternative examination arrangements for students with a long-term or permanent disabling condition, dyslexic students and those with additional support requirements. Students so affected should contact the Examinations Team as soon as possible in the first year of attendance. A request for alternative arrangements should be supported by staff of the University Health Service, the University Counselling Service, the Sheffield Regional Access Centre or an educational psychologist.

8. Dictionaries: A candidate whose first language is not English should note the provision of Examination Regulation 5. Permission to use dictionaries can be requested through the Student Services Information Desk (SSiD).

9. Illness before an examination: A candidate who is taken ill prior to an examination should consult the University Health Service at the earliest opportunity in order that alternative examination arrangements can be considered and a medical report can be made to the Examiners.

On the day of an invigilated examination

10. **Personal belongings:** Candidates should bring to the hall only essential personal belongings (e.g. pens and rulers in a transparent plastic bag) and preferably no items of value. Outdoor coats, large bags, brief cases etc., must be left outside the hall, in cloakrooms, if available, or in a designated area of the hall itself. (Small handbags may be left on the floor by the candidate’s desk). The University of Sheffield accepts no responsibility for any loss or damage to personal belongings. You will be unable to claim from the University if they are lost or damaged.

11. **Mobile phones and pagers** (and other devices which can store text) must not be taken to examinations.

A mobile phone is potentially a method of storing unauthorised material. See 3 General Regulations as to Examinations. If taken to an examination unintentionally, they must be surrendered to an Invigilator before entering the hall. No additional time will be allowed in compensation for time taken in recording the custody of such items by the Invigilators. The return of such items to their owners after an examination may be delayed if the Invigilators are otherwise occupied by examination duties.

12. Unauthorised material (such as revision notes): See Regulation 3 for Invigilated Examinations.

13. Smoking and the consumption of alcoholic drinks is not allowed in the examination halls.

14. Admission to the hall: Candidates will be admitted to the hall a few minutes before the start of each examination.

15. Absence: If, for no good reason, a student fails to attend an examination, special papers will not be set and the student shall be deemed to have failed.

16. Late arrival and early departure: Candidates who are more than 30 minutes late for an examination will not be admitted. A candidate will not be allowed to withdraw from an examination until 40 minutes have elapsed. Any candidate leaving an examination must do so quietly and take great care not to disturb other candidates. No candidate will be allowed to leave during the last ten minutes of an examination.

17. Seating arrangements in examination halls: Candidates should read carefully the seating arrangements which will be set out on the noticeboard outside the examination hall. Candidates are not allowed to reserve seats for themselves beforehand. Invigilators may require candidates to move to alternative seats.

18. On the examination desk the candidate will find the question paper, answer books, an attendance slip and any ancillary materials provided for the particular examination.

19. During the few minutes before the examination begins, candidates must:

- (a) listen carefully to any announcements the Chief Invigilator may have to make
- (b) make sure that they have the correct question paper on their desks; if in doubt they should put up a hand and ask an Invigilator
- (c) complete the attendance slip on the desk, (this will be collected by an Invigilator soon after the start of the examination)
- (d) complete as far as possible the cover sheet of one answer book on the desk
- (e) read the notes on the cover of the answer book.

20. If candidates require further stationery during the examination, they should put up a hand and an Invigilator will bring it to them.

21. Temporary withdrawal: A candidate who wishes to make a temporary withdrawal from an examination for personal reasons must put up a hand and ask to be

accompanied by an Invigilator or other authorised person.

22. Illness during an Examination:

- (a) A candidate who wishes to withdraw from an examination because of illness should inform an Invigilator. The candidate may be escorted to the University Health Service and may be able to complete the examination later. If the candidate chooses not to be escorted (s)he should attend the University Health Service without delay or ask one of the Medical Officers to call on him/her; otherwise the University Health Service may not be able to advise the academic authorities on the student's condition at the time of the examination.
- (b) If a candidate is temporarily affected by illness but is able to continue the examination after a short absence, the period of time lost through illness will be noted and the information taken into consideration where appropriate.

23. At the end of an examination all answer books, continuation sheets (even if only used for rough notes) and graph paper should be fastened together with string. If more than one book is used, all relevant papers should be fastened in their appropriate book. All cover sheets of used answer books must be completed and candidates must enter in the space provided the numbers of the questions answered within, in the order in which they have been attempted. Candidates must leave the hall quickly and quietly when permitted to do so, leaving all written work on the desk. Question papers may be removed from the hall only if no instruction to the contrary is given.

After the Examination

24. Publication of results: Examination results will be made available through academic departments or posted to the student's permanent or correspondence address, if not available during a Semester.

USE OF UNFAIR MEANS IN THE ASSESSMENT PROCESS (non invigilated exams): ADVICE TO STUDENTS⁶

The University expects its graduates to have acquired certain attributes (see the Sheffield Graduate⁷). Many of these relate to good academic practice:

- a critical, analytical and creative thinker;
- an independent learner and researcher;
- information literate and IT literate;
- a flexible team worker;
- an accomplished communicator
- competent in applying their knowledge and skills;

⁶ The Advice to Students on the Use of Unfair Means in the Assessment Process applies to students in the Sheffield-based Faculties. Additional Advice applies to students in the International Faculty
(www.city.academic.gr/docs/ifgenspec.pdf).

⁷ <http://www.shef.ac.uk/sheffieldgraduate/>

- professional and adaptable.

Throughout your programme of studies at the University you will learn how to develop these skills and attributes. Your assessed work is the main way in which you demonstrate that you have acquired and can apply them. Using unfair means in the assessment process is dishonest and means that you cannot demonstrate that you have acquired these essential academic skills and attributes.

What constitutes unfair means?

The basic principle underlying the preparation of any piece of academic work is that the work submitted must be your own work. **Plagiarism, submitting bought or commissioned work, double submission (or self plagiarism), collusion and fabrication of results** are not allowed because they violate this principle (see definitions below). Rules about these forms of cheating apply to all assessed and non-assessed work.

1. Plagiarism (either intentional or unintentional) is using the ideas or work of another person (including experts and fellow or former students) and submitting them as your own. It is considered dishonest and unprofessional. Plagiarism may take the form of cutting and pasting, taking or closely paraphrasing ideas, passages, sections, sentences, paragraphs, drawings, graphs and other graphical material from books, articles, internet sites or any other source and submitting them for assessment without appropriate acknowledgement.

2. Submitting bought or commissioned work (for example from internet sites, essay “banks” or “mills”) is an extremely serious form of plagiarism. This may take the form of buying or commissioning either the whole piece of work or part of it and implies a clear intention to deceive the examiners. The University also takes an extremely serious view of any student who sells, offers to sell or passes on their own assessed work to other students.

3. Double submission (or self plagiarism) is resubmitting previously submitted work on one or more occasions (without proper acknowledgement). This may take the form of copying either the whole piece of work or part of it. Normally credit will already have been given for this work.

4. Collusion is where two or more students work together to produce a piece of work, all or part of which is then submitted by each of them as their own individual work. This includes passing on work in any format to another student. Collusion does not occur where students involved in group work are encouraged to work together to produce a single piece of work as part of the assessment process.

5. Fabrication is submitting work (for example, practical or laboratory work) any part of which is untrue, made up, falsified or fabricated in any way. This is regarded as fraudulent and dishonest.

6. Facilitating the use of unfair means is where any student assists a fellow student in using any of the

forms of unfair means defined above, for example in submitting bought or commissioned work.

How can I avoid the use of unfair means?

To avoid using unfair means, any work submitted must be your own and must not include the work of any other person, unless it is properly acknowledged and referenced.

As part of your programme of studies you will learn how to reference sources appropriately in order to avoid plagiarism. This is an essential skill that you will need throughout your University career and beyond. You should follow any guidance on the preparation of assessed work given by the academic department setting the assignment.

You are required to **declare that all work submitted is entirely your own work**. Many departments will ask you to attach a declaration form to all pieces of submitted work (including work submitted online). Your department will inform you how to do this.

If you have any concerns about appropriate academic practices or if you are experiencing any personal difficulties which are affecting your work, you should consult your personal tutor, supervisor or another member of staff involved.

The following websites provide additional information on referencing appropriately and avoiding unfair means:

The **Library** provides online information literacy skills tutorials

<http://www.shef.ac.uk/library/services/infoskills.html>

The **Library** also has information on reference management software

<http://www.shef.ac.uk/library/refmant/refmant.html>

The **English Language Teaching Centre** operates a **Writing Advisory Service** through which students can make individual appointments to discuss a piece of writing. This is available for all students, both native and non-native speakers of English.

<http://www.shef.ac.uk/eltc/services/writingadvisory>

What happens if I use unfair means?

Any form of unfair means is treated as a serious academic offence and action may be taken under the Discipline Regulations. For a student registered on a professionally accredited programme of study, action may also be taken under the Fitness to Practise Regulations. Where unfair means is found to have been used, the University may impose penalties ranging from awarding no grade for the piece of work or failure in a PhD examination through to expulsion from the University in extremely serious cases.

Detection of Unfair Means

The University subscribes to a national plagiarism detection service which helps academic staff identify the original source of material submitted by students. This means that academic staff have access to specialist software that searches a database of reference material gathered from professional publications,

student essay websites and other work submitted by students. It is also a resource which can help tutors and supervisors to advise students on ways of improving their referencing techniques. Your work is likely to be submitted to this service.

General Regulations as to Progress of Students⁸

CONDUCT OF REVIEW

1. A review of the progress of a student registered as a candidate for any Degree or other qualification shall be conducted by the Faculty under the following Regulations or by the Faculty Student Review Committee to which the Faculty has delegated this function.
2. A student's progress may be reviewed if the student is reported by a Head of Department to the Pro-Vice-Chancellor of the relevant Faculty for review on any one or more of the following grounds:
 - (a) failure to attend regularly, or as specified in the relevant Regulations, the programme of study for which the student has registered;
 - (b) failure to perform adequately the work of the programme;
 - (c) failure to present at the times appointed such written work as may have been required;
 - (d) failure to pass an examination;
 - (e) failure to pursue the programme of research or to co-operate appropriately with the appointed supervisor;
 - (f) failure to demonstrate a satisfactory level of professional competence in dealings with others which form part of the student's programme of study or research.

The purpose of the review shall be to determine whether the student shall be permitted to continue the programme of study, and if so on what terms and all aspects of the student's record may be taken into consideration. Where successful conclusion of the programme of study leads to professional practice, that may be taken into consideration.

3. The Pro-Vice-Chancellor or another Officer of the Faculty shall offer any student whose progress is to be reviewed the opportunity to bring before the Faculty or the Committee considerations affecting the case.
4. The Faculty or the Committee shall have power:
 - (a) to exclude or suspend the student from further attendance at lectures, classes and examinations in the Faculty;
 - (b) to suspend the student from attendance at lectures and classes in the Faculty but with permission to take examinations;
 - (c) to exclude or suspend the student from candidature for the higher Degree for which the student is registered;
 - (d) to require that the student transfers to an alternative programme of study;
 - (e) to permit the student to continue the programme of study unconditionally or subject to such requirements of an academic nature as may be

imposed, provided that, in the absence of special circumstances, an undergraduate student registered for a full-time programme of study shall not be permitted to repeat with attendance more than one year of the programme of study.

5. The despatch of a letter to a student's address last notified to the Student Services Department shall fulfil any requirements of giving notice or information to the student under these Regulations.
6. A student who has been excluded from attendance at lectures, classes and examinations in any Faculty may register in another Faculty only with the permission of the Faculty and the latter Faculty.

RIGHT OF APPEAL

7. The decision of the Faculty or Committee shall be reported to the Director of Student Services, who shall inform the student of the decision and of the effect of this Regulation. A student wishing to appeal against the decision to the Appeals Committee of the Senate shall give notice in writing within 14 days of the date of the letter of notification and the notice shall contain a statement of the grounds for appeal. A Pro-Vice-Chancellor may extend the time-limit imposed by this Regulation.
8. A student may only appeal against a decision of the Committee upon one or more of the following grounds:-
 - (a) that there was a material procedural irregularity which rendered the process leading to the initial decision unfair;
 - (b) that material which the student could not reasonably have been expected to produce at the time of the initial decision casts substantial doubt upon the appropriateness of that decision;
 - (c) that the initial decision was manifestly unreasonable.
9. Appeals are considered by the Appeals Committee of the Senate. The Appeals Committee may confirm, vary or quash the decision of the Faculty or Committee and may exercise any of the powers conferred upon the Faculty or Committee by the foregoing Regulations. The Appeals Committee shall have no power to vary any decision made by Examiners.
10. The student shall be informed of the decision of the Appeals Committee.

⁸ Regulations 1-6 apply to students in all Faculties. Regulations 7-10 apply only to students in the Sheffield-based Faculties. Separate Regulations apply to students in the International Faculty (www.city.ac.gr/genspec).

General Regulations as to Academic Appeals

1. A student may apply under these Regulations for a recommended grade for any unit or Degree classification or examination result to be re-considered in the light of new evidence.

GROUNDINGS FOR APPEAL

2. For these purposes, 'new evidence' is defined as:

- (i) procedural error either by the Examiners or during the recording, transcription and reporting of the examination results and additionally, in the case of Higher Degrees by Research, evidence of negligence or misconduct on the part of an Examiner;
- (ii) extenuating circumstances which the student was unable to place, or for valid reasons did not place, before the Examiners;
- (iii) evidence of a failure of supervision which significantly affected the candidate's performance and which could not reasonably be expected to have been the subject of complaint by the student to the Head of Department or the Pro-Vice-Chancellor of the Faculty before the examination.

These are the only grounds on which representations can be made. Appeals will not be considered against the academic judgement of the Examiners. Representations may, however, be made in cases where the Examiners have recommended, in response to a candidate using unfair means in an examination, that a credit or examination result be refused or a grade reduced.

PROCEDURE

Reference in these Regulations to the Pro-Vice-Chancellor means the Pro-Vice-Chancellor of the relevant Faculty and includes any person authorised to act on their behalf.

3. A student who wishes to place such new evidence before the Faculty shall apply in writing, setting out clearly the facts which the student wishes the Faculty to consider and showing how those facts constitute new evidence as here defined. The application must be made to the Pro-Vice-Chancellor

- (a) within 28 days of the publication of the examination result in the case of a candidate for a Higher Degree by research; or
- (b) within 14 days of the publication of the examination result in any other case.

The Pro-Vice-Chancellor may extend the time limit imposed by this Regulation.

For the purposes of these Regulations, the date of publication of examination results means the date upon which the examination results are first made available to students in the relevant Department, even though the results are still subject to confirmation by the Faculty and the Senate.

4. After consulting the Head of Department, the Pro-Vice-Chancellor may

- (a) determine that the appeal be upheld; or

- (b) convene an Academic Appeals Committee of the Faculty to hear the case; or

- (c) refer a case to the Discipline Committee for action under the Regulations as to the Discipline of Students where representations have been made by a candidate using unfair means (or alleged to have used unfair means) in an examination; or

- (d) determine that there is no substantive case for appeal.

ACADEMIC APPEALS COMMITTEE

5. The Academic Appeals Committee shall comprise

- (a) in the case of an appeal by a candidate for a higher Degree by research

- (i) the Pro-Vice-Chancellor or nominated representative;

- (ii) two other members of the Faculty;

- (iii) two members of another Faculty; and

- (b) in any other case

- (i) the Pro-Vice-Chancellor or nominated representative;

- (ii) not less than two and not more than four other members of the Faculty.

6. The student may opt either (a) for the appeal to be dealt with on written submissions; or (b) for an oral hearing (at which the student may choose to be accompanied by a friend or adviser).

7. Where the appeal is to be dealt with on written submissions, the Committee shall receive

- (a) the material submitted by the student;

- (b) any written comments made on that material by or on behalf of the Head of Department and, where appropriate, by the supervisor; and

- (c) any written comments made by the student on the material submitted under (b) above.

8. Where there is an oral hearing, the Committee shall hear oral submissions by or on behalf of the student, the Head or other representative of the Department, and where appropriate the supervisor. The student may comment on the submissions made by others. In any case in which factual matters are in dispute, the Committee shall investigate the facts, and may invite appropriate persons to attend to assist; during this process, the student may be present and may ask questions, make comments, and produce other persons who can provide information or testimony.

9. The Committee shall reconsider the grade, classification, result or other subject of the appeal in the light of the material available to it. Except as provided above, no person other than members of the Committee and its Secretary shall be present during its deliberations.

10. The Pro-Vice-Chancellor or the Committee shall report to the Faculty and may make any recommendation as to the subject matter of the appeal

as could, under the relevant Regulations, have been made by the Examiners.

11. Where the substance of the appeal concerns acts or omissions of the Pro-Vice-Chancellor, and in any other case where it is inappropriate for the Pro-Vice-Chancellor to act under these Regulations, the Pro-Vice-Chancellor shall appoint a Deputy.

General Regulations relating to Student Fitness to Practise

These Regulations relate to students following Programmes specified in the accompanying Procedural Notes. In these cases, the University has a responsibility (and in some instances a statutory obligation) to ensure that students are fit to practise in the relevant profession and that they meet or are likely to meet the requirements of the relevant professional body.

1. Any concerns about a student (which might become the subject of proceedings under these Regulations) shall be reported to the Head of Department.
2. Matters which may give rise for concern may include any health condition, behaviour or attitude which may affect the student's fitness to practise in the relevant profession.

INITIAL INVESTIGATION

Reference in these Regulations to the Pro-Vice-Chancellor means the Pro-Vice-Chancellor of the relevant Faculty and includes any person authorised to act on their behalf.

3. On receipt of information regarding any areas of concern, the Head of Department will instigate a preliminary investigation into the matter. The student will be informed in writing of the concerns and will be given the opportunity to make representations in person or in writing.
4. Following the initial investigation, the Head of Department may decide to:-
 - (a) take no further action under these Regulations;
 - (b) suspend the student in accordance with Regulation 5;
 - (c) make a recommendation that the case is considered by the Faculty Fitness to Practise Committee.

SUSPENSION OF STUDENTS

5. Pending the completion of proceedings under these Regulations, the Head of Department may, with the agreement of the Pro-Vice-Chancellor, suspend the student from studies on the programme, any practice components or from both studies and practice components, and may include other requirements within the terms of the suspension. The Head of Department shall notify the student in writing of the terms of the suspension.
6. The Pro-Vice-Chancellor may take action under this Regulation only to protect the University community in general or a particular member or members of that community or members of the public and shall limit the scope of any suspension to that which is, in their opinion, necessary to achieve that object.
7. The Pro-Vice-Chancellor shall review any suspension every four weeks in the light of any developments and any representations made by or on behalf of the student.

PROCEDURE WHEN MATTER REFERRED TO A FITNESS TO PRACTISE COMMITTEE

8. There shall be a Faculty Fitness to Practise Committee which shall consist of:-
 - (a) the Pro-Vice-Chancellor or nominated representative;
 - (b) one member of the academic staff from the Department in which the student is registered who shall normally be registered with the relevant professional regulatory body;
 - (c) one member of academic staff from another Faculty or a member of academic staff from another University or other relevant institution or body.
9. The student shall be given at least fourteen days notice in writing of the date upon which the Committee will meet. If the student fails to attend the hearing, the Committee may proceed in the absence of the student if it is satisfied that due notice of the meeting has been given or may adjourn to a later date.
10. The hearing shall be in private. The student may attend and be accompanied at the hearing by a friend or representative, whether legally qualified or not. The representative may speak and act on behalf of the student.
11. The Committee shall have power:-
 - (a) to decide that the grounds for concern are not made out, in which case the Committee may recommend the removal of any suspension imposed under Regulation 5;
 - (b) to permit the student to continue with the programme, either unconditionally or subject to such requirements pertaining to the programme as may be imposed;
 - (c) to suspend the studies of the student for a specified time;
 - (d) to require the student to repeat a specified part or parts of the programme;
 - (e) to require any other action considered appropriate by the Committee to enable the student's successful completion of the remainder of the programme;
 - (f) to exclude the student from further study on a programme leading to a professional qualification but permit registration for an alternative programme;
 - (g) to exclude the student from further study in the Faculty.
12. The despatch of a letter to a student's address last notified to the Student Services Department shall fulfil any requirements of giving notice or information to the student under these Regulations.
13. A student who has been excluded from attendance at lectures, classes and examinations in any Faculty may register in another Faculty only with the permission of the latter Faculty.

RIGHT OF APPEAL

14. The Director of Student Services shall notify the student of the decision and of the effect of this Regulation. A student may appeal against a decision of the Committee upon one or more of the following grounds:-

- (a) that there was a material procedural irregularity which rendered the process leading to the initial decision unfair;
- (b) that material of which the student could not reasonably have been expected to have been aware of at the time of the initial decision casts substantial doubt upon the appropriateness of that decision;
- (c) that the initial decision was manifestly unreasonable.

15. Notice of appeal, specifying which of the grounds listed in the preceding Regulation is relied upon, shall be given to the Director of Student Services within 14 days of the date of the letter of notification to the student of the decision. The Director of Student Services shall refer the appeal to the Appeals Committee of the Senate.

16. The Appeals Committee may confirm, vary or quash the original decision and may exercise any of the powers conferred on the Faculty Fitness to Practise Committee by the foregoing Regulations.

17. The Director of Student Services shall notify the student of the decision of the Appeals Committee.

18. Reference in these Regulations to the Director of Student Services includes any person authorised to act on their behalf.

Regulations as to the Discipline of Students⁹

MISCONDUCT DEFINED

1. Misconduct for the purposes of these Regulations is improper interference, in the broadest sense, with the proper functioning or activities of the University, or those who work or study in the University; or action which otherwise damages the University.

2. Subject to the general definition in the preceding Regulation, the following shall constitute misconduct

- (a) disruption of, or improper interference with, the academic, administrative, sporting, social or other activities of the University, whether on University premises or elsewhere;
- (b) obstruction of, or improper interference with, the functions, duties or activities of any student, member of staff or other employee of the University or any authorised visitor to the University;
- (c) violent, indecent, disorderly, threatening or offensive behaviour or language whilst on premises owned or managed by the University or engaged in any University activity or which affects or concerns any member of the University;
- (d) fraud, deceit, deception or dishonesty in relation to the University or its staff or in connection with holding any office in the University or in relation to being a student of the University;
- (e) behaviour likely to cause injury or impair safety on premises owned or managed by the University or such behaviour which affects or concerns any member of the University;
- (f) behaviour which puts or is likely to put at risk of harm any person with whom a student has dealings as part of a programme of study or research
- (g) sexual, racial or any other form of personal harassment of any student, member of staff or other employee of the University or any authorised visitor to the University;
- (h) breach of the University's Code of Practice relating to Meetings and Other Activities on University Premises under section 43 of the Education (No 2) Act 1986 or of any other Regulation which provides for breaches to be dealt with under these Regulations;
- (i) the use of any unfair means in the assessment process of the University;
- (j) damage to, or defacement of, property on any premises owned or managed by the University or the property of other members of the University community caused intentionally or recklessly, or misappropriation of such property;
- (k) misuse or unauthorised use of premises or items of property in premises owned or managed by the University, including computer misuse;

- (l) conduct which constitutes a criminal offence where that conduct
 - (i) took place on premises owned or managed by the University, or
 - (ii) affected or concerned other members of the University community, or members of the public, or
 - (iii) damages the good name of the University, or
 - (iv) itself constitutes misconduct within the terms of these Regulations, or
 - (v) is an offence of dishonesty, where the student holds an office of responsibility in the Union of Students, or on premises owned or managed by the University;
- (m) behaviour which brings or is likely to bring the University into disrepute, for example misconduct in a community or other public setting;
- (n) failure to disclose name and other relevant details to an officer or employee of the University in circumstances when it is reasonable to require that such information be given;
- (o) failure to comply with a previously-imposed penalty, requirement or undertaking under these Regulations.
- (p) breach of any tenancy agreement in relation to accommodation owned or managed by the University.

DISCIPLINE PANEL AND DISCIPLINE COMMITTEE

Reference in these Regulations to the Director of Student Services includes any person authorised to act on their behalf.

3. There shall be a Discipline Panel which shall consist of

- (a) at least three members of the staff of the School of Law appointed by the Senate to be Chairmen of the Discipline Panel; and
- (b) at least seven members of the academic staff appointed by the Senate, and;
- (c) persons nominated by the Director of Student Services.

If for any reason no Chairman of the Discipline Panel is able to act, the Director of Student Services may appoint another person with legal training to act as a Temporary Chairman, and that person may be a member of the academic staff of another University.

4. The Discipline Committee of the Senate acting in respect of any matter shall be convened by the Director of Student Services and shall comprise

- (a) a Chairman of the Discipline Panel;
- (b) two other members of the Discipline Panel (in the case of alleged misconduct by a student in appropriate professionally accredited programmes

⁹ Regulations 1-2 apply to students in all Faculties. Regulations 3-33 apply only to students in the Sheffield-based Faculties. Separate Regulations apply to students in the International Faculty (www.city.academic.gr/docs/ifgenspec.pdf).

of study, to include one member of the Discipline Panel who is a member of the staff of that Faculty registered with the relevant professional regulatory body);

- (c) two student members appointed by the President of the Union of Students (or if the President is unable to act, by the Education Officer of the Union)

A secretary to the Committee shall be appointed by the Director of Student Services.

REPORTING OF ALLEGED MISCONDUCT

5. Any member of the University who becomes aware of conduct by a student which might become the subject of proceedings under these Regulations shall report the matter to the Director of Student Services.

INITIAL INVESTIGATION

6. The Director of Student Services shall make enquiries and determine

- (a) that no further action be taken under these Regulations; or
- (b) that the matter be referred for consideration under the administrative procedure established under these Regulations; or
- (c) that the matter be referred to a Chairman of the Discipline Panel with a view to the consideration of the matter under the summary procedure established under these Regulations; or
- (d) that the matter be referred to the Directors of Accommodation and Commercial Services, to Corporate Information and Computing Services, to the Library or to the President of the Union of Students with a view to the matter being dealt with under the disciplinary procedures of the Director of Accommodation and Commercial Services or the Union of Students or the Regulations on the Use of Computing Facilities or the Regulations Relating to the Library or under General Regulation 9 concerning Ethics Approval; or
- (e) that the matter be referred to the Discipline Committee.

7. When the matter appears to disclose the commission of a serious criminal offence, no further action (except in respect of the suspension of the student) shall be taken under these Regulations unless the matter has been reported to the police and either a decision not to prosecute has been taken or the trial has been completed. If a student is acquitted before a criminal court, no further proceedings shall be taken under these Regulations in respect of the same facts. Where a student has been convicted and sentenced by a criminal court, the verdict of the court shall not be open to challenge in proceedings under these Regulations and the sentence shall be taken into consideration in determining the penalty under these Regulations.

SUSPENSION OF STUDENTS

8. A student who is the subject of a complaint of misconduct or against whom a criminal charge is

pending or who is the subject of police investigation may be suspended by the Vice-Chancellor pending the completion of proceedings under these Regulations, the trial of the charges or the completion of the police investigation. Suspension may involve exclusion from all premises owned or managed by the University and activities of the University or may be limited to specified places or activities or by reference to time or other circumstances. It may include a requirement that the student have no contact of any kind with a named person or persons. The Vice-Chancellor may take action under this Regulation only to protect the University community in general or a particular member or members of that community or members of the public and shall limit the scope of any suspension to that which is, in his opinion, necessary to achieve that object. The Vice-Chancellor shall notify the student in writing of the terms of the suspension and shall also keep a record in writing of the terms of any suspension and any subsequent action taken by him in respect of the suspension.

9. Before exercising his powers under the preceding Regulation, the Vice-Chancellor shall give the student concerned an opportunity to make representations in person or in writing. In cases of great urgency the Vice-Chancellor may suspend a student with immediate effect, and without giving any such opportunity, for a period of not more than seven days, and shall in any such case review the suspension at or before the end of that period having in the meantime given the student concerned an opportunity to make representations in person or in writing.

10. The Vice-Chancellor shall review any suspension every four weeks in the light of any developments and any representations made by or on behalf of the student. Where the terms of the suspension prevent the student from continuing a programme of study or research, the student may require the suspension to be reviewed on written representations after the initial period of four weeks by a Chairman and two other members of the Discipline Panel (none of whom shall be members of the Discipline Committee dealing with the matter) who may set aside or vary the terms of the suspension.

PROCEDURE WHEN MATTER REFERRED TO A DISCIPLINE COMMITTEE

11. Where the Director of Student Services determines that the matter be referred to the Discipline Committee, the Director of Student Services shall appoint an officer to take charge of the proceedings ("the officer") who shall formulate specific charges identifying the acts of misconduct alleged, and notify the student of the charges and supply to the student copies of any documents or written statements on which it is proposed to rely in support of the charges. The student shall be given at least fourteen days notice of the date upon which the Discipline Committee will meet, and shall be asked to indicate in writing not less than three days before the hearing whether the charge is admitted or denied and of any wish to question at the hearing the maker of any written statement. A Chairman of the

Discipline Panel (who may, but need not be, the person appointed to take the chair of the Discipline Committee dealing with the matter) may give directions as to the procedure to be followed in preparing for the hearing (which may include directions varying the time-limits in this Regulation where the student would not be prejudiced thereby), being directions designed to ensure a fair and speedy resolution.

12. The hearing shall be in private. The student may be accompanied at the hearing by a friend or representative, whether legally qualified or not. The officer may be similarly accompanied. A representative may speak and act on behalf of the student or the officer as the case may be. If the student has not already admitted the charge under the preceding Regulation, each charge shall at the hearing be put to the student who shall be invited to admit or deny it. If the student does not admit the charge, the hearing shall proceed as though the student denied the charge.

13. If the charge is denied, the officer shall present the facts alleged and present material in support of the charge (which may take the form of oral or written statements by witnesses or of documents or digital images). The student may then make a statement and present material in refutation of the charge. The officer and the student may each ask questions and comment upon the material presented by the other party. The Discipline Committee may itself ask questions or seek additional material (any such material to be open to question and comment by either party) and may adjourn from time to time as seems expedient. The Discipline Committee shall then (in the absence of all other persons) decide whether it is satisfied on the material before it that the charge is made out.

14. If the charge is admitted, or the Discipline Committee finds the charge made out, the officer and the student may make statements and present material relevant to the question of the penalty to be imposed. The Discipline Committee shall then (in the absence of all other persons) determine the penalty to be imposed.

15. If the student fails to attend the hearing, the Committee may proceed if it is satisfied that due notice of the meeting has been given, or may adjourn to a later date. If the Committee acts in the absence of the student it shall proceed as if the student denied the charge unless it is satisfied that the student has voluntarily provided a written admission of the charge as specified.

PENALTIES

16. The Discipline Committee may impose any one or more of the following penalties

- (a) a reprimand;
- (b) with the consent of the student, a requirement that the student gives an undertaking as to future conduct in such terms and containing such conditions as the Committee may prescribe, breach of the undertaking to constitute misconduct;
- (c) in the case of the use of unfair means in the assessment process of the University in relation to taught programmes of study, refusal of credit for

any or all units for which the student is registered or part thereof with in each case no grade being returned or the grade amended to reflect the reduced grade) with or without the right to enter for a subsequent examination in respect of that unit or part thereof;

- (d) in the case of the use of unfair means in the assessment process of the University in relation of a Higher Degree by research, failure in the examination with or without a right to submit a revised thesis in the case of a first submission, or for a candidate for the Degree of PhD, PhD with Integrated Studies, PhD in an EPSRC Doctoral Training Centre, DEdCPsy, DMedSci, EdD, DBA, DDSoc, EngD or MD failure in the examination with the right to be considered by the Examiners for the award of a Master's Degree;
- (e) a fine of not more than £750;
- (f) the payment of compensation in a sum not to exceed £1,000 for damage to property or loss or injury to any person caused by the student;
- (g) exclusion for a stated period or permanently from any part of the University or from the use of any of the facilities of the University;
- (h) suspension for a stated period from membership of the University;
- (i) expulsion from membership of the University.

17. Any student on whom the penalty of expulsion from membership of the University has been imposed is no longer eligible to be registered for a programme of study or a component of a programme of study or to be awarded a qualification from the University.

SUMMARY PROCEDURE

18. When the matter is referred to be dealt with under the summary procedure, the Director of Student Services shall nominate a member of the Discipline Panel to act as Chairman and shall

- (a) notify the student of the acts of misconduct alleged and that the matter has been referred to a Chairman of the Discipline Panel to be dealt with under the summary procedure;
- (b) supply to the student and the Chairman of the Discipline Panel a statement of the facts alleged and copies of any other written material relevant to the circumstances;
- (c) require the student to attend at a summary hearing of which the student shall be given at least seven days' notice; and
- (d) ask the student to confirm in writing not later than three days before the summary hearing that the charge is admitted and to indicate any wish to question at the summary hearing the maker of any written statement on any matter relevant to the penalty to be imposed.

19. The summary hearing shall be in private. The student may be accompanied at the hearing by a friend or representative, whether legally qualified or not, who may speak and act on behalf of the student. A representative of the Director of Student Services shall also attend.

20. Where the student has given notice of an intention to do so, the student may question the maker of any written statement and may make representations relevant to the question of the penalty to be imposed. The Chairman of the Discipline Panel shall then determine the penalty to be imposed.

21. The Chairman of the Discipline Panel may impose any one or more of the following penalties

- (a) a reprimand;
- (b) with the consent of the student, a requirement that the student gives an undertaking as to future conduct in such terms and containing such conditions as the Chairman of the Discipline Panel may prescribe, breach of the undertaking to constitute misconduct;
- (c) in the case of the use of unfair means in the assessment process of the University, refusal of credit for any or all units for which the student is registered or part thereof (with in each case no grade being returned or the grade amended to reflect the reduced grade);
- (d) a fine of not more than £100;
- (e) the payment of compensation in a sum not to exceed £250 for damage to property or loss or injury to any person caused by the student.

22. If the student fails to confirm that the charge is admitted, or fails to attend the summary hearing, or the Chairman of the Discipline Panel considers that the available penalties are insufficient, the Chairman of the Discipline Panel may refer the matter to the Discipline Committee (of which he or she shall not be a member) and may give directions as to the procedure to be followed in preparing for a hearing of the matter by that Committee.

ADMINISTRATIVE PROCEDURE

23. The Director of Student Services shall appoint an investigating officer who shall

- (a) notify the student of the act or acts of misconduct alleged;
- (b) require the student to attend a meeting of which the student shall be given at least three days' notice;

24. The meeting shall be in private. The student may be accompanied at the meeting by a friend or representative, whether legally qualified or not.

25. Where the student admits the act or acts of misconduct alleged, the investigating officer may impose one or more of the following penalties:

- (a) with the consent of the student, a requirement that the student gives an undertaking as to future conduct in such terms and containing such

conditions as may be prescribed, breach of the undertaking to constitute misconduct;

- (b) a fine of not more than £100;
- (c) the payment of compensation in a sum not to exceed £250 for loss or damage to property of any person caused by the student.

26. If the student fails to confirm that the act or acts of misconduct alleged are admitted, or fails to attend the meeting, or the investigating officer considers that the available penalties are insufficient, the investigating officer may refer the matter to the Director of Student Services for reconsideration in line with Regulation 6.

DISCIPLINARY POWERS OF THE DIRECTOR OF ACCOMMODATION AND COMMERCIAL SERVICES IN RELATION TO THE OCCUPATION OF ACCOMMODATION OWNED OR MANAGED BY THE UNIVERSITY

27. The Director of Accommodation and Commercial Services shall have the power in the interests of the student residents, as well as that of the University to respond to misconduct in accommodation owned or managed by the University. Misconduct is defined in sections 1 and 2 of these Regulations. Reference to the Director of Accommodation and Commercial Services in this and the following Regulations includes any person authorised to act on their behalf.

28. Where a report of alleged misconduct against any student resident is received, the Director of Accommodation and Commercial Services shall investigate the matter and

- (a) notify the student of the act or acts of misconduct alleged;
- (b) supply to the student a statement of the facts alleged and copies of any other written material relevant to the circumstances;
- (c) require the student to attend a meeting of which the student shall be given at least three days' notice.

29. The meeting shall be private. The student may be accompanied by a friend or representative, whether legally qualified or not, who may speak or act on behalf of the student.

30. The student may question any statement made and may make representations relevant either to the facts alleged or the question of the penalty imposed.

31. If the Director of Accommodation and Commercial Services is satisfied that a student resident is guilty of misconduct, then one or more of the following penalties may be imposed

- (a) with the consent of the student, a requirement that the student gives an undertaking as to future conduct in such terms and containing such conditions as may be prescribed, such as writing letters of apology or undertaking a period of voluntary service, breach of the undertaking to constitute misconduct;
- (b) a fine of not more than £100;

- (c) the payment of compensation for loss or damage to property of any other person in a sum not to exceed £250;
- (d) exclusion of the student from any part of the accommodation owned or managed by the University or from specified activities taking place in the accommodation for a stated period of time.

32. Where the matter is considered to be of a serious nature or is not admitted, the matter may be referred to the Director of Student Services, with a view to it being dealt with under Regulations 11-15 or 17-21.

CONTRACTUAL POWERS OF THE DIRECTOR OF ACCOMMODATION AND COMMERCIAL SERVICES

33. These Regulations shall be without prejudice to the rights of the Director of Accommodation and Commercial Services or the University under any residential contract entered into by the student or as the owner or occupier of the premises comprising accommodation owned or managed by the University.

APPEALS

34. There shall be a Disciplinary Appeals Committee of the Senate which shall be convened by the Director of Student Services and shall comprise

- (a) a Chairman of the Discipline Panel (other than a member of the Discipline Committee for the particular matter);
- (b) a senior member of the academic staff appointed by the Director of Student Services;
- (c) an officer of the Union of Students (other than a member of the Discipline Committee for the particular matter) appointed by the President of the Union of Students (or if the President is unable to act, by the Education Officer of the Union).

If for any reason no Chairman of the Discipline Panel is able to act, the Director of Student Services may appoint another person with judicial experience or legal training. If for any reason no officer of the Union of Students is able to act, the President of the Union of Students (or if the President is unable to act, the Education Officer of the Union) may appoint another member of the Union with experience of disciplinary matters.

35. The student may appeal from a decision of the Discipline Committee or of a Chairman of the Discipline Panel or of the investigating officer or of the Director of Accommodation and Commercial Services to the Disciplinary Appeals Committee of the Senate upon any one or more of the following grounds

- (a) that there was a material procedural irregularity which rendered the process leading to the initial decision unfair;
- (b) that the penalty imposed was too severe as being disproportionate to the gravity of the charge admitted or found to have been made out;
- (c) that material of which the student could not reasonably have been expected to have been aware

at the time of the initial decision casts substantial doubt upon the appropriateness of that decision.

36. Notice of appeal, specifying which of the grounds listed in the preceding Regulation is relied upon, shall be given, within fourteen days of the notification to the student of the decision of the Discipline Committee or of the decision of the Chairman of the Discipline Panel or of the decision of the investigating officer or the Director of Accommodation and Commercial Services, to the Director of Student Services who shall refer the appeal to the Disciplinary Appeals Committee. The student shall be given at least fourteen days' notice of the date upon which the Disciplinary Appeals Committee will meet.

37. The Director of Student Services may refer a case to the Disciplinary Appeals Committee in any case where no valid notice of appeal has been given but where there appear to be grounds for believing that the original decision was unsafe or unsatisfactory.

38. At the hearing of the appeal, the student may be accompanied at the hearing by a friend or representative, whether legally qualified or not. The officer shall act as respondent to the appeal and may be similarly accompanied. A representative may speak and act on behalf of the student or the officer as the case may be. The student and the officer may each address the Disciplinary Appeals Committee as to the grounds of the appeal, and the student may reply to the arguments adduced by the officer. If the Disciplinary Appeals Committee upholds the appeal in whole or in part, it may as the case requires

- (a) quash the decision; or
- (b) substitute a lower (or in the case of an appeal brought on the ground that the penalty imposed was too severe, a higher) penalty; or
- (c) in the case of an appeal from a decision of the Discipline Committee refer back for rehearing by a differently-constituted Discipline Committee either the matter as a whole or the decision as to penalty.

PROVISIONS AS TO EXAMINATIONS

39. Where a penalty imposed under these Regulations includes the refusal of credit for any unit (or part thereof), the student shall be deemed to have taken and failed the assessment in that unit or component with no grade being returned and the results of any relevant examination shall reflect (and if already approved shall be revised to reflect) that position.

DISCIPLINARY POWERS OF THE UNION OF STUDENTS

40. The Union of Students shall, subject to these Regulations, have power to prevent misconduct in the premises and areas assigned to the Union of Students and may exercise discipline over its members under such rules as may be made under the Constitution of the Union and approved by the Senate.

NOTICE TO THE STUDENT

41. The despatch of a letter to a student's address last notified to Student Services shall fulfil any requirement of giving notice or information to the student under these Regulations.

Regulations relating to Intellectual Property

1. For the purposes of these Regulations
 - a) "Intellectual Property" means patents, trade marks, service marks, logos, internet domain names, rights in designs, copyright (including rights in software), database rights, rights in confidential information, trade secrets, inventions and know-how and other intellectual property rights whether registered or unregistered and including any applications for registration and all other rights or forms of protection having equivalent or similar effect anywhere in the world;
 - b) "Student Intellectual Property" means any Intellectual Property created, devised, made, produced or developed by a student in the course of the student's programme of study or research. For the avoidance of any doubt, if the student is also an employee of the University (for example a teaching assistant) then any Intellectual Property created in the course of such employment will be governed by the terms of such employment and will not be Student Intellectual Property.
2. A student undertaking undergraduate and taught postgraduate programmes of study shall be the owner of the Student Intellectual Property created by that student. Exceptions to this Regulation may include the following
 - a) students employed or sponsored by another institution or organisation;
 - b) students undertaking a sponsored project or placement;
 - c) where the Intellectual Property is generated as a result of collaborative work, for example with other students or with members of staff (or where the work being undertaken derives from the Intellectual Property of staff);
 - d) units which have as a primary or substantial purpose, the creation of Intellectual Property;
 - e) other exceptional circumstances.
3. The University shall maintain a list of units of study to which the exceptions set out in 2(d) above shall apply and make it available as an appendix (see below) to these Regulations.
4. The University retains the right to use student works for the purposes of education and/or quality assurance. The University shall use reasonable endeavours to seek the permission of students where the University wishes to use student work for such purposes.
5. It shall be a condition of registration for higher degrees by research that the student shall agree to assign the Student Intellectual Property to the University.
6. Where the whole or part of a student's programme of study or research is sponsored by, or involves the use of, facilities provided by another institution or organisation, under an agreement made with the University, the following provisions shall apply
 - (a) the University may in its own name or as agent for the student assign or license to the third party the Intellectual Property, or any part of it, on such terms as it may think fit;
 - (b) all rights to the Intellectual Property in any work (including any report, essay, dissertation or thesis) produced by the student during or as a result of such programme shall be assigned to the University;
 - (c) the student shall, in accordance with any relevant terms of the agreement between the University and the third party, keep confidential all information relating to the work or business of the third party, acquired by the student during that programme, and neither use for the student's own benefit nor, save with the consent of the third party, disclose to any other person any such information.
7. Where the Student Intellectual Property is vested in the University pursuant to these Regulations, the University may exploit it, or any part of it, using reasonable endeavours to that end and granting to the student a reasonable share of any revenues received by the University as a result of such exploitation. If the University does not wish to exploit any part of the Student Intellectual Property vested in it, it shall at the request of the student return such part to the student.
8. Where Student Intellectual Property is vested in the University pursuant to these Regulations, a student may not without the consent of the University (which will not be unreasonably withheld or delayed) publish any work which might prejudice the acquisition and protection of the Student Intellectual Property by the University or any third party to whom it, or any part of it, has been assigned.
9. Any breach of these Regulations may be dealt with under the Regulations as to the Discipline of Students.

Regulations on the Use of Computing Facilities¹⁰

1. In these Regulations “computing facilities” means any computing facilities

- (a) controlled by Corporate Information and Computing Services; or
- (b) owned by the University or any University company; or
- (c) situated on University premises;

and “Head of Department” means the Head or Chairman of the Department which controls the facilities or the premises on which the facilities are situated.

2. No person may use computing facilities without the authorisation of the Director of Corporate Information and Computing Services acting on behalf of the Information Services Committee, or of the Head of Department or of the person or body to whom the facilities belong.

3. Every authorisation for the use of computing facilities shall be subject to the conditions that the facilities are to be used only by the person to whom the authorisation is given and only for the purpose or purposes for which it was granted and shall be subject to these Regulations.

4. Where the use of computing facilities is for the purposes of externally funded research or for purposes private to an individual user or external to the university, authorisation may be subject to the payment of charges prescribed from time to time by the Information Services Committee or by the Director of Corporate Information and Computing Services acting in accordance with any directions of that Committee.

5. No computing facilities may be used

- (a) to secure unauthorised access to any program or data held in any computer wherever located;
- (b) to cause any unauthorised modification of the contents of any computer, wherever located;
- (c) in any way which jeopardises the work of others, or the integrity of the equipment or of any programs or data; or
- (d) in breach of the Computer Misuse Act 1990 or other applicable legislation, or of any local rules made by the Director of Corporate Information and Computing Services or the Head of Department.

6. No student or member of the University staff may use any means

- (a) to secure unauthorised access to any program or data held in any computer facilities; or
- (b) to cause any unauthorised modification of any such material.

7. Any breach of these Regulations may be dealt with, in the case of students under the Discipline Regulations and in the case of members of the staff of the University in accordance with disciplinary procedures approved

(subject to the Statutes) by the Council. Any person suspected of a breach of these Regulations may be debarred from access to computing facilities by the Director of Corporate Information and Computing Services or the Head of Department until the appropriate disciplinary procedures have been completed; any use or attempted use of facilities by a person so debarred from access or by another acting on that person's behalf shall constitute a breach of these Regulations.

Note: These Regulations should be read in conjunction with the *Code of Practice for the Use of University Computing Facilities*.

¹⁰ Additional Regulations apply for students using the International Faculty's Computing facilities (www.city.academic.gr/docs/ifgenspec.pdf).

Regulations relating to the Library¹¹

1. For the purposes of these Regulations, the University Library comprises the collections, services and facilities provided on the premises of the University Library on the University's Sheffield campus and elsewhere; and the services and resources provided at any location, directly or indirectly, by the University Library across the campus network or the Internet.

2. Admission to and licence to remain on University Library premises, and use of University Library facilities, are conditional upon observance of these Regulations.

3. The following shall be eligible to use the University Library and to borrow materials from it:

Any registered student of the University or member of the University staff in possession of a currently valid U-card

Any other member of the University as defined in Section 2 of the Statutes, except that a graduate who is not currently a registered student may not borrow without the permission of the Director of Library Services

Any other person meeting criteria approved by the Information Services Division Executive.

4. Other persons may be afforded such facilities as the Director of Library Services considers appropriate. In offering such facilities, the Librarian may impose a charge not exceeding that approved by the Information Services Division Executive for the particular circumstances.

5. Persons who are eligible for and hold more than one U-card must declare this entitlement to the University Library and designate one U-card as valid for borrowing. No person may use more than one U-card for borrowing.

6. Users other than registered students and members of University staff must register separately with the University Library. Such users will be issued with an external U-card validated for Library use, or with a University Library ticket. Such users must inform the Library of any change of address.

7. Every user must present a valid U-card or Library ticket when borrowing, and must produce this, or another form of identification, when asked to do so by a member of Library staff on Library premises. U-cards and Library tickets are not transferable.

8. Users must comply with the rules as to loan entitlements and loan periods, return dates, recall periods and renewal conditions published on the University Library's premises and on its printed guides and web pages.

9. Users leaving University Library premises with books and papers may be required to show them at the control point. No material may be removed from the

Library without its loan being recorded. The borrower of an item as shown in the current loan record is responsible for the safe return of that item, and liable for any loss or damage to it.

10. Users must comply with all such additional conditions as may be published in respect of certain services such as interlibrary loans, and access to networked electronic materials.

11. Users must comply with all relevant legal requirements, including those relating to copyright, data protection and computer misuse.

12. No Library material lent to users may be taken outside the United Kingdom without the written permission of the Director of Library Services.

13. Users may be required to pay fines in accordance with rules published on the University Library's premises and on its printed guides and web pages in the case of the late return of borrowed or recalled items, the non-collection of items obtained on interlibrary loan, and certain other acts or omissions; and may be required to pay compensation for loss of library materials. Users' borrowing rights may in addition be suspended. The level of fines shall be approved from time to time by the Information Services Division Executive.

14. Any person behaving inconsiderately or inappropriately on University Library premises may be required to leave immediately by the Director of Library Services or another member of Library staff acting on behalf of the Director.

15. Any breach of these Regulations and any other misconduct relating to the University Library may be dealt with, in the case of students, under the Discipline Regulations, and in the case of members of the staff of the University in accordance with the disciplinary procedures prescribed in the Statutes or approved by the Council. A student or a member of the academic staff may be suspended from access to the premises of the University Library in accordance with those Regulations and procedures. Access to University Library premises and services may be withdrawn by the Director of Library Services from any other person in breach of these Regulations.

16. A person may appeal against the imposition of a fine or other penalty under these Regulations to the Director of Library Services. The grounds for appeal should be submitted in writing not more than 14 days after the notice of the imposition of the fine or other penalty is issued. After consultation as necessary the Director of Library Services shall determine whether or not the appeal shall be upheld. A written response will normally be provided to the appellant, indicating action to be taken where appropriate, within 10 days of the receipt of the appeal.

¹¹ These Regulations apply to students in the Sheffield-based Faculties and to students of the International Faculty visiting the Sheffield campus. Separate Regulations apply to students of the International Faculty, or visiting the City campus, for use of its libraries (www.city.academic.gr/docs/ifgenspec.pdf).

17. A person who remains unsatisfied with the decision of the Director of Library Services may within 10 days of the notification submit an appeal in writing to the Pro-Vice-Chancellor for Information Services, who after consultation as necessary, shall determine whether or not the appeal shall be upheld. A written response shall normally be provided to the appellant, indicating action to be taken where appropriate, within 28 days of the receipt of the appeal. Where a person's borrowing rights have been suspended the Director of Library

Services shall have discretion to authorise their reinstatement pending the outcome of the appeal.

18. These Regulations should be read in conjunction with the Code of Practice for the use of the University Library, and information about the University Library and its services published on the University's web pages.

Regulations for Higher Doctorates

Faculty of Arts and Humanities

REGULATIONS FOR THE DEGREE OF DOCTOR OF LETTERS (LITTD)

1. The Degree of Doctor of Letters (LittD) may, on the recommendation of the Board, be awarded to
 - (a) a graduate of the University of not less than six years' standing; or
 - (b) a member of the academic staff who has completed a minimum of six years service as such a member.
2. A candidate shall be judged to be distinguished by scholarship in having.
 - (a) made a substantial and original contribution to learning; and
 - (b) become established as an authority in the relevant field of work.

The published work of a candidate must have been adjudged by at least two External Examiners to constitute a distinguished contribution to learning.

3. Work submitted for the Degree must be accompanied by a statement showing clearly what part of the work has previously been presented for a degree or has been written in collaboration with others.

REGULATIONS FOR THE DEGREE OF DOCTOR OF MUSIC (DMUS)

1. The Degree of Doctor of Music (DMus) may be awarded to
 - (a) a graduate of the University of not less than six years' standing; or
 - (b) a member of the academic staff who has completed a minimum of six years service as such a member.
2. A candidate shall be judged to be distinguished by scholarship in having.
 - (a) made a substantial and original contribution to learning; and
 - (b) become established as an authority in the relevant field of work.

The published work of a candidate must have been adjudged by at least two External Examiners to constitute a distinguished contribution to learning.

3. A candidate is required to submit a body of published musicological research or a folio of published original compositions, or both.

Faculty of Science

REGULATIONS FOR THE DEGREE OF DOCTOR OF SCIENCE (DSC)

1. The Degree of Doctor of Science (DSc) may be awarded to
 - (a) a graduate of the University of not less than six years' standing; or
 - (b) a member of the academic staff who has completed a minimum of six years service as such a member.
2. A candidate must be judged to be distinguished by scholarship in having:
 - (a) made a substantial and original contribution to scientific knowledge; and
 - (b) become established as an authority in the relevant field of work.
3. As evidence of distinction, a candidate must submit published work for assessment. Any number of publications may be submitted, including those published under joint authorship.

A candidate may submit publications in two groups as follows:

- (a) publications which are evidence of the candidate's original and authoritative contribution to scientific knowledge; and
 - (b) other publications which are submitted as additional evidence of the scope of the candidate's contributions to scientific knowledge. This group may, if appropriate, include manuscripts accepted for and awaiting publication and published papers arising out of work for a previously awarded Master's degree or Doctorate. Papers in these categories must be clearly identified by the candidate.
4. A candidate must submit to the Registrar and Secretary three sets of the published work intended for assessment.

A candidate must also submit three sets of the following:

- (a) a statement certifying either that the published work is that of the candidate or, in the case of collaborative work, that the candidate has made a substantial contribution to the work. The proportion of the collaborative work represented by the candidate's efforts must be clearly indicated; and
- (b) a statement giving full details of any other degree or diploma for which the works, in whole or in part, may have been submitted; and
- (c) a classified list of the submitted published work.

Independent evidence may be sought by the Board concerning the contribution of the candidate in cases of collaboration.

5. At least two External Examiners shall independently report to the Board concerning the submission for the degree.

6. If the Senate decides on the recommendation of the Board that the Degree be not awarded, a candidate may not make another submission for the degree within five years of the first candidature unless this period is specially reduced by the Board.

Faculty of Medicine, Dentistry and Health

REGULATIONS FOR THE DEGREE OF DOCTOR OF SCIENCE (DSC)

1. The Degree of Doctor of Science (DSc) may be awarded to

- (a) a graduate of the University of not less than six years' standing; or
- (b) a member of the academic staff who has completed a minimum of six years service as such a member.

A candidate must be judged to be distinguished by an original contribution to knowledge in the field of medical or dental science, the published records of which must be submitted for assessment by at least two External Examiners. A candidate must, in the opinion of the Examiners, have established a reputation as an authority on the subject.

3. A candidate shall submit to the Registrar and Secretary three sets of the published work intended for assessment.

4. A candidate shall also submit three sets of the following:

- (a) a statement certifying that the published work is that of the candidate or, in the case of collaborative work, that the candidate has made a substantial contribution to the work. The proportion of the collaborative work represented by the candidate's effort must be clearly indicated; and
- (b) a statement giving full details of any other degree or diploma for which the work in whole or in part may have been submitted; and
- (c) a classified list of the submitted published work.

5. If the Senate decides on the recommendation of the Board that the Degree be not awarded, a candidate may not make another submission for the Degree within five years of the first candidature unless this period is specially reduced by the Board.

6. If the Senate decides, on the recommendation of the Board, that the degree be not awarded, a candidate may not make another submission for the degree within five years of the first candidature unless this period is specially reduced by the Board.

Code of Practice relating to Meetings and other Activities on University Premises

1. These Regulations are made in accordance with section 43 of the Education (No.2) Act 1986 with a view to taking the steps which are reasonably practicable to ensure that freedom of speech within the law is secured for members¹ and staff of the University, for persons attending events arranged by outside bodies, and for visiting speakers.
2. So far as is reasonably practicable, no premises of the University shall be denied to any individual or body of persons on any grounds connected with:
 - (a) the beliefs or views of that individual or of any member of that body; or
 - (b) the policy or objectives of that body.

This shall be without prejudice to the other legal obligations of the University which may require it to have regard to what is said on its premises².

SCOPE AND ENFORCEMENT OF REGULATIONS

3. The following provisions of these Regulations shall apply to any event (which term includes any meeting or other activity) which is to be held on premises of the University if there is a real likelihood that a speaker may not be able to
 - (a) enter or leave the building safely or
 - (b) deliver his or her speech.

In these Regulations any reference to the premises of the University includes any premises occupied by the Union of Students.

- 4.(a) Any permission, licence or contract for the use of University premises shall be subject to these Regulations.
- (b) Infringements of, or departures from, these Regulations in whatever respect may render those responsible subject to legal action on the part of the University or to disciplinary proceedings in accordance with the University's Discipline Regulations and procedures.
- (c) Additionally, if any such actions involve breaches of the criminal law the University authorities will be ready to assist the prosecuting authorities to implement the processes of law.
- (d) The Registrar and Secretary shall act on behalf of the Council to ensure as far as is reasonably practicable that all members and staff of the University, outside bodies meeting on University premises and visiting speakers comply with the provisions of these Regulations.

PREPARATION FOR AND CONDUCT OF EVENTS

- 5.(a) The organisers of any event to which these Regulations apply shall ensure that a single person is appointed as principal organiser of the event.
 - (b) The principal organiser shall ensure that at least two weeks before the date proposed for the event notice of the proposal is given to the Registrar and Secretary. Such notice shall contain a written statement of the name of the speaker, the subject of the address and the precise timing of arrival and departure of the speaker.
 - (c) Within five days of receiving such notice the Registrar and Secretary shall issue a statement which shall either grant or withhold permission for the use of University premises as proposed for the conduct of the event. If permission for the event to be held is granted, that event may be held only in the Convocation Hall of the Octagon Centre.
 - (d) Any permission shall be subject to these Regulations and may be subject to such special conditions as the Registrar and Secretary considers reasonably necessary to secure fulfilment of the University's statutory responsibilities concerning the protection of freedom of speech within the law.
6. The special conditions which may be imposed on any permission granted under Regulation 5 may include (but shall not be limited to) conditions
 - (a) concerning the admission or exclusion of press or broadcasting personnel;
 - (b) requiring that the credentials of all those attending the event be checked;

¹ *The members of the university include the Officers of the University, the members of the Court, the Council and the Senate, Emeritus Professors, the members of Convocation, the teaching, administrative and senior library staff, the Wardens of Halls of Residence, the graduates and the undergraduates. (For a full definition, see Section 1 of the Ordinances.)*

² *A speaker, for example, who incites an audience to violence or to breach of the peace or to racial hatred transgresses the bounds of lawful speech. Equally, assemblies of persons, even if directed to lawful purposes, cease to be lawful if they cause serious public disorder or breaches of the peace.*

- (c) requiring the presence of security staff as determined by the Registrar and Secretary, or of stewards of whose suitability the Registrar and Secretary is satisfied;
 - (d) requiring that University staff be responsible for all security arrangements connected with the event, and the appointment of a member of the University staff as 'controlling officer' for the event;
 - (e) requiring the event to be declared public (which would permit a police presence); and
 - (f) requiring the issue of tickets for attendance at any event declared public.
7. The following conditions shall apply in respect of all events for which permission is granted:
- (a) The organisers must ensure that nothing in the preparations for or conduct of the event infringes the law or by conduct likely to cause a breach of the peace or incitement to illegal acts.
 - (b) The chairman of the event must so far as possible secure that both the audience and the speaker act in accordance with the law. In case of unlawful conduct the chairman must give appropriate warnings and, in case of continuing unlawfulness, require the withdrawal of persons concerned or their removal by the stewards or security staff.
 - (c) No article or objects may be taken inside the Convocation Hall, or taken or used elsewhere on University premises in circumstances likely to lead to injury or damage.
 - (d) The Convocation Hall must be left in a clean and tidy condition in default of which the organisers may be charged for any additional cleaning and repairs required. Payment in advance or evidence of ability to pay towards these costs may be required.
 - (e) The University will normally supply and pay the cost of a public address system, or a relay system to an additional hall, or both, if there is reasonable cause to consider these necessary to enable a meeting to take place so as to ensure an adequate hearing for the speaker.
8. The Registrar and Secretary may, if satisfied at any time that such action is necessary to secure fulfilment of the University's legal responsibilities or to ensure good order at an event
- (a) impose conditions additional to those imposed at the time permission for the event was originally granted; or
 - (b) withdraw that permission.
9. Where the presence of stewards or security staff is deemed necessary as a condition of the permission for an event, the Registrar and Secretary may determine the allocation of the relevant costs incurred.

SPECIAL PROVISIONS RELATING TO UNION OF STUDENTS EVENTS

10. Where any event to which these Regulations apply is to be organised under the aegis of the Union of Students or by a society, association or club of the Union, the principal organiser of the meeting shall inform the Manager of the Union at least three weeks before the date proposed for the event. The Coordinating Committee of the Union of Students shall consider the circumstances and if that Committee is satisfied that the event is one to which these Regulations apply, the Manager of the Union of Students shall give notice of the event to the Registrar and Secretary at least two weeks before the date proposed for the event.

11. Where an event is organised under the aegis of the Union of Students or by a society, association or club of the Union, the Registrar and Secretary shall normally require the Union to provide the necessary stewards or security staff to maintain order. For the purpose of 6(d) above the Manager of the Union of Students shall normally be designated as the controlling officer.

APPEALS

12. An appeal against any ruling of the Registrar and Secretary under these Regulations may be made to the Vice-Chancellor whose decision shall be final. The Vice-Chancellor's decision shall be reported to the next meeting of the Council.

Code of Practice relating to the Students' Union

Part II of the Education Act 1994 places a range of responsibilities on the governing bodies of university institutions in regard to the organisation of students' unions. In particular the governing body shall prepare and issue, and when necessary revise, a code of practice as to the manner in which certain requirements of the act are carried into effect.

1. This code of Practice, issued by the University Council with the agreement of the Students' Union, sets out how the University will carry out its responsibilities under the Act. The specific responsibilities to be included in the code are highlighted in italics below:-
2. The Students' Union qualifies as a students' union within section 20 of the Act; no other organisation of students in the University falls within the definition.

CONSTITUTION

The student union should have a written constitution and the provisions of that constitution should be subject to the approval of the governing body at intervals of not more than five years.

3. The Students' Union is governed by a constitution approved by the student body and endorsed by the University Council. The Constitution makes provision for detailed regulations to be published in bye-laws which shall be approved by the student body.
4. Copies of the Constitution and Bye-laws are available to any student, on request, from the President of the Students' Union. They are also available on the Students' Union web pages and the University web pages as part of the University Calendar.
5. The Constitution is to be reviewed by the University Council at intervals of not more than five years. This need not mean a special quinquennial review of the Constitution. The Council may take the opportunity to review the terms of the Constitution should the Students' Union at any time bring forward proposed amendments.

MEMBERSHIP

Students should have the right not to be members of the students' union. Students who exercise that right should not be unfairly disadvantaged, with regard to the provision of services or otherwise, by reason of their having done so.

6. All persons who are registered or provisionally registered students of the University as full or part time candidates for degrees, diplomas, or certificates and all persons who are full time registered students of the University for at least fifteen weeks at the English Language Teaching centre or on Erasmus, visiting or study abroad programmes shall be entitled to full membership of the Students' Union. Any student who wishes not to be a member, or who decides to withdraw from membership of the Students' Union, should inform the President of the Students' Union and the Registrar and Secretary of the University in writing.
7. Any student not in membership of the Students' Union is not entitled:
 - (a) To participate in the government of the Students' Union and, in particular, to propose or vote in referenda, attend meetings, stand or vote in the election of Students' Union Officers, Students' Union Council, Standing Committees and Representative Committees, or play any part in any other comparable bodies that may be established.
 - (b) To hold office in any Students' Union Working Committee, Club or Society.
 - (c) To benefit from any concessionary rates for membership of Clubs and Societies, or for attendance at entertainments events, that may be offered to Students' Union members.
8. Any such student shall cease to be a member immediately and may not re-apply for membership until the following academic session.
9. Students who are eligible for full membership, but have exercised the right not to be a member, shall have access to all services and activities provided by the Students' Union other than those outlined in paragraph 7, and shall be subject to the same disciplinary procedures in relation to their use of these services and participation in these activities.
10. The University has made no special arrangements for the provision of services or facilities for non-members of the Students' Union, since it is satisfied that the provision made by the University and the Students' Union for all students, whether they are members of the Students' Union or not, is sufficient to ensure that those who have exercised the right of nonmembership under the Act are not unfairly disadvantaged. There will be no financial compensation to students who have exercised their right of non-membership.

ELECTIONS

Appointment to major students' union offices should be by election in a secret ballot in which all members are entitled to vote. The governing body is required to satisfy itself that the students' union elections are fairly and properly conducted.

11. Major students' union offices shall be defined as full time sabbatical Students' Union Officers.

12. All elections in the Students' Union shall be conducted in accordance with regulations laid down in a bye-law to the Constitution (Bye-law 17) which shall be approved by the University Council. These regulations ensure that appointment to major students' union offices is by election in a secret ballot in which all full members are entitled to vote.

13. Any complaint regarding the conduct of elections shall be decided upon by Returning Officers appointed by the Students' Union Council, subject to appeal to the Elections Appeals Committee and subsequently to Students' Union Council. Any decision by Students' Union Council shall be subject to appeal to the University Registrar and Secretary, whose decision shall be final.

14. The Registrar and Secretary (or his/her nominee) may observe any part of the election process and an annual report will be made to the Registrar and Secretary on the conduct and outcome of the elections to the major students' union offices.

A person should not hold paid elected students' union office for more than two years in total.

15. Paid students' union offices shall be defined as full time sabbatical Students' Union Officers. No person shall hold such office for more than two academic years and this shall be provided for in the Constitution and bye-laws of the Students' Union.

FINANCE

The financial affairs of the students' union should be properly conducted and appropriate arrangements should exist for the approval of the students' union's budget and the monitoring of its expenditure by the governing body.

The students' union is to publish a financial report annually or more frequently. The report is to be made available to the governing body and to all students and should contain, in particular, a list of external organisations to which the students' union has made donations during the period to which the report refers and details of those donations.

16. The Students' Union Finance Committee shall prepare an annual budget prior to the commencement of each financial year, which shall be submitted to the Students' Union Council for comment and the Students' Union Trustee Board for approval. The annual budget shall be presented for ratification to the University Finance Committee, which will report to University Council.

17. The Students' Union Council shall receive the annual audited accounts of the Students' Union for information and the Students' Union Trustee Board shall receive the annual audited accounts of the Students' Union for approval. The annual accounts shall be presented for information to the University Finance Committee, which will report to University Council.

18. The accounts shall contain details of any donations made to external organisations during the financial year.

The procedure for allocating resources to groups or clubs should be fair and should be set down in writing and be freely accessible to all students.

19. Procedures for the allocation of resources to clubs and societies affiliated to the Students' Union are included in Bye-law 10 of the Students' Union agreed bye-laws which are available to any student, on request, from the President of the Students' Union. They are also available on the Students' Union web pages

AFFILIATIONS AND DONATIONS

If the student union decides to affiliate to an external organisation it must publish notice of its decision, stating the name of the organisation and details of any subscription or similar fee paid or proposed to be paid and of any donation made or proposed to be made to the organisation and such notice is to be made available to the governing body and to all students.

20. Affiliations and donations made by decision of a Referendum, Students' Union Council, Standing Committee, Representative Committee or Students' Union Officers shall be published in the annual accounts of the Students' Union.

21. Any such affiliations or donations made subsequent to the publication of the annual accounts shall be published to students and notified to the Registrar and Secretary who shall make such notice available to the governing body.

When a student union is affiliated to any external organisation there are to be procedures for the review of affiliations under which the current list of affiliations is submitted for approval by members annually or more frequently, and at such intervals of not more than a year as the governing body may determine, a requisition may be made by such proportion of members (not exceeding 5 per cent) as the governing body may determine, that the question of continued affiliation to any particular organisation be decided upon by a secret ballot in which all members are entitled to vote.

22. An annual referendum will be held to consider the affiliation of the Students' Union to the National Union of Students, and any other continuing affiliations previously agreed.

23. Any affiliation made by the Students' Union may be rescinded by a decision of students made in accordance with the procedure for referenda outlined in regulations contained in a bye-law to the constitution of the Students' Union.

COMPLAINTS PROCEDURE

There should be a complaints procedure available to all students or groups of students who are dissatisfied in their dealings with the students' union, or claim to have been unfairly disadvantaged by reason of having exercised the right to not be a member. This procedure should include the provision for an independent person appointed by the governing body to investigate and report on complaints.

24. Any student or students who are dissatisfied in their dealings with the Students' Union, or claim to be disadvantaged by reason of their having exercised the right to withdraw from membership, shall be entitled to have their complaint considered in accordance with the Students' Union Bye-Law 16 which constitutes the Students' Union's complaints procedure and is available to all students. This procedure includes the right of appeal to the University Secretary and Registrar and the subsequent right of appeal to an independent person appointed by University Council.

The following are not required to be referenced in the code of practice, but it is an obligation for the governing body to bring these matters to the attention of students at least once a year. These will be published on the Students' Union website and also included alongside this code.

CHARITY LAW

The activities of the Students' Union are restricted by the law relating to charities. Consequently the Students' Union cannot have a political purpose and must not seek to advance the interest of a political party, but it may seek to influence opinion on issues relating directly to its own stated purposes, provided such activity is within its powers. The ways in which charities may or may not legitimately engage in political activities is the subject of advice and legislation from time to time by the Charities Commissioners, courts of law, Parliament and government departments.

FREEDOM OF SPEECH

The University is responsible under section 43 of the Education (No.2) Act 1986 for the provision of safeguards to ensure freedom of speech within the law.

The provisions for freedom of speech are made in the University Calendar under the Code of Practice Relating to Meetings and Activities on University Premises. A special provision relating to Students' Union events is made as follows:-

“10. Where any event to which these Regulations apply is to be organised under the aegis of the Students' Union or by a society, association or club of the Students' union, the principal organiser of the meeting shall inform the Manager of the Students' union at least three weeks before the date proposed for the event. The Coordinating Committee of the Students' Union shall consider the circumstances and if that Committee is satisfied that the event is one to which these regulations apply, the Manager of the Students' Union shall give notice of the event to the Registrar and Secretary at least two weeks before the date proposed for the event.

11. Where an event is organised under the aegis of the Students' Union or by a society, association or club of the Students' union, the Registrar and Secretary shall normally require the Students' union to provide the necessary stewards or security staff to maintain order. For the purpose of 6(d) above the Manager of the Students' Union shall normally be designated as the controlling officer.”

CODE OF PRACTICE

This Code of Practice is brought to the attention of students annually by publication on the University web pages as part of the University Calendar. It is also published on the Students' Union web pages.

INFORMATION FOR PROSPECTIVE STUDENTS

The right of a student to not be a member of the Students Union, and the arrangements for students to still access those services provided by the Students Union for all students whether members or not, should be made available to information available to prospective students via inclusion in the prospectus and on the Students' Union's website.

Regulations relating to Academic Costume

1. There shall be an Academic Costume for undergraduates who have satisfied the entrance requirements of the University. An undergraduate is required to wear academic dress at such University ceremonies as the Marshal shall determine.
2. The gown of the holder of an Undergraduate Certificate shall be made of black stuff to the pattern of the gown of the Oxford Bachelor of Arts; no hood shall be worn. The yoke and facing shall be edged in narrow corded ribbon of the colour distinctive of the Faculty or of the Board of Collaborative Studies.
3. The gown of an Undergraduate Diplomate shall be made of black stuff to the pattern of the gown of the Oxford Bachelor of Arts; no hood shall be worn. The yoke and facing shall be edged in broad corded ribbon of the colour distinctive of the Faculty or of the Board of Collaborative Studies.
4. The gown of a Bachelor shall be made of black stuff to the pattern of the gown for the Oxford Bachelor of Arts.
5. The gown of a Postgraduate Diplomate and Postgraduate Certificate shall be made of black stuff to the pattern of the gown of the Oxford Bachelor of Arts.
6. The gown of a Master shall be made either of black stuff or black silk to the pattern of the gown for the Oxford Master of Arts.
7. The undress gown of a Doctor shall be made of black silk to a pattern similar to the undress gown for the Oxford Doctor of Civil Law.
8. The full dress gown of a Doctor holding the Degree of LittD, DSc, LLD, DEng, DMet, DSc(Tech) and DMus shall be made of fine scarlet cloth to a pattern similar to the festal gowns worn by Cambridge Doctors. It shall be faced with green silk of the shade approved by the University and shall have sleeves lined with scarlet silk and looped with a green button and cord.
The full dress gown of a PhD, MD, DBA, DClinPsy, EdD, DSc, DMedSci, DEdPsy, DEdCpsy and DMin shall be made of fine scarlet cloth and shall have bell-shaped sleeves. It shall be faced with green silk of the shade approved by the University.
9. The hood of a Bachelor shall be of the Cambridge shape, made of fine green cloth, of the shade approved by the University. It shall be half-lined with white fur (artificial), and edged round the tippet with a border of silk, of the colour distinctive of the degree and of the Faculty or of the Board of Collaborative Studies.
10. The hood of a Postgraduate Diplomate and Postgraduate Certificate shall be of the Cambridge shape, made of green silk, of the shade approved by the University. It shall be edged in silk of the colour distinctive of the Faculty or of the Board of Collaborative Studies. The neckband shall be made of silk of the colour distinctive of the Faculty or of the Board of Collaborative Studies.
11. The hood of a Master shall be of the Cambridge shape, made of green silk, of the shade approved by the University. It shall be lined throughout with silk of the colour distinctive of the degree and of the Faculty.
12. The hood of a Doctor shall be of the Cambridge shape, made of red ottoman silk. It shall be lined throughout with silk of the colour prescribed in the following Regulations.
13. The colours of the silks distinctive of the various qualifications (except PhD and MPhil) shall be as follows:
Faculty of Arts and Humanities
Crushed strawberry - all qualifications except BMus, MMus and DMus

International Faculty

Saxon blue - all qualifications

Board of Extra-Faculty Provision

To be confirmed – all qualifications

14. The colour of the silk distinctive of the degrees of Doctor of Philosophy and of the degree of Master of Philosophy shall be dark green.

15. The cap to be worn by the holder of an Undergraduate Certificate, a Diplomate, a graduate or undergraduate shall be black, and of the ordinary academic shape.

A Doctor's cap shall be covered with velvet, all other caps with fine cloth.

16. A graduate, diplomate or associate in any Faculty may wear the academic costume prescribed in the Regulations in force at the time of the date of conferment of the Degree or award of the qualification.

17. A graduand and any other person who is to be presented at a Degree Congregation shall wear the appropriate academic dress over suitable clothes of subdued colour, or Naval, Military or Air Force uniform. The Marshal may exclude from presentation any candidate whose attire does not, in the Marshal's opinion, comply with this regulation.

Regulations for First Degrees in the Faculty of Arts and Humanities

General Regulations for Degrees in the Faculty of Arts and Humanities

1. Exemption from the provisions of Regulations relating to periods of study in a foreign country for candidates following Single or Dual Honours in a modern foreign language may be granted by the Faculty on the recommendation of the Head(s) of Department(s) concerned.
2. A Distinction in the spoken language may be awarded by the Senate, on the recommendation of the Faculty, to a candidate following a course including a modern foreign language who, in the opinion of the Examiners, has attained an exceptional standard of oral proficiency in the language(s) studied.
3. A candidate who has taken a programme of study leading to the award of the Degree of BA in the Faculty may, with the approval of the Faculty, enter for the Final Examination for another such programme of study, provided that the candidate has attended for at least one further year such programmes of study and taken such examinations as the Faculty may prescribe.
4. A candidate for a dual programme of study in two modern foreign languages may not at Level 1 take units from the Non A Level stream in both languages.

Regulations are presented in programme code order. An alphabetical index of programme titles is as follows:

Regulations for the Degree of Master of Music (MMus) by Research

MUSR51 MUSIC (MMus) (Full-Time)

MUSR61 (Part-Time)

1. A candidate shall be placed in whichever one of the following categories, as specified in the General Regulations for Higher Degrees, is appropriate:
Full-time student candidate
Part-time student candidate
University Staff candidate
2. The programme of study or research shall be pursued for not less than one year in the case of a full-time student candidate, and for two years in any other case.
3. The examination shall consist of *two* of the following
 - (a) a thesis on a subject of research (about 20,000 words);
 - (b) a portfolio of original compositions (about 25-30 minutes of music);
 - (c) a folio of analyses, editions, transcriptions, case studies or other written material and/or recorded work;
 - (d) a prepared instrumental or vocal recital (about 45 minutes). Ethnomusicological candidates may alternatively present a recital of about 30 minutes in an instrument or vocal style they have not previously studied.

A candidate shall present both chosen components for examination at the same time which may be within the final three months of the period of study or research. In addition, a candidate may be required, at the discretion of the Examiners, to satisfy them in an oral examination on matters relevant to the thesis, portfolio, folio or recital and to the general field of study.
4. A candidate shall submit to the Registrar and Secretary, as appropriate, three copies of the thesis, two copies of the portfolio of compositions, three copies of the folio and three copies of the programme for the instrumental or vocal recital.
5. A full-time student candidate shall take the examination within three years, and a part-time student candidate or University Staff candidate within six years of initial registration. A candidate may submit work for assessment within the final three months of the minimum period of study.
6. A candidate who fails in one component of the examination may be permitted to repeat the examination in that component.

Regulations for the Foundation Year and First Degrees in the Faculty of Engineering

ENGINEERING FOUNDATION YEAR, COMMON FIRST SEMESTER AND COMMON FIRST YEAR REGULATIONS

FACULTY OF ENGINEERING

General Regulations for First Degrees in the Faculty of Engineering

1. A candidate for the Degree of MEng shall only be recommended for the award of that Degree if, in applying the principles stated in the Regulations for First Degrees, the Examiners recommend that the candidate be placed in Class II Division 2 or above. A candidate whom the Examiners, in applying those principles, would place in Class III shall be recommended for the award of a Bachelors' Degree with Honours. A candidate whom the Examiners, in applying those principles, would deem to be worthy of a Pass shall be recommended for the award of the appropriate Bachelors' Degree.
2. A candidate whose initial registration was for an MEng programme with no study abroad option may take a study abroad year at level 2 or level 3, for which credit will be awarded, without being required to transfer to a different programme. In this case grades awarded in respect of units listed at Level 4 shall carry twice the weight of those obtained at Levels 2 and 3.
3. Candidates commencing Level 1 of a programme of study from session 2011-12 onwards must attain a satisfactory standard in FCE1001 Faculty Global Engineering Challenge Week by the end of Level 2.
4. Candidates commencing Level 2 of a programme of study from session 2012-13 onwards must attain a satisfactory standard in the FCE2001 Interdisciplinary Project Week.

FOUNDATION YEAR

Leading to programme of study for the Degree of MEng/BEng in the following

ENGU98 FOUNDATION YEAR AEROSPACE ENGINEERING
ACSU99A FOUNDATION YEAR - AUTOMATIC CONTROL AND SYSTEMS ENGINEERING
ENGU99 FOUNDATION YEAR – BIOENGINEERING
CIVU99 FOUNDATION YEAR - CIVIL AND STRUCTURAL ENGINEERING
CPEU99 FOUNDATION YEAR - CHEMICAL AND BIOLOGICAL ENGINEERING
EEEU99A FOUNDATION YEAR - ELECTRONIC AND ELECTRICAL ENGINEERING
MATU99 FOUNDATION YEAR - ENGINEERING MATERIALS
MECU99 FOUNDATION YEAR - MECHANICAL ENGINEERING

Level 0

- A candidate shall take

CHM008	Chemistry	40
MAS001	Mathematics I	20
MAS002	Mathematics II	20
PHY008	Physics	40
- A candidate shall pass the Foundation Year if the average mark in each unit is at or above the pass mark.

Leading to programme of study for the Degree of MComp/BSc in COMU99 Computer Science

Level 0

- A candidate shall take

(a)	AMA008	Mathematics II	20
	PMA008	Mathematics I	20
- a unit to the value of *forty* credits from the following

CHM008	Chemistry	40
PHY008	Physics	40
- units to the value of *forty* credits from the following

ACE0311	Foundation 2 Biology	20
ACE0313	Foundation 2 Chemistry	20
ACE0319	Foundation 2 English Language and Linguistics	20
ACE0322	Foundation 2 History	20
ACE0323	Foundation 2 English Literature	20
ACE0325	Foundation 2 Psychology	20
ACE0331	Foundation 2 Law and Society	20
ACE0332	Foundation 2 Natural and Human Environments	20
ACE0333	Foundation 2 Social and Political Studies	20
ACE0334	Foundation 2 Individual Project	20
ACE0335	Foundation 2 IT and Organisations	20
CHM008	Chemistry	40
PHY008	Physics	40
- A candidate shall pass the Foundation Year if the average mark in each unit is at or above the pass mark.

ACSU01 COMPUTER SYSTEMS ENGINEERING (BEng) (JACS H130)

Level 1

- A candidate shall take the programme of study prescribed at Level 1 in the Regulations for the Degree of MEng in Computer Systems Engineering (ACSU02).

Level 2

- A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree of MEng in Computer Systems Engineering (ACSU02).

Level 3

- A candidate shall take

(a)	ACS318	F6	System Identification	10
	ACS321	F6	Digital Signal Processing	10
	ACS322	F6	Individual Project	30
	ACS325	F6	Embedded Control Systems	10
	ACS326	F6	Distributed Real-time Systems	10
	COM262	F5	Data Structures and Algorithms	10
	EEE343	F6	Computer Architecture	10
	MGT389	F6	Project Management and HRM for Engineers	10
- units to the value of *twenty* credits from the following

(i)	ACS317	F6	State-space Control Design	10
	ACS323	F6	Intelligent Systems	10
	ACS327	F6	Space Systems Engineering	10
	ACS329	F6	Robotics	10
	COM3300	F6	Experiencing Genesys	10
	COM3501	F6	Computer Security and Forensics	10
	EEE310	F6	Introduction to VLSI	10
- unrestricted units to a maximum value of *twenty* credits
- MLT units in a single language to a maximum value of *twenty* credits
- A candidate must pass ACS322 (Individual Project) at the first attempt in order to be eligible for the award of the Degree with Honours.

ACSU02 COMPUTER SYSTEMS ENGINEERING (MEng) (JACS G500)

Level 1

- A candidate shall take

ACS108	F4	Laboratory and Professional Skills	20
ACS123	F4	Systems Engineering Mathematics	20
ACS124	F4	Modelling, Analysis and Control	20
ACS125	F4	Systems Modelling and Simulation	20
ACS126	F4	Computing and Systems Design	20
EEE123	F4	Introduction to Electric and Electronic Circuits	20

Level 2

- A candidate shall take

(a)	ACS214	F5	Discrete Systems	20
	ACS217	F5	Mathematics and Data Modelling	20
	ACS221	F5	Control Systems Analysis and Design	20
	ACS223	F5	Computer Systems and Applications	20
	ACS224	F5	Systems Laboratory and Design	10
	COM160	F4	Computer Problem Solving and Object Oriented Design	20
	MGT388	F6	Finance and Law for Engineers	10

Level 3

- A candidate shall take

(a)	ACS318	F6	System Identification	10
	ACS321	F6	Digital Signal Processing	10
	ACS325	F6	Embedded Control Systems	10

ACS326	F6	Distributed Real-time Systems	10
ACS330	F6	Group Project	30
COM262	F5	Data Structures and Algorithms	10
EEE343	F6	Computer Architecture	10
MGT389	F6	Project Management and HRM for Engineers	10
(b) units to the value of <i>twenty</i> credits from the following			
(i)	ACS317	F6 State-space Control Design	10
	ACS323	F6 Intelligent Systems	10
	ACS327	F6 Space Systems Engineering	10
	ACS329	F6 Robotics	10
	COM3300	F6 Experiencing Genesys	10
	COM3501	F6 Computer Security and Forensics	10
	EEE310	F6 Introduction to VLSI	10
(ii) unrestricted units to a maximum value of <i>twenty</i> credits			
(iii) MLT units in a single language to a maximum value of <i>twenty</i> credits			

Level 4

4. A candidate shall take
 - (a) ACS420 F7 Advanced Project 60
 - (b) units to the value of *sixty* credits in total from the following, with a minimum of *thirty* credits from option (i) and a maximum of *twenty* credits from option (iii)
 - (i) ACS408 F7 Optimisation and Search 10
 - ACS410 F7 Flight Dynamics and Control 10
 - ACS416 F7 Nonlinear Systems 10
 - ACS424 F7 Multi-sensor Data Fusion 10
 - ACS425 F7 Robust and Advanced Control 10
 - ACS427 F7 Data Modelling and Machine Intelligence 10
 - (ii) COM4501 F7 Computer Security and Forensics 15
 - COM4503 F7 3D Computer Graphics 15
 - COM4506 F7 Testing and Verification in Safety Critical Systems 15
 - EEE6031 F7 Advanced Computer Architectures 10
 - EEE6032 F7 Operating Systems 10
 - EEE6410 F7 Data coding for Communications and Storage 10
 - (iii) unrestricted units to a maximum value of *twenty* credits or MLT units in a single language to a maximum value of *twenty* credits at F5 Level or above.
5. A candidate must satisfy the requirements of the General Regulations for First Degrees as to progression in order to continue as a candidate for the Degree of MEng in Computer Systems Engineering (ACSU02). A candidate who fails to satisfy these requirements may be permitted by the Faculty to become instead a candidate for the Degree of BEng in Computer Systems Engineering (ACSU01) but this qualification will not be accredited by the relevant professional institutions.
6. A candidate must pass ACS420 (Advanced Project) at the first attempt in order to be eligible for the award of the Degree of MEng in Computer Systems Engineering. A candidate who fails to satisfy this requirement may be awarded the Degree of BEng in Computer Systems Engineering (ACSU01) but this qualification will not be accredited by the relevant professional institutions.

ACSU03 SYSTEMS AND CONTROL ENGINEERING (BEng) (JACS H690)

Level 1

1. A candidate shall take the programme of study prescribed at Level 1 in the Regulations for the Degree of MEng in Systems and Control Engineering (ACSU04).

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree of MEng in Systems and Control Engineering (ACSU04).

Level 3

3. A candidate shall take
 - (a) ACS317 F6 State-space Control Design 10
 - ACS318 F6 System Identification 10
 - ACS321 F6 Digital Signal Processing 10
 - ACS322 F6 Individual Project 30
 - ACS323 F6 Intelligent Systems 10
 - ACS325 F6 Embedded Control Systems 10
 - ACS326 F6 Distributed Real-Time Systems 10
 - MGT389 F6 Project Management and HRM for Engineers 10
 - (b) units to the value of *twenty* credits from the following
 - (i) ACS327 F6 Space Systems Engineering 10
 - ACS329 F6 Robotics 10
 - (ii) unrestricted units to a maximum value of *twenty* credits
 - (iii) MLT units in a single language to a maximum value of *twenty* credits
4. A candidate must pass ACS322 (Individual Project) at the first attempt in order to be eligible for the award of the Degree with Honours.

ACSU04 SYSTEMS AND CONTROL ENGINEERING (MEng) (JACS H660)

Level 1

1. A candidate shall take
 - (a) ACS108 F4 Laboratory and Professional Skills 20
 - ACS123 F4 Systems Engineering Mathematics 20
 - ACS124 F4 Modelling, Analysis and Control 20
 - ACS125 F4 Systems Modelling and Simulation 20
 - ACS126 F4 Computing and Systems Design 20
 - EEE123 F4 Introduction to Electric and Electronic Circuits 20

Level 2

2. A candidate shall take
 - (a) ACS214 F5 Discrete Systems 20
 - ACS217 F5 Mathematics and Data Modelling 20
 - ACS221 F5 Control Systems Analysis and Design 20
 - ACS223 F5 Computer System and Applications 20
 - ACS224 F5 Systems Laboratory and Design 10
 - MGT388 F6 Finance and Law for Engineers 10
 - (b) units to the value of *twenty* credits from *one* of the following
 - (i) COM160 F4 Computer Problem Solving and Object Oriented Design 20
 - (ii) EEE223 F5 Electrical Energy Management and Conversion 20
 - (iii) MEC134 F4 Engineering Mechanics 20
 - (iv) MAT2510 F5 Tissue Structure and Function 10
 - MPY101 F4 Physics of Living Systems 2 10
 - (v) MLT units in a single language to a maximum value of *twenty* credits

Level 3

3. A candidate shall take
 - (a) ACS317 F6 State-space Control Design 10
 - ACS318 F6 System Identification 10
 - ACS321 F6 Digital Signal Processing 10
 - ACS323 F6 Intelligent Systems 10
 - ACS325 F6 Embedded Control Systems 10
 - ACS326 F6 Distributed Real-time Systems 10
 - ACS330 F6 Group Design Project 30

- MGT389 F6 Project Management and HRM for Engineers 10
- (b) units to the value of *twenty* credits from the following
- (i) ACS327 F6 Space Systems Engineering 10
ACS329 F6 Robotics 10
- (ii) unrestricted units to a maximum value of *twenty* credits
- (iii) MLT units in a single language to a maximum value of *twenty* credits

Level 4

4. A candidate shall take
- (a) ACS420 F7 Advanced Project 60
- (b) units to the value of *sixty* credits from the following, a minimum of *forty* credits must be taken from (i)
- (i) ACS408 F7 Optimisation and Search 10
ACS410 F7 Flight Dynamics and Control 10
ACS416 F7 Nonlinear Systems 10
ACS424 F7 Multi-sensor Data Fusion 10
ACS425 F7 Robust and Advanced Control 10
ACS427 F7 Data Modelling and Machine Intelligence 10
- (ii) unrestricted units to a maximum value of *twenty* credits
- (iii) MLT units in a single language to a maximum value of *twenty* credits at F5 Level or above.
5. A candidate must satisfy the requirements of the General Regulations for First Degrees as to progression in order to continue as a candidate for the Degree of MEng in Systems and Control Engineering (ACSU04). A candidate who fails to satisfy these requirements may be permitted by the Faculty to become instead a candidate for the Degree of BEng in Systems and Control Engineering (ACSU03) but this qualification will not be accredited by the relevant professional institutions.
6. A candidate must pass ACS420 (Advanced Project) at the first attempt in order to be eligible for the award of the Degree of Systems and Control Engineering (ACSU04). A candidate who fails to satisfy this requirement may be awarded the Degree of BEng in Systems and Control Engineering (ACSU03) but this qualification will not be accredited by the relevant professional institutions.

ACSU05 ELECTRONIC, CONTROL AND SYSTEMS ENGINEERING (BEng) (JACS H663)

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree of MEng in Electronic, Control and Systems Engineering (ACSU06).

Level 3

3. A candidate shall take
- ACS317 F6 State Space Control Design 10
ACS318 F6 System Identification 10
ACS321 F6 Digital Signal Processing 10
ACS322 F6 Individual Project 30
ACS325 F6 Embedded Control Systems 10
EEE317 F6 Principles of Communication 10
EEE343 F6 Computer Architecture 10
MGT389 F6 Project Management and HRM for Engineers 10
- (b) units to the value of *twenty* credits from the following
- (i) ACS323 F6 Intelligent Systems 10
ACS326 F6 Distributed Real-time Systems 10
ACS327 F6 Space Systems Engineering 10
ACS329 F6 Robotics 10
COM262 F5 Data Structures and Algorithms 10
MEC316 F6 Renewable Energy 10
- (ii) unrestricted units to a maximum value of *twenty* credits

- (iii) MLT units in a single language to a maximum value of *twenty* credits
4. A candidate must pass ACS322 (Individual Project) at the first attempt in order to be eligible for the award of the Degree with Honours.

ACSU06 ELECTRONIC, CONTROL AND SYSTEMS ENGINEERING (MEng) (JACS H650)

- (a) ACS420 F7 Advanced Project 60
- (b) units to the value of *sixty* credits in total from the following, with a minimum of *thirty* credits from (i) and a maximum of *twenty* credits from (iii)
- (i)
- | | | | |
|--------|----|---|----|
| ACS408 | F7 | Optimisation and Search | 10 |
| ACS410 | F7 | Flight Dynamics and Control | 10 |
| ACS416 | F7 | Nonlinear Systems | 10 |
| ACS424 | F7 | Multi-sensor Data Fusion | 10 |
| ACS425 | F7 | Robust and Advanced Control | 10 |
| ACS427 | F7 | Data Modelling and Machine Intelligence | 10 |
- (ii) INF337 F6 Health Information 20
- | | | | |
|--------|----|--|----|
| MAT205 | F5 | The Physiology of the Musculoskeletal Systems | 10 |
| MPY308 | F6 | Computational Mechanics and Clinical Engineering | 10 |
- (iii) unrestricted credits to the value of *twenty* credits or MLT units in a single language to a maximum value of *twenty* credits at F5 Level or above
5. A candidate must satisfy the requirements of the General Regulations for First Degrees as to progression in order to continue as a candidate for the Degree of MEng in Medical Systems Engineering (ACSU13). A candidate who fails to satisfy these requirements may be permitted by the Faculty to become instead a candidate for the Degree of BEng in Medical Systems Engineering (ACSU12).
6. A candidate must pass ACS420 (Advanced Project) at the first attempt in order to be eligible for the award of the Degree of MEng in Medical Systems Engineering. A candidate who fails to satisfy this requirement may be awarded the Degree of BEng in Medical Systems Engineering (ACSU12).

ACSU14 MECHATRONICS (MEng) (JACS H360)

A: For candidates whose initial registration was for the Session 2011-12 Level 2

2. A candidate shall take
- | | | | |
|--------|----|-------------------------------------|----|
| ACS214 | F5 | Discrete Systems | 20 |
| ACS217 | F5 | Mathematics and Data Modelling | 20 |
| ACS221 | F5 | Control Systems Analysis and Design | 20 |

- MLT units to the value of not more than *ten* credits.
5. Before proceeding to Level 2 a candidate shall attend a field course, the arrangements being subject to the approval of the Head of Department.
6. A candidate must satisfy the requirements of the General Regulations for First Degrees as to progression in order to continue as a candidate for the Degree of MEng in Civil and Structural Engineering (CIVU03). A candidate who fails to satisfy these requirements may be permitted by the Faculty to become instead a candidate for the Degree of BEng in Civil Engineering (CIVU17).
7. A candidate must pass CIV4001 or CIV4002 (Individual Final Year Project / European Individual Project) at the first attempt in order to be eligible for the award of the Degree of MEng in Civil and Structural Engineering (CIVU03). A candidate who fails to satisfy this requirement may be permitted by the Faculty to be awarded the Degree of BEng in Civil Engineering (CIVU17) but shall be ineligible for the award of that Degree with Honours.
8. At Level 4, a candidate shall only take MLT modules as preparation for European Study and in conjunction with CIV4002.
9. A candidate must take CIV4180 and CIV6435 as a prerequisite for CIV6440.

CIVU12 STRUCTURAL ENGINEERING AND ARCHITECTURE (MEng) (JACS HK21)

	ARC375	F6	Project Design 55	20
	ARC378	F6	Science and Technology 56	10
	ARC476	F7	Architectural Design 6 (MEng)	20
	CIV406	F7	Advanced Structural Systems	10
	CIV412	F7	Advanced Structural Analysis	10
	CIV4001	F7	Individual Final Year Project	40
5.	Before proceeding to Level 2, a candidate shall attend a field course, the arrangements being subject to the approval of the Head of Department.			
6.	Following failure of an ARC Semester 1 module to the value of <i>ten</i> credits taken at Level 4, a candidate shall be allowed to resit the module within the same academic session.			
7.	A candidate must satisfy the requirements of the General Regulations for First Degrees as to progression in order to continue as a candidate for the Degree of MEng in Structural Engineering and Architecture (CIVU12). A candidate who fails to satisfy these requirements may be permitted by the Faculty to become instead a candidate for the Degree of BEng in Structural Engineering with Architectural Studies (CIVU20).			

- | | | | | |
|-----|--|--|--|--|
| 8. | A candidate must pass CIV4001 (Individual Final Year Project) at the first attempt in order to be eligible for the award of the Degree of MEng in Structural Engineering and Architecture (CIVU12). A candidate who fails to satisfy this requirement may be awarded the Degree of BEng in Structural Engineering with Architectural Studies (CIVU20) but shall be ineligible for the award of that Degree with Honours. | | | |
| 9. | A candidate must pass all CIV units at Levels 1 and 2, all ARC units and CIV406 and MGT389, in order to be eligible for the award of MEng in Structural Engineering and Architecture (CIVU12). At Levels 1, 2 and 3, a candidate who fails to satisfy this requirement may be recommended instead to transfer to the Degree of MEng in Structural Engineering with Architectural Studies (CIVU19). At Level 4, a candidate who fails to satisfy this requirement may be recommended instead for the award of the Degree of MEng in Structural Engineering with Architectural Studies (CIVU19). | | | |
| 10. | When the department has approved a Change of Status to transfer from an RIBA accredited programme to a programme that is not RIBA accredited, a student should be allowed to have their component marks for architecture modules averaged and any associated credits released. Students who benefit from this regulation whereby a module may be passed without all components being passed would not be eligible to transfer back onto the accredited course. | | | |

A candidate who fails to satisfy these requirements may be permitted by the Faculty to become instead a candidate for the Degree of BEng in Civil Engineering (CIVU17).
7. A candidate must pass CIV4001 or CIV4002 (Individual Final Year Project / European Individual Project) at the first attempt in order to be eligible for the award of the Degree of MEng in Civil Engineering (CIVU16). A candidate who fails to satisfy this requirement may be permitted by the Faculty to be awarded the Degree of BEng in Civil Engineering (CIVU17) but shall be ineligible for the award of that Degree with Honours.
8. At Level 4, a candidate shall only take MLT modules as preparation for European Study and in conjunction with CIV4002.

CIVU17 CIVIL ENGINEERING (BEng) (JACS H202)

Level 1

1. A candidate shall take
- | | | | |
|---------|----|---|----|
| CIV102 | F4 | Civil Engineering Fluid Mechanics | 10 |
| CIV150 | F4 | Geotechnical Engineering 1 | 10 |
| CIV172 | F4 | Introduction to Sustainable Civil Engineering | 10 |
| CIV1000 | F4 | Civil and Structural Engineering Mechanics 1 | 20 |
| CIV1200 | F4 | Introduction to Civil and Structural Engineering Design | 20 |
| CIV1900 | F4 | Civil Engineering Skills | 20 |
| MAS151 | F4 | Civil Engineering Mathematics | 20 |
| MAT1600 | F4 | Introduction to Materials Engineering | 10 |

Level 2

2. A candidate shall take
- | | | | |
|---------|----|---|----|
| CIV235 | F5 | Water and wastewater | 10 |
| CIV261 | F5 | Sustainable Concrete Technology | 10 |
| CIV2100 | F5 | Structural Analysis 1 | 20 |
| CIV2200 | F5 | Structural Engineering Design and Appraisal | 20 |
| CIV2300 | F5 | Water Engineering | 20 |
| CIV2500 | F5 | Geotechnical Engineering 2 | 20 |

MAS252	F5	Further Civil Engineering Mathematics	10
MAT2600	F5	Materials for Structural Engineering	10

Level 3

3. A candidate shall take
- | | | | |
|---------|----|--|----|
| CIV312 | F6 | Advanced Structural Analysis | 10 |
| CIV321 | F6 | Multi-storey Building Design | 10 |
| CIV337 | F6 | Urban Drainage Engineering | 10 |
| CIV339 | F6 | Hydraulic Design | 10 |
| CIV350 | F6 | Geotechnical Design | 10 |
| CIV3201 | F6 | Integrated Design Project I | 20 |
| CIV3202 | F6 | Integrated Design Project II (Individual Design Project) | 30 |
| CIV3204 | F6 | Integrated Design Project III | 10 |
| MGT388 | F6 | Finance and Law for Engineers | 10 |
4. Before proceeding to Level 2, a candidate shall attend a field course, the arrangements being subject to the approval of the Head of Department.
5. A candidate who does not pass CIV3202 (Individual Design Project II) at the first attempt shall be ineligible for the award of the Degree with Honours.

CIVU19 STRUCTURAL ENGINEERING WITH ARCHITECTURAL STUDIES (MEng) (JACS H2KC)

Level 1

1. A candidate shall take the programme of study prescribed at Level 1 in the Regulations for the degree of MEng in Structural Engineering and Architecture (CIVU12).

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the degree of MEng in Structural Engineering and Architecture (CIVU12).

Level 3

For candidates whose registration was for the Session 2010-11

3. A candidate shall take
- | | | | |
|---------|----|---|----|
| ARC353 | F5 | Humanities 55 | 10 |
| CIV312 | F6 | Advanced Structural Analysis | 10 |
| CIV321 | F6 | Multi-storey Building Design | 10 |
| CIV340 | F6 | Computational Engineering Mathematics | 10 |
| CIV350 | F6 | Geotechnical Design | 10 |
| CIV3201 | F6 | Integrated Design Project I | 20 |
| CIV3203 | F6 | Integrated Design Project II (Group Design Project) | 30 |
| CIV3204 | F6 | Integrated Design Project III | 10 |
| MGT388 | F6 | Finance and Law for Engineers | 10 |

For candidates whose initial registration was for the Session 2011-2012 or later and who are transferring from CIVU12

3. A candidate shall take
- | | | | |
|---------|----|---|----|
| ARC253 | F5 | Humanities 53 | 10 |
| ARC254 | F5 | Humanities 54 | 10 |
| CIV312 | F6 | Advanced Structural Analysis | 10 |
| CIV321 | F6 | Multi-storey Building Design | 10 |
| CIV340 | F6 | Computational Engineering Mathematics | 10 |
| CIV350 | F6 | Geotechnical Design | 10 |
| CIV3201 | F6 | Integrated Design Project I | 20 |
| CIV3203 | F6 | Integrated Design Project II (Group Design Project) | 30 |
| MGT388 | F6 | Finance and Law for Engineers | 10 |

Level 4

For candidates whose initial registration was for the Session 2009-2010

4. A candidate shall take
- (a) ARC353 F6 Humanities 55 10
- (b) units to the value of *thirty* credits from the following
- | | | | |
|---------|----|---|----|
| CIV4201 | F7 | Composite Steel and Concrete Construction | 15 |
| CIV4300 | F7 | Flow, Turbulence and Sediment Transport | 15 |
| CIV4501 | F7 | Advanced Geotechnics | 15 |
- (c) units to the value of *eighty* credits from the following with no more than *fifty* credits being taken from (i)
- (i) CIV4001 F7 Individual Final Year Project 40
CIV4002 F7 European Individual Project 50
- (ii) CIV406 F7 Advanced Structural Systems 10
CIV6702 F7 Risk Analysis and Extreme Events 10
CIV410 F7 Further Structural Analysis 10
CIV4180 F7 Structural Dynamics 10
CIV6130 F7 Computational Structural Analysis 10
CIV6170 F7 FRP Composites in Construction 10
CIV6235 F7 Advanced Concrete Design 10
CIV6265 F7 Structural Analysis and Design for Fire 10
CIV6410 F7 Blast and Impact Effects on Structures 10
CIV6421 F7 Vibration Control of Civil Structures 10
CIV6435 F7 Introduction to Earthquake Engineering 10
CIV6440 F7 Design of Earthquake Resistant Structures 10
- MLT units to the value of not more than *ten* credits.
5. Before proceeding to Level 2 a candidate shall attend a field course, the arrangements being subject to the approval of the Head of Department.
6. A candidate must satisfy the requirements of the General Regulations for First Degrees as to progression in order to continue as a candidate for the Degree of MEng in Structural Engineering with Architectural Studies (CIVU19). A candidate who fails to satisfy these requirements may be permitted by the Faculty to become instead a candidate for the Degree of BEng in Structural Engineering with Architectural Studies (CIVU20).
7. A candidate must pass CIV4001 or CIV4002 (Individual Final Year Project / European Individual Project) at the first attempt in order to be eligible for the award of the Degree of MEng in Structural Engineering with Architectural Studies (CIVU19). A candidate who fails to satisfy this requirement may be permitted by the Faculty to be awarded the Degree of BEng in Structural Engineering with Architectural Studies (CIVU20) but shall be ineligible for the award of that Degree with Honours.
8. At Level 4, a candidate shall only take MLT modules as preparation for European Study and in conjunction with CIV4002.

For candidates whose initial registration was for the Session 2010-2011

4. A candidate shall take
- (a) units to the value of *thirty* credits from the following
- | | | | |
|---------|----|---|----|
| CIV4201 | F7 | Composite Steel and Concrete Construction | 15 |
| CIV4300 | F7 | Flow, Turbulence and Sediment Transport | 15 |
| CIV4501 | F7 | Advanced Geotechnics | 15 |
- (b) units to the value of *ninety* credits from (i) and (ii)
- (i) CIV4003 F7 Individual Final Year Project (Architecture) 40
CIV4004 F7 European Individual Project (Architecture) 50
- (ii) CIV410 F7 Further Structural Analysis 10

- | | | | |
|---------|----|---|----|
| CIV4180 | F7 | Structural Dynamics | 10 |
| CIV6130 | F7 | Computational Structural Analysis | 10 |

- MLT units to the value of not more than *ten* credits.
5. Before proceeding to Level 2 a candidate shall attend a field course, the arrangements being subject to the approval of the Head of Department.
6. A candidate must satisfy the requirements of the General Regulations for First Degrees as to progression in order to continue as a candidate for the Degree of MEng in Structural Engineering with Architectural Studies (CIVU19). A candidate who fails to satisfy these requirements may be permitted by the Faculty to become instead a candidate for the Degree of BEng in Structural Engineering with Architectural Studies (CIVU20).
7. A candidate must pass CIV4003 or CIV4004 (Individual Final Year Project / European Individual Project) at the first attempt in order to be eligible for the award of the Degree of MEng in Civil and Structural Engineering (CIVU03). A candidate who fails to satisfy this requirement may be permitted by the Faculty to be awarded the Degree of BEng in Civil Engineering (CIVU17) but shall be ineligible for the award of that Degree with Honours.
8. At Level 4, a candidate shall only take MLT modules as preparation for European Study and in conjunction with CIV4004.
9. A candidate must take CIV4180 and CIV6435 as a prerequisite for CIV6440.

CIVU20 STRUCTURAL ENGINEERING WITH ARCHITECTURAL STUDIES (BEng) (JACS H2KC)

Level 1

1. A candidate shall take the programme of study prescribed at Level 1 in the Regulations for the degree of MEng in Structural Engineering with Architectural Studies (CIVU19) or Structural Engineering and Architecture (CIVU12).

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the degree of MEng in Structural Engineering with Architectural Studies (CIVU19) or Structural Engineering and Architecture (CIVU12).

Level 3

3. A candidate shall take
- | | | | |
|---------|----|--|----|
| ARC253 | F5 | Humanities 53 | 10 |
| CIV312 | F6 | Advanced Structural Analysis | 10 |

 - CIV6726 F7 Landfill Engineering and Environmental Management 10
 - CIV6727 F7 Flood Risk Management 10
 - CIV6771 F7 Environmental River Mechanics 10
5. Before proceeding to Level 2 a candidate shall attend a field course, the arrangements being subject to the approval of the Head of Department.
6. A candidate must satisfy the requirements of the General Regulations for First Degrees as to progression in order to continue as a candidate for the Degree of MEng in Civil Engineering with Business Management (CIVU22). A candidate who fails to satisfy these requirements may be permitted by the Faculty to become instead a candidate for the Degree of BEng in Civil Engineering (CIVU17).
7. At Level 4 a candidate must take either CIV4005 or CIV4006.
8. A candidate must pass CIV4005 or CIV4006 at the first attempt in order to be eligible for the award of the Degree of MEng Civil with Business Management (CIVU22). A candidate who fails to satisfy this requirement may be permitted by the Faculty to be awarded the Degree of BEng in Civil Engineering (CIVU17) but shall be ineligible for the award of that Degree with Honours.
9. At Level 4, a candidate shall only take MLT modules as preparation for European Study and in conjunction with CIV4006.

COMU05 SOFTWARE ENGINEERING (BEng) (JACS G600)

Level 1

1. A candidate shall take the programme of study prescribed at Level 1 in the Regulations for the Degree of MEng in Software Engineering (COMU06).

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree of MEng in Software Engineering (COMU06).

Level 3

3. A candidate shall take the programme of study prescribed at Level 3 in the Regulations for the Degree of MEng in Software Engineering (COMU06).
4. A candidate who does not pass COM3010 (Research Project 1) and COM3021 (Research Project 2) at the first attempt shall be ineligible for the award of the Degree with Honours.

COMU06 SOFTWARE ENGINEERING (MEng) (JACS G650)

A: For candidates whose initial registration is for the Session 2009-2010 or later

Level 1

1. A candidate shall take
 - (a) COM1001 F4 Software Engineering Crossover Project 20
 - COM1002 F4 Foundations of Computer Science 20
 - COM1003 F4 Java Programming 20
 - COM1004 F4 Web and Internet Technology 20
 - COM1005 F4 Machines and Intelligence 20
 - (b) units to the value of *twenty* credits from the following

COM1006	F4	Devices and Networks	20
---------	----	----------------------	----

 unrestricted units.

Level 2

2. A candidate shall take

COM2001	F5	Advanced Programming Topics	20
COM2002	F5	Human Centred Systems Design	20
COM2003	F5	Automata, Logic and Computation	20
COM2004	F5	Data Driven Computing	20
COM2005	F5	Bio-inspired Computing and Robotics	20
COM3420	F6	Software Hut	20

Level 3

3. A candidate shall take
 - (a) COM3600 F6 Research Project 60
 - COM3650 F6 Professional Issues 10
 - (b) units to the value of *thirty* credits from the following
 - (i) COM3001 F6 Modelling and Simulation of Natural Systems 10
 - COM3190 F6 Theory of Distributed Systems 10
 - COM3240 F6 Adaptive Intelligence 10
 - COM3310 F6 Mainframe Computing 10
 - COM3501 F6 Computer Security and Forensics 10
 - COM3504 F6 The Intelligent Web 10
 - (ii) COM3110 F6 Text Processing 10
 - (iii) COM3502 F6 Speech Processing 10
 - (iv) COM3503 F6 3D Computer Graphics 10
 - (c) unrestricted units to the value of *twenty* credits

Level 4

4. A candidate shall take

- (a) COM4525 F7 Genesys 45
- (b) units to the value of *forty five* credits from the following
- (i) COM4501 F7 Computer Security and Forensics 15
 COM4506 F7 Testing and Verification in Safety-Critical Systems 15
 COM4507 F7 Software and Hardware Verification 15
 COM4508 F7 Introduction to Computational Systems Biology 15
 COM4509 F7 Machine Learning and Adaptive Intelligence 15
 COM4510 F7 Software Development for Mobile Devices 15
 COM4511 F7 Speech Technology 15
 COM4512 F7 Virtual Environments and Computer Games Technology 15
 COM4513 F7 Natural Language Processing 15
 COM4514 F7 Java E-Commerce 15
 COM4515 F7 Network Performance Analysis 15
 COM4520 F7 Darwin Research Project 30
- (ii) COM4115 F7 Text Processing provided that no units were taken from 3(b)(ii) at Level 3 15
- (iii) COM4502 F7 Speech Processing provided that no units were taken from 3(b)(iii) at Level 3 15
- (iv) COM4503 F7 3D Computer Graphics provided that no units were taken from 3(b)(iv) at Level 3 15
- (c) unrestricted units to the value of *thirty* credits, at least ten of which must be at FHEQ level F7.
5. A candidate must satisfy the requirements of the General Regulations for First Degrees as to progression in order to continue as a candidate for the Degree of MEng in Software Engineering (COMU06). A candidate who fails to satisfy these requirements may be permitted by the Faculty to become instead a candidate for the Degree of BEng in Software Engineering (COMU05).
6. A candidate must pass COM3600 (Research Project) at the first attempt in order to continue as a candidate for the award of the Degree of MEng in Software Engineering. A candidate who fails to satisfy this requirement may be permitted by the Faculty to become instead a candidate for the Degree of BEng in Software Engineering (COMU05) but shall be ineligible for the award of the Degree with Honours.
7. A candidate at Level 4 may spend *either* the Autumn *or* Spring semester in attendance as a full-time student at a European university, the arrangements being subject to the approval of the Head of Department. During this period the candidate shall attend and be examined in units of study deemed to be equivalent to Level 4 units, and which shall carry the value of *sixty* credits.

B: For candidates whose initial registration was in the Session 2008-2009

Level 1

1. A candidate shall take
- (a) COM1010 F4 Introduction to Programming 10
 COM1020 F4 Object-oriented Programming 10
 COM1030 F4 Requirements Engineering 10
 COM1040 F4 Systems Design and Testing 10
 COM1070 F4 Introduction to Artificial Intelligence 10
 COM1080 F4 Artificial Intelligence Techniques 10
 COM1090 F4 Computer Architectures 10
 COM1100 F4 Network Architectures 10
 MAS1050 F4 Discrete Foundations 10
 MAS1060 F4 Continuous Foundations 10
- (b) unrestricted units to the value of *twenty* credits.

Level 2

2. A candidate shall take
- COM2010 F5 Functional Programming 10
 COM2020 F5 Abstract Data Types 10

- COM2030 F5 Machines And Languages 10
 COM2040 F5 Professional Issues 10
 COM2060 F5 Database Technology 10
 COM2090 F5 HCI and Graphical Interfaces 10
 COM2110 F5 Adaptive Robotics 10
 COM3290 F6 Symbolic Reasoning 10
 COM3400 F6 Pattern Processing 10
 COM3410 F6 Systems Analysis and Design 10
 COM3420 F6 Software Hut 20

Level 3

3. A candidate shall take
- (a) COM3010 F6 Research Project 1 20
 COM3021 F6 Research Project 2 40
- (b) a unit to the value of *ten* credits from the following
- COM3210 F6 Software Measurement and Testing 10
 COM3220 F6 Advanced Software Engineering Seminars 10
- (c) units to the value of *thirty* credits from the following

	COM3300	F6 Experiencing Genesys	10
	COM3310	F6 Mainframe Computing	10
	COM3330	F6 Critical Evaluation of Industrial Opinion	10
	COM3600	F6 Research Project	60
	COM3650	F6 Professional Issues	103
	USE301	F6 Making Ideas Happen	20

Level 4

4.	A candidate shall take		
(a)	COM4514	F7 Java E-Commerce	15
	COM4525	F7 Genesys	45
	MEC408	F7 Marketing Management	10
	MEC414	F7 Technology Strategy and Business Planning	10
(b)	units to the value of <i>forty</i> credits from the following, not more than <i>ten</i> credits to be selected from (ii)		
(i)	COM4115	F7 Text Processing	15
	COM4502	F7 Speech Processing	15
	COM4503	F7 3D Computer Graphics	15
	COM4509	F7 Machine Learning and Adaptive Intelligence	15
	COM4510	F7 Software Development for Mobile Devices	15
	COM4511	F7 Speech Technology	15
	COM4512	F7 Virtual Environments and Computer Games Technology	15
	COM4513	F7 Natural Language Processing	15
	COM4515	F7 Network Performance Analysis	15
(ii)	COM3190	F6 Theory of Distributed Systems	10
	COM3501	F6 Computer Security and Forensics	10
	COM3504	F6 Intelligent Web	10
	MGT389	F6 Project Management and HRM for Engineers	10

5. A candidate must satisfy the requirements of the General Regulations for First Degrees as to progression in order to continue as a candidate for the Degree of MComp in Enterprise Computing: Information Technology Management for Business (COMU26). A candidate who fails to satisfy these requirements may be permitted by the Faculty to become instead a candidate for the Degree of BSc in Enterprise Computing: Information Technology Management for Business (COMU25).
6. A candidate must pass COM3600 (Research Project) at the first attempt in order to continue as a candidate for the degree of MComp in Enterprise Computing: Information Technology Management for Business (COMU26). A candidate who fails to satisfy this requirement may be permitted by the Faculty to become instead a candidate for the Degree of BSc in Enterprise Computing: Information Technology Management for Business (COMU25) but shall be ineligible for the award of the degree with Honours.

B: For candidates whose initial registration was in the Session 2010-2011

Level 1

1.	A candidate shall take		
(a)	COM1001	F4 Software Engineering Crossover Project	20
	COM1003	F4 Java Programming	20
	COM1004	F4 Web and Internet Technology	20
	MGT120	F4 Introduction to Behaviour at Work	10
	MGT133	F4 Accounting and Finance for Managers	20
	MGT136	F4 Management Themes and Perspectives	20
(b)	unrestricted units to the value of <i>ten</i> credits		

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree of MComp in Enterprise Computing: Information Technology Management for Business (COMU126) Version A.

Level 3

3. A candidate shall take the programme of study prescribed at Level 3 in the Regulations for the Degree of MComp in Enterprise Computing: Information Technology Management for Business (COMU126) Version A.

Level 4

4. A candidate shall take the programme of study prescribed at Level 4 in the Regulations for the Degree of MComp in Enterprise Computing: Information Technology Management for Business (COMU126) Version A.

C: For candidates whose initial registration was in the Session 2009-2010

Level 1

1.	A candidate shall take		
(a)	COM1001	F4 Software Engineering Crossover Project	20
	COM1002	F4 Foundations of Computer Science	20
	COM1003	F4 Java Programming	20
	COM1004	F4 Web and Internet Technology	20
	MGT120	F4 Introduction to Behaviour at Work	10
	MGT127	F4 Managing the Business Enterprise	10
	MGT128	F4 The Enterprise Economy	10
	MGT130	F4 Finance for Managers	10

Level 2

2.	A candidate shall take		
(a)	COM2002	F5 Human Centred Systems Design	20
	COM2040	F5 Professional Issues	10
	COM3420	F6 Software Hut	20

INF205	F5	Database Design	20
MEC210	F5	Business Skills for the Engineer	10
MGT229	F5	Enterprise and Entrepreneurship	20
(b) a unit to the value of <i>twenty</i> credits from the following			
COM1005	F5	Machines and Intelligence	20
COM2001	F5	Advanced Programming Topics	20
COM2003	F5	Automata Logic and Computation	20
INF211	F5	Information Systems Modelling	20

Level 3

3. A candidate shall take			
COM3300	F6	Experiencing Genesys	10
COM3310	F6	Mainframe Computing	10
COM3330	F6	Critical Evaluation of Industrial Opinion	10
COM3600	F6	Research Project	60

CPEU02 CHEMICAL ENGINEERING (BEng) (JACS H810)

Level 1

1. A candidate shall take the programme of study prescribed at Level 1 in the Regulations for the Degree of MEng in Chemical Engineering (CPEU03).

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree of MEng in Chemical Engineering (CPEU03).

Level 3

3. A candidate shall take				
(a)	ACS334	F6	Process Dynamics and Control	10
	CPE321	F6	Design Project	30
	CPE414	F7	Environmental Protection	10
	CPE433	F7	Crystal Science and Engineering	10
	CPE3002	F6	Chemical Engineering Design	20
	CPE3003	F6	Advanced Chemical Engineering	20
	MGT389	F6	Project Management and HRM for Engineers	10
(b) a unit to the value of <i>ten</i> credits from the following				
	CPE419	F7	Nuclear Reactor Engineering	10
	CPE425	F7	Oil and Gas Utilisation	10
	CPE430	F7	Low Carbon Energy Science and Technology	10
F6 Level and F7 Level ACS, CIV, EEE, MEC, MAT, or COM units.				
4. A candidate who does not pass CPE321 (Design Project) at the first attempt shall be ineligible for the award of the Degree with Honours.				

CPEU03 CHEMICAL ENGINEERING (MEng) (JACS H800)

Level 1

1. A candidate shall take

CHM155	F4	Organic Chemistry for Chemical Engineers	10
CPE101	F4	Applied Chemical Engineering	20
CPE1002	F4	Chemical Engineering Design	30
CPE1003	F4	Fluid Mechanics and Thermodynamics	20
CPE1004	F4	Science for Chemical Engineers	20
MAS140	F4	Mathematics (Chemical)	20

Level 2

2. A candidate shall take

CPE210	F5	Applied Chemical Engineering	10
CPE211	F5	Chemistry for Chemical Engineers	10
CPE221	F5	Biochemistry	10
CPE225	F5	Fuel and Energy Utilisation	10
CPE2003	F5	Transport and Separation Processes	40
CPE2012	F5	Chemical Engineering Design	30
MAS248	F5	Mathematics III (Chemical)	10

Level 3

3. A candidate shall take
 - (a)

ACS334	F6	Process Dynamics and Control	10
CPE414	F7	Environmental Protection	10
CPE421	F7	Design Project	30
CPE433	F7	Crystal Science and Engineering	10
CPE3002	F6	Chemical Engineering Design	20
CPE3003	F6	Advanced Chemical Engineering	20
MGT389	F6	Project Management and HRM for Engineers	10
 - (b) a unit to the value of *ten* credits from the following

CPE405	F7	Fires and Explosions	10
CPE419	F7	Nuclear Reactor Engineering	10
CPE425	F7	Oil and Gas Utilisation	10
MEC314	F6	Innovation Management	10

 F6 Level and F7 Level ACS, CIV, EEE, MEC, MAT or COM units.

Level 4

4. A candidate shall take
 - (a)

CPE401	F7	Research Project	40
CPE402	F7	Computational Fluid Dynamics	10
CPE406	F7	Energy from Biomass and Waste	10
CPE418	F7	Research Methods in Chemical Engineering	10
CPE430	F7	Low Carbon Energy Science and Technology	10
 - (b) units to the value of *forty* credits from the following

CPE403	F7	Environment: Gaseous Emissions	10
CPE405	F7	Fires and Explosions	10
CPE407	F7	Environment: Particulate Emissions	10
CPE408	F7	Environment: Liquid Effluents	10
CPE417	F7	Environmental Issues	10
CPE419	F7	Nuclear Reactor Engineering	10
CPE425	F7	Oil and Gas Utilisation	10
MEC408	F7	Marketing Management	10
MEC414	F7	Technology Strategy and Business Planning	10
MEC428	F7	The Professional Responsibility of Engineers	10
5. Candidates taking a year out at Level 3 (as part of the Year Abroad Programme) shall take the following at Level 4
 - (a)

CPE406	F7	Energy from Biomass and Waste	10
CPE408	F7	Environment: Liquid Effluents	10
CPE414	F7	Environmental Protection	10
CPE421	F7	Design Project	30
CPE430	F7	Low Carbon Energy Science and Technology	10
CPE3002	F6	Chemical Engineering Design	20

- | | | | |
|--------|----|--|----|
| MGT389 | F6 | Project Management and HRM for Engineers | 10 |
|--------|----|--|----|
- (b) units to the value of *twenty* credits from the following

CPE405	F7	Fires and Explosions	10
CPE407	F7	Environment: Particulate Emissions	10
CPE417	F7	Environmental Issues	10
CPE419	F7	Nuclear Reactor Engineering	10
CPE425	F7	Oil and Gas Utilisation	10

 F6 Level and F7 Level ACS, CIV, EEE, MEC, MAT or COM units
 6. A candidate must satisfy the requirements of the General Regulations for First Degrees as to progression in order to continue as a candidate for the Degree of MEng in Chemical Engineering (CPEU03). A candidate who fails to satisfy these requirements may be permitted by the Faculty to become instead a candidate for the Degree of BEng in Chemical Engineering (CPEU02).
 7. A candidate who does not pass CPE421 (Design Project) at the first attempt shall be ineligible for the award of the Degree with Honours.

CPEU05 CHEMICAL ENGINEERING WITH FUEL TECHNOLOGY (MEng) (JACS H840b)

CPEU05 CHEMICAL ENGINEERING WITH ENERGY (MEng) (JACS H840b) Level 1

1. A candidate shall take the programme of study prescribed at Level 1 in the Regulations for the Degree of MEng in Chemical Engineering (CPEU03).

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree of MEng in Chemical Engineering (CPEU03).

Level 3

3. A candidate shall take
 - (a)

ACS334	F6	Process Dynamics and Control	10
CPE414	F7	Environmental Protection	10
CPE421	F7	Design Project	30
CPE425	F7	Oil and Gas Utilisation	10
CPE3002	F6	Chemical Engineering Design	20
CPE3003	F6	Advanced Chemical Engineering	20
MGT389	F6	Project Management and HRM for Engineers	10
 - (b) a unit to the value of *ten* credits from the following

CPE405	F7	Fires and Explosions	10
CPE419	F7	Nuclear Reactor Engineering	10

Level 4

4. A candidate shall take
 - (a)

CPE401	F7	Research Project	40
CPE402	F7	Computational Fluid Dynamics	10
CPE403	F7	Environment: Gaseous Emissions	10
CPE406	F7	Energy from Biomass and Waste	10
CPE407	F7	Environment: Particulate Emissions	10
CPE417	F7	Environmental Issues	10
CPE418	F7	Research Methods in Chemical Engineering	10
CPE430	F7	Low Carbon Energy Science and Technology	10
 - (b) a unit to the value of *ten* credits from the following

CPE405	F7	Fires and Explosions	10
CPE419	F7	Nuclear Reactor Engineering	10

5. A candidate must satisfy the requirements of the General Regulations for First Degrees as to progression in order to continue as a candidate for the Degree of MEng in Chemical Engineering with Fuel Technology/MEng Chemical Engineering with Energy (CPEU05). A candidate who fails to satisfy these requirements may be permitted by the Faculty to become instead a candidate for the Degree of BEng in Chemical Engineering (CPEU02).
6. A candidate who does not pass CPE421 (Design Project) at the first attempt shall be ineligible for the award of the Degree with Honours.

CPEU09 CHEMICAL ENGINEERING WITH A MODERN LANGUAGE (MEng) (JACS H8T9b)

Level 1

1. A candidate shall take
- (a)
- | | | | |

| CPE425 | F7 | Oil and Gas Utilisation | 10 |
| CPE430 | F7 | Low Carbon Energy Science and Technology | 10 |
| CPE433 | F7 | Crystal Science and Engineering | 10 |
5. Before proceeding to Level 3, a candidate for the degree of MEng Chemical Engineering with a Modern Language should normally achieve an average mark of 60 in their chosen language modules (*twenty* credits) and an average of 55 across the remaining *one hundred* credits at Level 2. A candidate failing to meet this criteria will be required to change programme to the degree of MEng Chemical Engineering (CPEU03), MEng Chemical Engineering with Fuel Technology/MEng Chemical Engineering with Energy (CPEU05) or MEng Chemical Engineering with Chemistry (CPEU13), provided that they satisfy the requirements of the General Regulations for First Degrees as to progression for MEng programmes of study.

CPEU13 CHEMICAL ENGINEERING WITH CHEMISTRY (MEng) (JACS H8F1)

Level 1

1. A candidate shall take the programme of study prescribed at Level 1 in the Regulations for the Degree of MEng in Chemical Engineering (CPEU03).

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree of MEng in Chemical Engineering (CPEU03).

Level 3

3. A candidate shall take
- | | | | |
|---------|----|--|----|
| CHM3297 | F6 | Further Organic Chemistry for Chemical Engineers | 20 |
| ACS334 | F6 | Process Dynamics and Control | 10 |
| CPE414 | F7 | Environmental Protection | 10 |
| CPE431 | F7 | Design Project | 30 |
| CPE3002 | F6 | Chemical Engineering Design | 20 |
| CPE3003 | F6 | Advanced Chemical Engineering | 20 |
| MGT389 | F6 | Project Management and HRM for Engineers | 10 |

Level 4

4. A candidate shall take
- (a)
- | | | | |
|---------|----|---|----|
| CHM4297 | F7 | Advanced Organic Chemistry for Chemical Engineers | 20 |
| CPE401 | F7 | Research Project | 40 |
| CPE402 | F7 | Computational Fluid Dynamics | 10 |
| CPE406 | F7 | Energy from Biomass and Waste | 10 |
| CPE418 | F7 | Research Methods in Chemical Engineering | 10 |
| CPE430 | F7 | Low Carbon Energy Science and Technology | 10 |
- (b) units to the value of *twenty* credits from the following
- | | | | |
|--------|----|------------------------------------|----|
| CPE403 | F7 | Environment – Gaseous Emissions | 10 |
| CPE405 | F7 | Fires and Explosions | 10 |
| CPE407 | F7 | Environment: Particulate Emissions | 10 |
| CPE408 | F7 | Environment: Liquid Effluents | 10 |
| CPE417 | F7 | Environmental Issues | 10 |
| CPE425 | F7 | Oil and Gas Utilisation | 10 |
| CPE433 | F7 | Crystal Science and Engineering | 10 |
5. A candidate who does not pass CPE431 (Design Project) at the first attempt shall be ineligible for the award of the Degree with Honours.
6. A candidate must satisfy the requirements of the General Regulations for First Degrees as to progression in order to continue as a candidate for the Degree of MEng in Chemical Engineering with Chemistry (CPEU13). A candidate who fails to satisfy these requirements may be permitted by the Board to become instead a candidate for the Degree of BEng in Chemical Engineering (CPEU02).

CPEU16 CHEMICAL ENGINEERING WITH BIOTECHNOLOGY (MEng) (JACS H8J7)

Level 1

1. A candidate shall take
- | | | | |
|---------|----|--|----|
| CHM155 | F4 | Organic Chemistry for Chemical Engineers | 10 |
| CPE101 | F4 | Applied Chemical Engineering | 20 |
| CPE1002 | F4 | Chemical Engineering Design | 30 |
| CPE1003 | F4 | Fluid Mechanics and Thermodynamics | 20 |
| CPE1004 | F4 | Science for Chemical Engineers | 20 |
| MAS140 | F4 | Mathematics (Chemical) | 20 |

Level 2

2. A candidate shall take
- | | | | |
|---------|----|------------------------------------|----|
| CPE210 | F5 | Applied Chemical Engineering | 10 |
| CPE211 | F5 | Chemistry for Chemical Engineers | 10 |
| CPE221 | F5 | Biology for Chemical Engineers | 10 |

EEEU12 DIGITAL ELECTRONICS (MEng) (JACS H651)

Level 1

1. A candidate shall take the programme of study prescribed at Level 1 in the Regulations for the Degree of MEng in Electrical Engineering (EEEU02).

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree of MEng in Electrical Engineering (EEEU02).

Level 3

3.	A candidate shall take		
(a)	EEE309	F6 Introduction to Digital Signal Processing	10
	EEE310	F6 Introduction to VLSI Design	10
	EEE331	F6 Analogue Electronics	10
	EEE340	F6 Analogue and Switching Circuits	10

	EEE343	F6 Computer Architecture	10
	EEE371	F6 MEng Individual Project	30
	MGT388	F6 Finance and Law for Engineers	10
(b)	a unit to the value of <i>ten</i> credits from the following		
	EEE307	F6 Power Electronics	10
	EEE317	F6 Principles of Communications	10
	EEE345	F6 Engineering Electromagnetics	10

Level 4

4.	A candidate shall take		
(a)	EEE6031	F7 Advanced Computer Architectures	10
	EEE6032	F7 Operating Systems	10
	EEE6410	F7 Data Coding for Communications and Storage	10
	EEE471	F7 Year 4 Group Project	30
(b)	a unit to the value of <i>ten</i> credits from the following		
	CPE414	F7 Environmental Protection	10
	MEC408	F7 Marketing Management	10
	MEC414	F7 Technology Strategy and Business Planning	10
(c)	units to the value of <i>fifty</i> credits from the following, not fewer than <i>twenty</i> credits from 4(c)(i).		
(i)	EEE6010	F7 Electromagnetic Compatibility	10
	EEE6011	F7 Antennas and Propagation	10

EEEU13 ELECTRONIC AND COMMUNICATIONS ENGINEERING (BEng) (JACS H647)

Level 1

1. A candidate shall take the programme of study prescribed at Level 1 in the Regulations for the Degree of MEng in Electrical Engineering (EEEU02).

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree of MEng in Electrical Engineering (EEEU02).

Level 3

3. A candidate shall take
 - (a) EEE309 F6 Introduction to Digital Signal Processing 10
 - EEE317 F6 Principles of Communications 10
 - EEE334 F6 Antennas, Radar and Navigation 10
 - EEE340 F6 Analogue and Switching Circuits 10

EEEU20 ELECTRICAL ENGINEERING WITH A MODERN LANGUAGE (MEng) (JACS H6T9)

For candidates whose initial registration was prior to the Session 2012-2013

A candidate shall take the programme of study prescribed in the Regulations for the Degree of MEng in Electronic and Electrical Engineering with a Modern Language (EEEU20).

EEEU20 ELECTRONIC AND ELECTRICAL ENGINEERING WITH A MODERN LANGUAGE (MEng) (JACS H6T9) Level 1

1. A candidate shall take

(a)	EEE117	F4	Electrical Circuits and Networks	20
	EEE118	F4	Electronic Devices and Circuits	20
	EEE119	F4	Digital System Engineering	20
	EEE160	F4	Coursework Year 1	20
	MAS156	F4	Mathematics (Electrical)	20
(b)	units to the value of <i>twenty</i> credits from the following			
	GER103	F4	Grundsprachkurs	10
	GER104	F4	Aufbausprachkurs	10
	MLT201	F4	French 2A	10
	MLT202	F4	French 2B	10

Level 2

2. A candidate shall take

(a)	EEE223	F5	Electrical Energy Management and Conversion	20
	EEE224	F5	Communication Electronics	20
	EEE225	F5	Analogue and Digital Electronics	20
	EEE226	F5	Engineering Software Design	10
	MAS241	F5	Mathematics II (Electrical)	10
	EEE260	F5	Coursework	20
(b)	<i>one</i> of the following			
(i)	units to the value of <i>twenty</i> credits from the following			
	MLT221	F5	French Placement Preparation	10
	MLT222	F5	German Placement Preparation	10
	MLT223	F5	Spanish Placement Preparation	10
	a unit to the value of <i>ten</i> credits from those listed at 1(b) above			
(ii)	GER201	F5	German Language (Foundation)	10
	GER202	F5	German Language (Continuation)	10

Level 3

3. A candidate shall take

(a)	EEE396	F6	Study Year in Europe	100
-----	--------	----	----------------------	-----

(b)	<i>one of the following</i>			
(i)	MLT330	F6	French Project Abroad	10
	MLT331	F6	French Project Abroad	10
(ii)	MLT302	F6	German Project Abroad	10
	MLT304	F6	German Project Abroad	10
(iii)	MLT301	F6	Spanish Project Abroad	10
	MLT303	F6	Spanish Project Abroad	10

Level 4

4	A candidate shall take			
(a)	a unit to the value of <i>thirty</i> credits from the following			
	EEE461	F7	Individual Year 4 Investigative Project	30
	EEE471	F7	Year 4 Group Project	30
(b)	a unit to the value of <i>ten</i> credits from			
	MEC408	F7	Marketing Management	10
	MEC414	F7	Technology Strategy and Business Planning	10
(c)	units to the value of <i>sixty</i> credits from the following			
	EEE6010	F7	Electromagnetic Compatibility	10
	EEE6011	F7	Antennas and Propagation	10
	EEE6012	F7	Antennas, Radar and Navigation	10

(e)	units not listed in 4(a), (b), (c) or (d) above, subject to the approval of the Head of Department and availability on the timetable.			
5.	Before proceeding to Level 3, a candidate shall undertake an Industrial Project, the arrangements being subject to the approval of the Head of Department.			

6. A candidate must satisfy the requirements of the General Regulations for First Degrees as to progression in order to continue as a candidate for the Degree of MEng in Electronic and Electrical Engineering with a Modern Language (EEEU20). A candidate who fails to satisfy these requirements may be permitted by the Faculty to become instead a candidate for the Degree of BEng in Electrical Engineering (EEEU01).
7. A candidate must pass EEE461 or EEE471 (Individual Year 4 Investigative Project or Year 4 Group Project) at the first attempt in order to be eligible for the award of the Degree of MEng in Electronic and Electrical Engineering with a Modern Language. A candidate who fails to satisfy this requirement may be awarded the Degree of BEng in Electrical Engineering (EEEU01).

EEEU21 ELECTRONIC ENGINEERING WITH A MODERN LANGUAGE (MEng) (JACS H6TX)

Level 1

1. A candidate shall take the programme of study prescribed at Level 1 in the Regulations for the Degree of MEng in Electrical Engineering with a Modern Language (EEEU20).

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree of MEng in Electrical Engineering with a Modern Language (EEEU20).

Level 3

3. A candidate shall take the programme of study prescribed at Level 3 in the Regulations for the Degree of MEng in Electrical Engineering with a Modern Language (EEEU20).

Level 4

4	A candidate shall take			
(a)	a unit to the value of <i>thirty</i> credits from the following			
	EEE461	F7	Individual Year 4 Investigative Project	30
	EEE471	F7	Year 4 Group Project	30
(b)	a unit to the value of <i>ten</i> credits from			
	MEC408	F7	Marketing Management	10

MLT6362	F7	German Project	20
(e)	units not listed in 4(a), (b), (c) or (d) above, subject to the approval of the Head of Department and availability on the timetable.		
5.	Before proceeding to Level 3, a candidate shall undertake an Industrial Project, the arrangements being subject to the approval of the Head of Department.		
6.	A candidate must satisfy the requirements of the General Regulations for First Degrees as to progression in order to continue as a candidate for the Degree of MEng in Electronic Engineering with a Modern Language (EEEE21). A candidate who fails to satisfy these requirements may be permitted by the Faculty to become instead a candidate for the Degree of BEng in Electronic Engineering (EEEE05).		
7.	A candidate must pass EEE461 or EEE471 (Individual Year 4 Investigative Project or Year 4 Group Project) at the first attempt in order to be eligible for the award of the Degree of MEng in Electronic Engineering with a Modern Language. A candidate who fails to satisfy this requirement may be awarded the Degree of BEng in Electronic Engineering (EEEE05).		

EEEE29 ELECTRONIC ENGINEERING WITH BUSINESS SKILLS (BEng) (JACS H6NY)

For candidates whose initial registration was prior to the Session 2009-10

Level 3

3.	A candidate shall take			
(a)	EEE310	F6	Introduction to VLSI Design	10
	EEE331	F6	Analogue Electronics	10
	EEE340	F6	Analogue and Switching Circuits	10
	EEE341	F6	Electrical Power Systems	10

	EEE360	F6	Individual Design Project	30
	MEC305	F6	Engineering Management	10
	MEC314	F6	Innovation Management	10
(b)	a unit to the value of <i>ten</i> credits from the following			
	EEE307	F6	Power Electronics	10
	EEE309	F6	Introduction to Digital Signal Processing	10
	EEE345	F6	Engineering Electromagnetics	10
4.	Before proceeding to Level 3 a candidate shall undertake an Industrial Project, the arrangements being subject to the approval of the Head of Department.			
5.	A candidate who does not pass EEE360 (Individual Design Project) at the first attempt shall be ineligible for the award of the Degree with Honours.			

ENGU10 AEROSPACE ENGINEERING (MEng) (JACS H400)

A. For candidates whose initial registration was in the session 2011-12 or 2012-13

Level 1

1.	A candidate shall take			
(a)	ACS124	F4	Modelling, Simulation and Control	20
	EEE123	F4	Introduction to Electric and Electronic Circuits	20
	MAS156	F4	Mathematics (Electrical)	20
	MAT1730	F4	Introduction to Materials Engineering for Aerospace	20
	MEC132	F4	Matter, Flow and Energy	20
	MEC134	F4	Engineering Mechanics	20

Level 2

2.	A candidate shall take			
(a)	ACS221	F5	Control Systems Analysis and Design	20
	EEE217	F5	Avionic Systems	10
	MAS241	F5	Mathematics II (Electrical)	10
	MEC208	F5	Fluids Engineering	10
	MEC282	F5	Aerostructures and Performance	10

8. During Level 3, a candidate shall attain a satisfactory standard in a Flight Laboratory Course, the arrangements being subject to the approval of the Aerospace Engineering Board of Studies.
9. A candidate must satisfy the requirements of the General Regulations for First Degrees as to progression in order to continue as a candidate for the Degree of MEng Aerospace Engineering with Private Pilot Instruction (ENGU13). A candidate who fails to satisfy these requirements may be permitted by the Faculty to become instead a candidate for the Degree of BEng Aerospace Engineering with Private Pilot Instruction (ENGU12).
10. A candidate must pass the Aerospace Individual Investigative Project (ACS488 / MAS389 / COM488 / EEE488 / MAT488 / MEC488) at the first attempt in order to be eligible for the award of the Degree of MEng Aerospace Engineering with Private Pilot Instruction. A candidate who fails to satisfy this requirement may be awarded the Degree of BEng Aerospace Engineering with Private Pilot Instruction (ENGU12).

ENGU14 AEROSPACE ENGINEERING WITH A YEAR IN INDUSTRY (MEng) (JACS H405)

Level 1

1. A candidate shall take the programme of study prescribed at Level 1 in the Regulations for the Degree of MEng Aerospace Engineering (ENGU10).

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the degree of MEng Aerospace Engineering (ENGU10).

Level 3

3. A candidate shall take the programme of study prescribed at Level 3 in the Regulations for the Degree of MEng Aerospace Engineering (ENGU10).

Level 4

4. A candidate shall take the programme of study prescribed at Level 4 in the Regulations for the Degree of MEng Aerospace Engineering (ENGU10).
5. Before proceeding to Level 3, a candidate shall attain a satisfactory standard in (a) Engineering Applications, and (b) Engineering Drawing and Computer-aided Design, the arrangements being subject to the approval of the Aerospace Engineering Board of Studies.
6. A candidate must normally achieve a weighted mean grade of 60 or above at Level 2 in order to proceed to the Year in Industry, progression being at the discretion of the Aerospace Engineering Director of Undergraduate Studies. A candidate who fails to progress may be permitted to become instead a candidate for the Degree of MEng Aerospace Engineering or the Degree of BEng Aerospace Engineering.
7. A candidate shall be responsible for securing a suitable industrial placement in order to take FCE390 Year in Industry. The appropriateness of the placement shall be determined by the Aerospace Engineering Director of Undergraduate Studies. A candidate who fails to obtain a suitable placement shall instead be required to become a candidate for the Degree of MEng Aerospace Engineering (ENGU10).
8. FCE390 requires that a candidate shall spend a minimum of 38 weeks working in an industrial establishment, the arrangements being subject to the approval of the Aerospace Engineering Director of Undergraduate Studies. The Year in Industry shall be assessed on (a) written reflections on a skills-based placement journal; (b) two written reports; and (c) a post-placement presentation. No grades shall be awarded for the Year in Industry which will be assessed on a pass/fail basis. A candidate who fails to satisfy these requirements may be permitted by the Faculty to become instead a candidate for the Degree of MEng Aerospace Engineering (ENGU10).
10. A candidate must satisfy the requirements of the General Regulations for First Degrees as to progression in order to continue as a candidate for the Degree of MEng Aerospace Engineering with a Year in Industry (ENGU14). A candidate who fails to satisfy these requirements may be permitted by the Faculty to become instead a candidate for the Degree of BEng Aerospace Engineering (ENGU11) or BEng Aerospace Engineering with a Year in Industry (ENGU15).
11. During Level 3, a candidate shall attain a satisfactory standard in a Flight Laboratory Course, the arrangements being subject to the approval of the Aerospace Engineering Board of Studies.

12. A candidate must pass the Aerospace Individual Investigative Project (ACS488 / MAS488 / COM488 / EEE488 / MAT488 / MEC488) at the first attempt in order to be eligible for the award of the Degree of MEng Aerospace Engineering with a Year in Industry. A candidate who fails to satisfy this requirement may be awarded the Degree of BEng Aerospace Engineering with a Year in Industry (ENGU15).

6. A candidate must normally achieve a weighted mean grade of 60 or above at Level 1 in order to proceed to the Year in Industry, progression being at the discretion of the Aerospace Engineering Director of Undergraduate Studies. A candidate who fails to progress may be permitted to become instead a candidate for the Degree of BEng Aerospace Engineering (ENGU11).
7. A candidate shall be responsible for securing a suitable industrial placement in order to take FCE390 Year in Industry. The appropriateness of the placement shall be determined by the Aerospace Engineering Director of Undergraduate Studies. A candidate who fails to obtain a suitable placement shall instead be required to become a candidate for the Degree of BEng Aerospace Engineering (ENGU11).
8. FCE390 requires that a candidate shall spend a minimum of 38 weeks working in an industrial establishment, the arrangements being subject to the approval of the Aerospace Engineering Director of Undergraduate Studies. The Year in Industry shall be assessed on (a) written reflections on a skills-based placement journal; (b) two written reports; and (c) a post-placement presentation. No grades shall be awarded for the Year in Industry which will be assessed on a pass/fail basis. A candidate who fails to satisfy these requirements may be permitted by the Faculty to become instead a candidate for the Degree of BEng Aerospace Engineering (ENGU11).

9. A candidate must pass the Aerospace Individual Investigative Project (ACS389 / MAS389 / COM389 / EEE389 / MAT389 / MEC389) at the first attempt in order to continue as a candidate for the Degree of BEng Aerospace Engineering with a Year in Industry. A candidate who fails to satisfy this requirement may be permitted by the Faculty to become instead a candidate for the Degree of BEng Aerospace Engineering (ENGU11) but shall be ineligible for the award of that Degree with Honours.

B. For candidates whose initial registration was in the sessions 2009-10 and 2010-11

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the degree of MEng Aerospace Engineering (ENGU10).

Level 3

3. A candidate shall take the programme of study prescribed at Level 3 in the Regulations for the Degree of BEng Aerospace Engineering (ENGU11).
4. Before proceeding to the final year, a candidate shall attain a satisfactory standard in (a) Engineering Applications, and (b) Engineering Drawing and Computer-aided Design, the arrangements being subject to the approval of the Aerospace Engineering Board of Studies.
5. During Level 3, a candidate shall attain a satisfactory standard in a Flight Laboratory Course, the arrangements being subject to the approval of the Aerospace Engineering Board of Studies.
6. A candidate shall be responsible for securing a suitable industrial placement to complete FCE390 Year in Industry. The appropriateness of the placement shall be determined by the Aerospace Engineering Director of Undergraduate Studies. A candidate who fails to obtain a suitable placement shall instead be required to become a candidate for the Degree of BEng Aerospace Engineering (ENGU11).
7. A candidate must normally achieve a weighted mean grade of 55 or above at Level 2 in order to proceed to the Year in Industry, progression being at the discretion of the Aerospace Engineering Director of Undergraduate Studies. A candidate who fails to progress may be permitted to become instead a candidate for the Degree of BEng Aerospace Engineering (ENGU11).
8. In the final year a candidate shall spend a minimum of 38 weeks working in an industrial establishment, the arrangements being subject to the approval of the Aerospace Engineering Director of Undergraduate Studies. The Year in Industry shall be assessed on (a) written reflections on a skills-based placement journal; (b) two written reports; and (c) a post-placement presentation. No grades shall be awarded for the Year in Industry which will be assessed on a pass/fail basis. A candidate who fails to satisfy these requirements may be permitted by the Faculty to become instead a candidate for the Degree of BEng Aerospace Engineering (ENGU11).
9. A candidate must pass the Aerospace Individual Investigative Project (ACS389 / MAS389 / COM389 / EEE389 / MAT389 / MEC389) at the first attempt in order to continue as a candidate for the Degree of BEng Aerospace Engineering with a Year in Industry. A candidate who fails to satisfy this requirement may be permitted by the Faculty to become instead a candidate for the Degree of BEng Aerospace Engineering (ENGU11) but shall be ineligible for the award of that Degree with Honours.

ENGU16 AEROSPACE ENGINEERING WITH A YEAR IN NORTH AMERICA (MEng) (JACS H406)

Level 1

1. A candidate shall take the programme of study prescribed at Level 1 in the Regulations for the Degree of MEng Aerospace Engineering (ENGU10).

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree of MEng Aerospace Engineering (ENGU10).

Level 3

3. A candidate shall take

FCE398	F6	Study Abroad Year	60
FCE399	F6	Study Abroad Year	60

Level 4

4. A candidate shall take the programme of study prescribed at Level 4 in the Regulations for the Degree of MEng Aerospace Engineering (ENGU10).
5. Before proceeding to Level 3, a candidate shall attain a satisfactory standard in (a) Engineering Applications, and (b) Engineering Drawing and Computer-aided Design, the arrangements being subject to the approval of the Aerospace Engineering Board of Studies.
6. A candidate must normally achieve a weighted mean grade of 60 or above at Level 1 and Level 2 in order to continue as a candidate for the Degree of MEng Aerospace Engineering with a Year in North America, progression being at the discretion of the Board of Examiners. A candidate who fails to satisfy this requirement may be permitted to become instead a candidate for either the Degree of MEng Aerospace Engineering or the Degree of BEng Aerospace Engineering.
7. During Level 4, a candidate shall attain a satisfactory standard in a Flight Laboratory Course, the arrangements being subject to the approval of the Aerospace Engineering Board of Studies.
8. A candidate must pass the Aerospace Individual Investigative Project (ACS488 / MAS488 / COM488 / EEE488 / MAT488 / MEC488) at the first attempt in order to be eligible for the award of the Degree of MEng Aerospace Engineering with a Year in North America. A candidate who fails to satisfy this requirement may be awarded the Degree of BEng Aerospace Engineering (ENGU11).
9. Grades award in respect of units listed at 3 above shall carry the same weight as grades awarded at Level 2.

MAT6720	F7	Nanostructures, Nanopatterning and Nanomechanics	15
MAT6860	F7	Scientific Basis for Nuclear Materials Management	15

5. Before proceeding to Level 3 a candidate shall participate in a Skills Week (including industrial visits), the arrangements being subject to the approval of the Head of Department.

6. Before proceeding to Level 3, a candidate for the Degree of MEng in Materials Science and Engineering (MATU06) must achieve a weighted mean grade of 60 at Level 2. A candidate who fails to meet this requirement may be permitted by the Faculty to become instead a candidate for the Degree of BEng in Materials Science and Engineering (MATU05).

7. The Head of Department may, on the basis of the candidate's examination performance and in accordance with procedures approved by the Faculty, require a candidate who has taken the programme of study prescribed at 1, 2 and 5 above to become instead a candidate for the Degree of BEng in Materials Science and Engineering (MATU05).

8. A candidate must pass MAT458 (Literature Survey and Project) at the first attempt in order to be eligible for the award of the Degree of MEng in Materials Science and Engineering. A candidate who fails to satisfy this requirement may be awarded the Degree of BEng in Materials Science and Engineering (MATU05).

MATU10 MATERIALS SCIENCE AND ENGINEERING (MODERN LANGUAGE) (MEng) (JACS J5R9)

Level 1

1. A candidate shall take

(a)

MAS153	F4	Mathematics (Materials)	20
MAT1220	F4	Introduction to Materials Properties	10
MAT1410	F4	Biomaterials I	10

MAT1600	F4	Introduction to Materials Engineering	10

5. Before proceeding to Level 3 a candidate shall participate in a Skills Week (including industrial visits), the arrangements being subject to the approval of the Head of Department.

6. The Head of Department may, on the basis of the candidate's examination performance and in accordance with procedures approved by the Faculty, require a candidate who has taken the programme of study prescribed at 1, 2 and 5 above to become instead a candidate for the Degree of BEng in Materials Science and Engineering (MATU05).

7. A candidate must pass MAT458 (Literature Survey and Project) at the first attempt in order to be eligible for the award of the Degree of MEng in Materials Science and Engineering (Modern Language). A candidate who fails to satisfy this requirement may be awarded the Degree of BEng in Materials Science and Engineering (MATU05).

8. MAT399 (Industrial Placement) shall be undertaken in a country appropriate to the language taken at Levels 1, 2 and 4.

9. Before proceeding to Level 3, a candidate for the Degree of MEng in Materials Science and Engineering (Modern Language) (MATU10) must achieve a weighted mean grade of 60 at Level 2. A candidate who fails to meet this requirement may be permitted by the Faculty to become instead a candidate for the Degree of BEng in Materials Science and Engineering (MATU05).

MATU16 MATERIALS SCIENCE AND ENGINEERING (INDUSTRIAL MANAGEMENT) (MEng) (JACS FH21)

Level 1

1. A candidate shall take

ECN101	F4	Business Economics	10
MAS153	F4	Mathematics (Materials)	20
MAT1220	F4	Introduction to Materials Properties I	10
MAT1410	F4	Biomaterials I	10

5. Before proceeding to Level 3 a candidate shall participate in a Skills Week (including industrial visits), the arrangements being subject to the approval of the Head of Department.
 6. Before proceeding to Level 3, a candidate for the Degree of MEng in Biomaterial Science and Tissue Engineering (MATU22) must achieve a weighted mean grade of 60 at Level 2. A candidate who fails to meet this requirement may be permitted by the Faculty to become instead a candidate for the Degree of BEng in Biomaterial Science and Tissue Engineering (MATU23).
 7. The Head of Department may, on the basis of the candidate's examination performance and in accordance with procedures approved by the Faculty, require a candidate who has taken the programme of study prescribed at 1, 2 and 5 above to become instead a candidate for the Degree of BEng in Biomaterial Science and Tissue Engineering (MATU23).
 8. A candidate must pass MAT404 (Bioengineering Research Project) at the first attempt in order to be eligible for the award of the Degree of MEng in Biomaterial Science and Tissue Engineering. A candidate who fails to satisfy this requirement may be awarded the Degree of BEng in Biomaterial Science and Tissue Engineering (MATU23).

MATU23 BIOMATERIAL SCIENCE AND TISSUE ENGINEERING (BEng) (JACS BJ89)

Level 1

For candidates whose initial registration was for the Session 2010-2011

1. A candidate shall take the programme of study prescribed at Level 1 in the Regulations for the Degree of MEng in Biomaterial Science and Tissue Engineering (MATU22).

Level 2

For candidates whose initial registration was for the Session 2011-2012

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree for the Degree of MEng in Biomaterial Science and Tissue Engineering (MATU22).

Level 3

3. A candidate shall take
 - (a)

MAT300	F6	Tissue Engineering Approaches to Failure of Living Systems	20
MAT308	F6	Research Seminars in Bioengineering	10
MAT356	F6	Literature Survey and Project	30
MAT3430	F6	Materials for Biological Applications	10
MGT388	F6	Finance and Law for Engineers	10
 - (b) units to the value of *forty* credits from the following

MAT306	F6	Composite Micromechanics and Strong Reinforcing Fibres	10
MAT333	F6	Metals	10
MAT339	F6	Failures and Case Study	10
MAT373	F6	Surface Degradation and Protection	10

- | | | | |
|---------|----|--|----|
| MAT3410 | F6 | Design of Medical Devices and Implants | 10 |
|---------|----|--|----|
- F6 level Faculty of Engineering or Faculty of Science units

4. Before proceeding to Level 3 a candidate shall participate in a Skills Week (including industrial visits), the arrangements being subject to the approval of the Head of Department.
5. A candidate who does not pass MAT356 (Literature Survey and Project) at the first attempt shall be ineligible for the award of the Degree with Honours.

MATU27 MATERIALS SCIENCE AND ENGINEERING (INDUSTRIAL MANAGEMENT) (BEng) (JACS FHF1)

Level 1

1. A candidate shall take the programme of study prescribed at Level 1 in the Regulations for the Degree of MEng in Materials Science and Engineering (Industrial Management)(MATU16).

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree of MEng in Materials Science and Engineering (Industrial Management) (MATU16).

Level 3

3. A candidate shall take
 - (a)

MAT339	F6	Failures and Case Study	10
MAT348	F6	Fracture Mechanics and Heat Transfer	10
MAT356	F6	Literature Survey and Project	30
MAT373	F6	Surface Degradation and Protection	10

MEC304	F6	Manufacturing Systems	10
MEC314	F6	Innovation Management	10
MGT388	F6	Finance and Law for Engineers	10
 - (b) units to the value of *ten* credits from the following

MAT306	F6	Composite Micromechanics and Strong Reinforcing Fibres	10
MAT333	F6	Metals	10
MAT3210	F6	Advanced Functional Materials	10
MAT3430	F6	Materials for Biological Applications	10
MAT3910	F6	Nuclear Science, Engineering and Technology	10
4. Before proceeding to Level 3 a candidate shall participate in a Skills Week (including industrial visits), the arrangements being subject to the approval of the Head of Department.
5. A candidate who does not pass MAT356 (Literature Survey and Project) at the first attempt shall be ineligible for the award of the Degree with Honours.

MATU28 AEROSPACE MATERIALS (MEng) (JACS H403)

Level 1

1. A candidate shall take

MAS152	F4	Essential Mathematical Skills and Techniques	20
MAT1220	F4	Introduction to Materials Properties	10
MAT1610	F4	Introduction to Materials Chemistry	20
MAT1630	F4	Introduction to Thermodynamics and Mechanics	10

	MAT4113	F7 Metallurgical Processing	15
	MAT6104	F7 Design and Manufacture of Composites	15
5.	Before proceeding to Level 3 a candidate shall participate in a Skills Week (including industrial visits), the arrangements being subject to the approval of the Head of Department.		
6.	Before proceeding to Level 3, a candidate for the Degree of MEng in Aerospace Materials (MATU28) must achieve a weighted mean grade of 60 at Level 2. A candidate who fails to meet this requirement may be permitted by the Faculty to become instead a candidate for the Degree of BEng in Aerospace Materials (MATU29).		
7.	The Head of Department may, on the basis of the candidate's examination performance and in accordance with procedures approved by the Faculty, require a candidate who has taken the programme of study prescribed at 1, 2 and 5 above to become instead a candidate for the Degree of BEng in Aerospace Materials (MATU29).		
8.	A candidate must pass MAT458 (Literature Survey and Project) at the first attempt in order to be eligible for the award of the Degree of MEng in Aerospace Materials Science. A candidate who fails to satisfy this requirement may be awarded the Degree of BEng in Aerospace Materials (MATU29).		

MATU29 AEROSPACE MATERIALS (BEng) (JACS H401)

Level 1

1. A candidate shall take the programme of study prescribed at Level 1 in the Regulations for the Degree of MEng in Aerospace Materials (MATU28).

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree of MEng in Aerospace Materials (MATU28).

4.	A candidate who does not pass MAT356 (Literature Survey and Project) at the first attempt shall be ineligible for the award of the Degree with Honours.		

MATU32 MATERIALS SCIENCE AND ENGINEERING WITH A YEAR IN JAPAN (MEng) (JACS JH5C)

Level 1

For candidates whose initial registration was for the session 2011-12

1.	A candidate shall take		
	EAS130	F4 Japanese for Scientists and Engineers I	10
	EAS131	F4 Japanese for Scientists and Engineers II	10
	MAS153	F4 Mathematics (Materials)	20
	MAT1220	F4 Introduction to Materials Properties I	10
	MAT1330	F4 Introduction to Materials Engineering and Mechanics of Materials	20
	MAT1410	F4 Biomaterials I	10
	MAT1610	F4 Introduction to Materials Chemistry	20
	MAT1620	F4 Introduction to Microstructure and Thermodynamics of Materials	20

Level 2

2.	A candidate shall take		
	EAS239	F5 Japanese for Scientists and Engineers III	10
	EAS240	F5 Japanese for Scientists and Engineers IV	10
	MAS250	F5 Mathematics II (Materials)	10
	MAT2110	F5 Structure of Solid Materials	10
	MAT2210	F5 Deformation and Failure of Materials	10

5. A candidate must pass the Japanese language modules and achieve a weighted mean grade of 54.5 or above at Level 1 in order to continue as a candidate for the Degree of MEng in Materials Science and Engineering with a Year in Japan. A candidate who fails to satisfy this requirement may be permitted by the Faculty to become instead a candidate for the Degree of MEng in Materials Science and Engineering (MATU06).
6. Before proceeding to Level 3 a candidate shall participate in a Skills Week (including industrial visits), the arrangements being subject to the approval of the Head of Department.
7. Before proceeding to Level 3, a candidate must pass the Japanese language modules at Level 2. A candidate who fails to meet this requirement may be permitted by the Faculty to become instead a candidate for the Degree of MEng in Materials Science and Engineering (MATU06).
8. Before proceeding to Level 3, a candidate for the Degree of MEng in Materials Science and Engineering with a Year in Japan (MATU32) must achieve a weighted mean grade of 60 at Level 2. A candidate who fails to meet this requirement may be permitted by the Faculty to become instead a candidate for the Degree of BEng in Materials Science and Engineering with a Year in Japan (MATU35).
9. Before proceeding to Level 4 a candidate shall spend 6-12 months in Japan working in an approved Japanese institution, the arrangements being subject to the approval of the Head of Department.
- During this period a candidate shall take the following units for which no grades shall be awarded.
- | | | | |
|---------|----|-------------------------|-----|
| MAT3850 | F6 | Work Placement in Japan | 120 |
|---------|----|-------------------------|-----|
10. A candidate must pass MAT458 (Literature Survey and Project) at the first attempt in order to be eligible for the award of the Degree of MEng in Materials Science and Engineering with a Year in Japan. A candidate who fails to satisfy this requirement may be awarded the Degree of BEng in Materials Science and Engineering with a Year in Japan (MATU35).

MATU35 MATERIALS SCIENCE AND ENGINEERING WITH A YEAR IN JAPAN (BEng) (JACS JH5D)

Level 1

For candidates whose initial registration was for the Session 2011-2012

1. A candidate shall take the programme of study prescribed at Level 1 in the Regulations for the Degree of MEng in Materials Science and Engineering with a Year in Japan (MATU32).

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree of MEng in Materials Science and Engineering with a Year in Japan (MATU32).

Level 3

3. A candidate shall take
- | | | | | |
|-----|---------|----|--|----|
| (a) | MAT339 | F6 | Failures and Case Study | 10 |
| | MAT348 | F6 | Fracture Mechanics and Heat Transfer | 10 |

| MAT3430 | F6 | Materials for Biological Applications | 10 |
| MAT3910 | F6 | Nuclear Science, Engineering and Technology | 10 |
4. A candidate must pass the Japanese language modules and achieve a weighted mean grade of 54.5 or above at Level 1 in order to continue as a candidate for the Degree of MEng in Materials Science and Engineering with a Year in Japan. A candidate who fails to satisfy this requirement may be permitted by the Faculty to become instead a candidate for the Degree of BEng in Materials Science and Engineering (MATU05).
5. Before proceeding to Level 3 a candidate shall participate in a Skills Week (including industrial visits), the arrangements being subject to the approval of the Head of Department.
6. Before proceeding to Level 3, a candidate must pass the Japanese language modules at Level 2. A candidate who fails to meet this requirement may be permitted by the Faculty to become instead a candidate for the Degree of BEng in Materials Science and Engineering (MATU05).
7. Before the award of the Degree with Honours a candidate shall spend 6-12 months in Japan working in an approved Japanese institution, the arrangements being subject to the approval of the Head of Department.
- During this period a candidate shall take the following units for which no grades shall be awarded
- | | | | |
|---------|----|-------------------------|-----|
| MAT3850 | F6 | Work placement in Japan | 120 |
|---------|----|-------------------------|-----|
8. A candidate who does not pass MAT356 (Literature Survey and Project) at the first attempt shall be ineligible for the award of the Degree with Honours.

MATU36 MATERIALS SCIENCE AND ENGINEERING (BIOMATERIALS) (MEng) (JACS JH5P)

Level 1

1. A candidate shall take
- | | | | | |

Any *fifteen* credit MSc options subject to timetabling considerations

5. Before proceeding to Level 3 a candidate shall participate in a Skills Week (including industrial visits), the arrangements being subject to the approval of the Head of Department.

6. Before proceeding to Level 3, a candidate for the Degree of MEng in Materials Science and Engineering (Biomaterials) (MATU36) must achieve a weighted mean grade of 60 at Level 2. A candidate who fails to meet this requirement may be permitted by the Faculty to become instead a candidate for the Degree of BEng in Materials Science and Engineering (Biomaterials) (MATU37).

7. The Head of Department may, on the basis of the candidate's examination performance and in accordance with procedures approved by the Faculty, require a candidate who has taken the programme of study prescribed at 1, 2 and 5 above to become instead a candidate for the Degree of BEng in Materials Science and Engineering (Biomaterials) (MATU37).
8. A candidate must pass MAT4404 (Biomaterials Research Project) at the first attempt in order to be eligible for the award of the Degree of MEng in Materials Science and Engineering (Biomaterials). A candidate who fails to satisfy this requirement may be awarded the Degree of BEng in Materials Science and Engineering (Biomaterials) (MATU37).

MATU37 MATERIALS SCIENCE AND ENGINEERING (BIOMATERIALS) (BEng) (JACS JH56)

Level 1

1. A candidate shall take the programme of study prescribed at Level 1 in the Regulations for the Degree of MEng in Materials Science and Engineering (Biomaterials) (MATU36).

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree of MEng in Materials Science and Engineering (Biomaterials) (MATU36).

Level 3

3. A candidate shall take
- | | | | |

4. A candidate shall take
 CPE419 F7 Nuclear Reactor Engineering 10
 MAT480 F7 Further Engineering Applications 20
 MAT4582 F7 Nuclear Engineering Literature Survey and Project 45
 MAT6860 F7 Scientific Basis for Nuclear Materials Management 15
 MAT6910 F7 Materials for Nuclear systems 15
 MEC431 F7 Nuclear Thermal Hydraulics, Heat Transfer and Applications 15
5. Before proceeding to Level 3 a candidate shall participate in a Skills Week (including industrial visits), the arrangements being subject to the approval of the Head of Department.
6. Before proceeding to Level 3, a candidate for the Degree of MEng in Materials Science with Nuclear Engineering (MATU38) must achieve a weighted mean grade of 60 at Level 2. A candidate who fails to meet this requirement may be permitted by the Faculty to become instead a candidate for the Degree of BEng in Materials Science and Engineering (MATU05).
7. The Head of Department may, on the basis of the candidate's examination performance and in accordance with procedures approved by the Faculty, require a candidate who has taken the programme of study prescribed at 1, 2 and 5 above to become instead a candidate for the Degree of BEng in Materials Science and Engineering (MATU05).
8. A candidate must pass MAT4582 (Literature Survey and Project) at the first attempt in order to be eligible for the award of the Degree of MEng in Materials Science with Nuclear Engineering. A candidate who fails to satisfy this requirement may be awarded the Degree of BEng in Materials Science and Engineering (MATU05).

MECU001 MECHANICAL ENGINEERING (MEng) (JACS H300b)

5. Before proceeding to Level 3, a candidate shall attain a satisfactory standard in an Engineering Applications Course, the arrangements being subject to the approval of the Head of Department.
6. A candidate must satisfy the requirements of the General Regulations for First Degrees as to progression in order to continue as a candidate for the Degree of MEng in Mechanical Engineering (MECU001). A candidate who fails to satisfy these requirements may be permitted by the Faculty to become instead a candidate for the Degree of BEng in Mechanical Engineering (MECU002). In this instance the individual element of the Group Design Project (MEC307) will be taken into account to satisfy the requirement to complete an individual project. A candidate must pass this element to satisfy the requirements for the award of a BEng Honours degree. A candidate who fails to satisfy this requirement will be ineligible for the award of the Degree with Honours.
7. A candidate must pass MEC401 (Individual Project) at the first attempt in order to be eligible for the award of the Degree of MEng in Mechanical Engineering. A candidate who fails to satisfy this requirement may be awarded the Degree of BEng in Mechanical Engineering (MECU002).

MECU002 MECHANICAL ENGINEERING (BEng) (JACS H302)

Level 1

1. A candidate shall take
- | | | | |
|--------|----|---|----|
| MAS152 | F4 | Essential Mathematical Skills and Techniques | 20 |
| MEC102 | F4 | Materials Under Stress | 10 |
| MEC130 | F4 | Engineering Techniques and Manufacturing Technology | 20 |
| MEC131 | F4 | Mechanical Engineering Design Skills | 20 |
| MEC132 | F4 | Matter, Flow and Energy | 20 |

- | | | | |
|--------|----|--|----|
| MEC133 | F4 | Laboratory Skills for Mechanical Engineers | 10 |
| MEC134 | F4 | Engineering Mechanics | 20 |

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree of MEng Mechanical Engineering (MECU001)

Level 3

3. A candidate shall take
- (a)
- | | | | |
|--------|----|--|----|
| MEC302 | F6 | Integrity of Materials and Components | 10 |
| MEC303 | F6 | Advanced Engineering Thermodynamic Cycles | 10 |
| MEC304 | F6 | Manufacturing Systems | 10 |
| MEC306 | F6 | The Professional Responsibility of Engineers | 10 |
| MEC315 | F6 | Investigative Project | 30 |
| MEC319 | F6 | Sensors, Actuators and Controllers | 10 |
| MEC333 | F6 | Integrated Design Skills | 10 |
- (b) units to the value of *thirty* credits from the following, not less than *twenty* credits being selected from (i)
- (i)
- | | | | |
|--------|----|-------------------------------------|----|
| MEC301 | F6 | Mechatronics | 10 |

4. Before proceeding to Level 3, a candidate shall attain a satisfactory standard in an Engineering Applications Course, the arrangements being subject to the approval of the Head of Department.
5. A candidate who does not pass MEC315 (Investigative Project) at the first attempt shall be ineligible for the award of the Degree with Honours.

MECU004 MECHANICAL ENGINEERING WITH A YEAR IN NORTH AMERICA (MEng) (JACS H3T7)

Level 1

1. A candidate shall take
- | | | | |
|--------|----|---|----|
| MAS152 | F4 | Essential Mathematical Skills and Techniques | 20 |
| MEC102 | F4 | Materials Under Stress | 10 |
| MEC130 | F4 | Engineering Techniques and Manufacturing Technology | 20 |
| MEC131 | F4 | Mechanical Engineering Design Skills | 20 |
| MEC132 | F4 | Matter, Flow and Energy | 20 |
| MEC133 | F4 | Laboratory Skills for Mechanical Engineers | 10 |
| MEC134 | F4 | Engineering Mechanics | 20 |

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree of MEng Mechanical Engineering (MECU001)

Level 3

3. A candidate shall take
- | | | | |
|--------|----|-----------------------------|-----|
| MEC398 | F6 | Study Year in North America | 120 |
|--------|----|-----------------------------|-----|

Level 4

4. A candidate shall take the programme of study prescribed at Level 4 in the Regulations for the Degree of MEng Mechanical Engineering (MECU001)
5. Before proceeding to Level 3, a candidate shall attain a satisfactory standard in an Engineering Applications Course, the arrangements being subject to the approval of the Head of Department.
6. A candidate must normally achieve a weighted mean grade of 60 or above at Level 1 and Level 2 in order to continue as a candidate for the Degree of MEng Mechanical Engineering with a Year in North America, progression being at the discretion of the Board of Examiners. A candidate who fails to satisfy the requirement may be permitted by the Faculty to become instead a candidate for either the Degree of MEng Mechanical Engineering (MECU001) or the Degree of BEng Mechanical Engineering (MECU002).
7. A candidate must satisfy the requirements of the General Regulations for First Degrees as to progression in order to continue as a candidate for the Degree of MEng in Mechanical Engineering with a Year in North America (MECU004). A candidate who fails to satisfy these requirements may be permitted by the Faculty to become instead a candidate for the Degree of BEng in Mechanical Engineering (MECU002).
8. A candidate must pass MEC401 (Individual Project) at the first attempt in order to be eligible for the award of the Degree of MEng in Mechanical Engineering with a Year in North America. A candidate who fails to satisfy this requirement may be awarded the Degree of BEng in Mechanical Engineering (MECU002).
9. Grades awarded in respect of units listed at 3 above shall carry the same weight as grades awarded at Level 2.

MECU005 MECHANICAL ENGINEERING WITH FRENCH (MEng) (JACS H3R1)

Level 1

1. A candidate shall take
 - (a)

MAS152	F4	Essential Mathematical Skills and Techniques	20
MEC102	F4	Materials Under Stress	10
MEC131	F4	Mechanical Engineering Design Skills	20
MEC132	F4	Matter, Flow and Energy	20

 - (ii)

CPE406	F7	Energy from Biomass and Waste	10
CPE425	F7	Oil and Gas Utilisation	10
5. Before proceeding to Level 3, a candidate shall attain a satisfactory standard in an Engineering Applications Course, the arrangements being subject to the approval of the Head of Department.

6. Before proceeding to Level 3, a candidate for the Degree of MEng in Mechanical Engineering with French (MECU005) must achieve an average mark of 60 in their chosen language modules (*twenty* credits) and an average of 55 across the remaining *one hundred* credits at Level 2. A candidate failing to meet this criteria will be required to change Programme to the Degree of MEng in Mechanical Engineering (MECU001), provided that they meet the department's regulations for continuation on the MEng Programme of Study.
7. A candidate must satisfy the requirements of the General Regulations for First Degrees as to progression in order to continue as a candidate for the Degree of MEng in Mechanical Engineering with French (MECU005). A candidate who fails to satisfy these requirements may be permitted by the Faculty to become instead a candidate for the Degree of BEng in Mechanical Engineering (MECU002).
8. A candidate must pass MEC401 (Individual Project) at the first attempt in order to be eligible for the award of the Degree of MEng in Mechanical Engineering with French. A candidate who fails to satisfy this requirement may be awarded the Degree of BEng in Mechanical Engineering (MECU002).
9. Grades awarded in respect of units listed at 3 above shall carry the same weight as grades awarded at Level 2.

5. Before proceeding to Level 3, a candidate shall attain a satisfactory standard in an Engineering Applications Course, the arrangements being subject to the approval of the Head of Department.
6. Before proceeding to Level 3, a candidate for the Degree of MEng in Mechanical Engineering with Spanish (MECU008) must achieve an average mark of 60 in their chosen language modules (*twenty* credits) and an average of 55 across the remaining *one hundred* credits at Level 2. A candidate failing to meet this criteria will be required to change Programme to the Degree of MEng in Mechanical Engineering (MECU001), provided that they meet the department's regulations for continuation on the MEng Programme of Study.
7. A candidate must satisfy the requirements of the General Regulations for First Degrees as to progression in order to continue as a candidate for the Degree of MEng in Mechanical Engineering with Spanish (MECU008). A candidate who fails to satisfy these requirements may be permitted by the Faculty to become instead a candidate for the Degree of BEng in Mechanical Engineering (MECU002).
8. A candidate must pass MEC401 (Individual Project) at the first attempt in order to be eligible for the award of the Degree of MEng in Mechanical Engineering with Spanish. A candidate who fails to satisfy this requirement may be awarded the Degree of BEng in Mechanical Engineering (MECU002).
9. Grades awarded in respect of units listed at 3 above shall carry the same weight as grades awarded at Level 2.

MECU009 MECHANICAL ENGINEERING WITH INDUSTRIAL MANAGEMENT (MEng) (JACS H3N2)

Level 1

For all candidates:

1. A candidate shall take

(a)	MAS152	F4	Essential Mathematical Skills and Techniques	20
	MEC102	F4	Materials Under Stress	10
	MEC131	F4	Mechanical Engineering Design Skills	20
	MEC132	F4	Matter, Flow and Energy	20
	MEC133	F4	Laboratory Skills for Mechanical Engineers	10
	MEC134	F4	Engineering Mechanics	20
	MGT136	F4	Management Themes and Perspectives	20

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree of MEng Mechanical Engineering (MECU001)

Level 3

3. A candidate shall take

(a)	MEC301	F6	Mechatronics	10
	MEC302	F6	Integrity of Materials and Components	10
	MEC303	F6	Advanced Engineering Thermodynamic Cycles	10
	MEC304	F6	Manufacturing Systems	10
	MEC307	F6	Group Design Project	20
	MEC314	F6	Innovation Management	10
	MEC319	F6	Sensors, Actuators and Controllers	10
	MEC333	F6	Integrated Design Skills	10
(b)	a unit to the value of <i>thirty</i> credits from the following with not less than <i>twenty</i> being selected from (i)			
(i)	MEC308	F6	Applied Noise and Vibration	10
	MEC310	F6	Energy: Properties and Optimisation	10
	MEC311	F6	Engineering Fluid Mechanics	10
	MEC312	F6	Advanced Mechanics of Solids	10
	MEC313	F6	Finite Element Techniques	10
	MEC345	F6	Aero Propulsion	10
(ii)	ACS329	F6	Robotics	10
	MAS340	F6	Mathematics (Computational Methods)	10
	MEC316	F6	Renewable Energy	10

Level 4

4. A candidate shall take

(a)	MEC401	F7	Individual Project	40
	MEC408	F7	Marketing Management	10
	MEC414	F7	Technology Strategy and Business Planning	10
	MEC428	F7	The Professional Responsibility of Engineers	10
(b)	units to the value of <i>thirty</i> credits from the following			
(i)	CPE414	F7	Environmental Protection	10
	MEC403	F7	Reciprocating Engines	10
	MEC404	F7	Computational Fluid Dynamics	10
	MEC405	F7	Experimental Stress Analysis	10

	MEC435	F7	Advanced Aero Propulsion	10
	MEC6429	F7	Mechanical Engineering of Railways	10
	MEC6440	F7	Advanced Finite Element Modelling	10

	MEC6443	F7	Further Structural Analysis	10
(c)	units to the value of <i>twenty</i> credits from the following, <i>ten</i> credits being selected from (i)			
(i)	CPE419	F7	Nuclear Reactor Engineering	10
	MEC407	F7	Fundamental Biomechanics	10
	MEC412	F7	Control of Structural Vibrations	10
	MEC413	F7	Advanced Aircraft Structures	10
	MEC415	F7	Condition Monitoring	10
	MEC421	F7	Sports Engineering	10
	MEC425	F7	Design for a Sustainable Environment	10
	MEC426	F7	Advanced Composite Structures	10
	MEC6316	F7	Renewable Energy	10
	MEC6345	F7	Aero Propulsion	10
	MEC6422	F7	Nuclear Thermal Hydraulics and Heat Transfer	10
	MEC6430	F7	Solid Biomechanics	10
	MEC6441	F7	Advanced Solid Mechanics	10
(ii)	CPE406	F7	Energy from Biomass and Waste	10
	CPE425	F7	Oil and Gas Utilisation	10

5. Before proceeding to Level 3, a candidate shall attain a satisfactory standard in an Engineering Applications Course, the arrangements being subject to the approval of the Head of Department.

6. A candidate must satisfy the requirements of the General Regulations for First Degrees as to progression in order to continue as a candidate for the Degree of MEng in Mechanical Engineering with Industrial Management (MECU009). A candidate who fails to satisfy these requirements may be permitted by the Faculty to become instead a candidate for the Degree of BEng in Mechanical Engineering (MECU002).

7. A candidate must pass MEC401 (Individual Project) at the first attempt in order to be eligible for the award of the Degree of MEng in Mechanical Engineering with Industrial Management. A candidate who fails to satisfy this requirement may be awarded the Degree of BEng in Mechanical Engineering (MECU002).

MECU011 MECHANICAL ENGINEERING WITH MOTORSPORTS (MEng) (JACS H3NF)

For candidates whose initial registration was for the Session 2010-11

Level 3

3. A candidate shall take

(a)	MEC301	F6	Mechatronics	10
	MEC302	F6	Integrity of Materials and Components	10
	MEC303	F6	Advanced Engineering Thermodynamic Cycles	10
	MEC304	F6	Manufacturing Systems	10
	MEC307	F6	Group Design Project	20
	MEC319	F6	Sensors, Actuators and Controllers	10
	MEC330	F6	Experiments and Modelling	10
	MGT388	F6	Finance and Law for Engineers	10
	MGT389	F5	Project Management and HRM for Engineers	10
(b)	units to the value of <i>twenty</i> credits from the following, not less than <i>ten</i> credits being selected from (i)			
(i)	MEC308	F6	Applied Noise and Vibration	10
	MEC310	F6	Energy: Properties and Optimisation	10

(ii)	ACS329	F6	Robotics	10
	MAS340	F6	Mathematics (Computational Methods)	10
	MEC316	F6	Renewable Energy	10

Level 4

4. A candidate shall take the programme of study prescribed at Level 4 in the Regulations for the Degree of MEng Mechanical Engineering (MECU001)
5. Before proceeding to Level 3, a candidate shall attain a satisfactory standard in an Engineering Applications Course, the arrangements being subject to the approval of the Head of Department.
6. A candidate must satisfy the requirements of the General Regulations for First Degrees as to progression in order to continue as a candidate for the Degree of MEng in Mechanical Engineering with Motorsports (MECU011). A candidate who fails to satisfy these requirements may be permitted by the Faculty to become instead a candidate for the Degree of BEng in Mechanical Engineering (MECU002). In this instance the individual element of the Group Design Project (MEC307) will be taken into account to satisfy the requirement to complete an individual project. A candidate must pass this element to satisfy the requirements for the award of a BEng Honours degree. A candidate who fails to satisfy this requirement will be ineligible for the award of the Degree with Honours
7. A candidate must pass MEC401 (Individual Project) at the first attempt in order to be eligible for the award of the Degree of MEng in Mechanical Engineering with Motorsports. A candidate who fails to satisfy this requirement may be awarded the Degree of BEng in Mechanical Engineering (MECU002).

MECU013 SPORTS ENGINEERING (MEng) (JACS CH63)

For candidates whose initial registration was for the Session 2010-11

Level 3

3. A candidate shall take
 - (a)

MEC301	F6	Mechatronics	10
MEC302	F6	Integrity of Materials and Components	10
MEC303	F6	Advanced Engineering Thermodynamic Cycles	10
MEC304	F6	Manufacturing Systems	10

MECU014 MECHANICAL ENGINEERING WITH A YEAR IN INDUSTRY (MEng) (JACS H304)

Level 1

1. A candidate shall take

MAS152	F4	Essential Mathematical Skills and Techniques	20
MEC102	F4	Materials Under Stress	10
MEC130	F4	Engineering Techniques and Manufacturing Technology	20
MEC131	F4	Mechanical Engineering Design Skills	20
MEC132	F4	Matter, Flow and Energy	20
MEC133	F4	Laboratory Skills for Mechanical Engineers	10
MEC134	F4	Engineering Mechanics	20

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree of MEng Mechanical Engineering (MECU001)

Level 3

3. A candidate shall take the programme of study prescribed at Level 3 in the Regulations for the Degree of MEng Mechanical Engineering (MECU001)

Level 4

4. A candidate shall take
MEC397 F6 Year in Industry 120

Level 5

5. A candidate shall take the programme of study prescribed at Level 4 in the Regulations for the Degree of MEng Mechanical Engineering (MECU001)
6. Before proceeding to Level 3, a candidate shall attain a satisfactory standard in an Engineering Applications Course, the arrangements being subject to the approval of the Head of Department.
7. A candidate must normally achieve a weighted mean grade of 60 or above at Level 2 in order to proceed to the Year in Industry, progression being at the discretion of the Head of Mechanical Engineering. A candidate who fails to progress may be permitted to become instead a candidate for the Degree of MEng Mechanical Engineering (MECU001) or the Degree of BEng Mechanical Engineering (MECU002).
8. A candidate shall be responsible for securing a suitable industrial placement in order to take MEC397. The appropriateness of the placement shall be determined by the Head of Mechanical Engineering. A candidate who fails to obtain a suitable placement shall instead be required to become a candidate for the Degree of MEng Mechanical Engineering (MECU001).
9. MEC397 requires that a candidate shall spend a minimum of 38 weeks working in an industrial establishment, the arrangements being subject to the approval of the Head of Mechanical Engineering. The Year in Industry shall be assessed on (a) written reflections on skills-based placement journal; (b) two written reports; and (c) a post-placement presentation. No grades shall be awarded for the Year in Industry which will be assessed on a pass/fail basis. A candidate who fails to satisfy these requirements may be permitted by the Faculty to become instead a candidate for the Degree of MEng in Mechanical Engineering (MECU001).
10. A candidate must satisfy the requirements of the General Regulations for First Degrees as to progression in order to continue as a candidate for the Degree of MEng in Mechanical Engineering with a Year in Industry (MECU014). A candidate who fails to satisfy these requirements may be permitted by the Faculty to become instead a candidate for the Degree of BEng in Mechanical Engineering with a Year in Industry (MECU015). In this instance the individual element of the Group Design Project (MEC307) will be taken into account to satisfy the requirement to complete an individual project. A candidate must pass this element to satisfy the requirements for the award of a BEng Honours degree. A candidate who fails to satisfy this requirement will be ineligible for the award of the Degree with Honours.
11. A candidate must pass MEC401 (Individual Project) at the first attempt in order to be eligible for the award of the Degree of MEng in Mechanical Engineering. A candidate who fails to satisfy this requirement may be awarded the Degree of BEng in Mechanical Engineering with a Year in Industry (MECU015).

MECU015 MECHANICAL ENGINEERING WITH A YEAR IN INDUSTRY (BEng) (JACS 302b)

A: For candidates whose initial registration was in, or after, the session 2011-12

Level 1

1. A candidate shall take the programme of study prescribed at Level 1 in the Regulations for the Degree of MEng Mechanical Engineering with a Year in Industry (MECU014).

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree of MEng Mechanical Engineering (MECU001)

Level 3

3. A candidate shall take
MEC397 F6 Year in Industry 120

Level 4

3. A candidate shall take the programme of study prescribed at Level 3 in the Regulations for the Degree of BEng Mechanical Engineering (MECU002)
4. Before proceeding to Level 3, a candidate shall attain a satisfactory standard in an Engineering Applications Course, the arrangements being subject to the approval of the Head of Department.
5. A candidate must normally achieve a weighted mean grade of 60 or above at Level 1 in order to proceed to the Year in Industry, progression being at the discretion of the Head of Mechanical Engineering. A candidate who fails to progress may be permitted to become instead a candidate for the Degree of BEng Mechanical Engineering (MECU002).
6. A candidate shall be responsible for securing a suitable industrial placement in order to take MEC397. The appropriateness of the placement shall be determined by the Head of Mechanical Engineering. A candidate who fails to obtain a suitable placement shall instead be required to become a candidate for the Degree of BEng Mechanical Engineering (MECU002).
7. MEC397 requires that a candidate shall spend a minimum of 38 weeks working in an industrial establishment, the arrangements being subject to the approval of the Head of Mechanical Engineering. The Year in Industry shall be assessed on (a) written reflections on a skills-based placement journal; (b) two written reports; and (c) a post-placement presentation. No grades shall be awarded for the Year in Industry which will be assessed on a pass/fail basis. A candidate who fails to satisfy these requirements may be permitted by the Faculty to become instead a candidate for the Degree of BEng in Mechanical Engineering (MECU002).
8. A candidate must pass MEC315 (Individual Research Project) at the first attempt in order to continue as a candidate for the Degree of BEng Mechanical Engineering with a Year in Industry. A candidate who fails to satisfy this requirement may be permitted by the Faculty to become instead a candidate for the Degree of BEng Mechanical Engineering (MECU002) but shall be ineligible for the award of that Degree with Honours.

B: For candidates whose initial registration was in the session 2009-10 and 2010-11

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree of MEng Mechanical Engineering with a Year in Industry (MECU014).

Level 3

3. A candidate shall take the programme of study prescribed at Level 3 in the Regulations for the Degree of BEng Mechanical Engineering (MECU002).
4. Before proceeding to Level 3, a candidate shall attain a satisfactory standard in an Engineering Applications Course, the arrangements being subject to the approval of the Head of Department.
5. A candidate shall be responsible for securing a suitable industrial placement. The appropriateness of the placement shall be determined by the Head of Mechanical Engineering. A candidate who fails to obtain a suitable placement shall instead be required to become a candidate for the Degree of BEng Mechanical Engineering (MECU002).
6. A candidate must normally achieve a weighted mean grade of 60 or above at Level 2 in order to proceed to the Year in Industry, progression being at the discretion of the Head of Mechanical Engineering. A candidate who fails to progress may be permitted to become instead a candidate for the Degree of BEng Mechanical Engineering (MECU002).
7. In the final year a candidate shall spend a minimum of 38 weeks working in an industrial establishment, the arrangements being subject to the approval of the Head of Mechanical Engineering. The Year in Industry shall be assessed on (a) written reflections on a skills-based placement journal; (b) two written reports; and (c) a post-placement presentation. No grades shall be awarded for the Year in Industry which will be assessed on a pass/fail basis. A candidate who fails to satisfy these requirements may be permitted by the Faculty to become instead a candidate for the Degree of BEng in Mechanical Engineering (MECU002).
8. A candidate must pass MEC315 (Individual Research Project) at the first attempt in order to continue as a candidate for the Degree of BEng Mechanical Engineering with a Year in Industry. A candidate who fails to satisfy this requirement may be permitted by the Faculty to become instead a candidate for the Degree of BEng Mechanical Engineering (MECU002) but shall be ineligible for the award of that Degree with Honours.

MEC6430	F7	Solid Biomechanics	10
MEC6441	F7	Advanced Solid Mechanics	10
 5. Before proceeding to Level 3, a candidate shall attain a satisfactory standard in an Engineering Applications Course, the arrangements being subject to the approval of the Head of Department.
 6. A candidate must satisfy the requirements of the General Regulations for First Degrees as to progression in order to continue as a candidate for the Degree of MEng in Mechanical Engineering with Nuclear Technology (MECU017). A candidate who fails to satisfy these requirements may be permitted by the Faculty to become instead a candidate for the Degree of BEng in Mechanical Engineering (MECU002). In this instance the individual element of the Group Design Project (MEC307) will be taken into account to satisfy the requirement to complete an individual project. A candidate must pass this element to satisfy the requirements for the award of a BEng Honours degree. A candidate who fails to satisfy this requirement will be ineligible for the award of the Degree with Honours.

7. A candidate must pass MEC401 (Individual Project) at the first attempt in order to be eligible for the award of the Degree of MEng in Mechanical Engineering with Nuclear Technology. A candidate who fails to satisfy this requirement may be awarded the Degree of BEng in Mechanical Engineering (MECU002).

Regulations for the Degrees of Master of Metallurgy (MMet), Master of Science (MSc), Master of Science (Research) (MSc(Res)), Master of Science in Engineering (MSc(Eng)), and Postgraduate Diplomas and Postgraduate Certificates by Coursework or Coursework and Dissertation in the Faculty of Engineering, Regulations for Doctor of Engineering (EngD) and Regulations for Doctoral Training Centres in the Faculty

GENERAL REGULATIONS FOR HIGHER DEGREES IN THE FACULTY OF ENGINEERING AND REGULATIONS FOR DOCTORAL TRAINING CENTRES IN THE FACULTY

1. The programmes of study within the Faculty shall, subject to any provision in the Regulations for particular programmes of study, extend over:
 - (a) *one* year for both a Masters’s Degree and a Postgraduate Diploma for a full-time candidate, who shall complete all components of the programme within the minimum period of study; *or*
 - (b) not less than *three* consecutive years for a part-time candidate for a Master’s Degree, who shall complete all components of the programme within the three year period; *or*

- (c) not less than *two* consecutive years for a part-time candidate for a Postgraduate Diploma, who shall complete all components of the programme within the two year period.

REGULATIONS FOR DOCTORAL TRAINING CENTRES IN THE FACULTY OF ENGINEERING

Regulations are presented in course code order. An alphabetical index of course titles is as follows:

DTMR01	Advanced Metallic Systems	PhD
DTER03	E-Futures	PhD
DTNR01	Nuclear Fission	PhD

DTER03 E-FUTURES (PhD) (Full-Time) DTET10 PROFESSIONAL SKILLS (PGDip) (Part-Time)

- In Year One a candidate shall take

(a)	FCE6000	F7	Carbon Challenge	5
	FCE6001	F7	Summer School	5
	FCE6003	F7	Introduction to Energy and Professional Skills	60
	FCE610	F7	Personal Effectiveness Skills	10
(b)	FCE6004	F7	Mini Project 1	30
	FCE6005	F7	Mini Project 2	30
	FCE6006	F7	Mini Project 3	30
- In order to proceed to Year Two a candidate must pass not less than *one hundred and sixty* credits in respect of units listed at 1(a) and (b) above.
- A candidate who has been awarded *one hundred and twenty* credits in respect of units listed at 1(a) and (b) above and does not proceed to Year Two shall be eligible for the award of Postgraduate Diploma in E-futures (DTET01).
- In Years Two to Four a candidate shall pursue a programme of research in accordance with the General Regulations for Higher Degrees by Research, and shall present a thesis in accordance with those Regulations.
- In Years Two to Four a candidate shall take

FCE6009	F7	Skills in Action	10
FCE6007	F7	Skills for Industry	15
FCE607	F7	Career Skills	5
FCE609	F7	Public Engagement Project	10
- A candidate shall successfully complete the Doctoral Training Centre's upgrading procedures before progressing to the third year of study.
- A candidate who has been awarded *one hundred and twenty* credits in respect of 1(a) and 5 above shall be awarded the Postgraduate Diploma in Professional Skills (DTET10).

DTMR01 ADVANCED METALLIC SYSTEMS (Full-Time) (DTC) DTMT10 PERSONAL AND PROFESSIONAL DEVELOPMENT SKILLS (PG Dip) (Part-Time) (Joint programme with the University of Manchester)

- In Year One a candidate shall take

(a)	MAT6392	F7	Structure, Microstructure and Mechanical Properties	15
	MAT6293	F7	Metals Processing and Modelling	15
	MAT6511	F7	Phase Transformations in Materials Processing	15
	MATS6457	F7	High Performance Alloys 1	15

| (c) | FCE610 | F7 | Personal Effectiveness Skills | 10 |
| | MAT6296 | F7 | Introduction to Research Skills | 10 |

*MATS codes denote University of Manchester units
 - In order to proceed to Year Two a candidate must pass *one hundred and twenty* credits in respect of units listed at 1(a) and (b) above.
 - A candidate who has been awarded *one hundred and twenty* credits in respect of 1(a) and (b) above and does not proceed to Year Two.
 - shall be eligible for the award of Postgraduate Diploma in Advanced Metallic Systems (DTMT01) *or*
 - may become instead a candidate for the award of MSc Advanced Metallic Systems (DTMT03) and in addition to 1(a) above shall take

MAT6294	F7	Transformative Technologies	10
MAT6399	F7	Research Project	95

 In the event of a failure of MAT6399 at the first attempt, any resubmission is subject to the approval of the examiners.
 - A candidate who has been awarded *sixty* credits in respect of 1(a) and (b) above and does not proceed to Year Two shall be eligible for the award of Postgraduate Certificate in Advanced Metallic Systems (DTMTXX).
 - In Years Two to Four a candidate shall pursue a programme of research in accordance with the General Regulations for Higher Degrees and shall present a thesis in accordance with those Regulations.
 - In Years Two to Four a candidate shall take

(a)	FCE6009	F7	Skills in Action	10
	FCE6007	F7	Skills for Industry	15
	FCE607	F7	Career Skills	5
	FCE6008	F7	Doctoral Writing Skills	10
	MAT6297	F7	Public Engagement Project	10
	MAT6398	F7	Science and Engineering in the Media	5
 - units selected from the PhD Advanced Metallic Systems Handbook to the value of a minimum of *fifteen* credits to be approved by the Centre Director.
 - A candidate who has been awarded *one hundred and twenty* credits in respect of 1(b), 1(c) and 6(a) above shall be awarded the Postgraduate Diploma in Personal and Professional Development Skills (DTMT10).

DTNR01 NUCLEAR FISSION (PhD) (Full-Time) (Joint programme with the University of Manchester)

- In Year One a candidate shall take

MAT6801	F7	Introduction to the Chemistry and Physics of the Nuclear Fuel Cycle	15
MAT6802	F7	Materials Science in the Nuclear Fuel Cycle	15
MAT6803	F7	Site Visits, Winter School and Skills Training	15
MAT6804	F7	Environmental Radiochemistry and the Science of Radioactive Waste Disposal	15
MAT6805	F7	DTC Project Rotation 1	45
MAT6806	F7	DTC Project Rotation 2	45
- In order to proceed to Year Two a candidate must pass not less than *one hundred and thirty-five* credits in respect of units listed at 1 above.
- A candidate who has been awarded not less than *one hundred and thirty-five* credits in respect of units listed at 1 above and does not proceed to Year Two may become instead a candidate for the award of MSc(Res) Nuclear Fission (DTNT02) and in addition shall take

- MAT6800 F7 Extended Research Project 30
- A candidate who has been awarded *one hundred and twenty* credits in respect of units listed at 1 above and does not proceed to Year Two shall be eligible for the award of Postgraduate Diploma in Nuclear Fission (DTNT01).
 - In Years Two to Four a candidate shall pursue a programme of research in accordance with the General Regulations for Higher Degrees by Research, and shall present a thesis in accordance with those Regulations.
 - A candidate shall not be permitted to complete either a Postgraduate Diploma in Professional Management and Leadership Skills or *forty-five* credits of the Doctoral Development Programme.

ACST01 CONTROL SYSTEMS (MSc) (Full-Time)

ACST11 (PG Dip) (Full-Time)

- A candidate shall take
 - ACS6101 F7 Foundations of Control Systems 30
 - ACS6102 F7 State-Space, Optimal Control and Nonlinear Systems 15
 - ACS6103 F7 Signal Processing and Estimation 15
 - ACS6110 F7 Embedded Systems and Rapid Control Prototyping 15
 - ACS6116 F7 Advanced Industrial Control 15
 - ACS6117 F7 Intelligent Systems 15
 - ACS6118 F7 Robotics and Multi Sensor Systems 15
- ACS6200 F7 Control Systems Project and Dissertation 60
- A candidate who has been awarded *one hundred and twenty* credits in respect of units listed at 1(a) above shall be eligible for the award of the Postgraduate Diploma in Control Systems.
- A candidate who has been awarded *sixty* credits in respect of units listed at 1(a) above shall be eligible for the award of the Postgraduate Certificate in Control Systems.
- In the event of failure in the Control Systems Research Project (ACS6200) at the first attempt, any resubmission is subject to the approval of the Board of Examiners.

ACST17 COMPUTATIONAL INTELLIGENCE (MSc)(Full-Time)

ACST18 (PG Dip) (Full Time), ACST19 (PG Cert) (Full-Time)

- A candidate shall take
 - ACS329 F6 Robotics 10
 - ACS408 F7 Optimisation and Search 10
 - ACS423 F7 Intelligent Systems 10
 - ACS424 F7 Multi-Sensor Data Fusion 10
 - COM3240 F6 Adaptive Intelligence 10
 - COM6009 F7 Modelling and Simulation of Natural Systems 15
 - COM6509 F7 Machine Learning and Adaptive Intelligence 15
 - PSY6307 F7 Computational Neuroscience I 15
 - PSY6308 F7 Computational Neuroscience II 15
 - PSY6317 F7 Methods in Computational Intelligence 10
- a unit to the value of *sixty* credits from the following
 - ACS6322 F7 Computational Intelligence Research Project 60
 - COM6322 F7 Computational Intelligence Research Project 60
 - PSY6325 F7 Individual Project in Computational Intelligence 60
- A candidate who has been awarded *sixty* credits in respect of units listed at 1(a) above shall be eligible for the award of the Postgraduate Certificate in Computational Intelligence.

- A candidate who has been awarded *one hundred and twenty* credits in respect of units listed at 1(a) above shall be eligible for the award of the Postgraduate Diploma in Computational Intelligence.
- In the event of failure in the Computational Intelligence Research Project (COM6322, ACS6322, PSY6325) at the first attempt, any resubmission is subject to the approval of the Board of Examiners.

ACST90 CONTROL SYSTEMS (MSc) (For initial registration of a candidate for the Degree of PhD with Integrated Studies in Control and Systems Engineering only)

- A candidate shall take the programme of study prescribed in Regulation 1 in the Regulations for the Degree of MSc in Control Systems (ACST01).
- A candidate shall (as part of the requirements for the Degree of PhD with Integrated Studies and unless exempted) take Research Training Programme units to the value of *forty-five* credits as prescribed by the Head of the Department following consultation with the candidate (in the case of a candidate who commenced the programme of study and research before September 2010), or shall engage with the Doctoral Development Programme as prescribed in the Regulations for the Doctoral Development Programme (in the case of a candidate commencing the programme of study and research in or after September 2010).
- A candidate shall (as part of the requirements for the Degree of PhD with Integrated Studies) complete satisfactorily the following
 - ELT Intensive English Language Training (*optional*)
 - in the first year*
 - Y1.1 Induction Meeting
 - Y1.2 Managing Research Time
 - in the second year*
 - Y2.1 Speaking Skills for Research Purposes
 - Y2.2 Masters Research Projects - Oral Presentations
 - in the third year*
 - Y3.1 Research Poster Presentations
 - in the fourth year*
 - Y4.1 Thesis Writing and Viva Preparation
 - Y4.2 Graduate Research Conference - Oral Presentations
- A candidate shall be expected to attend at least two Career Management Skills sessions during the four year programme.
- A candidate who has been awarded *one hundred and twenty* credits in respect of units listed at 1(a) and (b) of ACST01 above and who does not complete the requirements for the Degree of MSc shall be eligible for the award of the Postgraduate Diploma in Control Systems.
- A candidate who has been awarded *sixty* credits in respect of units listed at 1(a) and (b) of ACST01 above and who does not complete the requirements for the Degree of MSc shall be eligible for the award of the Postgraduate Certificate in Control Systems.

ACST98 CONTROL AND SYSTEMS ENGINEERING (MSc) (Part-Time)

- A person may be admitted as a candidate who is employed in or who has taken a career break from an appropriate industry.
- The programme of study shall be subject to a time limit of five years.
- A candidate shall take
 - ACS6101 F7 Foundations of Control Systems 30
 - ACS6102 F7 State-Space, Optimal Control and Nonlinear Systems 15

COMT48 (PGCert)(Part-Time)

1. A candidate shall take
- (a) COM6011 F7 Maxi Project 20
- COM6062 F7 Network and Internetwork Architectures 10
- COM6102 F7 Advanced Java Programming 15
- COM6222 F7 Human Centred Systems Design 20
- COM6471 F7 Foundations of Object-Oriented Programming 15
- COM6514 F7 Java E-Commerce 15
- COM6517 F7 Web Technologies 15
- COM6650 F7 Professional Issues 10
- (b) COM6910 F7 Dissertation Project 60
2. A candidate who has been awarded *one hundred and twenty* credits in respect of units listed at 1(a) above shall be eligible for the award of the Postgraduate Diploma in Software Systems and Internet Technology.
3. A candidate who has been awarded *sixty* credits in respect of units listed at 1(a) above shall be eligible for the award of the Postgraduate Certificate in Software Systems and Internet Technology.
4. A candidate may proceed to the dissertation only on the recommendation of the Examiners based on performance in the units listed at 1(a) above.
5. In the event of failure in COM6910 (Project) at the first attempt, any resubmission is subject to the approval of the Board of Examiners.

COMT190 ADVANCED COMPUTER SCIENCE (MSc)

(For initial registration of a candidate of the Degree of PhD with Integrated Studies in Computer Science only)

1. A candidate shall take the programme of study prescribed in Regulation 1 of the Regulations for the Degree of MSc in Advanced Computer Science (COMT123).
2. A candidate shall take (as part of the requirements for the Degree of PhD with Integrated Studies and unless exempted) the following Research Training Programme units (in the case of a candidate who commenced the programme of study and research before September 2010), or shall engage with the Doctoral Development Programme as prescribed in the Regulations for the Doctoral Development Programme (in the case of a candidate commencing the programme of study and research in or after September 2010).
 - (a) units to the value of not less than *twenty* credits from those offered by the Department of Computer Science and approved for delivery as part of the Research Training Programme
 - (b) units to the value of not less than *thirty* credits from the following, not more than *fifteen* being selected from (i)
 - (i) GSC6000 F7 Information Management 15
 - GSC6100 F7 Library and Information Skills for Successful Research 10
 - (ii) GSC6001 F7 Entrepreneurship and Business Planning 5
 - GSC6002 F7 Innovation and New Product Development 5
 - GSC6003 F7 Project Management and Commercial Awareness 10
 - GSC6050 F7 Thesis Writing: Principles and Practice 5
 - GSC6060 F7 Speaking Skills for Research Purposes 5
 - GSC6110 F7 White Rose Interpersonal Skills School 5
 - GSC6130 F7 Teaching Skills for Research Students 5
3. A candidate shall (as part of the requirements for the Degree of PhD with Integrated Studies) complete satisfactorily the following
 - (i) ELT Intensive English Language Training (*optional*)
 - (ii) *in the first year*
 - Y1.1 Induction Meeting
 - Y1.2 Managing Research Time
 - (iii) *in the second year*
 - Y2.1 Speaking Skills for Research Purposes
 - Y2.2 Masters Research Projects - Oral Presentations
 - (iv) *in the third year*
 - Y3.2 Research Poster Presentations
 - (v) *in the fourth year*
 - Y4.1 Thesis Writing and Viva Preparation
 - Y4.2 Graduate Research Conference - Oral Presentations
4. A candidate who has been awarded *one hundred and twenty* credits in respect of units listed at 1(a) and (b) and who does not complete the requirements for the Degree of MSc shall be eligible for the award of the Postgraduate Diploma in Advanced Computer Science (COMT123).
5. A candidate who has been awarded *sixty* credits in respect of units listed at 1(a) and (b) above shall be eligible for the award of the Postgraduate Certificate in Advanced Computer Science (COMT123).

CPET01 ENVIRONMENTAL AND ENERGY ENGINEERING (MSc (Eng))

(Full-Time)

CPET02 (Part-Time)

1. A candidate shall take
 - (a) CPE6003 F7 Research Methods in Environmental and Energy Engineering 15
 - CPE6030 F7 Environment: Gaseous Emissions 15
 - CPE6070 F7 Environment: Particulate Emissions 15
 - CPE6080 F7 Environment: Liquid Effluents 15
 - CPE6300 F7 Introduction to Fuels and Energy 15
 - CPE6310 F7 Laboratory Practicals 15
 - (b) units to the value of *thirty* credits from the following
 - CPE6000 F7 Low Carbon Energy Science and Technology 15
 - CPE6020 F7 Computational Fluid Dynamics 15
 - CPE6050 F7 Fires and Explosions 15
 - CPE6060 F7 Energy from Biomass and Waste 15
 - CPE6140 F7 Environmental Protection 15
 - CPE6290 F7 Nuclear Reactor Engineering Studies 15
 - CPE6450 F7 Oil and Gas Utilisation 15
 - (c) CPE6010 F7 Research Project 60
2. A candidate who has a strong background in combustion and energy science (for example, a candidate with a first degree in Chemical Engineering) may be exempted by the Faculty from taking CPE6300 (Introduction to Fuels and Energy), and may substitute a unit selected from Regulation 1(b) above in its place.
3. A candidate with a background in engineering laboratory work may be exempted by the Faculty from taking CPE6310 (Laboratory Practicals), and may substitute a unit selected from Regulation 1(b) above in its place.
4. A candidate who has been awarded *one hundred and twenty* credits in respect of units listed at 1(a) and (b) above shall be eligible for the award of the Postgraduate Diploma in Environmental and Energy Engineering.
5. A candidate who has been awarded *sixty* credits in respect of units listed at 1(a) and (b) above shall be eligible for the award of the Postgraduate Certificate in Environmental and Energy Engineering.
6. In the event of failure in CPE6010 at the first attempt, any resubmission is subject to the approval of the Board of Examiners.

CPET03 PROCESS SAFETY AND LOSS PREVENTION (MSc (Eng)) (Full-Time)

CPET04 (Part-Time)

1. A candidate shall take
 - (a) CPE6001 F7 Elements of Risk and Major Hazards 45
 - (b) units to the value of *seventy-five* credits from the following
 - CPE6200 F7 Hazards in Process Plant Design and Operation 15
 - CPE6240 F7 Applied Hazard and Operability Studies 15
 - CPE6250 F7 Plant Reliability and Maintainability 15
 - CPE6260 F7 Human Behaviour and Human Error 15
 - CPE6270 F7 Process Safety Management and Loss Prevention 15
 - CPE6280 F7 Computer Control: Safe Practice 15
 - (c) CPE6390 F7 Dissertation Project 60
2. A candidate who has been awarded *one hundred and twenty* credits in respect of units listed at 1(a) and (b) above shall be eligible for the award of the Postgraduate Diploma in Process Safety and Loss Prevention.
3. A candidate who has been awarded *sixty* credits in respect of units listed at 1(a) and (b) above shall be eligible for the award of the Postgraduate Certificate in Process Safety and Loss Prevention.

4. In the event of failure in CPE6390 at the first attempt, any resubmission is subject to the approval of the Board of Examiners.

CPET30 BIOLOGICAL AND BIOPROCESS ENGINEERING (MSc(Eng)) (Full-Time)

1. A candidate shall take
 - (a) CPE6004 F7 Biopharmaceutical Bio-processing 15
 - CPE6005 F7 Biosystems Engineering and Computational Biology 15
 - CPE6008 F7 Research Methods in Biological and Bioprocess Engineering 15
 - (b) a unit to the value of *thirty* credits from the following
 - CPE6006 F7 Principles of Biochemical Engineering 30
 - CPE6012 F7 Principles of Bio-molecular Science 30
 - (c) units to the value of *forty-five* credits from the following
 - BMS6056 F7 Stem Cell Biology 15
 - BMS6730 F7 Bionanomaterials 15
 - CPE6007 F7 Microfluidics 15
 - CPE6009 F7 Bio-energy 15
 - CPE6015 F7 Proteomics and Bioinformatics 15
 - CPE6023 F7 Synthetic Biology 15
 - MAT407 F7 Tissue Engineering Approaches to Failure in Living Systems 15
 any other units with approval from the Department
 - (d) CPE6011 F7 Research Project 60
2. A candidate who has been awarded *one hundred and twenty* credits in respect of units listed at 1(a), (b) and (c) above shall be eligible for the award of the Postgraduate Diploma in Biological and Bioprocess Engineering.
3. A candidate who has been awarded *sixty* credits in respect of units listed at 1(a), (b) and (c) above shall be eligible for the award of the Postgraduate Certificate in Biological and Bioprocess Engineering.
4. In the event of failure in CPE6011 at the first attempt, any resubmission is subject to the approval of the Board of Examiners.

CPET31 BIOLOGICAL AND BIOPROCESS ENGINEERING (MSc(Eng)) (Full-Time) (For initial registration of a candidate for the Degree of PhD with Integrated Studies only)

1. A candidate shall take the programme of study prescribed in Regulation 1 of the Regulations for the Degree of MSc (Eng) in Biological and Bioprocess Engineering (CPET30).
2. A candidate shall take (as part of the requirements for the Degree of PhD with Integrated Studies and unless exempted) Research Training Programme units to the value of *forty-five* credits as prescribed by the Head of Department following consultation with the candidate (in the case of a candidate who commenced the programme of study and research before September 2010), or shall engage with the Doctoral Development Programme as prescribed in the Regulations for the Doctoral Development Programme (in the case of a candidate commencing the programme of study and research in or after September 2010).
3. A candidate shall (as part of the requirements for the Degree of PhD with Integrated Studies) complete satisfactorily the following
 - (i) ELT Intensive English Language Training (*optional*)
 - (ii) in the first year
 - Y1.1 Induction Meeting
 - Y1.2 Managing Research Time
 - (iii) in the second year
 - Y2.1 Speaking Skills for Research Purposes

Y2.2 Masters Research Projects - Oral Presentations

- (iv) in the third year
 - Y3.1 Research Poster Presentations
- (v) in the fourth year
 - Y4.1 Thesis Writing and Viva Preparation
 - Y4.2 Graduate Research Conference - Oral Presentations
4. A candidate shall be expected to attend at least two Career Management Skills sessions during the four year programme.
5. A candidate who has been awarded *one hundred and twenty* credits in respect of units listed at 1(a) (b) and (c) of CPET30 above and who does not proceed to complete the requirements for the Degree MSc (Eng) shall be eligible for the award of the Postgraduate Diploma in Biological and Bioprocess Engineering
6. A candidate who has been awarded *sixty* credits in respect of units listed at 1(a), (b) and (c) of CPET30 above and who does not proceed to complete the requirements for the Degree MSc (Eng) shall be eligible for the award of the Postgraduate Certificate in Biological and Bioprocess Engineering.
7. A candidate who does not pass CPE6011 (Project) listed at 1(d) of CPET30 above with a minimum mark of 60% at the first attempt shall be ineligible to proceed to the Degree of PhD, subject to the discretion of the Board of Examiners.

CPET90 ENVIRONMENTAL AND ENERGY ENGINEERING (MSc(Eng)) (For initial registration of a candidate for the Degree of PhD with Integrated Studies only)

1. A candidate shall take the programme of study prescribed in Regulation 1 of the Regulations for the Degree of MSc(Eng) in Environmental and Energy Engineering (CPET01).
2. A candidate shall take (as part of the requirements for the Degree of PhD with Integrated Studies and unless exempted) Research Training Programme units to the value of *forty-five* credits as prescribed by the Head of Department following consultation with the candidate (in the case of a candidate who commenced the programme of study and research before September 2010), or shall engage with the Doctoral Development Programme as prescribed in the Regulations for the Doctoral Development Programme (in the case of a candidate commencing the programme of study and research in or after September 2010).
3. A candidate shall (as part of the requirements for the Degree of PhD with Integrated Studies) complete satisfactorily the following
 - (i) ELT Intensive English Language Training (*optional*)
 - (ii) in the first year
 - Y1.1 Induction Meeting
 - Y1.2 Managing Research Time
 - (iii) in the second year
 - Y2.1 Speaking Skills for Research Purposes
 - Y2.2 Masters Research Projects - Oral Presentations
 - in the third year
 - Y3.1 Research Poster Presentations
 - (v) in the fourth year
 - Y4.1 Thesis Writing and Viva Preparation
 - Y4.2 Graduate Research Conference - Oral Presentations
4. A candidate shall be expected to attend at least two Career Management Skills sessions during the four year programme.
5. A candidate who has been awarded *one hundred and twenty* credits in respect of units listed at 1(a) and (b) of CPET01 above and who does not proceed to complete the requirements for the Degree MSc (Eng) shall be eligible for the award of the Postgraduate Diploma in Environmental and Energy Engineering.

6. A candidate who has been awarded *sixty* credits in respect of units listed at 1(a) and (b) of CPET01 above and who does not proceed to complete the requirements for the Degree MSc (Eng) shall be eligible for the award of the Postgraduate Certificate in Environmental and Energy Engineering.
7. A candidate who does not pass CPE6011 (Project) listed at 1(d) of CPET30 above with a minimum mark of 60% at the first attempt shall be ineligible to proceed to the Degree of PhD, subject to the discretion of the Board of Examiners.

3. A candidate who has been awarded *sixty* credits in respect of units listed at 1(a) and (b) above shall be eligible for the award of the Postgraduate Certificate in Wireless Communication Systems.
4. In the event of failure in EEE6602 (MSc Individual Project) at the first attempt, any resubmission is subject to the approval of the Board of Examiners.

MATR05 ENGINEERING MATERIALS (EngD) (Full-Time)

1. The programme of research shall be pursued for not less than three years.
2. The normal period of registration and tuition fee payment shall be four years.
3. The time limit for the presentation of the thesis shall be five years.
4. A candidate shall initially register as a candidate for the Degree of MPhil.
5. A candidate who has been awarded not less than *ninety* credits from those listed at 6 (a) and (b), with *forty-five* credits being taken from (a), may be permitted by the Senate to transfer their candidature to the Degree of EngD. The Senate may recognise as part of the period of research for the Degree of EngD some or all of the time spent as a candidate for the MPhil Degree.
6. For the taught component of the programme a candidate shall take

- (a) units to the value of *forty-five* credits from those listed as Taught Technical Modules in the current handbook of the Nuclear Engineering Doctoral Programme Guide of the University of Manchester
- (b) units to the value of not less than *forty-five* credits and not more than *one hundred and twenty* credits from the University of Manchester Diploma in Enterprise Management as listed in the current handbook of the Nuclear Engineering Doctorate Programme Guide
7. A candidate shall take the Professional Development Programme at the University of Manchester, for which no credit will be awarded.
8. For the research component of the programme, a candidate shall pursue a programme of research based at a sponsoring company, in accordance with the General Regulations for Higher Degrees by Research, and shall present a thesis in accordance with those Regulations. The topic of the proposed research will be in accordance with the research interests of the sponsoring company and the Department. A candidate shall submit six monthly reports on their progress.
9. Two supervisors shall be appointed by the Senate on the recommendation of the Faculty for each candidate of whom one supervisor shall be a member of the Academic Staff of the University and the other from the sponsoring company.
10. The Senate may recognise as part of the period of research for the Degree of EngD other time already spent in another institution by a candidate under approved supervision on research relevant to the subject of the thesis provided that
 - (a) the work done during that time has been approved by the Faculty as of sufficiently high standard; *and*
 - (b) the work has been and will not be submitted for any other Degree; *and*
 - (c) the remaining period of research is at least two years.
11. A candidate who has been awarded *one hundred and twenty* credits in respect of units listed at 6(b) above shall be eligible for the award of Diploma in Enterprise Management from the University of Manchester.

For candidates commencing the programme of study and research in or after September 2010

1. A candidate will be required to engage with the Doctoral Development Programme as prescribed in the Regulations for the Doctoral Development Programme. Such a candidate may not be permitted to transfer to the status of a candidate for the Degree of EngD from candidacy for the Degree of MPhil unless the candidate has presented a portfolio demonstrating that they have undertaken an agreed programme of training and skills development and have achieved an appropriate level of competency as agreed by the supervisory team.

(Joint programme with the University of Leeds)

1. A person who satisfies the admission requirements of the University of Sheffield and of the University of Leeds may be admitted as a candidate.
2. A candidate shall register at Sheffield at the beginning of the programme of study as a student of both the University of Sheffield and the University of Leeds. A candidate shall have appropriate access to the facilities of both Universities but shall be required to attend at the University identified in accordance with the following Regulations.
3. In the case of a part-time candidate the programme of study shall be pursued for not less than eighteen months and shall be subject to a time-limit of three years.
4. A candidate shall take
 - (a) at the University of Sheffield

BMS6730	F7	Bionanomaterials	15
MAT6390	F7	Nanoscale Magnetic Materials and Devices	15
MAT6720	F7	Nanostructures, Nanopatterning and Nanomechanics	15

CMNS5400	F7	Processing and Properties of Inorganic Nanomaterials	15
CMNS5500	F7	Self-assembling Nanostructured Molecular Materials and Devices	15
CMNS5600	F7	Nanoparticles; Synthesis and Applications	15
CMNS5610	F7	Thin Film Technology	15
 - (c) a unit to the value of *sixty* credits from the following

CHM602	F7	Nanofolio MSc Courses Major Project	60
MAT6045	F7	Nanofolio MSc Courses Major Project	60
PHY6009	F7	Nanofolio MSc Courses Major Project	60
5. The Examiners (including the External Examiner) shall be appointed jointly by the two Universities.
6. A candidate shall carry out project work at whichever of the two Universities is more appropriate for the conduct of the work. A candidate who elects to carry out the work in the University of Leeds shall remain subject to these Regulations but shall be a candidate for a Degree of the University of Leeds and not for the Degree of MSc of the University of Sheffield.
7. A candidate who has been awarded *one hundred and twenty* credits in respect of units listed at 4 (a), (b), and (c) above shall be eligible for the award of the Postgraduate Diploma in Nanomaterials for Nanoengineering.
8. A candidate who has been awarded *sixty* credits in respect of units listed at 4 (a), (b), and (c) above shall be eligible for the award of the Postgraduate Certificate in Nanomaterials for Nanoengineering.
9. The Examiners may recommend the award of a Postgraduate Diploma *or* a Postgraduate Certificate with merit *or* distinction.
10. In the event of failure of CHM602, MAT6045 or PHY6009 at the first attempt, any resubmission is subject to the approval of the Board of Examiners.

MATT42 NUCLEAR SCIENCE AND TECHNOLOGY (MSc) (Full-Time)

MATT43 (Part-Time)

(Joint programme with the Nuclear Technology Education Consortium)

1. A candidate shall take
 - (a) N04 F7 Decommissioning, Waste and Environmental Management 15
 - MAT6860 F7 The Scientific Basis for Nuclear Materials Management 15
 - N29 F7 Decommissioning Technology and Robotics 15
 - N31 F7 Management of the Decommissioning Process 15

3.	A candidate who has been awarded <i>sixty</i> credits in respect of units listed at 1(a) and (b) above shall be eligible for the award of the Postgraduate Certificate in Biomaterials and Tissue Engineering.	
4.	In the event of failure of MAT6308 or DEN606 (Research Project) at the first attempt, any resubmission is subject to the approval of the Board of Examiners.	

MATT90 ADVANCED SOLID STATE CHEMISTRY AND ITS APPLICATIONS (MSc) (For initial registration of a candidate for the Degree of PhD with Integrated Studies in Advanced Materials Science only)

1. A candidate shall take the programme of study prescribed at Regulation 1 in the Regulations for the Degree of MSc in Advanced Solid State Chemistry and its Applications (MATT04).
2. A candidate shall take (as part of the requirements for the Degree of PhD with Integrated Studies and unless exempted) Research Training Programme units to the value of *forty-five* credits as prescribed by the Head of Department following consultation with the candidate (in the case of a candidate who commenced the programme of study and research before September 2010), or shall engage with the Doctoral Development Programme as prescribed in the Regulations for the Doctoral Development Programme (in the case of a candidate commencing the programme of study and research in or after September 2010).
3. A candidate shall (as part of the requirements for the Degree of PhD with Integrated Studies) complete satisfactorily the following
 - (i) ELT Intensive English Language Training (*optional*)
 - (ii) *in the first year*
 - Y1.1 Induction Meeting
 - Y1.2 Managing Research Time
 - (iii) *in the second year*
 - Y2.1 Speaking Skills for Research Purposes
 - Y2.2 Masters Research Projects - Oral Presentations
 - (iv) *in the third year*
 - Y3.2 Research Poster Presentations
 - (v) *in the fourth year*
 - Y4.1 Thesis Writing and Viva Preparation
 - Y4.2 Graduate Research Conference - Oral Presentations

4. A candidate shall be expected to attend at least two Career Management Skills sessions during the four year programme.
5. A candidate who has been awarded *one hundred and twenty* credits in respect of units listed at 1(a) above and who does not proceed to complete the requirements for the Degree of MSc shall be eligible for the award of the Postgraduate Diploma in Advanced Solid State Chemistry and Its Applications.
6. A candidate who has been awarded *sixty* credits in respect of units listed at 1(a) above shall be eligible for the award of the Postgraduate Certificate in Advanced Solid State Chemistry and Its Applications.
7. A candidate who does not pass MAT6040 (Project) listed at 1(b) of MATT04 above with a minimum mark of 60 at the first attempt shall be ineligible to proceed to the Degree of PhD.

MATT91 ADVANCED METALLURGY (MMet) (For initial registration of a candidate for the Degree of PhD with Integrated Studies in Advanced Metallurgy only)

1. A candidate shall take the programme of study prescribed at Regulation 1 in the Regulations for the Degree of MMet in Advanced Metallurgy (MATT10).
2. A candidate shall take (as part of the requirements for the Degree of PhD with Integrated Studies and unless exempted) Research Training Programme units to the value of *forty-five* credits as prescribed by the Head of Department following consultation with the candidate (in the case of a candidate who commenced the programme of study and research before September 2010), or shall engage with the Doctoral Development Programme as prescribed in the Regulations for the Doctoral Development Programme (in the case of a candidate commencing the programme of study and research in or after September 2010).
3. A candidate shall (as part of the requirements for the Degree of PhD with Integrated Studies) complete satisfactorily the following
 - (i) ELT Intensive English Language Training (*optional*)
 - (ii) *in the first year*

 - Y4.1 Thesis Writing and Viva Preparation
 - Y4.2 Graduate Research Conference - Oral Presentations
4. A candidate shall be expected to attend at least two Career Management Skills sessions during the four year programme.
5. A candidate who has been awarded *one hundred and twenty* credits in respect of units listed at 1(a) of MATT10 above and who does not proceed to complete the requirements for the Degree of MMet shall be eligible for the award of the Postgraduate Diploma in Advanced Metallurgy.
6. A candidate who has been awarded *sixty* credits in respect of units listed at 1(a) of MATT10 above and who does not proceed to complete the requirements for the Degree of MSc(Eng) shall be eligible for the award of the Postgraduate Certificate in Advanced Metallurgy.
7. A candidate who does not pass MAT6040 (Project) listed at 1(b) of MATT10 above with a minimum mark of 60 at the first attempt shall be ineligible to proceed to the Degree of PhD.

MATT92 AEROSPACE MATERIALS (MSc (Eng))

(For initial registration of a candidate for the Degree of PhD with Integrated Studies in Advanced Materials Science only)

1. A candidate shall take the programme of study prescribed at Regulation 1 in the Regulations for the Degree of MSc(Eng) in Aerospace Materials (MATT16).
2. A candidate shall take (as part of the requirements for the Degree of PhD with Integrated Studies and unless exempted) Research Training Programme units to the value of *forty-five* credits as prescribed by the Head of Department following consultation with the candidate (in the case of a candidate who commenced the programme of study and research before September 2010), or shall engage with the Doctoral Development Programme as prescribed in the Regulations for the Doctoral Development Programme (in the case of a candidate commencing the programme of study and research in or after September 2010).

 - (iv) *in the third year*
 - Y3.1 Research Poster Presentations
 - (v) *in the fourth year*
 - Y4.1 Thesis Writing and Viva Preparation
 - Y4.2 Graduate Research Conference – Oral Presentations
4. A candidate shall be expected to attend at least two Career Management Skills sessions during the four year programme.
5. A candidate who has been awarded *one hundred and twenty* credits in respect of units listed at 1(a) of MATT16 above and who does not proceed to complete the requirements for the Degree of MSc(Eng) shall be eligible for the award of the Postgraduate Diploma in Aerospace Materials.
6. A candidate who has been awarded *sixty* credits in respect of units listed at 1(a) of MATT16 above and who does not proceed to complete the requirements for the Degree of MSc(Eng) shall be eligible for the award of the Postgraduate Certificate in Aerospace Materials.
7. A candidate who does not pass MAT6040 (Project) listed at 1(b) of MATT16 above with a minimum mark of 60 at the first attempt shall be ineligible to proceed to the Degree of PhD.

MATT93 CERAMIC SCIENCE AND ENGINEERING (MSc (Eng))

(For initial registration of a candidate for the Degree of PhD with Integrated Studies in Advanced Materials Science only)

1. A candidate shall take the programme of study prescribed at Regulation 1 in the Regulations for the Degree of MSc(Eng) in Ceramic Science and Engineering (MATT01).

2. A candidate shall take (as part of the requirements for the Degree of PhD with Integrated Studies and unless exempted) Research Training Programme units to the value of *forty-five* credits as prescribed by the Head of Department following consultation with the candidate (in the case of a candidate who commenced the programme of study and research before September 2010), or shall engage with the Doctoral Development Programme as prescribed in the Regulations for the Doctoral Development Programme (in the case of a candidate commencing the programme of study and research in or after September 2010).
3. A candidate shall (as part of the requirements for the Degree of PhD with Integrated Studies) complete satisfactorily the following
 - (i) ELT Intensive English Language Training (*optional*)

 - (v) *in the fourth year*
 - Y4.1 Thesis Writing and Viva Preparation
 - Y4.2 Graduate Research Conference – Oral Presentations
4. A candidate shall be expected to attend at least two Career Management Skills sessions during the four year programme.
5. A candidate who has been awarded *one hundred and twenty* credits in respect of units listed at 1(a), (b) and (c) of MATT01 above and who does not proceed to complete the requirements for the Degree of MSc(Eng) shall be eligible for the award of the Postgraduate Diploma in Ceramic Science and Engineering.
6. A candidate who has been awarded *sixty* credits in respect of units listed at 1(a) and (b) of MATT01 above and who does not proceed to complete the requirements for the Degree of MSc(Eng) shall be eligible for the award of the Postgraduate Certificate in Ceramic Science and Engineering.
7. A candidate who does not pass MAT6040 (Project) listed at 1(c) of MATT01 above with a minimum mark of 60 at the first attempt shall be ineligible to proceed to the Degree of PhD.

MATT94 POLYMER AND POLYMER COMPOSITE SCIENCE AND ENGINEERING (MSc (Eng))

(For initial registration of a candidate for the Degree of PhD with Integrated Studies Advanced Materials Science only)

1. A candidate shall take the programme of study prescribed at Regulation 1 in the Regulations for the Degree of MSc(Eng) in Polymer and Polymer Composite Science and Engineering (MATT03).
2. A candidate shall take (as part of the requirements for the Degree of PhD with Integrated Studies and unless exempted) Research Training Programme units to the value of *forty-five* credits as prescribed by the Head of Department following consultation with the candidate (in the case of a candidate who commenced the programme of study and research before September 2010), or shall engage with the Doctoral Development Programme as prescribed in the Regulations for the Doctoral Development Programme (in the case of a candidate commencing the programme of study and research in or after September 2010).

- (iii) *in the second year*
 - Y2.1 Speaking Skills for Research Purposes
 - Y2.2 Masters Research Projects – Oral Presentations
- (iv) *in the third year*
 - Y3.1 Research Poster Presentations
- (v) *in the fourth year*
 - Y4.1 Thesis Writing and Viva Preparation
 - Y4.2 Graduate Research Conference – Oral Presentations
- 4. A candidate shall be expected to attend at least two Career Management Skills sessions during the four year programme.
- 5. A candidate who has been awarded *one hundred and twenty* credits in respect of units listed at 1(a) above of MATT03 and who does not proceed to complete the requirements for the Degree of MSc(Eng) shall be eligible for the award of the Postgraduate Diploma in Polymer and Polymer Composite Science and Engineering.
- 6. A candidate who has been awarded *sixty* credits in respect of units listed at 1(a) of MATT03 above and who does not proceed to complete the requirements for the Degree of MSc(Eng) shall be eligible for the award of the Postgraduate Certificate in Polymer and Polymer Composite Science and Engineering.
- 7. A candidate who does not pass MAT6040 (Project) listed at 1(b) of MATT03 above with a minimum mark of 60 at the first attempt shall be ineligible to proceed to the Degree of PhD.

MATT95 NUCLEAR ENVIRONMENTAL SCIENCE AND TECHNOLOGY (MSc (Eng))
(For initial registration of a candidate for the Degree of PhD with Integrated Studies in Advanced Materials Science only)

- 1. A candidate shall take the programme of study prescribed at Regulation 1 in the Regulations for the Degree of MSc(Eng) in Nuclear Environmental Science and Technology (MATT07).
- 2. A candidate shall take (as part of the requirements for the Degree of PhD with Integrated Studies and unless exempted) Research Training Programme units to the value of *forty-five* credits as prescribed by the Head of Department following consultation with the candidate (in the case of a candidate who commenced the programme of study and research before September 2010), or shall engage with the Doctoral Development Programme as prescribed in the Regulations for the Doctoral Development Programme (in the case of a candidate commencing the programme of study and research in or after September 2010).
- 3. A candidate shall (as part of the requirements for the Degree of PhD with Integrated Studies) complete satisfactorily the following
 - (i) ELT Intensive English Language Training
(optional)
 - (ii) *in the first year*
 - Y1.1 Induction Meeting
 - Y1.2 Managing Research Time
 - (iii) *in the second year*
 - Y2.1 Speaking Skills for Research Purposes
 - Y2.2 Masters Research Projects – Oral Presentations
 - (iv) *in the third year*
 - Y3.1 Research Poster Presentations

- (v) *in the fourth year*
 - Y4.1 Thesis Writing and Viva Preparation
 - Y4.2 Graduate Research Conference – Oral Presentations
- 4. A candidate shall be expected to attend at least two Career Management Skills sessions during the four year programme.
- 5. A candidate who has been awarded *one hundred and twenty* credits in respect of units listed at 1(a) of MATT07 above and who does not proceed to complete the requirements for the Degree of MSc(Eng) shall be eligible for the award of the Postgraduate Diploma in Nuclear Environmental Science and Technology.
- 6. A candidate who has been awarded *sixty* credits in respect of units listed at 1(a) of MATT07 above and who does not proceed to complete the requirements for the Degree of MSc(Eng) shall be eligible for the award of the Postgraduate Certificate in Nuclear Environmental Science and Technology.
- 7. A candidate who does not pass MAT6040 (Project) listed at 1(b) of MATT07 above with a minimum mark of 60 at the first attempt shall be ineligible to proceed to the Degree of PhD.

MATT97 BIONANOTECHNOLOGY (MSc)
(Joint programme with the University of Leeds)
(For initial registration of a candidate for the degree of PhD with Integrated Studies in Bionanotechnology only)

- 1. A person who satisfies the admission requirements of the University of Sheffield and of the University of Leeds may be admitted as a candidate.
- 2. A candidate shall register at Sheffield at the beginning of the programme of study as a student of both the University of Sheffield and the University of Leeds. A candidate shall have appropriate access to the facilities of both Universities but shall be required to attend at the University identified in accordance with the following Regulations.
- 3. A candidate shall take
 - (a) at the University of Sheffield

BMS6730	F7	Bionanomaterials	15
MAT6740	F7	Physics for Bionanotechnology	15
MAT6750	F7	Biophotonics and Bioimaging	15
PHY6006	F7	Macromolecules at Interfaces and Structured Organic Films	15
 - (b) at the University of Leeds

CMNS5100	Generic Methodologies for Nanotechnology	15
CMNS5500	Self-assembling Nanostructured Molecular Materials and Devices	15
CMNS5710	Biosensors and Drug Delivery	15
CMNS5850	Nanotoxicology	15
 - (c) *one* of the following

CHM602	F7	Nanofolio MSc Courses Major Project	60
MAT6045	F7	Nanofolio MSc Courses Major Project	60
PHY6009	F7	Nanofolio MSc Courses Major Project	60
- 4. A candidate shall take (as part of the requirements for the Degree of PhD with Integrated Studies and unless exempted) Research Training Programme units to the value of *forty-five* credits as prescribed by the Head of Department following consultation with the candidate (in the case of a candidate who commenced the programme of study and research before September 2010), or shall engage with the Doctoral Development Programme as prescribed in the Regulations for the Doctoral Development Programme (in the case of a candidate commencing the programme of study and research in or after September 2010).

- (v) *in the fourth year*
 - Y4.1 Thesis Writing and Viva Preparation
 - Y4.2 Graduate Research Conference – Oral Presentation
- 6. A candidate shall be expected to attend at least two Career Management Skills sessions during the four year programme.
- 7. A candidate who does not complete the requirements for the Degree of MSc may be eligible instead for the award of the Postgraduate Diploma *or* the Postgraduate Certificate in Bionanotechnology in accordance with the Regulations for the Degree of MSc in Bionanotechnology. Such a candidate shall not be permitted to continue as a candidate for the Degree of PhD with Integrated Studies.
- 8. A candidate who does not pass CHM602, MAT6045 or PHY6009 listed at 3(C) above with a minimum mark of 60 at the first attempt shall be ineligible to proceed to the Degree of PhD.

MATT98 NANOMATERIALS FOR NANOENGINEERING (MSc)
(Joint programme with the University of Leeds) (For initial registration of a candidate for the degree of PhD with Integrated Studies in Bionanotechnology only)

1. A person who satisfies the admission requirements of the University of Sheffield and of the University of Leeds may be admitted as a candidate.
2. A candidate shall register at Sheffield at the beginning of the programme of study as a student of both the University of Sheffield and the University of Leeds.  - Y2.2 Maters research Projects – Oral Presentations
 - (iv) *in the third year*
 - Y3.1 Research Poster Presentations
 - (v) *in the fourth year*
 - Y4.1 Thesis Writing and Viva Preparation
 - Y4.2 Graduate Research Conference – Oral Presentation
6. A candidate shall be expected to attend at least two Career management Skills sessions during the four year programme.
7. A candidate who does not complete the requirements for the Degree of MSc may be eligible instead for the award of the Postgraduate Diploma *or* the Postgraduate Certificate in Nanomaterials for Nanoengineering in accordance with the Regulations for the Degree of MSc in Nanomaterials for Nanoengineering. Such a candidate shall not be permitted to continue as a candidate for the Degree of PhD with Integrated Studies.
8. A candidate who does not pass CHM602, MAT6045 or PHY6009 listed at 3(c) above with a minimum mark of 60at the first attempt shall be ineligible to proceed to the Degree of PhD.

MECT13 POSTGRADUATE CERTIFICATE IN MECHANICAL ENGINEERING

1. A candidate shall take

MEC6601	F7	Research Project	60
---------	----	------------------	----

MECT30 ADVANCED MECHANICAL ENGINEERING (MSc(Res))
MECT35 (PGCert) (Full-Time)

1. A candidate shall take
 - (a) units to the value of *thirty-five* credits from the following

GSC6000	F7	Web Skills for Researchers	15
MEC6008	F7	Graphical Programming with LabView	10
MEC6009	F7	Finite Element Analysis with Ansys	10

(b) units to the value of <i>eighty</i> credits from the following			
MEC6316	F7	Renewable Energy	10
MEC6345	F7	Aero Propulsion	10

MEC6403	F7	Reciprocating Engines	10
MEC6404	F7	Computational Fluid Dynamics	10
MEC6405	F7	Experimental Stress Analysis	10
MEC6406	F7	Engineering Composite Materials	10
MEC6407	F7	Fundamental Biomechanics	10
MEC6409	F7	Signal Processing and Instrumentation	10
MEC6410	F7	Structural Vibration: Analysis and Practice	10
MEC6411	F7	Tribology of Machine Elements	10
MEC6412	F7	Control of Structural Vibrations	10
MEC6413	F7	Advanced Aircraft Structures	10
MEC6415	F7	Condition Monitoring	10
MEC6416	F7	Computer Modelling and Validation	10
MEC6421	F7	Sports Engineering	10
MEC6422	F7	Nuclear Thermal Hydraulics and Heat Transfer	10
MEC6424	F7	Aerodynamic Design	10
MEC6426	F7	Advanced Composite Structures	10
MEC6427	F7	Theory and Application of Turbulence	10
MEC6429	F7	Mechanical Engineering in Railways	10
MEC6430	F7	Solid Biomechanics	10
MEC6440	F7	Advanced Finite Element Modelling	10
MEC6441	F7	Advanced Solid Mechanics	10
MEC6442	F7	Automotive Dynamics	10
MEC6443	F7	Further Structural Analysis	10
(c) MEC6000	F7	Individual Research Project	60

2. A candidate who has been awarded *one hundred and twenty* credits in respect of units listed at 1(a) and (b) shall be eligible for the award of the Postgraduate Diploma in Advanced Mechanical Engineering.

3. A candidate who has been awarded *sixty* credits in respect of units listed at 1(a) and (b) shall be eligible for the award of the Postgraduate Certificate in Advanced Mechanical Engineering.

4. In the event of failure in MEC6000 (Individual Research project) at the first attempt, any resubmission is subject to the approval of the Board of Examiners.

**MECR06 INDUSTRIAL DOCTORATE IN
MACHINING SCIENCE (Full-Time)**

(EngD)

MEC* DIPLOMA IN MACHINING
SCIENCE (PG Dip) (Part-Time)**

1. In Year One a candidate shall take

(a)	GSC6000	F7	Information Management	15
	GSC6300	F7	Personal and Professional Skills Development 1	5
	GSC6310	F7	Personal and Professional Skills Development 2	10
(b)	units to the value of <i>ten</i> credits from the following			
	MEC6314	F7	Innovation Management	10
	MEC6414	F7	Technology Strategy and Business Planning	10
(c)	units to the value of <i>thirty</i> credits from the following			
	ACS329	F7	Robotics	10
	MAT472	F7	Advanced Materials and Manufacturing	10
	MAT474	F7	High Temperature Materials for Aerospace	10
	MEC6009	F7	Finite Element Analysis with ANSYS	10
	MEC6406	F7	Engineering Composite Materials	10
	MEC6409	F7	Signal Processing and Instrumentation	10
	MEC6411	F7	Tribology of Machine Elements	10
	MEC6412	F7	Control of Structural Vibrations	10
	MEC6415	F7	Condition Monitoring	10
	MEC6416	F7	Computer Modelling and Validation	10
	MEC6426	F7	Advanced Composite Structures	10
(d)	MEC6901	F7	Mini-Project 1	30
	MEC6902	F7	Mini-Project 2	30
	MEC6903	F7	Mini-Project 3	30

Other modules may be substituted for those listed in 1(c) at the discretion of the Academic Director of the IDC.
2. In order to proceed to Year Two a candidate must pass *one hundred and sixty* credits in respect of units listed at 1(a), (b), (c), and (d) above.
3. A candidate who has been awarded *seventy* credits in respect of 1(a), (b), and (c) above and does not proceed to Year Two, may instead become a candidate for the award of Postgraduate Diploma in Machining Science (**** PG Dip) and in addition to 1(a), (b) and (c) above shall take:

*****	F7	Research Project	50
-------	----	------------------	----
4. In Years Two to Four a candidate shall pursue a programme of research in accordance with the General Regulations for Higher Degrees and shall present a thesis in accordance with those Regulations.
5. In Years Two to Four a candidate shall take

GSC620	F7	Sheffield University GRAD School	5
GSC630	F7	Postgraduate Café Forum	5
6. A candidate shall successfully complete the Industrial Doctorate Centre's upgrading procedures before progressing to the third year of study.

Regulations for First Degrees for the Board of Extra-Faculty Provision

Regulations are presented in programme code order. An alphabetical index of programme titles is as follows:

ACEU101	Archaeology	(Cert)
ACEU1001	Certificate in Combined Studies	(CertHE)
ACEU100	Certificate in Higher Education	(CertHE)

FACULTY OF MEDICINE, DENTISTRY AND HEALTH

NOTE:

CARE OF PATIENTS, PROFESSIONAL BEHAVIOURS AND FITNESS TO PRACTISE

(i) A student will not be permitted to take part in the care of patients, except under the supervision of a registered medical practitioner, or, in the case of dental patients, of a registered dental practitioner, or, in the case of nursing and midwifery students, of a named person who holds effective first level registration on the Professional Register or other professional and academic qualifications and experience commensurate with the context of care delivery.

(ii) Attendance at the MB,ChB programme of study is on the basis of academic semesters up to the phase two Examination, or, in the case of the BDS programme of study, the first Examination. Thereafter, attendance for clinical studies is required throughout the year, except for approved short periods. Where attendance is inadequate a candidate will be reported under the Regulations relating to the Progress of Students.

(iii) The Degrees of MB, ChB, BDS and all programmes of study leading to registration with the Nursing and Midwifery Council are recognised for the purposes of the Medical Act 1983, the Dentists Act 1984 and the Nurses and Midwives Rules Approval Order 1983 SI No 873 as a qualification for professional practice. The responsibilities of medical, dental, nursing and midwifery, and other practitioners to their patients are such that the University must at all times have regard to a student’s fitness to practise in the relevant profession. Where doubts arise as to such fitness to practise, they will be dealt with under the Regulations relating to the health of students, with Discipline or with the Progress of Students, or with Fitness to Practise.

School of Medicine

REGISTRATION WITH THE GENERAL MEDICAL COUNCIL

Subject to Review

In order to be eligible for full registration with the General Medical Council, a student who obtains a medical qualification must be employed as a Foundation Year 1 trainee in approved hospital posts for a period of one year. During this year the trainee must give satisfactory service for at least four months in a post in Medicine and at least four months in a post in Surgery. While employed in these posts the trainee will have provisional registration to enable hospital duties to be carried out.

Candidates in the Faculty of Medicine, Dentistry & Health who qualify for the award of the Degrees of MB,ChB and have spent more than one semester on approved schemes of study abroad shall not, unless the Senate directs otherwise, be included in the lists of candidates holding a primary UK qualification submitted by the

University to the General Medical Council for the purposes of section 4(3) of the Medical Act 1983.

A holder of the Degrees of MB,ChB who seeks full registration with the General Medical Council and who satisfies the requirements of the Medical Act 1983 as to experience may apply to the Postgraduate Dean for a certificate under Section 10 of that Act. In any case in which the Postgraduate Dean declines to issue a certificate the graduate may apply to the Appeals Committee of Senate. For this purpose that Committee shall consist of three persons appointed by the Vice-Chancellor none of who shall have had previous dealings with the case: a chairman, who shall be legally qualified, and two persons possessing appropriate clinical experience, one of whom may be a member of the clinical academic staff of another university.

These notes should be read in conjunction with the Faculty of Medicine, Dentistry & Health note concerning “Care of patients, professional behaviours and fitness to practise”, as set out in the University Calendar

MEDU01 MEDICINE AND SURGERY (MB,ChB) (JACS A100)(JACS A104)

This programme of study is non-modular

Foundation Year (undertaken at Sheffield College)

- The Foundation Year shall be pursued for one year full-time.
 - A candidate shall take

MED001	Chemistry A	20
MED002	Chemistry B	20
MED003	Foundation Biology A	15
MED004	Foundation Biology B	15
MED005	Medical Biology A	15
MED006	Medical Biology B	15
MED007	Foundation Physics	10
MED008	Medical Physics	10
 - A candidate must pass in every unit taken in the Foundation Year in order to proceed to Phase 1. A candidate who fails at the first attempt in any unit may re-sit the examination at the August resit examination.
 - A candidate who fails any unit of the Foundation Year on a second occasion will only be granted a repeat year in exceptional circumstances and with the permission of the Faculty.
 - Candidates who have passed General Certificate of Education Advanced Level Examinations in two or more science subjects (including Chemistry) at an appropriate level determined on admission will be exempt from the Foundation Year examinations. A candidate must have passed or been exempted from the Foundation Year modules before entering Phase 1.
- Phases 1, 2, 3a, 3b and 4**
- Phases 1, 2, 3a, 3b and 4 shall be pursued for five years full-time.
 - Following completion or exemption from the Foundation Year there shall be six Examinations for the Degrees of MB,ChB: Phase 1a, Phase 1b, Phase 2, Phase 3a, Phase 3b and Phase 4 MB,ChB Examinations. Each Examination shall be held twice a year. A candidate may not enter for the second (re-sit) Examination unless the candidate has failed the first or has received special permission from the Faculty to do so.
 - A mark of distinction in any part of the Examination may be awarded by the Faculty to a candidate who in the opinion of the Examiners has produced exceptionally distinguished work.
 - A candidate who fails an Examination or part of an Examination may repeat the Examination on one or, with the permission of the Faculty, more occasions. A candidate who fails to achieve a pass mark on three or more occasions throughout the programme of study shall be referred under the General Regulations relating to the Progress of Students. A candidate who passes an Examination at the second or later attempt shall be awarded no more than the minimum pass grade.

- Subject to any special provision in these Regulations a candidate may not proceed to the next Phase of the programme of study until the Examination for the preceding Phase has been passed.
- A candidate is required to pursue throughout the programme of study programmes in Student Selected Components and Personal and Professional Development including a longitudinal assessment of Professional Behaviours. A candidate whose behaviour gives rise to concern may become the subject of proceedings under the General Regulations relating to Student Fitness to Practise.

4. The final classification shall take into account only the performance of the candidate at Level 3.

MEDU19 MEDICINE (BMedSci)

This programme of study is non-modular

- A person who has passed the Phase 1b Examination for the Degrees of MB,ChB at a standard acceptable to the Faculty may read for the Degree of BMedSci in Medicine. Persons from other institutions may be permitted by the Faculty to read for the Degree of BMedSci in Medicine in accordance with the General Regulations for First Degrees. The programme of study may also be intercalated between any of the subsequent phases of the programme of study for the Degrees of MB,ChB or undertaken after graduation.
- The programme of full-time study shall be pursued for forty-eight weeks.
- A candidate shall take
 - Introduction to Research Ethics and Governance
 - Applications of Statistics in Medical and Health Sciences and
 - follow a prescribed programme of study comprising project work and taught components.
- The Final Examination, including examination of project work, shall be held at the end of the period of study.
- A candidate may enter the Examination on one occasion only.

OPHU01 ORTHOPTICS (BMedSci (Orthoptics)) (JACS B510)

This programme of study is non-modular

- There shall be three examinations for the Degree: the First Examination, the Second Examination and the Final Examination. A candidate must pass the First Examination before proceeding to the second year and pass the Second Examination before proceeding to the third year.
- A candidate who fails any subject on the first occasion may resit the examination. The candidate shall only be required to resit the subject or subjects previously failed. In exceptional circumstances, a candidate may be required by the Faculty to repeat a year of the programme, including all classes and examinations normally taken in that year. Any candidate passing an examination in any subject at the second or later attempt shall be awarded no more than the minimum pass mark. A candidate who fails to achieve a pass mark on five or more occasions shall be referred under the General Regulations relating to the Progress of Students.

The First Examination

- The subjects of the First Examination shall be

BMS131	F4	Anatomy and Physiology
BMS132	F4	Ocular Anatomy, Physiology and Neuroscience
ORT101	F4	Clinical Orthoptics
ORT104	F4	Optics
ORT105	F4	Interpersonal Communication Skills
ORT106	F4	Strabismus
PSY101	F4	Discovering Psychology

The Second Examination

- The subjects of the Second Examination shall be

ORT208	F5	Visual Perception
ORT209	F5	Associated Professional Studies

ORT210	F5	Clinical Orthoptics
ORT211	F5	Electrodiagnosis
ORT212	F5	Strabismus and Ocular Motility
ORT213	F5	Visual Optics
ORT214	F5	Clinical Visual Optics
ORT215	F5	Introductory Pathology
ORT216	F5	Medical Microbiology

The Final Examination

- The subjects of the Final Examination shall be

ORT303	F6	Ophthalmology
ORT304	F6	Paediatric Neurology
ORT305	F6	Pathology
ORT306	F6	Clinical Orthoptics
ORT307	F6	Dissertation
ORT308	F6	Strabismus and Ocular Motility
- The final classification of a candidate shall be determined by consideration of the candidate's performance in the Second and Final Examinations.
- A candidate who has failed to pass any part of the Final Examination at the first attempt shall still be eligible for Honours, provided that a pass is achieved at the second or later attempt.
- A candidate shall not be deemed to have passed the Final Examination unless a satisfactory standard has been achieved in the Clinical section of the programme of study.
- A candidate who does not achieve honours will not be eligible to apply for registration with the Health Professions Council.
- Any candidate awarded an aegrotat degree will not be eligible to apply for registration with the Health Professions Council.

School of Clinical Dentistry

DENU01 DENTAL SURGERY (BDS)

For candidates whose registration was prior to the Session 2008-2009

This programme of study is non-modular

- The programme of study shall be pursued for five years full-time and shall be subject to a time limit of seven years.
- There shall be five Examinations: the First Examination, the Second Examination, the Third Examination, the Fourth Examination and the Final Examination.
- The holder of a registrable medical qualification or a science degree may, on the recommendation of the Board of Dental Studies, be exempted by the Faculty from certain examinations and associated courses.
- Each Examination shall be held twice in each year and a candidate must pass or be exempted from each Examination before proceeding to the next Examination or part of the Examination.
- A candidate may not enter for a second (re-sit) Examination unless the candidate has failed in the first or has received special permission from the Board of Dental Studies to do so.
- In the absence of special circumstances, a candidate shall be permitted a maximum of two attempts at these Examinations. Permission for additional attempts would normally require the approval of the Faculty Student Review Committee.
- In accordance with the requirements laid down by the General Dental Council in its document "The First Five Years" the normal maximum time permitted for completion of the course from entry until graduation should not exceed seven years, excluding intercalation, PhD or other research programme.

The First Examination

- The subjects of the First Examination shall be

BMS121	F4	Anatomy
--------	----	---------

BMS122	F4	Oral Anatomy
BMS123	F4	Physiology
MBB121	F4	Biochemistry

- A candidate who fails in one or more subjects at the first attempt will be re-examined in the subject, or subjects, failed.
- In the absence of special circumstances, a candidate shall be permitted a maximum of *two* attempts at this Examination. A candidate who is allowed a third attempt must offer all subjects.

The Second Examination

- The subjects of the Second Examination shall be

DEN201	Preliminary Dental Subjects I (Theoretical and Clinical)
DEN202	Preliminary Dental Subjects II (Practical)
- Before sitting the Second Examination, a candidate must have attended and satisfied requirements for the following courses
Integrated Caries and Periodontal Diseases
Introduction to Dental Materials
Dental Technology, Clinical Skills and Clinical Prosthetics
Junior Restorative Course
Oral Surgery Introductory Course
Child Dental Care Course I, II and III
Behavioural Sciences in Dentistry
Growth, Development, Ageing and Nutrition
Orthodontic Technology
Evidence Based Dentistry
- Before starting clinical restorative work a candidate must attend courses in Introduction to Dental Materials, lectures and practical instruction in related dental techniques and must acquire a practical familiarity with the details of Prosthetic Techniques and Practical Conservation Procedures on the Phantom Head. At the end of the Junior Restorative course a class examination shall be held, which must be passed before a candidate may proceed to operative work on patients. A candidate who fails this class examination will be required to repeat the examination after a revision course. A candidate who fails the class examination will not be permitted to sit the Second Examination.
- A candidate who fails at the second attempt may be permitted by the Board of Dental Studies to attempt the examination for a third time in the presence of an external examiner.
- A candidate who fails may be permitted by the Faculty Student Review Committee to attempt the examination on a further occasion. If approved a candidate would be required to repeat the whole of the 2nd year of studies.
- A candidate who fails on the second attempt may be permitted to become instead a candidate for the Degree of BMedSci in Dental Science (DENU21) or the Degree of BSc in Dental Science (DENU22). A candidate who transfers to DENU21 or DENU22 shall not be readmitted to the BDS programme at a later date.

The Third Examination

- The subjects of the Third Examination shall be
DEN300 Pathological Sciences
- Before entering for the Third Examination a candidate must have attended and satisfied requirements for the Pathological Sciences Course.

The Fourth Examination

- The subjects of the Fourth Examination shall be
DEN402 Human Diseases Clinical Sciences
DEN403 Human Diseases Clinical Competence
- A candidate who fails in one or more subjects at the first attempt will be re-examined in the subject, or subjects, failed.
- In the absence of special circumstances, a candidate shall be permitted a maximum of two attempts at this Examination. A candidate who is allowed a third attempt must offer all subjects.

- Before entering for the Fourth Examination a candidate must have attended and satisfied requirements for the Human Diseases Course.

The Final Examination

- Unless granted exemption by the Board of Dental Studies, a candidate must have completed at least five sessions of study before entering the Final Examination.
- The subjects of the Final Examination shall be
DEN501 F6 Dental Subjects (Theoretical)
DEN502 F6 Dental Subjects (Clinical and Practical)
- Before sitting the Final Examination a candidate must have attended and satisfied requirements for the following courses:
Anaesthesia and Sedation
Behavioural Sciences
Child Dental Care
Outreach Placement in Primary Care Settings
Dental and Oral Surgery (including Dental Therapeutics, Dental Radiography and Dental Radiology)
Dental Implants
Health Informatics
Dental Materials
Dental Neuroscience
Dental Public Health
General Dental Practice
Growth, Development, Ageing and Nutrition
Occlusion and its Dysfunction
Oral Medicine
Oral Pathology
Practice and Responsibility
Preventive Dentistry
Restorative Dentistry
Resuscitation and First Aid
- A candidate shall submit for assessment an outreach report and a report based on a period of time on elective work or study approved by the Dean of School. The reports must follow the format guidelines provided for each course.
- As part of the programme of study, a candidate may, with the permission of the Board of Dental Studies, spend a period not exceeding four months in approved study at an institution of higher education outside the United Kingdom, under the terms of an arrangement with the institution approved by the Board of Dental Studies.
- A candidate who has failed in the Final Examination at the first attempt shall be required before entering for re-examination to undertake a further period of study approved by the Board of Dental Studies.
- The Degree shall be conferred either as a Pass Degree or as a Degree with Honours.
- Honours shall be awarded on the combined results of the First, Third, Fourth, and Final Examinations.
- A distinction in any subject, except those of the Second Examination, may be awarded on the recommendation of the Examiners concerned.
- A candidate reading for the Diploma of an external body must complete the whole curriculum prescribed in these Regulations and shall remain subject to the General Regulations as to Progress of Students.
- A candidate who has passed the Third Examination may be awarded the Degree of BSc in Dental Studies without further study. Such a candidate shall not be awarded honours and will not be readmitted to the BDS programme at a later date. The award will not be a registrable qualification.

DENU03 DENTAL HYGIENE AND DENTAL THERAPY (Diploma)

This programme of study is non-modular

- The programme of study shall be pursued for twenty-seven months full-time.

- A candidate must pass or be exempted from the First Examination and the Final Examination. A candidate must pass or be exempted from the First Examination before proceeding to the Final Examination. Each Examination shall be held twice in each year. A candidate may not enter for a second (re-sit) Examination unless the candidate has failed in that Examination or has received special permission from the Faculty to do so.

The First Examination

- The subjects of the First Examination shall be DEN101 Basic Human and Oral Sciences.
- Before sitting the First Examination a candidate must have attended and satisfied requirements on the following courses:
Introductory course;
Medical Emergencies;
Anatomy and Physiology;
Tooth Morphology;
Diet and Nutrition;
Tooth Deposits and Stains;
Health Informatics;
Introduction to General Pathology;
Oral Health Promotion;
Introduction to Clinics;
General Dentistry Part I;
Local Anaesthetics and Pharmacology;
Integrated Course Part I;

Practical Procedures on Hygiene Operative Technique Course and Basic Clinical Skills Course.
- Before starting clinical operative work a candidate must attend a course and pass a class examination in Hygiene Operative Technique. A candidate who fails will be required to repeat the examination after a revision course. Except with the permission of the Faculty Student Review Committee a candidate must pass this class examination in no more than two attempts in order to proceed.
- A candidate who fails to pass every part of the First Examinations will be required to resit the relevant parts. In the absence of special circumstances if a candidate was to fail a second time the examination board would recommend that the candidate withdraw from the course. A further chance to resit the examinations for a third attempt would need to be approved by the Faculty Student Review Committee.

The Final Examination

- The subjects of the Final Examination shall be DEN102 Dental Hygiene and Dental Therapy Subjects
- Before sitting the Final Examination a candidate must have attended and satisfied requirements on the following courses
Paediatric Dentistry;
Dental Radiographic Science;
Integrated Courses Part II;
Practice and Responsibility;
Pain and Anxiety Control;
General Dentistry Part II;
Outreach Programme;
Preparation for Employment..

In addition a candidate shall complete a supervised project on Oral Health Promotion.
- Before completion of the programme a candidate must attend a course and pass a class examination in Dental Radiographic Science. A candidate who fails will be required to repeat the examination after a revision course. Except with the permission of the Faculty Student Review Committee a candidate must pass this class examination after no more than two attempts before proceeding.

- A candidate who fails to reach an expected level of clinical competencies including satisfactory levels of professionalism and behaviour will be referred to the Dental School Progress Committee. A candidate who does not attain these competencies at the second attempt by an agreed date will not be permitted to sit the Final Examination and will be deemed to have failed that examination.
- A candidate who fails to pass every part of the Final Examination will be required to resit the relevant parts. A candidate may repeat the examination on one or, with the permission of the Faculty, more occasions. A candidate who is allowed a third attempt must offer all subjects.
- A candidate who has been referred in the Final Examination shall be required before entering for re-examination to undertake a further period of study as recommended by the Dental School Progress Committee and approved by the Faculty.
- Successful completion of the Final Examination shall satisfy the requirements for the Diploma in Dental Hygiene and Dental Therapy and shall entitle the holder to apply for registration as a Dental Hygienist and Dental Therapist with the General Dental Council.
- On the recommendation of the Examiners the Diploma in Dental Hygiene and Dental Therapy may be awarded with Distinction.
- The holder of a relevant related qualification may on the recommendation of the Dental School Progress Committee be exempted by the Faculty from certain examinations and certain courses.

DENU07 DENTAL SURGERY (BDS)

For candidates whose initial registration was for the Session 2008-2009 or later

This programme of study is non-modular

- The programme of study shall be pursued for five years full-time and shall be subject to a time limit of seven years. This is in agreement with the guidelines laid down by the General Dental Council.
- There shall be five Examinations: Part A (1st year), Part B (2nd year), Part C (3rd year), Part D (3rd year) and Part E (5th year). A candidate must pass or be exempted from each Examination before proceeding to the next Examination or part of the Examination. Each Examination shall be held twice in each year. A candidate may not enter for a second (re-sit) examination unless the candidate has failed in the first or has received special permission from the Dental School Progress Committee to do so.
- In the absence of special circumstances, a candidate shall be permitted a maximum of two attempts at these Examinations. Permission for further attempts would require the approval of the Dental School Progress Committee and would normally involve repeating a year of the course.
- A candidate who cannot sit any examination or part of an examination because of special circumstances may be classed as not assessed for that examination or part thereof.
- A candidate who has passed Part A and Part B Examinations may be considered for an extra year of intercalated study on the BMedSci (DENU21) course before returning to the BDS programme.

The Part A Examination (1st Year)

- The subjects for the Part A Examination shall be
DEN103 F4 The Human Body
DEN104 F4 The Oral Cavity in Health and Disease
- A candidate who fails in one or more subjects at the first attempt will be re-examined in the subject, or subjects failed.

8. A candidate shall be permitted two attempts at this Examination. In the absence of special circumstances, a candidate who fails the second attempt will only be permitted to repeat the year once and all subjects must be offered.

The Part B Examination (2nd Year)

9. The subjects for the Part B Examination shall be
DEN203 F5 Growth, Development, Ageing and Nutrition
DEN204 F5 Basic Oral and Dental Care
10. Before sitting the DEN203 Examination, a candidate must have attended and satisfied the requirements for the Theme in Growth, Development, Ageing and Nutrition.
11. Before sitting the DEN204 Examination, a candidate must have attended and satisfied the requirements for the Theme in Basic Oral and Dental Care including satisfactory completion of both the Basic Clinical Skills and the Pulpal Disease courses.
- A candidate will not be permitted to carry out operative work on patients until they have passed all parts of the Basic Clinical Skills and the Pulpal Disease courses.
- If a candidate fails the first attempt at the Basic Clinical Skills and the Pulpal Disease courses, a resit examination will be held later in the same year in the presence of an External Examiner.
- If a candidate fails the second attempt they will not be permitted to proceed further on the BDS programme, and will be reviewed by the Dental School Progress Committee. A candidate may be required to take leave of absence and return the following year to repeat the whole of the second year of study. Alternatively a candidate may be given the opportunity to transfer to the BSc (DENU22) course after successful completion of the theoretical component of DEN203 and DEN204. A candidate who transfers to DENU22 will not be readmitted to the BDS programme at a later date.
12. A candidate who fails in DEN203 or DEN204 at the first attempt will be re-examined in the subject, or subjects failed.
13. A candidate shall be permitted two attempts at this Examination. In the absence of special circumstances, a candidate who fails the second attempt will only be permitted to repeat the year once and all subjects must be offered.

The Part C Examination (3rd Year)

14. The subjects for the Part C Examination shall be
DEN303 F6 Integrated Human Disease Part C1
DEN304 F6 Integrated Human Disease Part C2
15. Before sitting the Part C Examinations, a candidate must have attended and satisfied the requirements for the Theme in Integrated Human Disease.
16. A candidate who fails in DEN303 or DEN304 at the first attempt will be re-examined in the subject, or subjects failed.
17. A candidate shall be permitted two attempts at this Examination. In the absence of special circumstances, a candidate who fails the second attempt will only be permitted to repeat the year once and all subjects must be offered.
18. A candidate who fails on the second attempt may be permitted to become instead a candidate for the Degree of BSc in Dental Science (DENU22). A candidate who transfers to DENU22 shall not be readmitted to the BDS programme at a later date.

The Part D Examination (3rd Year)

19. The subjects for the Part D Examination shall be
DEN305 F6 Intermediate Oral and Dental Care, Part D1
DEN306 F6 Intermediate Oral and Dental Care, Part D2
20. Before sitting the DEN305 and DEN306 Examinations, a candidate must have attended and satisfied the requirements for the Theme in Intermediate Oral and Dental Care, including:
Passing a clinical procedure examination on a patient;

Attainment of appropriate clinical competencies including satisfactory levels of professionalism and behaviour. A candidate who has failed to reach the expected level of competencies by an agreed date will be reviewed by the Dental School Progress Committee. Candidates will be given a second attempt to reach the competencies by an agreed date. A candidate who does not attain the competencies by the second agreed date will not be permitted to sit the first attempt of the Part D Examinations.

A candidate who does not attain the competencies or who does not satisfy the requirements for the course and who is not permitted to sit the Part D examinations will be deemed to have failed that examination.

21. A candidate who has passed the Part D Examination may be awarded the Degree of BSc in Dental Studies without further study. Such a candidate shall not be awarded honours and will not be readmitted to the BDS programme at a later date. The award will not be a registrable qualification.
22. A candidate who has failed or was not assessed in the DEN305 or DEN306 at the first attempt will be re-examined in the subject, or subjects failed.
23. A candidate shall be permitted two attempts at this Examination. In the absence of special circumstances, a candidate who fails the second attempt will only be permitted to repeat the year once and all subjects must be offered.
24. A candidate who fails the second attempt may be permitted instead to become a candidate for the Degree of BSc (DENU22). A candidate who transfers to DENU22 will not be readmitted to the BDS programme at a later date.
25. Before commencing the 4th Year Theme in Outreach and Electives a candidate must have attended and satisfied the requirements of both Intermediate Restorative Skills and Advanced Pulpal Disease.

A candidate will not be permitted to carry out advanced operative work on patients relevant to the Intermediate Restorative Skills and Advanced Pulpal Disease until they have passed all parts of the relevant practical examinations.

If a candidate fails the first attempt at the above examinations, a resit examination will be held later in the same year in the presence of an external examiner.

If a candidate fails the second attempt they will not be permitted to proceed further on the BDS programme, and will be reviewed by the Dental School Progress Committee. A candidate may be required to repeat the year offering all subjects. Alternatively a candidate may be given the opportunity to transfer to the BSc (DENU22). A candidate who transfers to DENU22 will not be readmitted to the BDS programme at a later date.

26. Before commencing the 4th year Theme in Outreach and Electives a candidate must have reached the agreed competencies of the Integrated Clinical Practice Theme. A candidate who does not attain these competencies will be reviewed by the Dental School Progress Committee. Such a candidate may be given the opportunity to complete these competencies in the presence of an external examiner. If they are deemed not competent they will not be permitted to proceed further on the BDS programme, and will be reviewed by the Dental School Progress Committee. A candidate may be required to repeat the year.

The Part E Examination (Final Year)

27. The subjects for the Part E Examination shall be
DEN503 F6 Dental Surgery Part E1
DEN504 F6 Dental Surgery Part E2
Before sitting the DEN503 and DEN504 Examinations, a candidate must have attended and satisfied the requirements for the Themes in Oral Disease, Outreach and Electives and Integrated Clinical Practice, including
- (a) Attendance and satisfactory completion of Outreach Placements and of the assessment relating to this course;
- (b) Satisfactory attendance and completion of the Radiology (IRMER) course:

- (c) Submission of a report for assessment based on a period of time on elective work or study approved by the School. The report must follow the format guidelines for this course;
- (d) Attainment of appropriate clinical competencies including satisfactory levels of professionalism and behaviour. A candidate who has failed to reach the expected level of competencies by an agreed date will be reviewed by the Dental School Progress Committee. Candidates will be given a second attempt to reach the competencies by an agreed date. A candidate who does not attain the competencies by the second attempt will not be permitted to sit the Part E Examinations. A candidate who does not attain competencies or who does not satisfy the requirements for the course and who is not permitted to sit the Part E examinations will be deemed to have failed that examination.
28. A candidate who has failed or was not assessed in the Part E Examinations (Final Examinations) at the first attempt shall be required before entering for re-examination to undertake a further period of study approved by the Dental School Progress Committee.
29. The Degree shall be conferred either as a Pass Degree or as a Degree with Honours. Honours shall be awarded on the combined results of the Part A, B, C, D and E Examinations. A distinction in any subject may be awarded on the recommendation of the Examiners concerned.
30. The holder of a registrable medical qualification or a science degree may, on the recommendation of the Dental School Progress Committee, be exempted by the Faculty from certain examinations and associated courses.

DENU21 DENTAL SCIENCE (BMedSci)

For candidates who transfer from DENU01 or DENU07 only

This programme of study is non-modular

1. A person who has passed the First and Second Examination for DENU01 or Part A and Part B Examination for DENU07 for the Degree of BDS at a standard acceptable to the Faculty may read for the Degree of BMedSci in Dental Science. The programme of study shall normally be intercalated between the subjects of the second and third Examinations for DENU01 and Part B and Part C for DENU07.
2. The programme of study shall be pursued full-time for forty-eight weeks.
3. A candidate shall take Introduction to Research Ethics and Governance Applications of Statistics in Medical and Health Sciences
4. A candidate shall follow a prescribed programme of study comprising project work and taught components.
5. The Final Examination, including examination of project work, shall be held at the end of the period of study.
6. A candidate may enter the Examination on one occasion only.

DENU22 DENTAL SCIENCE (BSc)

For candidates who transfer from DENU07 only

This programme of study is non-modular

1. A candidate who has passed the Part A and Part B Examinations for the Degree of BDS at the standard acceptable to the Dental School Progress Committee may read for the Degree of BSc in Dental Science. A candidate transferring to the DENU22 programme will not be permitted to return to the DENU07 programme at any time.
2. The programme of study shall be pursued full-time for forty-eight weeks.
3. A candidate shall take Introduction to Research Ethics and Governance Applications of Statistics in Medical and Health Sciences

4. A candidate shall follow a prescribed programme of study comprising project work and taught components.
5. The Final Examination, including examination of project work, shall be held at the end of the period of study.
6. A candidate may enter for the Examination on one occasion only.

School of Nursing and Midwifery

REGISTRATION WITH THE NURSING AND MIDWIFERY COUNCIL PROFESSIONAL REGISTER

Nursing and Midwifery candidates, upon completion of all pre-registration programmes, when applying for entry onto the Nursing and Midwifery Council Professional Register, are required to provide a self-declaration of good health and good character in accordance with the Nursing and Midwifery Order 2001.

Any candidate who seeks registration with the Nursing and Midwifery Council (NMC) must have the Declaration of Good Health and Good Character endorsed by the signature of a designated individual who is on the appropriate part of the NMC professional register, normally the programme leader, with the ultimate decision residing with the Dean of the School. In any case in which the Dean of the School declines to sign the Declaration the candidate may apply to the Appeals Committee of Senate for a review of the decision.

These notes should be read in conjunction with the Faculty of Medicine, Dentistry and Health note concerning “Care of patients, professional behaviours and fitness to practise”, as set out in the University Calendar

School of Medicine

Regulations for the Degree of Doctor of Medicine (MD)

1. A person may be admitted as candidate who is:
 - (a) the holder of the Degrees of MB,ChB of the University of at least three years' standing; *or*
 - (b) a recognised graduate in Medicine who holds a qualification conferring eligibility for full or provisional registration with the General Medical Council, and who at the time of registration holds an appointment as a full-time or part-time member of the established or honorary staff of the University; *or*
 - (c) a recognised graduate in Medicine of at least three years' standing who holds:
 - (i) a qualification conferring eligibility for full or provisional registration with the General Medical Council, and
 - (ii) a Higher Degree from this or another University.
2. The subject of the proposed thesis, together with an outline not exceeding five hundred words of the research work on which it will be based, shall be submitted to the Faculty prior to admission as a candidate. Such approval will require evidence that complexity, depth of study and learner autonomy have received consideration, and that completion of a substantial piece of research, or an advanced professional project is envisaged, in such a way as to make a significant or original contribution to a clinical or biomedical field of inquiry or practice. The research work may be carried out at the University or another institution approved by the Faculty.
3. The programme of research shall be pursued for not less than the periods specified in Regulation 5 of the Regulations for the Degree of PhD.
4. The time-limit for the presentation of the thesis shall be as specified in Regulation 7 of the Regulations for the Degree of PhD.

5. For candidates who commenced the programme of study and research before 1 August 2012

The Senate may permit a candidate for a Master's Degree by research in any Faculty to become instead a candidate for the Degree of MD and may recognise as part of the period of research for the Degree of MD some or all of the time spent as a candidate for the Master's Degree.

For candidates commencing the programme of study and research on or after 1 August 2012

A candidate's registration for the Degree of MD will be considered probationary until such time as the candidate successfully passes the departmental Confirmation Review. A candidate may be permitted a maximum of two attempts to pass the Confirmation Review. A candidate who fails the Confirmation Review will be required to transfer to candidacy for the Degree of MPhil).

6. For candidates commencing the programme of study and research before September 2010

A full-time student candidate may not be awarded the Degree of MD unless the candidate has been awarded a total of *thirty* credits, or thirty less exemptions, in respect of units prescribed in the Regulations for the Research Training Programme. A person may not be admitted as a full-time student candidate (or be permitted to transfer to that status from candidacy for a Master's Degree) unless (a) the candidate has taken units from those prescribed in the Regulations for the Research Training Programme and has been awarded at least *ten* credits in respect of such units or *ten* less exemptions; or (b) in exceptional circumstances, the candidate who has not yet satisfied that requirement is admitted (or permitted to transfer) subject to such condition as to satisfaction of that requirement by a specified date as the Senate may impose. A candidate may be exempted by the Senate from the whole or part of the requirements of this Regulation on account of credits awarded in another institution or of the candidate's previous study and/or experience, or in other exceptional circumstances.

For candidates commencing the programme of study and research in or after September 2010

A candidate will be required to engage with the Doctoral Development Programme as prescribed in the Regulations for the Doctoral Development Programme. Such a candidate may not be permitted to transfer to the status of a candidate for the Degree of MD from candidacy for a Master's degree (in the case of a candidate commencing the programme of study and research before 1 August 2012), or to pass the Confirmation Review (in the case of a candidate commencing the programme of study and research on or after 1 August 2012), unless the candidate has presented a portfolio demonstrating that they have undertaken an agreed programme of training and skills development and have achieved an appropriate level of competency as agreed by the supervisory team.

GEMT93 MOLECULAR MEDICINE (MSc) **(For initial registration of a candidate of the Degree of PhD with Integrated Studies in Molecular Medicine only)**

1. A candidate shall take the programme of study prescribed in Regulation 1 of the Regulations for the Degree of MSc in Molecular Medicine (MEDT01).
2. A candidate shall (as part of the requirements for the Degree of PhD with Integrated Studies and unless exempted) take the following Research Training Programme units (in the case of a candidate who commenced the programme of study and research before September 2010), or shall engage with the Doctoral Development Programme as prescribed in the Regulations for the Doctoral Development Programme (in the case of a candidate commencing the programme of study and research in or after September 2010).

3. A candidate shall (as part of the requirements for the Degree of PhD with Integrated Studies) complete satisfactorily the following
- (i) ELT Intensive English Language Training (*optional*)
- (ii) *in the first year*
 Y1.1 Induction Meeting
 Y1.2 Managing Research Time
- (iii) *in the second year*
 Y2.1 Speaking Skills for Research Purposes
 Y2.2 Masters Research Projects - Oral Presentations
- (iv) *in the third year*
 Y3.2 Research Poster Presentations
- (v) *in the fourth year*
 Y4.1 Thesis Writing and Viva Preparation
 Y4.2 Graduate Research Conference - Oral Presentations
4. A candidate who has been awarded *one hundred and twenty* credits in respect of units listed at 1(a) and (b) of MEDT01 and who does not complete the requirements for the Degree of MSc shall be eligible for the award of the Postgraduate Diploma in Molecular Medicine.
5. A candidate who has been awarded *sixty* credits in respect of units listed at 1(a) of MEDT01 shall be eligible for the award of the Postgraduate Certificate in Molecular Medicine.

MDET03 MEDICAL EDUCATION (PG Cert) (Part-Time)

1. The programme of study shall normally be pursued part-time for not less than *one* year and not more than *two* years. In special circumstances the Faculty may extend the period of study by one year.
2. A candidate shall take
- (a) MDE401 F7 Curriculum Design, Implementation and Monitoring 15
 MDE402 F7 Assessing the Learner 15
 MDE6020 F7 The Principles of Learning 15
- (b) a unit to the value of *fifteen* credits from the following
 MDE6040 F7 Self Directed Project 15
 MDE6090 F7 Teaching and Learning in a Clinical Setting 15

MEDR22 BIOMEDICINE (MRes) (For initial registration of a candidate for the Degree of PhD in Biomedicine (MEDR23) only)

1. A person may be admitted as a candidate who is a graduate in a recognised biological subject
2. The programme of study shall be pursued full-time for not less than one year.
3. A candidate shall complete satisfactorily the following
 Induction Meeting
 Training Needs Analysis
 Intensive Clinical Experience
4. A candidate shall take
- (a) MED606 F7 Research Placement 1 45

The Senate may permit a candidate for a Master's Degree by research in any Faculty to become instead a candidate for the Degree of DDSc and may recognise as part of the period of research for the Degree of DDSc some or all of the time spent as a candidate for the Master's Degree.

For candidates commencing the programme of study and research on or after 1 August 2012)

A candidate's registration for the Degree of DDSc will be considered probationary until such time as the candidate successfully passes the departmental Confirmation Review. A candidate may be permitted a maximum of two attempts to pass the Confirmation Review. A candidate who fails the Confirmation Review will be required to transfer to candidacy for the Degree of MPhil).

6. **For candidates commencing the programme of study and research before September 2010**

A full-time student candidate may not be awarded the degree of DDSc unless the candidate has been awarded a total of *thirty* credits, or *thirty* less exemptions, in respect of units prescribed in the Regulations for the Research Training Programme. A person may not be admitted as a full-time student candidate (or be permitted to transfer to that status from candidacy for a Master's Degree) unless (a) the candidate has taken units from those prescribed in the Regulations for the Research Training Programme and has been awarded at least *ten* credits in respect of such units or *ten* less exemptions; or (b) in exceptional circumstances, the candidate who has not yet satisfied that requirement is admitted (or permitted to transfer) subject to such condition as to satisfaction of that requirement by a specified date as the Senate may impose. A candidate may be exempted by the Senate from the whole or part of the requirements of this Regulation on account of credits awarded in another institution or of the candidate's previous study and/or experience, or in other exceptional circumstances.

For candidates commencing the programme of study and research in or after September 2010

A candidate will be required to engage with the Doctoral Development Programme as prescribed in the Regulations for the Doctoral Development Programme. Such a candidate may not be permitted to transfer to the status of a candidate for the Degree of MD from candidacy for a Master's degree (in the case of a candidate commencing the programme of study and research before 1 August 2012), or to pass the Confirmation Review (in the case of a candidate commencing the programme of study and research on or after 1 August 2012), unless the candidate has presented a portfolio demonstrating that they have undertaken an agreed programme of training and skills development and have achieved an appropriate level of competency as agreed by the supervisory team.

School of Nursing and Midwifery

REGISTRATION WITH THE NURSING AND MIDWIFERY COUNCIL PROFESSIONAL REGISTER

Nursing and Midwifery candidates, when applying for entry onto the Nursing and Midwifery Council Professional Register, are required to provide a self-declaration of good health and good character in accordance with the Nursing and Midwifery Order 2001.

Any candidate who seeks registration with the Nursing and Midwifery Council (NMC) must have the Declaration of Good Health and Good Character endorsed by the signature of a designated individual who is on the appropriate part of the NMC professional register, normally the programme leader, with the ultimate decision residing with the Dean of the School. In any case in which the Dean of the School declines to sign the Declaration the candidate may apply to the Appeals Committee of Senate for a review of the decision.

These notes should be read in conjunction with the Faculty of Medicine, Dentistry and Health note concerning “Care of patients, professional behaviours and fitness to practise”, as set out in the University Calendar

APSU03 ECOLOGY (BSc) (JACS C180)

Level 1

1. A candidate shall take the programme of study prescribed at Level 1 in the Regulations for the Degree of MBiolSci in Ecology (APSU15).

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree of MBiolSci in Ecology (APSU15).

Level 3

3. A candidate shall take the programme of study prescribed at Level 3 in the Regulations for the Degree of MBiolSci in Ecology (APSU15).

APSU05 PLANT SCIENCES (BSc) (JACS C200)

Level 1

1. A candidate shall take the programme of study prescribed at Level 1 in the Regulations for the Degree of MBiolSci in Plant Sciences (APSU16).

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree of MBiolSci in Plant Sciences (APSU16).

Level 3

3. A candidate shall take the programme of study prescribed at Level 3 in the Regulations for the Degree of MBiolSci in Plant Sciences (APSU16).

APSU06 ZOOLOGY (BSc) (JACS C300)

Level 1

1. A candidate shall take the programme of study prescribed at Level 1 in the Regulations for the Degree of MBiolSci in Zoology (APSU17).

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree of MBiolSci in Zoology (APSU17).

Level 3

3. A candidate shall take the programme of study prescribed at Level 3 in the Regulations for the Degree of MBiolSci in Zoology (APSU17).

APSU13 BIOLOGY (BSc) (JACS C100)

Level 1

1. A candidate shall take the programme of study prescribed at Level 1 in the Regulations for the Degree of MBiolSci in Biology (APSU14).

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree of MBiolSci in Biology (APSU14).

Level 3

3. A candidate shall take the programme of study prescribed at Level 3 in the Regulations for the Degree of MBiolSci in Biology (APSU14).

APSU14 BIOLOGY (MBiolSci) (JACS C109)

Level 1

1. A candidate shall take

(a)	APSI19	F4	Comparative Physiology	10
	APSI21	F4	Evolution	10
	APSI24	F4	Ecosystems and Environmental Change	10
	APSI29	F4	Laboratory Skills in Biology 1	5

4.	Before proceeding to the final year, a candidate shall spend one session in an appropriate country, in attendance as a full time student at a university, the arrangements being subject to the approval of the Head of Department. During this period the candidate shall undertake studies at the host institution and any other work prescribed by the Head of Department, which shall carry the value of <i>one hundred and twenty</i> credits, including <i>twenty</i> credits from the MLTC year abroad units, in respect of which no grade shall be awarded. A candidate who fails to satisfy this requirement may be permitted by the Board to become instead a candidate for the Degree of BSc in Biology (APSU13).			

APSU25 BIOLOGY WITH A YEAR ABROAD (BSc) (JACS C101)

Level 1

1. A candidate shall take the programme of study prescribed at Level 1 in the Regulations for the Degree of MBiolSci in Biology with a Year Abroad (APSU29)

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree of MBiolSci in Biology with a Year Abroad (APSU29)

	APS134	F4	Genes, Cells and Populations	20

- (b) F4 Level APS, MBB or BMS units to the value of *twenty* credits.
 (c) unrestricted units to the value of *twenty* credits

Level 2

2. A candidate shall take
 APS240 F5 Data Analysis (optional) 120
 APS251 F5 Year Abroad

Level 3

3. A candidate shall take
 (a) APS240 F5 Data Analysis 10
 APS330 F6 Project 20
 APS331 F6 Dissertation 20
 (b) units to the value of *twenty* credits from the following
 APS308 F6 Environmental Regulation in Plants 10
 APS313 F6 Global Change 10
 APS325 F6 Life in Extreme Environments 10
 APS326 F6 Biology and Ethics 10
 APS327 F6 History and Philosophy of Science 10

 APS342 F6 Evolutionary Ecology 10
 APS344 F6 Topics in Evolutionary Genetics 10
 APS347 F6 Conflict and Cooperation 20
 APS348 F6 The Ecology of Landscapes 10
 APS349 F6 Conservation Issues and Management 20
 units listed at (b) above
 (d) F6 Level APS, BMS and MBB units to the value of *thirty* credits subject to the approval of the Head of Department.

Level 4

4. A candidate shall take
 APS402 F7 Research Dissertation 20
 APS404 F7 Advanced Trends in Biology 10
 APS405 F7 Advanced Biological Analysis 10
 APS406 F7 Research Project 70
 APS407 F7 Research and Study Skills in Biology 10
 5. A candidate must achieve a weighted mean grade of not less than 59.5 at Level 2 in order to proceed to Level 3. The Examiners may in their discretion recommend that a candidate who obtains a weighted mean grade of not lower than 54.5 be permitted to proceed to Level 3.
 6. A candidate must achieve a weighted mean grade of not less than 64.5 in the Autumn Semester of Level 3 in order to proceed to Level 4. The Examiners may in their discretion recommend that a candidate who obtains a weighted mean grade of not lower than 54.5 be permitted to proceed to Level 4.
 7. A candidate who fails to satisfy the requirements of regulations 5 or 6 above may be permitted by the Faculty to become instead a candidate for the Degree of BSc in Biology (APSU13).
 8. A candidate shall spend the second session in attendance as a full-time student at an appropriate University in Australia, New Zealand, Canada or the USA, the arrangements being subject to the approval of the Head of Department. During this period the candidate shall take an approved biology programme of study deemed to be the equivalent of F5 units to the value of *one hundred and twenty* credits.
 In addition, unit APS240 will be made available to students whilst studying abroad but will be assessed in Semester 1 of Level 3.

MAS159	F4	Mathematics for Chemists	20

Level 2

2. A candidate shall take
- | | | | | |
|-----|---------|----|----------------------|----|
| (a) | CHM2105 | F5 | Inorganic Chemistry | 20 |
| | CHM2205 | F5 | Organic Chemistry | 20 |
| | CHM2305 | F5 | Physical Chemistry | 20 |
| | CHM2401 | F5 | Chemistry Laboratory | 30 |
- (b) MLT units to the value of *thirty* credits.

Level 3

3. A candidate shall take
- | | | | |
|---------|----|-----------------|-----|
| CHM3902 | F6 | Study in Europe | 110 |
|---------|----|-----------------|-----|
- MLT units to the value of *ten* credits

Level 4

4. A candidate shall take
- | | | | |
|---------|----|--------------------------------|----|
| CHM4023 | F7 | Topics in Advanced Chemistry 3 | 30 |
| CHM4024 | F7 | Topics in Advanced Chemistry 4 | 30 |
| CHM4401 | F7 | Chemistry Research Project | 60 |
5. A candidate must achieve a weighted mean grade of 59.5 or above in units listed under 1(a) above, in order to continue as a candidate for the Degree of MChem in Chemistry with Study in Europe (CHMU06). A candidate who fails to satisfy this requirement may be required to become instead a candidate for the Degree of MChem in Chemistry (CHMU02).
6. A candidate must achieve a weighted mean grade of 59.5 or above at Level 2 in order to continue as a candidate for the Degree of MChem in Chemistry with Study in Europe (CHMU06). A candidate who fails to satisfy this requirement may be required to become instead a candidate for the Degree of BSc in Chemistry with Study in Europe (CHMU11) or BSc in Chemistry (CHMU01).
7. A candidate must achieve a weighted mean grade of 54.5 or above at Level 3 in order to continue as a candidate for the Degree of MChem in Chemistry with Study in Europe (CHMU06). A candidate who fails to satisfy this requirement may be required to become instead a candidate for the Degree of BSc in Chemistry with Study in Europe (CHMU11).
8. Before proceeding to the final year a candidate shall spend one session in an appropriate country in attendance as a full-time student at a university *or* other approved institution, the arrangements being subject to the approval of the Head of Department. During this period the candidate shall undertake studies at the host institution and any other work prescribed by the Head of Department, which shall carry the value of *one hundred and twenty* credits including *ten* credits from the MLTC year abroad units.

CHMU07 CHEMISTRY WITH STUDY IN INDUSTRY (MChem) (JACS F106)

Level 1

1. A candidate shall take
- | | | | | |
|-----|---------|----|------------------------------|----|
| (a) | CHM1001 | F4 | Fundamentals of Chemistry 1 | 20 |

| (i) | (Candidates without A-level Mathematics grade C or above) |
| | CHM1501 F4 Mathematics for Chemists 1 10 |
| | CHM1502 F4 Mathematics for Chemists 2 10 |
| (ii) | (Candidates with A-level Mathematics grade C or above) |
- units to the value of *twenty* credits from the following
- | | | | |
|--------|----|--------------------------|----|
| MAS159 | F4 | Mathematics for Chemists | 20 |
| MAS140 | F4 | Mathematics for Chemists | 20 |
- (c) *one* of the following

- (i) (Candidates without A-level Physics grade C or above)
 CHM1503 F4 Physical Principles in Chemistry 10
 unrestricted units to the value of *thirty* credits
- (ii) (Candidates with A-level Physics grade C or above)
 unrestricted units to the value of *forty* credits

Level 2

2. A candidate shall take
- | | | | |
|---------|----|----------------------|----|
| CHM2104 | F5 | Inorganic Chemistry | 30 |
| CHM2204 | F5 | Organic Chemistry | 30 |

5. A candidate must achieve a weighted mean grade of 59.5 or above in units listed under 1 (a) above, in order to continue as a candidate for the Degree of MChem in Chemistry with Study in Industry (CHMU07). A candidate who fails to satisfy this requirement may be required to become instead a candidate for the Degree of MChem in Chemistry (CHMU02).
6. A candidate must achieve a weighted mean grade of 59.5 or above at Level 2 in order to continue as a candidate for the Degree of MChem in Chemistry with Study in Industry (CHMU07). A candidate who fails to satisfy this requirement may be required to become instead a candidate for the Degree of BSc in Chemistry with Study in Industry (CHMU12) or BSc in Chemistry (CHMU01).
7. A candidate must achieve a weighted mean grade of 54.5 or above at Level 3 in order to continue as a candidate for the Degree of MChem in Chemistry with Study in Industry (CHMU07). A candidate who fails to satisfy this requirement may be required to become instead a candidate for the Degree of BSc in Chemistry with Study in Industry (CHMU12).

CHMU08 CHEMICAL PHYSICS (MPhys) (JACS F335)

Level 1

1. A candidate shall take
- | | | | |
|---------|----|---|----|
| CHM1001 | F4 | Fundamentals of Chemistry 1 | 20 |

- (ii) CHM4026 F7 Advanced Topics in Chemical Physics 1 20
 CHM4401 F7 Chemistry Research Project 60
5. A candidate must achieve a weighted mean grade of 59.5 or above in units listed under 1 above, in order to continue as a candidate for the Degree of MPhys in Chemical Physics (CHMU08). A candidate who fails to satisfy this requirement may be required by the Faculty to become instead a candidate for the Degree of MChem in Chemistry (CHMU02).
6. A candidate must achieve a weighted mean grade of 59.5 or above at Level 2 in order to continue as a candidate for the Degree of MPhys in Chemical Physics (CHMU08). A candidate who fails to satisfy this requirement may be required to become instead a candidate for the Degree of BSc in Chemical Physics (CHMU03).
7. A candidate must achieve a weighted mean grade of 54.5 or above at Level 3 in order to continue as a candidate for the Degree of MPhys in Chemical Physics (CHMU08). A candidate who fails to satisfy this requirement may be required to become instead a candidate for the Degree of BSc in Chemical Physics (CHMU03).

CHMU11 CHEMISTRY WITH STUDY IN EUROPE (BSc)

Level 1

1. A candidate shall take the programme of study prescribed at Level 1 in the Regulations for the Degree of MChem in Chemistry with Study in Europe (CHMU06).

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree of MChem in Chemistry with Study in Europe (CHMU06).

Level 3

3. A candidate shall take

CHM3104	F6	Further Inorganic Chemistry	30
CHM3204	F6	Further Organic Chemistry	30
CHM3304	F6	Further Physical Chemistry	30
CHM3404	F6	Chemistry Projects	30

4. Before proceeding to the final year a candidate shall spend one session in an appropriate country, in attendance as a full time student at a university *or* other approved institution, *or* working in an industrial establishment, the arrangements being subject to the approval of the Head of Department. During this period the candidate shall undertake studies at the host institution and any other work prescribed by the Head of Department, which shall carry the value of *one hundred and twenty* credits in respect of which no grade shall be awarded. A candidate who fails to satisfy this requirement may be required by the Faculty to become instead a candidate for the Degree of BSc in Chemistry (CHMU01).

CHMU12 CHEMISTRY WITH STUDY IN INDUSTRY (BSc)

Level 1

1. A candidate shall take the programme of study prescribed at Level 1 in the Regulations for the Degree of MChem in Chemistry with Study in Industry (CHMU07).

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree of MChem in Chemistry with Study in Industry (CHMU07).

Level 3

3. A candidate shall take
- | | | | |
|---------|----|-----------------------------|----|
| CHM3104 | F6 | Further Inorganic Chemistry | 30 |
| CHM3204 | F6 | Further Organic Chemistry | 30 |
| CHM3304 | F6 | Further Physical Chemistry | 30 |
| CHM3404 | F6 | Chemistry Projects | 30 |
4. Before proceeding to the final year a candidate shall spend one year working in an industrial establishment on a project agreed between the Head of Department and the industrial establishment. During this period the candidate shall prepare a written report, present an oral report, *or* undertake any other examined work on the project as prescribed by the Head of Department, which shall carry the value of *one hundred and twenty* credits in respect of which no grade shall be awarded. A candidate who fails to satisfy this requirement may be required by the Faculty to become instead a candidate for the Degree of BSc in Chemistry (CHMU01).

CHMU13 CHEMISTRY WITH STUDY IN AMERICA (MChem) (JACS F109)

Level 1

1. A candidate shall take
- (a)
- | | | | |
|---------|----|------------------------------|----|
| CHM1001 | F4 | Fundamentals of Chemistry 1 | 20 |
| CHM1002 | F4 | Fundamentals of Chemistry 2 | 20 |

|---------|----|--------------------------------|----|
| CHM4023 | F7 | Topics in Advanced Chemistry 3 | 30 |
| CHM4024 | F7 | Topics in Advanced Chemistry 4 | 30 |
| CHM4401 | F7 | Chemistry Research Project | 60 |
5. A candidate must achieve a weighted mean grade of 64.5 or above in units listed under 1(a) above, in order to continue as a candidate for the Degree of MChem in Chemistry with Study in America (CHMU13). A candidate who fails to satisfy this requirement may be required to become instead a candidate for the Degree of MChem in Chemistry (CHMU02).
6. A candidate must achieve a weighted mean grade of 59.5 or above at Level 2 in order to continue as a candidate for the Degree of MChem in Chemistry with Study in America (CHMU13). A candidate who fails to satisfy this requirement may be required to become instead a candidate for the Degree of BSc in Chemistry (CHMU01).
7. A candidate must achieve a weighted mean grade of 54.5 or above at Level 3 in order to continue as a candidate for the Degree of MChem in Chemistry with Study in America (CHMU13). A candidate who fails to satisfy this requirement may be required to become instead a candidate for the Degree of BSc in Chemistry (CHMU01).

CHMU14 CHEMISTRY WITH STUDY IN AUSTRALIA (MChem) (JACS F108)

Level 1

1. A candidate shall take
- (a)
- | | | | |
|---------|----|------------------------------|----|
| CHM1001 | F4 | Fundamentals of Chemistry 1 | 20 |
| CHM1002 | F4 | Fundamentals of Chemistry 2 | 20 |

CHM3901 F6 Study in Australia 120

Level 4

4. A candidate shall take
CHM4023 F7 Topics in Advanced Chemistry 3 30
CHM4024 F7 Topics in Advanced Chemistry 4 30
CHM4401 F7 Chemistry Research Project 60
5. A candidate must achieve a weighted mean grade of 64.5 or above in units listed under 1(a) above in order to continue as a candidate for the Degree of MChem in Chemistry with Study in Australia (CHMU14). A candidate who fails to satisfy this requirement may be required to become instead a candidate for the Degree of MChem in Chemistry (CHMU02).
6. A candidate must achieve a weighted mean grade of 59.5 or above at Level 2 in order to continue as a candidate for the Degree of MChem in Chemistry with Study in Australia (CHMU14). A candidate who fails to satisfy this requirement may be required to become instead a candidate for the Degree of BSc in Chemistry (CHMU01).
7. A candidate must achieve a weighted mean grade of 54.5 or above at Level 3 in order to continue as a candidate for the Degree of MChem in Chemistry with Study in Australia (CHMU14). A candidate who fails to satisfy this requirement may be required to become instead a candidate for the Degree of BSc in Chemistry (CHMU01).

CHMU17 BIOLOGICAL CHEMISTRY (MChem) (JACS C720)

Level 1

1. A candidate shall take
- (a) CHM1001 F4 Fundamentals of Chemistry 1 20
CHM1002 F4 Fundamentals of Chemistry 2 20
CHM1401 F4 General Laboratory Chemistry 10
CHM1402 F4 Further Laboratory Chemistry 10

CHM4025 F7 Advanced Topics in Biological Chemistry 40
CHM4401 F7 Chemistry Research Project 60
MBB405 F7 Advanced Research Topics 10
MBB406 F7 Biological Chemistry Data Handling 10
5. A candidate must achieve a weighted mean grade of 59.5 or above in units listed under 1(a) above, in order to continue as a candidate for the Degree of MChem in Biological Chemistry (CHMU17). A candidate who fails to satisfy this requirement may be required by the Faculty to become instead a candidate for the Degree of MChem in Chemistry (CHMU02).
6. A candidate must achieve a weighted mean grade of 59.5 or above at Level 2 in order to continue as a candidate for the Degree of MChem in Biological Chemistry (CHMU17). A candidate who fails to satisfy this requirement may be required to become instead a candidate for the Degree of BSc in Biological Chemistry (CHMU18).
7. A candidate must achieve a weighted mean grade of 54.5 or above at Level 3 in order to continue as a candidate for the Degree of MChem in Biological Chemistry (CHMU17). A candidate who fails to satisfy this requirement may be required to become instead a candidate for the Degree of BSc in Biological Chemistry (CHMU18).

CHMU18 BIOLOGICAL CHEMISTRY (BSc)

Level 1

1. A candidate shall take the programme of study prescribed at Level 1 in the Regulations for the Degree of MChem in Biological Chemistry (CHMU17).

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree of MChem in Biological Chemistry (CHMU17).

Level 3

3. A candidate shall take the programme of study prescribed at Level 3 in the Regulations for the Degree of MChem in Biological Chemistry (CHMU17).

CHMU21 CHEMISTRY WITH STUDY IN JAPAN (MChem) (JACS F104)

For candidates whose initial registration was prior to the Session 2011-12

Level 2

2. A candidate shall take
CHM2105 F5 Inorganic Chemistry 20
CHM2204 F5 Organic Chemistry 30
CHM2305 F5 Physical Chemistry 20
CHM2401 F5 Chemistry Laboratory 30
EAS239 F5 Japanese for Scientists and Engineers III 10
EAS240 F5 Japanese for Scientists and Engineers IV 10

5. A candidate must achieve a weighted mean grade of 59.5 or above in units listed under 1 above, in order to continue as a candidate for the Degree of MChem in Chemistry with Mathematics (CHMU23). A candidate who fails to satisfy this requirement may be required to become instead a candidate for the Degree of MChem in Chemistry (CHMU02).
6. A candidate must achieve a weighted mean grade of 59.5 or above at Level 2 in order to continue as a candidate for the Degree of MChem in Chemistry with Mathematics (CHMU23). A candidate who fails to satisfy this requirement may be required to become instead a candidate for the Degree of BSc in Chemistry and Mathematics (CHMU22).
7. A candidate must achieve a weighted mean grade of 54.5 or above at Level 3 in order to continue as a candidate for the Degree of MChem in Chemistry with Mathematics (CHMU23). A candidate who fails to satisfy this requirement may be required to become instead a candidate for the Degree of BSc in Chemistry and Mathematics (CHMU22).

CHMU24 CHEMISTRY WITH STUDY IN JAPAN (BSc)

For candidates whose initial registration was prior to the Session 2011-12

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree of MChem in Chemistry with Study in Japan (CHMU21).

Level 3

3. A candidate shall take
- | | | | |
|---------|----|-----------------------------|----|
| CHM3104 | F6 | Further Inorganic Chemistry | 30 |
| CHM3204 | F6 | Further Organic Chemistry | 30 |
| CHM3304 | F6 | Further Physical Chemistry | 30 |
| CHM3404 | F6 | Chemistry Projects | 30 |
4. Before proceeding to the final year a candidate shall spend one session in Japan, in attendance as a full time student at a university *or* other approved institution, *or* working in an industrial establishment, the arrangements being subject to the approval of the Head of Department. During this period the candidate shall undertake studies at the host institution and any other work prescribed by the Head of Department, which shall carry the value of *one hundred and twenty* credits in respect of which no grade shall be awarded. A candidate who fails to satisfy this requirement may be required by the Faculty to become instead a candidate for the Degree of BSc in Chemistry (CHMU01).

CHMU27 CHEMISTRY WITH ENTERPRISE MANAGEMENT (BSc) (JACS F1N2)

For candidates whose initial registration was prior to the Session 2009-10

Level 3

3. A candidate shall take the programme of study prescribed at Level 3 in the Regulations for the Degree of MChem in Chemistry with Enterprise Management (CHMU28).

CHMU28 CHEMISTRY WITH ENTERPRISE MANAGEMENT (MChem) (JACS F1NF)

For candidates whose initial registration was prior to the Session 2009-10

Level 3

3. A candidate shall take

5. A candidate must achieve a weighted mean grade of 59.5 or above at Level 2 in order to continue as a candidate for the Degree of MChem in Chemistry with Enterprise Management (CHMU28). A candidate who fails to satisfy this requirement may be required to become instead a candidate for the Degree of BSc in Chemistry with Enterprise Management (CHMU27).
6. A candidate must achieve a weighted mean grade of 54.5 or above at Level 3 in order to continue as a candidate for the Degree of MChem in Chemistry with Enterprise Management (CHMU28). A candidate who fails to satisfy this requirement may be required to become instead a candidate for the Degree of BSc in Chemistry with Enterprise Management (CHMU27).

CHMU32 CHEMISTRY (BSc)

Joint programme with Nanjing University of Technology. For initial registration of a candidate for the Degree of BSc in Chemistry only

Subject to review

- A person who satisfies the admission requirements of the University of Sheffield and of the Nanjing University of Technology may be admitted as a candidate.
- A candidate shall register at Sheffield at the beginning of the programme of study as a student of both the University of Sheffield and of the Nanjing University of Technology. A candidate shall have appropriate access to the facilities of both Universities but shall be required to attend at the University identified in accordance with the following Regulations.
- A candidate will be subject to the General Regulations of both Institutions.

Level 0

4. A candidate shall take
- (a) at the Nanjing University of Technology
- Inorganic Chemistry 1 and 2
 - Inorganic Chemistry Laboratories 1 and 2
 - Advanced Mathematics 1 and 2
 - University Physics
 - College English 1 and 2
 - Computer Programming
 - Chinese Studies
 - Chemistry in the World around us

Level 1

5. A candidate shall take
- (a) at the Nanjing University of Technology
- Organic Chemistry
 - Analytical Chemistry
 - Physical Chemistry 1
 - Organic Chemistry Laboratory
 - Analytical Chemistry Laboratory
 - Physical Chemistry Laboratory
 - University Physics 2
 - Physics Laboratory
 - Mathematics 1
 - English
 - Chinese Studies
- | | | | |
|---------|----|---------------------|----|
| CHM2201 | F5 | Organic Chemistry 1 | 10 |

Level 2

6. A candidate shall take
- (a) at the Nanjing University of Technology
- Physical Chemistry Laboratory
 - Instrumental Analysis Laboratory
 - Information Retrieval and Literature
 - Colloquial English
- (b) units to the value of *13.5* NJUT credits from the following
- Environmental Chemistry
 - Biochemistry
 - Fine Chemicals
 - Polymer Science
 - Interface Chemistry
 - Applied Electrochemistry
 - Computational Chemistry
 - Research Methods
- | | | | | |

| | CHM2401 | F5 | Chemistry Laboratory | 30 |

Level 3

7. A candidate shall take
- (a) at the University of Sheffield the programme of study prescribed at Level 3 in the Regulations for the Degree of BSc in Chemistry (CHMU01)
8. A candidate must achieve an overall IELTS score of 6.0 or above at the end of Level 1 in order to continue as a candidate on the Diploma *and* Degree of BSc in Chemistry of the Nanjing University of Technology *and* the Degree of BSc in Chemistry of the University of Sheffield.
9. A candidate must achieve a weighted mean grade of 65 *or* above at Level 2 in the units provided by Nanjing University of Technology *and* a weighted mean grade of 50 *or* above at Level 2 in the units provided by the University of Sheffield in order to proceed to Level 3 of the University of Sheffield.
10. A candidate shall (as part of the requirements for the Degree of BSc in Chemistry of the University of Sheffield and unless exempted) attend a 6 week induction programme including English Language training and a laboratory course at the University of Sheffield before commencing Level 3.

11. A candidate who completes satisfactorily Levels 0, 1 and 2 according to the requirements of the General Regulations for First Degrees or equivalent of Nanjing University of Technology may be eligible for the awards of Diploma and Degree of BSc in Chemistry of the Nanjing University of Technology.
12. A candidate who completes satisfactorily Levels 2 and 3 according to the requirements of the General Regulations for First Degrees of the University of Sheffield shall be eligible for the award of the Degree of BSc in Chemistry of the University of Sheffield.
13. A candidate who does not transfer to the University of Sheffield in Level 3 and who satisfies the requirements of the General Regulations for First Degrees or equivalent of Nanjing University of Technology may proceed to Level 3 in Nanjing University of Technology to complete the Degree of BSc of the Nanjing University of Technology.

MASU01 MATHEMATICS (BSc)

Level 1

1. A candidate shall take the programme of study prescribed at Level 1 of the Regulations for the Degree of MMath in Mathematics (MASU02).

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 of the Regulations for the Degree of MMath in Mathematics (MASU02).

Level 3

3. A candidate shall take
 - (a) units to the value of *one hundred* credits from the following

MASU10 MATHEMATICS WITH STUDY IN EUROPE (MMath) (JACS G102)

Level 1

1. A candidate shall take
 - (a) MAS110 F4 Mathematics Core I 20
MAS111 F4 Mathematics Core II 20
 - (b) *one* of the following
 - (i) MAS113 F4 Introduction to Probability and Statistics 20
MAS114 F4 Numbers and Groups 20
MLT units to the value of *forty* credits
 - (ii) MAS112 F4 Vectors and Mechanics 20
MAS113 F4 Introduction to Probability and Statistics 20
MLT units to the value of *forty* credits
 - (iii) MAS112 F4 Vectors and Mechanics 20
MAS114 F4 Numbers and Groups 20
MLT units to the value of *forty* credits
 - (c) (b)(ii) *or* (iii) may be taken only with the permission of the Head of Department.

Level 2

2. A candidate shall take
 - (a) MAS201 F5 Linear Mathematics for Applications 10
MAS202 F5 Advanced Calculus 10
 - (b) units to the value of *twenty* credits from
 - MAS203 F5 Mechanics 10
 - MAS205 F5 Statistics Core 10
 - MAS207 F5 Continuity and Integration 10
 - (c) units to the value of *forty* credits from the following
 - MAS270 F5 Vectors and Fluids 10
 - MAS271 F5 Methods for Differential Equations 10
 - MAS272 F5 Applied Differential Equations 10
 - MAS273 F5 Statistical Modelling 10
 - MAS274 F5 Statistical Reasoning 10
 - MAS275 F5 Probability Modelling 10
 - MAS276 F5 Rings and Groups 10
 - MAS277 F5 Vector Spaces and Fourier Theory 10
 - MAS278 F5 Nonlinear Mathematics 10
 - (d) *one* of the following
 - (i) MLT units to the value of *forty* credits
 - (ii) MAS208 F5 Topics in Number Theory 10
MAS275 F5 Probability Modelling 10
MLT units to the value of *twenty* credits.

Level 3

3. A candidate shall take *one* of the following
 - (a) MAS390 F6 Study Abroad 120
 - (b) MAS391 F6 Study Abroad 110
an appropriate MLT unit to the value of *ten* credits
 - (c) MAS392 F6 Study Abroad 100
appropriate MLT units to the value of *twenty* credits

Level 4

4. A candidate shall take
 - (a) MAS400 F7 Project Presentation in Mathematics and Statistics 10
MAS406 F7 Mathematics and Statistics Project II 30
 - (b) units to the value of *eighty* credits from the following
 - MAS411 F7 Topics in Advanced Fluid Dynamics 20
 - MAS412 F7 Analytical Dynamics and Classical Field Theory 20
 - MAS420 F7 Signal Processing 10
 - MAS422 F7 Magnetohydrodynamics 10
 - MAS423 F7 Advanced Operations Research 10
 - MAS424 F7 Differential Equations (Advanced) 10

MAS430	F7	Analytical Number Theory	10
MAS432	F7	Group Representations	10
MAS435	F7	Algebraic Topology	20
MAS436	F7	Functional Analysis	20
MAS438	F7	Fields	10
MAS439	F7	Commutative Algebra and Algebraic Geometry	20
MAS441	F7	Optics and Symplectic Geometry	10
MAS442	F7	Galois Theory	10
MAS452	F7	Stochastic Processes & Finance	20
MAS461	F7	Medical Statistics	10
MAS462	F7	Financial Mathematics	10
MAS463	F7	Linear Models	10
MAS464	F7	Bayesian Statistics	10
MAS465	F7	Multivariate Data Analysis	10
MAS472	F7	Computational Inference	10
MAS473	F7	Extended Linear Models	10

- appropriate MLT units to the value of *twenty* credits
5. With the permission of the Head of Department a candidate may replace MAS406 at 4(a) with the following unit and units to the value of *seventy* credits from 4(b) above
 - MAS407 F7 Mathematics and Statistics Project III 40
 6. A candidate must achieve a weighted mean grade of 59.5 or above in the MAS units at Level 2 in order to continue as a candidate for the Degree of MMath in Mathematics with Study in Europe (MASU10). A candidate who fails to satisfy this requirement may be required by the Faculty to become instead a candidate for the Degree of BSc in Mathematics (MASU01) or BSc in Mathematics with Study in Europe (MASU11).
 7. A candidate must normally achieve a weighted average of at least 55 in the MLT units at both Level 1 *and* Level 2 in order to continue as a candidate for the Degree of MMath Mathematics with Study in Europe (MASU10). A candidate who fails to satisfy these requirements may be required by the Faculty to become instead a candidate for the MMath Mathematics (MASU02) or BSc Mathematics (MASU01).

MASU11 MATHEMATICS WITH STUDY IN EUROPE (BSc) (JACS G102)

Level 1

1. A candidate shall take the programme of study prescribed at Level 1 in the Regulations for the Degree of MMath in Mathematics with Study in Europe (MASU10).

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree of MMath in Mathematics with Study in Europe (MASU10).

Level 3

3. A candidate shall take
 - (a) units to the value of *one hundred* credits from the following

MAS300	F6	Undergraduate Ambassadors Scheme in Mathematics	10
MAS301	F6	Group Project	10
MAS310	F6	Continuum Mechanics	10
MAS312	F6	Classical Control	10
MAS314	F6	Introduction to Relativity	10
MAS315	F6	Waves	10
MAS320	F6	Fluid Mechanics I	10
MAS322	F6	Operations Research	10
MAS323	F6	Differential Equations: A Case Study	10
MAS324	F6	Milestones in Applied Mathematics II	10
MAS325	F6	Mathematical Methods	10
MAS330	F6	Topics in Number Theory	10
MAS331	F6	Metric Spaces	10
MAS332	F6	Complex Analysis	10
MAS333	F6	Fields	10
MAS334	F6	Combinatorics	10
MAS336	F6	Differential Geometry	10

MAS341	F6	Graph Theory	10
MAS342	F6	Applicable Analysis	10
MAS343	F6	History of Mathematics	10
MAS344	F6	Knots and Surfaces	10
MAS345	F6	Codes and Cryptography	10
MAS346	F6	Groups and Symmetry	10
MAS347	F6	Topics in Mathematical Economics	10
MAS350	F6	Measure and Probability	10
MAS360	F6	Practical and Applied Statistics	20
MAS361	F6	Medical Statistics	10
MAS362	F6	Financial Mathematics	10
MAS363	F6	Linear Models	10
MAS364	F6	Bayesian Statistics	10
MAS370	F6	Sampling Theory and Design of Experiments	10
MAS371	F6	Applied Probability	10
MAS372	F6	Time Series	10
MAS377	F6	Mathematical Biology	10

(b) one of the following

(i) appropriate MLT units to the value of *twenty* credits

(ii) units to the value of *twenty* credits from those listed at 3(a) above.

4. Before proceeding to the final year, a candidate shall spend one session in an appropriate country, in attendance as a full time student at a university or other approved institution, the arrangements being subject to the approval of the Head of Department. During this period the candidate shall take the programme of study prescribed at Level 3 in the Regulations for the Degree of MMath in Mathematics with Study in Europe (MASU10).

5. A candidate must normally achieve a weighted average of at least 55 in the MLT units at both Level 1 and Level 2, and successfully complete the session outlined in (4) above, in order to continue as a candidate of the Degree of BSc Mathematics with Study in Europe (MASU11). A candidate who fails to satisfy these requirements may be required by the Faculty to become instead a candidate for the BSc Mathematics (MASU01).

6. The final degree classification will be calculated on a 1:2 basis, excluding the mark obtained for the year abroad.

MASU12 MATHEMATICS WITH SPANISH LANGUAGE (MMath) (JACS G1R3)

Level 1

1. A candidate shall take

(a)	MAS110	F4	Mathematics Core I	20
	MAS111	F4	Mathematics Core II	20
	MAS113	F4	Introduction to Probability and Statistics	20
	MAS114	F4	Numbers and Groups	20
	MLT262	F4	Spanish 3A	10
	MLT263	F4	Spanish 3B	10
	MLT281	F4	Spanish 3C Language Project	10

(b) a unit to the value of *ten* credits from the following

MLT347	F4	Spanish/English, English/Spanish Tandem Learning, Stage 3	10
--------	----	---	----

an appropriate MLTC unit to the value of *ten* credits

Level 2

2. A candidate shall take

(a)	MAS201	F5	Linear Mathematics for Applications	10
	MAS202	F5	Advanced Calculus	10
	MAS205	F5	Statistics Core	10
	MAS207	F5	Continuity and Integration	10
	MLT223I	F5	Spanish Placement Preparation	10
	MLT312	F5	Spanish 4A	10
	MLT313	F5	Spanish 4B	10

(b) units to the value of *forty* credits from the following

MAS273	F5	Statistical Modelling	10
MAS274	F5	Statistical Reasoning	10

MAS275	F5	Probability Modelling	10
MAS276	F5	Rings and Groups	10
MAS277	F5	Vector Spaces and Fourier Theory	10
MAS278	F5	Nonlinear Mathematics	10

(c) a unit to the value of *ten* credits from the following

MLT219	F5	Tandem Learning Module Stage 4 (Spanish / English)	10
MLT321	F5	Spanish Project	10

an appropriate MLTC unit to the value of *ten* credits

Level 3

3. A candidate shall take

MAS392	F6	Study Abroad	100
MLT301	F6	Spanish 3D/4D Year Abroad Project	10
MLT303	F6	Spanish 3E/4E Year Abroad Project	10

Level 4

4. A candidate shall take

(a)	MAS400	F7	Project Presentation in Mathematics and Statistics	10
	MAS406	F7	Mathematics and Statistics Project II	30

(b) units to the value of *forty* credits from the following

MLT327	F7	Tandem Learning Module Stage 5 Spanish/English	10
MLT352	F7	Foreign Languages at Work – Spanish Stage 5A	10
MLT353	F7	Foreign Languages at Work – Spanish Stage 5B	10
MLT361	F7	Spanish Project	10

Or an appropriate MLTC unit to the value of *ten* credits

(c) units to the value of *forty* credits from the following

MAS423	F7	Advanced Operations Research	10
MAS430	F7	Analytical Number Theory	10
MAS432	F7	Group Representations	10
MAS435	F7	Algebraic Topology	20
MAS436	F7	Functional Analysis	20
MAS438	F7	Fields	10
MAS439	F7	Commutative Algebra and Algebraic Geometry	20
MAS441	F7	Optics and Symplectic Geometry	10
MAS442	F7	Galois Theory	10
MAS452	F7	Stochastic Processes and Finance	20
MAS461	F7	Medical Statistics	10
MAS462	F7	Financial Mathematics	10
MAS463	F7	Linear Models	10
MAS464	F7	Bayesian Statistics	10
MAS465	F7	Multivariate Data Analysis	10
MAS472	F7	Computational Inference	10
MAS473	F7	Extended Linear Models	10

5. A candidate must achieve a weighted mean grade of 59.5 or above in the MAS units at Level 2 to continue as a candidate for the Degree of MMath in Mathematics with Spanish Language (MASU12). A candidate who fails to satisfy this requirement may be required by the Faculty to become instead a candidate for the Degree of BSc in Mathematics with Study in Europe (MASU11) or BSc in Mathematics (MASU01).

6. A candidate must normally achieve a weighted average of at least 55 in the MLT units at both Level 1 and Level 2 in order to continue as a candidate of the degree of MMath Mathematics with Spanish Language (MASU12). A candidate who fails to satisfy these requirements may be required by the Faculty to become instead a candidate for the MMath Mathematics (MASU02) or BSc Mathematics (MASU01).

MASU13 MATHEMATICS WITH FRENCH LANGUAGE (MMath) (JACS G1R1)

Level 1

1. A candidate shall take

(a)	MAS110	F4	Mathematics Core I	20
	MAS111	F4	Mathematics Core II	20

MAS113	F4	Introduction to Probability and Statistics	20
MAS114	F4	Numbers and Groups	20
MLT260	F4	French 3A	10
MLT261	F4	French 3B	10
MLT280	F4	French 3C Language Project	10
(b) a unit to the value of <i>ten</i> credits from the following			
MLT345	F4	French/English, English/French Tandem Learning, Stage 3	10
an appropriate MLTC unit to the value of <i>ten</i> credits			

Level 2

2. A candidate shall take			
(a)	MAS201	F5 Linear Mathematics for Applications	10
	MAS202	F5 Advanced Calculus	10
	MAS205	F5 Statistics Core	10
	MAS207	F5 Continuity and Integration	10
	MLT221	F5 French Placement Preparation	10
	MLT310	F5 French 4A	10
	MLT311	F5 French 4B	10
(b) units to the value of <i>forty</i> credits from the following			
	MAS273	F5 Statistical Modelling	10
	MAS274	F5 Statistical Reasoning	10
	MAS275	F5 Probability Modelling	10
	MAS276	F5 Rings and Groups	10
	MAS277	F5 Vector Spaces and Fourier Theory	10
	MAS278	F5 Nonlinear Mathematics	10
(c) a unit to the value of <i>ten</i> credits from the following			
	MLT217	F5 Tandem Learning Module Stage 4 (French / English)	10
	MLT320	F5 French Project	10
an appropriate MLTC unit to the value of <i>ten</i> credits			

Level 3

3. A candidate shall take			
	MAS392	F6 Study Abroad	100
	MLT330	F6 French 4D Year Abroad Project	10
	MLT331	F6 French 4E Year Abroad Project	10

Level 4

4. A candidate shall take			
(a)	MAS400	F7 Project Presentation in Mathematics and Statistics	10
	MAS406	F7 Mathematics and Statistics Project II	30
(b) units to the value of <i>forty</i> credits from the following			
	MLT325	F7 Tandem Learning Module Stage 5 French/English	10
	MLT350	F7 Foreign Languages at Work - French Stage 5A	10
	MLT351	F7 Foreign Languages at Work - French Stage 5B	10
	MLT360	F7 French Project	10
an appropriate MLTC unit to the value of <i>ten</i> credits			
(c) units to the value of <i>forty</i> credits from the following			
	MAS423	F7 Advanced Operations Research	10
	MAS430	F7 Analytic Number Theory	10
	MAS432	F7 Group Representations	10
	MAS435	F7 Algebraic Topology	20
	MAS436	F7 Functional Analysis	20
	MAS438	F7 Fields	10
	MAS439	F7 Commutative Algebra and Algebraic Geometry	20
	MAS441	F7 Optics and Symplectic Geometry	10
	MAS442	F7 Galois Theory	10
	MAS452	F7 Stochastic Processes and Finance	20
	MAS461	F7 Medical Statistics	10
	MAS462	F7 Financial Mathematics	10
	MAS463	F7 Linear Models	10
	MAS464	F7 Bayesian Statistics	10
	MAS465	F7 Multivariate Data Analysis	10
	MAS472	F7 Computational Inference	10

MAS473	F7	Extended Linear Models	10
5. A candidate must achieve a weighted mean grade of 59.5 or above in the MAS units at Level 2 in order to continue as a candidate for the Degree of MMath in Mathematics with French Language (MASU13). A candidate who fails to satisfy this requirement may be required by the Faculty to become instead a candidate for the Degree of BSc in Mathematics with Study in Europe (MASU11) or BSc in Mathematics (MASU01).			
6. A candidate must normally achieve a weighted average of at least 55 in the MLT units at both Level 1 <i>and</i> Level 2 in order to continue as a candidate of the degree of MMath Mathematics with French Language (MASU13). A candidate who fails to satisfy these requirements may be required by the Faculty to become instead a candidate for the MMath Mathematics (MASU02) or BSc Mathematics (MASU01).			

MASU14 MATHEMATICS WITH GERMAN LANGUAGE (MMath) (JACS G1R2)

Level 1

1. A candidate shall take			
(a)	MAS110	F4 Mathematics Core I	20
	MAS111	F4 Mathematics Core II	20
	MAS113	F4 Introduction to Probability and Statistics	20
	MAS114	F4 Numbers and Groups	20
	MLT264	F4 German 3A	10
	MLT265	F4 German 3B	10
	MLT282	F4 German 3C Language Project	10
(b) a unit to the value of <i>ten</i> credits from the following			
(b)	MLT346	F4 German/English, English/German Tandem Learning, Stage 3	10
an appropriate MLTC unit to the value of <i>ten</i> credits			

Level 2

2. A candidate shall take			
(a)	MAS201	F5 Linear Mathematics for Applications	10
	MAS202	F5 Advanced Calculus	10
	MAS205	F5 Statistics Core	10
	MAS207	F5 Continuity and Integration	10
	MLT222I	F5 German Placement Preparation	10
	MLT314I	F5 German 4A	10
	MLT315I	F5 German 4B	10
(b) units to the value of <i>forty</i> credits from the following			
	MAS273	F5 Statistical Modelling	10
	MAS274	F5 Statistical Reasoning	10
	MAS275	F5 Probability Modelling	10
	MAS276	F5 Rings and Groups	10
	MAS277	F5 Vector Spaces and Fourier Theory	10
	MAS278	F5 Nonlinear Mathematics	10
(c) a unit to the value of <i>ten</i> credits from the following			
	MLT218AI	F5 Tandem Learning Module Stage 4 German English	10
	MLT322	F5 German Project	10
an appropriate MLTC unit to the value of <i>ten</i> credits			

Level 3

3. A candidate shall take			
	MAS392	F6 Study Abroad	100
	MLT302	F6 German 3D/4D Year Abroad Project	10
	MLT304	F6 German 3E/4E Year Abroad Project	10

Level 4

4. A candidate shall take			
(a)	MAS400	F7 Project Presentation in Mathematics and Statistics	10
	MAS406	F7 Mathematics and Statistics Project II	30
(b) units to the value of <i>forty</i> credits from the following			

MLT326	F7	Tandem Learning Module Stage 5 German/English	10
MLT354	F7	Foreign Languages at Work - German Stage 5A	10
MLT355	F7	Foreign Languages at Work - German Stage 5B	10
MLT362	F7	German Project	10
Or an appropriate MLTC unit to the value of <i>ten</i> credits			
(c)	units to the value of <i>forty</i> credits from the following		
MAS423	F7	Advanced Operations Research	10
MAS430	F7	Analytic Number Theory	10
MAS432	F7	Group Representations	10
MAS435	F7	Algebraic Topology	20
MAS436	F7	Functional Analysis	20
MAS438	F7	Fields	10
MAS439	F7	Commutative Algebra and Algebraic Geometry	20
MAS441	F7	Optics and Symplectic Geometry	10
MAS442	F7	Galois Theory	10
MAS452	F7	Stochastic Processes & Finance	20
MAS461	F7	Medical Statistics	10
MAS462	F7	Financial Mathematics	10

MAS464	F7	Bayesian Statistics	10
MAS465	F7	Multivariate Data Analysis	10
MAS472	F7	Computational Inference	10
MAS473	F7	Extended Linear Models	10
5.	A candidate must achieve a weighted mean grade of 59.5 or above in the MAS units at Level 2 in order to continue as a candidate for the Degree of MMath in Mathematics with German Language (MASU14). A candidate who fails to satisfy this requirement may be required by the Faculty to become instead a candidate for the Degree of BSc in Mathematics with Study in Europe (MASU11) or BSc in Mathematics (MASU01).		
6.	A candidate must normally achieve a weighted average of at least 55 in the MLT units at both Level 1 and Level 2 in order to continue as a candidate of the degree of MMath Mathematics with German Language (MASU14). A candidate who fails to satisfy these requirements may be required by the Faculty to become instead a candidate for the MMath Mathematics (MASU02) or BSc Mathematics (MASU01).		

MASU15 MATHEMATICS WITH A YEAR ABROAD (MMath) (JACS G105)

Level 1

1.	A candidate shall take		
(a)	MAS110	F4 Mathematics Core I	20
	MAS111	F4 Mathematics Core II	20
	MAS112	F4 Vectors and Mechanics	20
	MAS113	F4 Introduction to Probability and Statistics	20
	MAS114	F4 Numbers and Groups	20
(b)	<i>one</i> of the following		
(i)	MAS115	F5 Mathematical Investigation Skills	20
(ii)	FCP101	F4 Integrated Science	10
(iii)	unrestricted units to the value of <i>ten</i> credits		
(iii)	unrestricted units to the value of <i>twenty</i> credits		

Level 2

2.	A candidate shall take		
(a)	MAS201	F5 Linear Mathematics for Applications	10
	MAS202	F5 Advanced Calculus	10
	MAS207	F5 Continuity and Integration	10
	MAS276	F5 Rings and Groups	10
	MAS277	F5 Vector Spaces and Fourier Theory	10
	MAS278	F5 Nonlinear Mathematics	10
(b)	units to the value of <i>sixty</i> credits from the following		
	MAS203	F5 Mechanics	10

MAS205	F5	Statistics Core	10
MAS208	F5	Topics in Number Theory	10
MAS270	F5	Vectors and Fluids	10

MAS272	F5	Applied Differential Equations	10
MAS273	F5	Statistical Modelling	10
MAS274	F5	Statistical Reasoning	10
MAS275	F5	Probability Modelling	10

Level 3

3.	A candidate shall take		
	MAS390	F6 Study Abroad	120

Level 4

4.	A candidate shall take		
(a)	MAS400	F7 Project Presentation in Mathematics and Statistics	10
	MAS406	F7 Mathematics and Statistics Project II	30
(b)	units to the value of <i>eighty</i> credits from the following		
	MAS411	F7 Topics in Advanced Fluid Dynamics	20
	MAS412	F7 Analytical Dynamics and Classical Field Theory	20
	MAS420	F7 Signal Processing	10
	MAS422	F7 Magnetohydrodynamics	10

	MAS465	F7 Multivariate Data Analysis	10
	MAS472	F7 Computational Inference	10
	MAS473	F7 Extended Linear Models	10

5.	With the permission of the Head of Department a candidate may replace MAS406 at 4(a) with the following unit and units to the value of <i>seventy</i> credits from 4(b) above.		
	MAS407	F7 Mathematics and Statistics Project III	40
6.	A candidate must achieve a weighted mean grade of 59.5 or above at Level 1, at the first attempt, in order to continue as a candidate for the Degree of MMath in Mathematics with a Year Abroad (MASU15). A candidate who fails to satisfy this requirement may be required by the Faculty to become instead a candidate for the Degree of MMath in Mathematics (MASU02).		
7.	A candidate must achieve a weighted mean grade of 59.5 or above at Level 2, at the first attempt, in order to continue as a candidate for the Degree of MMath in Mathematics with a Year Abroad (MASU15). A candidate who fails to satisfy this requirement may be required by the Faculty to become instead a candidate for the Degree of BSc in Mathematics (MASU01).		

MASU21 MATHEMATICS AND ASTRONOMY (BSc) (JACS GF15)

Level 3

3.	A candidate shall take		
(a)	MAS310	F6 Continuum Mechanics	10
	MAS314	F6 Introduction to Relativity	10
	MAS315	F6 Waves	10
	MAS320	F6 Fluid Mechanics I	10

PHY306	F6	Introduction to Cosmology	10
PHY318	F7	Concepts of Astronomy	10
PHY319	F6	Astronomy Project	10
(b) units to the value of <i>twenty</i> credits from the following			
PHY314	F6	Relativity and Cosmology	10
PHY320	F6	Nuclear Astrophysics	10
PHY323	F7	Dark Matter and the Universe	10
PHY324	F6	History of Astronomy	10
PHY461	F7	High Energy Astrophysics	10
(c) a unit to the value of <i>ten</i> credits from the following			
MAS322	F6	Operations Research	10
MAS323	F6	Differential Equations: A Case Study	10
MAS325	F6	Mathematical Methods	10
MAS332	F6	Complex Analysis	10
MAS336	F6	Differential Geometry	10
MAS377	F6	Mathematical Biology	10
MAS342	F6	Applicable Analysis	10

MASU22 MATHEMATICS AND ASTRONOMY (MMath) (JACS GF15)

MASU34 STATISTICS (GRADUATE CERTIFICATE)

1. A candidate shall take

MAS5050	F6	Mathematical Methods for Statistics	20
MAS5051	F6	Probability and Probability Distributions	20
MAS5052	F6	Basic Statistics	20
2. A candidate must achieve a mean grade of 40 or above in order to be eligible for the award of Graduate Certificate in Statistics.
3. A candidate who achieves a weighted mean grade of 70 or above may be awarded a distinction.
4. A candidate who achieves a mean grade of 65 or above may be permitted to register for the Degree of MSc in Statistics. A candidate who achieves a mean grade below 65 may be permitted to register for the Degree of MSc in Statistics only at the discretion of the Head of Department.
5. A candidate who has been awarded *sixty* credits shall pass the examination.
6. A candidate who fails to satisfy the Examiners in respect of any unit may enter for a subsequent examination in respect of the same unit. A candidate who satisfies the Examiners in a subsequent examination will be awarded a grade of 40 in that examination.

MASU35 FINANCIAL MATHEMATICS (BSc)

Joint programme with Nanjing University of Technology. For initial registration of a candidate for the Degree of BSc in Financial Mathematics only)

1. A person who satisfies the admission requirements of the University of Sheffield and of the Nanjing University of Technology may be admitted as a candidate.
2. A candidate shall register at Sheffield at the beginning of the programme of study as a student of both the University of Sheffield and of the Nanjing University of Technology. A candidate shall have appropriate access to the facilities of both Universities but shall be required to attend at the University identified in accordance with the following Regulations.
3. A candidate will be subject to the General Regulations of both Institutions.

Level 1 (Year 1)

4. A candidate shall take
 - (a) at the Nanjing University of Technology

NJUT102		Non Mathematics Core 1 (NJUT)	
NJUT103*	F4*	Core Mathematics 1 (NJUT)	30
MAS190	F4	Probability and Statistics (NJUT)	10

Level 1 (Year 2)

5. A candidate shall take
- (a) at the Nanjing University of Technology
- | | | | |
|----------|-----|--|----|
| NJUT100 | | Non Mathematics Core 2 (NJUT) | |
| NJUT101* | F4* | Financial Mathematics (NJUT) | 50 |

| MAS377 | F6 | Mathematical Biology | 10 |
| MAS472 | F7 | Computational Inference | 10 |
8. A candidate must achieve an overall IELTS score of 6.0 or above at the end of Level 1 in order to continue as a candidate on the Diploma *and* Degree of BSc in Financial Mathematics of the Nanjing University of Technology *and* the Degree of BSc in Financial Mathematics of the University of Sheffield.
9. A candidate must achieve a weighted mean grade of 65 *or* above at Level 2 in the units provided by Nanjing University of Technology *and* a weighted mean grade of 50 *or* above at Level 2 in the units provided by the University of Sheffield in order to proceed to Level 3 of the University of Sheffield.
10. A candidate shall (as part of the requirements for the Degree of BSc in Financial Mathematics of the University of Sheffield and unless exempted) attend a 6 week induction programme including English Language training at the University of Sheffield before commencing Level 3.

11. A candidate who completes satisfactorily Levels 1 and 2 according to the requirements of the General Regulations for First Degrees or equivalent of Nanjing University of Technology may be eligible for the awards of Diploma *and* Degree of BSc in Financial Mathematics of the Nanjing University of Technology.
12. A candidate who completes satisfactorily Levels 2 and 3 according to the requirements of the General Regulations for First Degrees of the University of Sheffield shall be eligible for the award of the Degree of BSc in Financial Mathematics of the University of Sheffield.
13. A candidate who does not transfer to the University of Sheffield in Level 3 and who satisfies the requirements of the General Regulations for First Degrees or equivalent of Nanjing University of Technology may proceed to Level 3 in Nanjing University of Technology to complete the Degree of BSc of the Nanjing University of Technology.

| MGT212 | F5 | Financial Management | 20 |
| MGT213 | F5 | Issues in Financial Management | 20 |
| MGT230 | F5 | Introduction to Corporate Finance and Asset Pricing | 20 |

Level 3

3. A candidate shall undertake a year in employment, subject to the approval of the Head of Department (or delegate). The year in industry will be assessed on a pass / fail basis.

Level 4

4. A candidate shall take
- | | | | | |
|-----|--------|----|--------------------------------|----|
| (a) | MAS331 | F6 | Metric Spaces | 10 |
| | MAS362 | F6 | Financial Mathematics | 10 |

| ECN357 | F6 | Modern Finance | 20 |
| MGT321 | F6 | Corporate Finance | 20 |
| MGT375 | F6 | Financial Derivatives | 20 |
5. Before proceeding to the final year, a candidate shall spend one session in an appropriate industrial placement, the arrangements being subject to the approval of the Head of Department. Students who are unable to undertake the placement will transfer to the BSc in Financial Mathematics (MASU05).
6. The final degree classification will be calculated on a 1:2 basis; excluding the Pass / Fail mark for the year in employment.

MBBU01 GENETICS (BSc) (JACS C400)

Level 1

1. A candidate shall take the programme of study prescribed at Level 1 in the Regulations for the Degree of MBiolSci in Genetics (MBBU20).

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree of MBiolSci in Genetics (MBBU20).

Level 3

3. A candidate shall take the programme of study prescribed at Level 3 in the Regulations for the Degree of MBiolSci in Genetics (MBBU20).

MBBU02 MICROBIOLOGY (BSc) (JACS C500)

Level 1

1. A candidate shall take the programme of study prescribed at Level 1 in the Regulations for the Degree of MBiolSci in Microbiology (MBBU23).

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree of MBiolSci in Microbiology (MBBU23).

Level 3

3. A candidate shall take the programme of study prescribed at Level 3 in the Regulations for the Degree of MBiolSci in Microbiology (MBBU23).

MBBU03 MOLECULAR BIOLOGY (BSc) (JACS C440)

Level 1

1. A candidate shall take the programme of study prescribed at Level 1 in the Regulations for the Degree of MBiolSci in Molecular Biology (MBBU24).

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree of MBiolSci in Molecular Biology (MBBU24).

Level 3

3. A candidate shall take the programme of study prescribed at Level 3 in the Regulations for the Degree of MBiolSci in Molecular Biology (MBBU24).

MBBU04 BIOCHEMISTRY (BSc) (JACS C700)

Level 1

1. A candidate shall take the programme of study prescribed at Level 1 in the Regulations for the Degree of MBiolSci in Biochemistry (MBBU17).

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree of MBiolSci in Biochemistry (MBBU17).

Level 3

3. A candidate shall take the programme of study prescribed at Level 3 in the Regulations for the Degree of MBiolSci in Biochemistry (MBBU17).

MBBU05 MEDICAL BIOCHEMISTRY (BSc) (JACS C741)

Level 1

1. A candidate shall take the programme of study prescribed at Level 1 in the Regulations for the Degree of MBiolSci in Medical Biochemistry (MBBU22).

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree of MBiolSci in Medical Biochemistry (MBBU22).

Level 3

3. A candidate shall take the programme of study prescribed at Level 3 in the Regulations for the Degree of MBiolSci in Medical Biochemistry (MBBU22).

MBBU08 GENETICS AND MICROBIOLOGY (BSc) (JACS CC45)

Level 1

1. A candidate shall take the programme of study prescribed at Level 1 in the Regulations for the Degree of MBiolSci in Genetics and Microbiology (MBBU21).

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree of MBiolSci in Genetics and Microbiology (MBBU21).

Level 3

3. A candidate shall take the programme of study prescribed at Level 3 in the Regulations for the Degree of MBiolSci in Genetics and Microbiology (MBBU21).

MBBU09 BIOCHEMISTRY AND GENETICS (BSc) (JACS CC74)

Level 1

1. A candidate shall take the programme of study prescribed at Level 1 in the Regulations for the Degree of MBiolSci in Biochemistry and Genetics (MBBU18).

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree of MBiolSci in Biochemistry and Genetics (MBBU18).

Level 3

3. A candidate shall take the programme of study prescribed at Level 3 in the Regulations for the Degree of MBiolSci in Biochemistry and Genetics (MBBU18).

MBBU10 BIOCHEMISTRY AND MICROBIOLOGY (BSc) (JACS CC75)

Level 1

1. A candidate shall take the programme of study prescribed at Level 1 in the Regulations for the Degree of MBiolSci in Biochemistry and Microbiology (MBBU19).

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree of MBiolSci in Biochemistry and Microbiology (MBBU19).

Level 3

3. A candidate shall take the programme of study prescribed at Level 3 in the Regulations for the Degree of MBiolSci in Biochemistry and Microbiology (MBBU19).

(a)	MBB401	F7	Introduction to Research Methodology	10
	MBB402	F7	Advanced Literature Review	20
	MBB405	F7	Advanced Research Topics	10

(b) *one* of the following

MBB403	F7	Extended Laboratory Project	80
MBB404	F7	Project in Industry	80

5. A candidate must achieve a weighted mean grade of not less than 59.5 at Level 2 in order to proceed to Level 3. The Examiners may in their discretion recommend that a candidate who obtains a weighted mean grade of not lower than 54.5 be permitted to proceed to Level 3.

6. A candidate must achieve a weighted mean grade of not less than 64.5 in the Autumn Semester of Level 3 in order to proceed to Level 4. The Examiners may in their discretion recommend that a candidate who obtains a weighted mean grade of not lower than 54.5 be permitted to proceed to Level 4.

7. A candidate who fails to satisfy the requirements of regulations 5 or 6 above may be permitted by the Faculty to become instead a candidate for the Degree of BSc in Molecular Biology (MBBU03).

MBBU25 BIOCHEMISTRY AND MOLECULAR CELL BIOLOGY (BSc) (JACS C790)

Level 1

1. A candidate shall take the programme of study prescribed at Level 1 in the Regulations for the Degree of MBiolSci in Biochemistry and Molecular Cell Biology (MBBU26).

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree of MBiolSci in Biochemistry and Molecular Cell Biology (MBBU26).

Level 3

3. A candidate shall take the programme of study prescribed at Level 3 in the Regulations for the Degree of MBiolSci in Biochemistry and Molecular Cell Biology (MBBU26).

MBBU26 BIOCHEMISTRY AND MOLECULAR CELL BIOLOGY (MBiolSci) (JACS C791)

Level 1

1. A candidate shall take

MBB161	F4	Biochemistry	20
MBB162	F4	Genetics	20
MBB163	F4	Microbiology	20
MBB164	F4	Molecular Biology	20
MBB165	F4	Practical Molecular Bioscience 1	30

 unrestricted units to the value of *ten* credits

Level 2

2. A candidate shall take

BMS223	F5	Differentiation	10
MBB202	F5	Gene Expression and Regulation	10
MBB203	F5	Analysis of Genomes	10
MBB211	F5	Macromolecular Structure and Function 1	10

PHYU10 PHYSICS WITH MEDICAL PHYSICS (MPhys) (JACS F371)

Level 1

1. A candidate shall take

FCE101	F4	Introduction to Bioengineering	20
MAS165	F4	Mathematics for Physicists	10
MPY101	F4	Physics of Living Systems 2	10
PHY101	F4	Mechanics, Vibrations and Waves	20
PHY102	F4	Quanta and Matter	20
PHY112	F4	Introductory Mathematics for Physicists and Astronomers	20
PHY113	F4	Professional Skills in Physics I	10
PHY114	F4	Professional Skills in Physics II	10

Level 2

2. A candidate shall take

MAT291	F5	Biomedical Instrumentation	10
MAT2510	F5	Tissue Structure and Function	10
MPY205	F5	Aspects of Medical Imaging and Technology	10
PHY221	F5	Topics in Classical Physics	10
PHY227	F5	Optics	10
PHY230	F5	Experimental Physics 1	10
PHY248	F5	Physics with Labview	10
PHY250	F5	Core Level 2 Physics 1	25
PHY251	F5	Core Level 2 Physics 2	25

Level 3

3. A candidate shall take

(a)	COM3001	F6	Modelling and Simulation of Natural Systems	10
	MPY308	F6	Clinical Engineering and Computational Mechanics	10
	MPY321	F6	Medical Physics Project 1	10
	MPY322	F6	Medical Physics Project 2	10
	PHY225	F5	Programming in C	10
	PHY303	F6	Nuclear Physics	10

	PHY330	F6	Metals, Semiconductors and Insulators	10
	PHY331	F6	Magnetism and Advanced Electrodynamics	10
	PHY342	F6	Physics Project 2	10
	PHY415	F7	Advanced Techniques of Problem Solving in Physics	10
(b)	a unit to the value of <i>ten</i> credits from the following			
	PHY207	F5	Numerical and Computational Physics	10
	PHY313	F6	Mathematical Physics	10
	PHY314	F6	Relativity and Cosmology	10
	PHY320	F6	Nuclear Astrophysics	10
	PHY323	F7	Dark Matter and the Universe	10

Level 4

4. A candidate shall take
- | | | | | |
|-----|--------|----|----------------------------------|----|
| (a) | MPY401 | F7 | Medical Physics Research Project | 40 |
| | MPY424 | F7 | Hospital or Industrial Placement | 20 |
| | PHY304 | F6 | Particle Physics | 10 |
| | PHY332 | F6 | Atomic and Laser Physics | 10 |
| | PHY333 | F7 | Statistical Physics | 10 |
- (b) units to the value of *thirty* credits from the following
- | | | | | |
|--|--------|----|---|----|
| | PHY403 | F7 | Advanced Statistical Physics | 10 |
| | PHY408 | F7 | Literature Search in Physics | 10 |
| | PHY410 | F7 | Physics of Semiconductors | 10 |
| | PHY411 | F7 | Aspects of Modern Physics (Half Module) | 10 |

5.	A candidate must achieve a weighted mean grade of 59.5 or above at Level 1 in order to continue as a candidate for the Degree of MPhys in Theoretical Physics. A candidate who fails to satisfy this requirement may be required by the Faculty to become instead a candidate for the Degree of BSc in Physics (PHYU01).		

6. A candidate must satisfy the requirements of the General Regulations for First Degrees as to progression in order to continue as a candidate for the Degree of MPhys in Theoretical Physics (PHYU16). A candidate who fails to satisfy these requirements may be required by the Faculty to become instead a candidate for the Degree of BSc in Theoretical Physics (PHYU04).

PHYU18 PHYSICS WITH COMPUTER SCIENCE (BSc) (JACS F3G4)

Level 1

1. A candidate shall take the programme of study prescribed at Level 1 in the Regulations for the Degree of MPhys in Physics with Computer Science (PHYU19).

Level 2

2. A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree of MPhys in Physics with Computer Science (PHYU19).

Level 3

3. A candidate shall take the programme of study prescribed at Level 3 in the Regulations for the Degree of MPhys in Physics with Computer Science (PHYU19).

PHYU19 PHYSICS WITH COMPUTER SCIENCE (MPhys) (JACS F3GK)

- F7 Level MLT units to the value of *twenty* credits
- A candidate must satisfy the requirements of the General Regulations for First Degrees as to progression in order to continue as a candidate for the Degree of BSc in Physics with Study in Europe. A candidate who fails to satisfy these requirements may be required by the Faculty to become instead a candidate for the Degree of BSc in Physics (PHYU01). A candidate must achieve a minimum of *eighty* MLT credits in order to be considered for the award of the Degree of BSc in Physics with Study in Europe.
 - Before proceeding to the final year a candidate shall spend one session in an appropriate country in attendance as a full-time student at a university *or* other approved institution, the arrangements being subject to the approval of the Head of Department. During this period the candidate shall undertake studies at the host institution and any other work prescribed by the Head of Department, which shall carry the value of *one hundred and twenty* credits including *twenty* credits from the MLTC year abroad units (codes MLT330H/MLT331H/MLT303H/MLT302H/MLT304H). A candidate who fails to satisfy this requirement may be required by the Faculty to become instead a candidate for the Degree of BSc in Physics (PHYU01).

PHYU23 PHYSICS WITH STUDY IN NORTH AMERICA (MPhys) (JACS F304)

Level 1

- A candidate shall take the programme of study prescribed at Level 1 in the Regulations for the Degree of MPhys in Physics (PHYU02) *or* MPhys in Theoretical Physics (PHYU16).

Level 2

- A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree of MPhys in Physics (PHYU02) *or* MPhys in Theoretical Physics (PHYU16).

Level 3

- A candidate shall take an approved programme of study at an institution in North America (PHYU23).
During this period the candidate shall undertake programmes of study and attain a standard deemed satisfactory by the Faculty taken in the host institution which shall carry the value of *one hundred and twenty* credits. A candidate who fails to satisfy this requirement may be required by the Faculty to become instead a candidate for the Degree of BSc in Physics (PHYU01) *or* BSc in Theoretical Physics (PHYU04).

Level 4

- A candidate shall take
 - PHY411 F7 Aspects of Modern Physics (Half Module) 10
 - PHY480 F7 Research Project in Physics and Astronomy 40
- units to the value of *seventy* credits from the following, not more than *thirty* to be selected from (ii)
 - PHY402 F7 Cosmic Origins 10
 - PHY403 F7 Advanced Statistical Physics 10
 - PHY408 F7 Literature Search in Physics 10

- A candidate must achieve a weighted mean grade of 59.5 *or* above at Level 1 in order to continue as a candidate for the Degree of MPhys in Physics with Study in North America (PHYU23). A candidate who fails to satisfy this requirement may be required by the Faculty to become instead a candidate for the Degree of MPhys in Physics (PHYU02) *or* MPhys in Theoretical Physics (PHYU16).
- A candidate must achieve a weighted mean grade of 59.5 *or* above at Level 2 in order to continue as a candidate for the Degree of MPhys in Physics with Study in North America (PHYU23). A candidate who fails to satisfy this requirement may be required by the Faculty to become instead a candidate for the Degree of BSc in Physics (PHYU01) *or* BSc in Theoretical Physics (PHYU04). A candidate with a weighted mean grade between 54.5 and 59.5 may alternatively be permitted to transfer to MPhys in Physics (PHYU02) *or* MPhys in Theoretical Physics (PHYU16).

PHYU24 PHYSICS WITH STUDY IN AUSTRALASIA (MPhys) (JACS F305)

Level 1

- A candidate shall take the programme of study prescribed at Level 1 in the Regulations for the Degree of MPhys in Physics (PHYU02) *or* MPhys in Theoretical Physics (PHYU16).

Level 2

- A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree of MPhys in Physics (PHYU02) *or* MPhys in Theoretical Physics (PHYU16).

Level 3

- A candidate shall take an approved programme of study at an institution in Australasia (PHYU24).
During this period the candidate shall undertake courses of study and attain a standard deemed satisfactory by the Faculty taken in the host institution which shall carry the value of *one hundred and twenty* credits. A candidate who fails to satisfy this requirement may be required by the Faculty to become instead a candidate for the Degree of BSc in Physics (PHYU01) *or* BSc in Theoretical Physics (PHYU04).

BMST90	Stem Cell and Regenerative Medicine (For initial registration of a candidate for the Degree of PhD with Integrated Studies in Biomedical Science only)	(MSc)

APST04 PLANT-ENVIRONMENT INTERACTIONS (MSc) (Full-Time)

1. A candidate shall take
 - (a) APS6601 F7 Processes of Plant-Environment Interactions 30
 - APS6602 F7 Generic Research Skills Training 30
 - (b) APS6603 F7 Advanced Techniques in Plant-Environment Interactions 30
 - APS6604 F7 Dissertation 30
 - (c) APS6605 F7 Research Project 60
2. A candidate must normally achieve a weighted mean grade of 55 or above in respect of units listed at 1(a) and 1(b) in order to continue as a candidate for the Degree of MSc in Plant-Environment Interactions. A candidate who does not complete the requirements for the Degree of MSc may be eligible instead for the award of the Postgraduate Diploma in Plant-Environment Interactions in accordance with Regulation 3.
3. A candidate who has been awarded *one hundred and twenty* credits in respect of units listed at 1(a) and 1(b) above shall be eligible for the award of the Postgraduate Diploma in Plant-Environment Interactions.
4. A candidate who has been awarded *sixty* credits in respect of units APS6601 and APS6602 listed at 1(a) above shall be eligible for the award of the Postgraduate Certificate in Plant-Environment Interactions.

BMST02 STEM CELL AND REGENERATIVE MEDICINE (MSc)

1. A candidate shall take
 - (a) BMS6053 F7 Critical Analysis of Current Science 15
 - BMS6054 F7 Ethics and Public Awareness of Science 15
 - (b) units to the value of *thirty* credits from the following
 - BMS6055 F7 Modelling Human Disease 15
 - BMS6056 F7 Stem Cell Biology 15
 - BMS6730 F7 Bionanomaterials 15
 - (c) units to the value of *thirty* credits from the following
 - BMS6081 F7 Human Embryonic Stem Culture Techniques 15
 - BMS6082 F7 Practical Cell Biology 15
 - BMS6083 F7 Practical Developmental Genetics 15
 - (d) BMS6051 F7 Literature Review 30

- (e) BMS6052 F7 Individual Laboratory Research Project 60
2. A candidate who has been awarded *one hundred and twenty* credits in respect of units listed at 1(a), (b), (c) and (d) above shall be eligible for the award of the Postgraduate Diploma in Stem Cell and Regenerative Medicine.
3. A candidate who has been awarded *sixty* credits in respect of units listed at 1(a), (b) and (c) above, of which not more than *fifteen* credits are in respect of units listed at 1(b) and not more than *fifteen* credits are in respect of units listed at 1(c), shall be eligible for the award of the Postgraduate Certificate in Stem Cell and Regenerative Medicine.
4. The Examiners may recommend the award of a Postgraduate Masters with merit or distinction.

BMST05 MOLECULAR AND CELLULAR BASIS OF HUMAN DISEASE (MSc)

1. A candidate shall take
 - (a) BMS6053 F7 Critical Analysis of Current Science 15
 - BMS6054 F7 Ethics and Public Awareness of Science 15
 - (b) units to the value of *thirty* credits from the following
 - BMS6055 F7 Modelling Human Disease 15
 - BMS6057 F7 Cancer Biology 15
 - BMS6063 F7 Epithelial Physiology in Health and Disease 15
 - (c) units to the value of *thirty* credits from the following
 - BMS6080 F7 Integrated Mammalian Biology 15
 - BMS6082 F7 Practical Cell Biology 15
 - BMS6083 F7 Practical Developmental Genetics 15
 - (d) BMS6051 F7 Literature Review 30
 - (e) BMS6052 F7 Individual Laboratory Research Project 60
2. A candidate who has been awarded *one hundred and twenty* credits in respect of units listed at 1(a), (b), (c) and (d) above shall be eligible for the award of the Postgraduate Diploma in Molecular and Cellular Basis of Human Disease.
3. A candidate who has been awarded *sixty* credits in respect of units listed at 1(a), (b) and (c) above, of which not more than *fifteen* credits are in respect of units listed at 1(b) and not more than *fifteen* credits are in respect of units listed at 1(c), shall be eligible for the award of the Postgraduate Certificate in Molecular and Cellular Basis of Human Disease.
4. The Examiners may recommend the award of a Postgraduate Masters with merit or distinction.

BMST08 INTEGRATIVE PHYSIOLOGY AND PHARMACOLOGY (MSc)

1. A candidate shall take
 - (a) BMS6053 F7 Critical Analysis of Current Science 15
 - BMS6054 F7 Ethics and Public Awareness of Science 15
 - BMS6080 F7 Integrated Mammalian Biology 15
 - BMS6084 F7 Physiology and Pharmacology 15
 - (b) units to the value of *thirty* credits from the following
 - BMS6060 F7 Autonomic Nervous System 15
 - BMS6061 F7 Membrane Receptors 15
 - BMS6062 F7 Molecular Physiology of Ion Channels and Disease 15
 - BMS6063 F7 Epithelial Physiology in Health and Disease 15
 - (c) BMS6051 F7 Literature Review 30
 - (d) BMS6052 F7 Individual Laboratory Research Project 60
2. A candidate who has been awarded *one hundred and twenty* credits in respect of units listed at 1(a), (b) and (c) above shall be eligible for the award of the Postgraduate Diploma in Integrative Physiology and Pharmacology.
3. A candidate who has been awarded *sixty* credits in respect of units listed at 1(a) and (b) above, of which not more than *thirty* credits are in respect of units listed at 1(b) shall be eligible for the award of the Postgraduate Certificate in Integrative Physiology and Pharmacology.
4. The Examiners may recommend the award of a Postgraduate Masters with merit or distinction.

BMST24 INTEGRATIVE PHYSIOLOGY AND PHARMACOLOGY (MSc) (For initial registration of a candidate for the Degree of PhD with Integrated Studies in Biomedical Science only)

1. A candidate shall take the programme of study prescribed in Regulation 1 in the Regulations for the Degree of MSc in Integrative Physiology and Pharmacology (BMST08).
2. A candidate shall (as part of the requirements for the Degree of PhD with Integrated Studies and unless exempted) take Research Training Programme units to the value of *forty-five* credits as prescribed by the Head of the Department following consultation with the candidate (in the case of a candidate who commenced the programme of study and research before September 2010), or shall engage with the Doctoral Development Programme as prescribed in the Regulations for the Doctoral Development Programme (in the case of a candidate commencing the programme of study and research in or after September 2010).
3. A candidate shall (as part of the requirements for the Degree of PhD with Integrated Studies) complete satisfactorily the following
 - (i) ELT Intensive English Language Training (*optional*)
 - (ii) *in the first year*
 - Y1.1 Induction Meeting
 - Y1.2 Managing Research Time
 - (iii) *in the second year*
 - Y2.1 Speaking Skills for Research Purposes
 - Y2.2 Masters Research Projects - Oral Presentations
 - (iv) *in the third year*
 - Y3.1 Research Poster Presentations
 - (v) *in the fourth year*
 - Y4.1 Thesis Writing and Viva Preparation
 - Y4.2 Graduate Research Conference - Oral Presentations

4. A candidate shall be expected to attend at least two Career Management Skills sessions during the four year programme.
5. A candidate who has been awarded *one hundred and twenty* credits in respect of units listed at 1(a), (b) and (c) of BMST08 above and who does not complete the requirements for the Degree of MSc shall be eligible for the award of the Postgraduate Diploma in Integrative Physiology and Pharmacology.
6. A candidate who has been awarded *sixty* credits in respect of units listed at 1(a) and (b) of BMST08, of which not more than *thirty* credits are in respect of units listed at 1(b) shall be eligible for the award of Postgraduate Certificate in Integrative Physiology and Pharmacology.
7. The Examiners may recommend the award of a Postgraduate Masters with merit or distinction.

BMST25 MOLECULAR AND CELLULAR BASIS OF HUMAN DISEASE (MSc) (For initial registration of a candidate for the Degree of PhD with Integrated Studies in Biomedical Science only)

1. A candidate shall take the programme of study prescribed in Regulation 1 in the Regulations for the Degree of MSc in Molecular and Cellular Basis of Human Disease (BMST05).
2. A candidate shall (as part of the requirements for the Degree of PhD with Integrated Studies and unless exempted) take Research Training Programme units to the value of *forty-five* credits as prescribed by the Head of the Department following consultation with the candidate (in the case of a candidate who commenced the programme of study and research before September 2010), or shall engage with the Doctoral Development Programme as prescribed in the Regulations for the Doctoral Development Programme (in the case of a candidate commencing the programme of study and research in or after September 2010).
3. A candidate shall (as part of the requirements for the Degree of PhD with Integrated Studies) complete satisfactorily the following
 - (i) ELT Intensive English Language Training (*optional*)
 - (ii) *in the first year*
 - Y1.1 Induction Meeting
 - Y1.2 Managing Research Time
 - (iii) *in the second year*
 - Y2.1 Speaking Skills for Research Purposes
 - Y2.2 Masters Research Projects - Oral Presentations
 - (iv) *in the third year*
 - Y3.1 Research Poster Presentations
 - (v) *in the fourth year*
 - Y4.1 Thesis Writing and Viva Preparation
 - Y4.2 Graduate Research Conference - Oral Presentations
4. A candidate shall be expected to attend at least two Career Management Skills sessions during the four year programme.
5. A candidate who has been awarded *one hundred and twenty* credits in respect of units listed at 1(a), (b), (c) and (d) of BMST05 above and who does not complete the requirements for the Degree of MSc shall be eligible for the award of the Postgraduate Diploma in Molecular and Cellular Basis of Human Disease
6. A candidate who has been awarded *sixty* credits in respect of units listed at 1(a) and (b) and (c) of BMST05 above of which not more than *fifteen* credits are in respect of units listed at 1(b) and not more than *fifteen* credits are in respect of units listed at 1(c) and who does not complete the requirements for the Degree of MSc shall be eligible for the award of the Postgraduate Certificate in Molecular and Cellular Basis of Human Disease.

7. The Examiners may recommend the award of a Postgraduate Masters with merit or distinction.

**BMST90 STEM CELL AND REGENERATIVE MEDICINE (MSc)
(For initial registration of a candidate for the Degree of PhD with Integrated Studies in Biomedical Science only)**

- A candidate shall take the programme of study prescribed in Regulation 1 in the Regulations for the Degree of MSc in Stem Cell and Regenerative Medicine (BMST02).
- A candidate shall (as part of the requirements for the Degree of PhD with Integrated Studies and unless exempted) take Research Training Programme units to the value of *forty-five* credits as prescribed by the Head of the Department following consultation with the candidate (in the case of a candidate who commenced the programme of study and research before September 2010), or shall engage with the Doctoral Development Programme as prescribed in the Regulations for the Doctoral Development Programme (in the case of a candidate commencing the programme of study and research in or after September 2010).
- A candidate shall (as part of the requirements for the Degree of PhD with Integrated Studies) complete satisfactorily the following
 - ELT Intensive English Language Training (*optional*)
 - in the first year*
 - Y1.1 Induction Meeting
 - Y1.2 Managing Research Time
 - in the second year*
 - Y2.1 Speaking Skills for Research Purposes
 - Y2.2 Masters Research Projects - Oral Presentations
 - in the third year*
 - Y3.1 Research Poster Presentations
 - in the fourth year*
 - Y4.1 Thesis Writing and Viva Preparation
 - Y4.2 Graduate Research Conference - Oral Presentations
- A candidate shall be expected to attend at least two Career Management Skills sessions during the four year programme.
- A candidate who has been awarded *one hundred and twenty* credits in respect of units listed at 1(a), (b), (c) and (d) of BMST02 above and who does not complete the requirements for the Degree of MSc shall be eligible for the award of the Postgraduate Diploma in Stem Cell and Regenerative Medicine.
- A candidate who has been awarded *sixty* credits in respect of units listed at 1(a) and (b) and (c) of BMST02 above of which not more than fifteen credits are in respect of units listed at 1(b) and not more than *fifteen* credits are in respect of units listed at 1(c) and who does not complete the requirements for the Degree of MSc shall be eligible for the award of the Postgraduate Certificate in Stem Cell and Regenerative Medicine.
- The Examiners may recommend the award of a Postgraduate Masters with merit or distinction.

CHMT01 POLYMERS FOR ADVANCED TECHNOLOGIES (MSc)

- A candidate shall take

(a)	CHM6106	F7	Fundamental Polymer Chemistry	15
	CHM6108	F7	Biopolymers and Biomaterials	15
	CHM6201	F7	Polymer Characterisation and Analysis	15
	CHM6401	F7	Polymer Laboratory	15
	CHM6402	F7	Research and Presentation Skills	15
	MAT6102	F7	The Physics of Polymers	15

- units to the value of *thirty* credits from the following

CHM6202	F7	Design and Synthesis of Polymers of Controlled Structure	15
CHM6204	F7	Smart Polymers and Polymeric Materials	15
MAT6203	F7	Biomedical Applications of Polymers	15
MAT6430	F7	Polymer Composite Materials	15
PHY6006	F7	Macromolecules at Interfaces and Structured Organic Films	15
PHY6007	F7	Electronic and Photonic Molecular Materials and Devices	15
- CHM6301 F7 Polymer Research Project 60
- A candidate who has been awarded *one hundred and twenty* credits in respect of units listed at 1(a) and (b) above shall be eligible for the award of the Postgraduate Diploma in Polymers for Advanced Technologies.
- A candidate who has been awarded *sixty* credits in respect of units listed at 1(a) and (b) above shall be eligible for the award of the Postgraduate Certificate in Polymers for Advanced Technologies.

CHMT02 POLYMERS FOR ADVANCED TECHNOLOGIES (Postgraduate Diploma)

- A candidate shall take the programme of study prescribed in Regulation 1(a) and (b) for the Degree of MSc in Polymers for Advanced Technologies (CHMT01).
- A candidate who has obtained a grade of not less than 50 in all units studied during the Autumn Semester may, on the recommendation of the Examiners, be permitted to become instead a candidate for the Degree of MSc in Polymers for Advanced Technologies.
- A candidate who has been awarded *sixty* credits in respect of study under Regulation 1 above shall be eligible for the award of the Postgraduate Certificate in Polymers for Advanced Technologies.

DTST01 MOLECULAR SCALE ENGINEERING (MSc) (Full-Time)

**Joint programme with the University of Leeds)
(For initial registration of a candidate for the degree of PhD with Integrated Studies in Molecular Scale Engineering only)**

- A person who satisfies the admission requirements of the University of Sheffield and of the University of Leeds may be admitted as a candidate.
- A candidate shall register at Sheffield at the beginning of the programme of study as a student of both the University of Sheffield and the University of Leeds. A candidate shall have appropriate access to the facilities of both Universities but shall be required to attend at the University identified in accordance with the following Regulations.
- A candidate shall take
 - at the University of Sheffield

BMS6730	F7	Bionanomaterials	15
MBB604	F7	Translational Mechanistic Biology	15
PHY6100	F7	Preliminary PhD project	45
 - at the University of Leeds

CMNS5100	F7	Generic Methodologies for Nanotechnology	15
ELEC5225	F7	Molecular Scale Engineering	15
ELEC5255	F7	Nanofabrication and Characterisation	15
ELEC5290	F7	Cross Disciplinary Research Placement	30
- units to the value of *thirty* credits from the following at the University of Leeds

ELEC5500	F7	Micro-and Nano-Electromechanical Systems	15
----------	----	--	----

- | | | | |
|--------------------------------|----|----------------------------------|----|
| ELEC5650 | F7 | Medical Electronics and E-Health | 15 |
| at the University of Sheffield | | | |
| CHM6108 | F7 | Biopolymers and Biomaterials | 15 |
| MAT6750 | F7 | Biophotonics and Bioimaging | 15 |
- A candidate shall engage (as part of the requirements for the Degree of PhD with Integrated Studies) with the Doctoral Development Programme as prescribed in the Regulations for the Doctoral Development Programme.
 - A candidate who has been awarded *one hundred and twenty* credits in respect of units listed at 3 (a) and (b) above and who does not complete the requirements for the Degree of MSc shall be eligible for the award of the Postgraduate Diploma in Molecular Scale Engineering.
 - The Examiners may recommend the award of a Postgraduate Masters, or a Postgraduate Diploma with merit or distinction.

FCPT02 SCIENCE COMMUNICATION (MSc)

- A candidate shall take

(a)	FCP6001	F7	Developing Communication Skills	15
	FCP6002	F7	Topical Science	30
(b)	JNL6029	F7	Communicating with the Media	15
	JNL6039	F7	Why Communicate Science?	15
(c)	JNL6049	F7	Communicating Science Portfolio	45
(d)	FCP6003	F7	Project Dissertation	60
- A candidate who has been awarded *one hundred and twenty* credits in respect of units listed at 1(a) (b) and (c) above and who does not meet the requirements for the Degree of MSc shall be eligible for the award of the Postgraduate Diploma in Science Communication.
- A candidate who has been awarded *sixty* credits in respect of units listed at 1(a) and (b) above and who does not meet the requirements for the Degree of MSc shall be eligible for the award of the Postgraduate Certificate in Science Communication.

MBBT02 MECHANISTIC BIOLOGY (MSc)

- A person may be admitted as a candidate who has
 - a good Honours degree *and*
 - an A¹ level qualification or equivalent in Mathematics
- A candidate shall take

(a)	BMS6730	F7	Bionanomaterials	15
	CHM6109	F7	Biophysical Chemistry	15
	COM6009	F7	Modelling and Simulation of Natural Systems	15
	MBB604	F7	Translational Molecular Biology	15
	MBB605	F7	Computing for Mechanistic Biology	15
	MBB606	F7	Research across the disciplines in Mechanistic Biology	15
	PHY6120	F7	Mathematics for Mechanistic Biology	15
	PHY6121	F7	Physical Biology	15
(b)	MBB607	F7	Research Project	60
- A candidate may proceed to the dissertation on the recommendation of the Examiners based on performance in the units listed at 2(a).
- A candidate who has been awarded *one hundred and twenty* credits in respect of units listed at 2(a), and who does not complete the requirements for the Degree of MSc shall be eligible for the award of the Postgraduate Diploma in Mechanistic Biology.
- A candidate who has been awarded *sixty* credits in respect of units listed at 2(a) and who does not complete the requirements for the Degree of MSc shall be eligible for the award of the Postgraduate Certificate in Mechanistic Biology.

MBBT08 MECHANISTIC BIOLOGY (MSc)

(For initial registration of a candidate for the Degree of PhD with Integrated Studies in Mechanistic Biology only)

- A candidate shall take the programme of study prescribed in Regulation 2 in the Regulations for the Degree of MSc in Mechanistic Biology (MBBT02).
- A candidate shall engage (as part of the requirements for the Degree of PhD with Integrated Studies) with the Doctoral Development Programme as prescribed in the Regulations for the Doctoral Development Programme.
- A candidate shall be expected to attend at least two Career Management Skills sessions during the four year programme.
- A candidate who has been awarded *one hundred and twenty* credits in respect of units listed at 2(a) of MBBT02 and who does not complete the requirements for the Degree of MSc shall be eligible for the award of the Postgraduate Diploma in Mechanistic Biology.
- A candidate who has been awarded *sixty* credits in respect of units listed at 2(a) of MBBT02 and who does not complete the requirements for the Degree of MSc shall be eligible for the award of the Postgraduate Certificate in Mechanistic Biology.
- The Examiners may recommend the award of the Degree of MSc with merit or distinction.
- A candidate must achieve a weighted mean grade of not less than 59.5 in the Degree of MSc in order to proceed to the Degree of PhD.

MAST01 STATISTICS (MSc) (Full-Time)

MAST05 STATISTICS (Postgraduate Diploma)

MAST07 STATISTICS (Postgraduate Certificate)

- A candidate shall take

(a)	MAS6001	F7	Data Analysis	20
	MAS6002	F7	Statistical Laboratory	20
(b)	units to the value of <i>forty</i> credits from the following			
	MAS6003	F7	Linear Modelling	20
	MAS6004	F7	Inference	20
	MAS6031	F7	Special Topics 1	10
	MAS6032	F7	Special Topics 2	10
With the permission of the Head of Department, students may choose to replace MAS6004 with MAS6062				
	MAS6062	F7	Bayesian Methods and Clinical Trials	20
(c)	units to the value of <i>forty</i> credits from the following, not more than <i>twenty</i> credits being selected from (i)			
(i)	MAS6011	F7	Dependent Data	20
	MAS6051	F7	Introductory Mathematical Finance and Time Series	20
With the permission of the Head of Department, students may choose to replace MAS6011 with MAS6061, unless they have taken MAS6062 in (b) above.				
	MAS6061	F7	Epidemiology and Time Series	20
(ii)	MAS6012	F7	Sampling, Design, Medical Statistics	20
	MAS6031	F7	Special Topics 1	10
	MAS6032	F7	Special Topics 2	10
	MAS6071	F7	Applied Probability	10
unrestricted F7 units to the value of <i>twenty</i> credits				
(d)	MAS6041	F7	Dissertation	60
- A candidate may proceed to the dissertation only on the recommendation of the Examiners based on performance in the units listed at 1(a), (b) and (c) above.
- A candidate who has been awarded *one hundred and twenty* credits in respect of units listed at 1(a), (b) and (c) above, shall be eligible for the award of the Postgraduate Diploma in Statistics (MAST05).

4. A candidate who has been awarded *sixty* credits in respect of units listed at 1(a), (b) and (c) above, of which *twenty* credits shall be in respect of MAS6002, shall be eligible for the award of the Postgraduate Certificate in Statistics (MAST07).
5. The Examiners may recommend the award of a Postgraduate Masters, or a Postgraduate Diploma with merit or distinction

MAST02 STATISTICS (MSc) (Distance Learning)

MAST06 STATISTICS (Postgraduate Diploma)

MAST08 STATISTICS (Postgraduate Certificate)

1. The programme of study shall be pursued for not less than two years, and shall be subject to a time limit of four years.
2. A candidate shall take

(a)	MAS6001	F7	Data Analysis	20
	MAS6002	F7	Statistical Laboratory	20
(b)	units to the value of <i>forty</i> credits from the following			
	MAS6003	F7	Linear Modelling	20
	MAS6004	F7	Inference	20
	MAS6031	F7	Special Topics 1	10
	MAS6032	F7	Special Topics 2	10
	With the permission of the Head of Department, students may choose to replace MAS6004 with MAS6062:			
	MAS6062	F7	Bayesian Methods and Clinical Trials	20
(c)	units to the value of <i>forty</i> credits from the following, not more than <i>twenty</i> credits being selected from (i)			
(i)	MAS6011	F7	Dependent Data	20
	MAS6051	F7	Introductory Mathematical Finance and Time Series	20
	With the permission of the Head of Department, students may choose to replace MAS6011 with MAS6061, unless they have taken MAS6062 in (b) above.			
	MAS6061	F7	Epidemiology and Time Series	20
(ii)	MAS6012	F7	Sampling, Design, Medical Statistics	20
	MAS6031	F7	Special Topics 1	10
	MAS6032	F7	Special Topics 2	10
(d)	MAS6041	F7	Dissertation	60
3. A candidate may proceed to the dissertation only on the recommendation of the Examiners based on performance in the units listed at 2(a), (b) and (c) above.
4. A candidate who has been awarded *one hundred and twenty* credits in respect of units listed at 2(a), (b) and (c) above, shall be eligible for the award of the Postgraduate Diploma in Statistics (MAST06).
5. A candidate who has been awarded *sixty* credits in respect of units listed at 2(a), (b) and (c) above, of which *twenty* credits shall be in respect of MAS6002, shall be eligible for the award of the Postgraduate Certificate in Statistics (MAST08).
6. The Examiners may recommend the award of a Postgraduate Masters, or a Postgraduate Diploma with merit or distinction.
7. A candidate shall attend such residential weeks as are prescribed by the Head of Department.

**MAST03 STATISTICS (MSc)
(For initial registration of a candidate of the Degree of PhD with Integrated Studies in Probability and Statistics only)**

1. A candidate shall take the programme of study prescribed in Regulation 1 of the Regulations for the Degree of MSc in Statistics (MAST01).

2. A candidate shall take (as part of the requirements for the Degree of PhD with Integrated Studies and unless exempted) Research Training Programme units to the value of *forty-five* credits as prescribed by the Head of Department following consultation with the candidate.
3. A candidate shall (as part of the requirements for the Degree of PhD with Integrated Studies) complete satisfactorily the following
 - (i) ELT Intensive English Language Training (*optional*)
 - (ii) *in the first year*

Y1.1	Induction meeting	
Y1.2	Managing Research Time	
 - (iii) *in the second year*

Y2.1	Speaking Skills for Research Purposes	
Y2.2	Masters Research Projects – Oral Presentations	
 - (iv) *in the third year*

Y3.1	Research Poster Presentations	
------	-------------------------------	--
 - (v) *in the fourth year*

Y4.1	Thesis Writing and Viva Preparation	
Y4.2	Graduate Research Conference – Oral Presentations	
4. A candidate shall be expected to attend at least two Career Management Skills sessions during the four year programme.
5. A candidate may proceed to the dissertation on the recommendation of the Examiners based on performance in the units listed at Regulation 1(a), (b) and (c) of MAST01.
6. A candidate must achieve a minimum grade of 50 in all taught units and achieve minimum grade of 60% *or* above in the dissertation and a weighted mean grade of 59.5 or above in the Degree of MSc in order to continue as a candidate for the Degree of PhD with Integrated Studies. A candidate who fails to satisfy this requirement will be required to become a candidate for the relevant MSc programme in accordance with Regulation 1.
7. A candidate who has been awarded *one hundred and twenty* credits in respect of units listed at 1(a), (b) and (c) in the Regulations for the Degree of MSc in Statistics (MAST01), and who does not complete the requirements for the Degree of MSc shall be eligible for the award of the Postgraduate Diploma in Statistics (MAST05).
8. A candidate who has been awarded *sixty* credits in respect of units listed at 1(a), (b) and (c) in the Regulations for the Degree of MSc in Statistics (MAST01), of which *twenty* credits are in respect of MAS6002, and who does not complete the requirements for the Degree of MSc shall be eligible for the award of the Postgraduate Certificate in Statistics (MAST07).
9. The Examiners may recommend the award of a Postgraduate Masters, or a Postgraduate Diploma with merit or distinction

Such a candidate shall not be permitted to continue as a candidate for the Degree of PhD with Integrated Studies.
- A candidate who does not pass CHM602, MAT6045 or PHY6009 (Project) listed at 3(c) above with a minimum mark of 60% at the first attempt shall be ineligible to proceed to the degree of PhD.

PHYT99 NANOELECTRONICS AND NANOMECHANICS (MSc) (Full-Time)

Joint programme with the University of Leeds) (For initial registration of a candidate for the degree of PhD with Integrated Studies in Nanoelectronics and Nanomechanics only)

1. A person who satisfies the admission requirements of the University of Sheffield and of the University of Leeds may be admitted as a candidate.
2. A candidate shall register at Sheffield at the beginning of the programme of study as a student of both the University of Sheffield and the University of Leeds. A candidate shall have appropriate access to the facilities of both Universities but shall be required to attend at the University identified in accordance with the following Regulations.
3. A candidate shall take
 - (a) at the University of Sheffield

MAT6390	M	Nanoscale Magnetic Materials and Devices	15
MAT6720	M	Nanostructures, Nanopatterning and Nanomechanics	15
PHY6002	M	Inorganic Semiconductor Nanostructures	15
PHY6007	M	Organic Electronics	15
 - (b) at the University of Leeds

CMNS5100		Generic Methodologies for Nanotechnology	15
CMNS5240		Microfluidics	15
 - (c) units to the value of *thirty* credits from the following at the University of Leeds

ELEC5200		Next Generation Silicon Technologies	15
ELEC5210		Quantum Computing	15
ELEC5220		Molecular Electronics	15
ELEC5500		Micro- and Nano-electromechanical Systems	15

note students taking ELEC5500 must take ELEC5200
 - (d) *one* of the following

CHM602	M	Nanofolio MSc Courses Major Project	60
MAT6045	M	Nanofolio MSc Courses Major Project	60
PHY6009	M	Nanofolio MSc Courses Major Project	60
4. A candidate shall take (as part of the requirements for the Degree of PhD with Integrated Studies and unless exempted) Research Training Programme units to the value of *forty-five* credits as prescribed by the Head of Department following consultation with the candidate (in the case of a candidate who commenced the programme of study and research before September 2010), or shall engage with the Doctoral Development Programme as prescribed in the Regulations for the Doctoral Development Programme (in the case of a candidate commencing the programme of study and research in or after September 2010).
5. A candidate shall (as part of the requirements for the Degree of PhD with Integrated Studies) complete satisfactorily the following
 - (i) ELT Intensive English Language Training (*optional*)
 - (ii) *in the first year*

Y1.1		Induction Meeting	
Y1.2		Managing Research Time	
 - (iii) *in the second year*

Y2.1		Speaking Skills for Research Purposes	
Y2.2		Masters Research Projects - Oral Presentations	
 - (iv) *in the third year*

Y3.1		Research Poster Presentations	
------	--	-------------------------------	--
 - (v) *in the fourth year*

Y4.1		Thesis Writing and Viva Preparation	
Y4.2		Graduate Research Conference - Oral Presentations	

6. A candidate shall be expected to attend at least two Career Management Skills sessions during the four year programme.
7. A candidate who does not complete the requirements for the Degree of MSc may be eligible instead for the award of the Postgraduate Diploma *or* the Postgraduate Certificate in Nanoelectronics and Nanomechanics in accordance with the Regulations for the Degree of MSc in Nanoelectronics and Nanomechanics. Such a candidate shall not be permitted to continue as a candidate for the Degree of PhD with Integrated Studies.
8. A candidate who does not pass CHM602, MAT6045 or PHY6009 (Project) listed at 3(d) above with a minimum mark of 60% at the first attempt shall be ineligible to proceed to the degree of PhD.

PSYR09 REGULATIONS FOR THE DEGREE OF DOCTOR OF CLINICAL PSYCHOLOGY (DClinPsy)

This programme of study is non-modular.

A. For candidates without professional qualifications in Clinical Psychology (PSYR09 (Full-Time))

1. A person may be admitted as a candidate who is a recognised graduate in Psychology and is eligible for the Graduate Basis for Chartered Membership (GBC) of the British Psychological Society. Except with the permission of the Faculty it shall be a condition of registration that a candidate is to be an employee of the National Health Service *or* of an employer deemed to be equivalent.
2. A candidate shall undertake
 - (a) prescribed coursework, including academic clinical projects, case studies, and short-answer questions
 - (b) supervised practice in Clinical Psychology on placement
 - (c) a thesis.
3. The examination shall consist of
 - (a) academic clinical projects
 - (b) short-answer questions
 - (c) case studies
 - (d) observed clinical skills assessment
 - (e) assessment of clinical competence on placement
 - (f) a thesis
 - (g) an oral examination on all aspects of submitted work.
4. The programme of study shall be pursued for three years by a full-time candidate. A single extension to registration of one year is the maximum permitted. Supervised practice in Clinical Psychology on placement shall be for a period of at least two days per week throughout the programme of study.
5. A candidate shall pursue a programme of research in accordance with the General Regulations for Higher Degrees, and shall present a thesis in accordance with those Regulations.
6. A candidate who fails in any part of the examination may be permitted to retake that part of the examination on one occasion only.
7. A candidate who contravenes the Standards of conduct, performance and ethics of the Health Professions Council *or* the Code of Conduct for Psychologists *or* the Guidelines for Professional Practice of Clinical Psychology of the British Psychological Society may be dealt with under General Regulations as to Progress of Students, the General Regulations relating to Student Fitness to Practise *or* the General Regulations as to the Discipline of Students.
8. No aegrotat awards can be made from this programme.

PSYT23 COGNITIVE NEUROSCIENCE AND HUMAN NEURO-IMAGING (MSc (Res))

1. A candidate shall take

(a)	PSY6305	F7	Fundamentals of Cognitive Neuroscience	15
	PSY6306	F7	Fundamentals of Neuroscience	15
	PSY6307	F7	Computational Neuroscience 1: Neurons and Neuronal Codes	15
	PSY6309	F7	Mathematical Modelling and Research Skills	15
	PSY6310	F7	Brain Imaging	15
	MED624	F7	Applied Neuroimaging, Neurophysiology and Psychiatry	15
- (b) PSY6318 F7 Research Project 90
2. The programme of study will be pursued for one year full-time.
3. A candidate who has been awarded *sixty* credits in respect of units listed in 1(a) above shall be eligible for the award of the Postgraduate Certificate in Cognitive Neuroscience and Human Neuro-Imaging.

PSYT107 PSYCHOLOGICAL RESEARCH METHODS (MSc) PSYTX (Part-Time)

1. A person may be admitted as candidate who is a recognised graduate with Honours in Psychology or equivalent
2. The programme of study shall be pursued for one year by a full-time candidate.
3. The programme of study shall be pursued for not less than two years by a part-time candidate and shall normally be subject to a time limit of three years.
4. A candidate shall take

(a)	PSY6010	F7	Advanced Multivariate Statistics for Psychology	15
	PSY6121	F7	Research Methods in Psychology	30
	PSY6122	F7	Current issues in Psychological Research	15
	PSY6231	F7	Professional Skills for Psychologists	30
	PSY6232	F7	Systematically Reviewing Psychological Research	30
- (b) PSY6110 F7 Research Project in Psychology 60
- PSY6232 F7 Systematically Reviewing Psychological Research 30
3. A candidate who has been awarded *one hundred and twenty* credits in respect of units listed at 4(a) above and who does not complete the requirements for the Degree of MSc shall be eligible for the award of the Postgraduate Diploma in Psychological Research.

PSYT08 CLINICAL SUPERVISION (Postgraduate Diploma) (Distance Learning) (Part-Time)

1. A person may be admitted as a candidate who has a recognised degree at 2:1 or above in an applied social *or* health care discipline and is currently active as a clinical supervisor.
2. A person may be admitted as a candidate with a recognised 2:2 degree at the discretion of the Head of Department, should the applicant have additional vocational experience or qualifications.
3. The programme of study shall be pursued for not less than two years part-time and shall normally be subject to a time limit of three years
4. A candidate shall take

PSY6005	F7	Advanced Supervision Skills	30
PSY6006	F7	Supervision Methods and Techniques	30
PSY6007	F7	Fundamentals of Supervision I	30
PSY6008	F7	Fundamentals of Supervision II	30

5. A candidate shall attend two three-day periods of residential study in the Sheffield area, one at the beginning of each of the two years of study.

PSYT12 COGNITIVE AND COMPUTATIONAL NEUROSCIENCE (MSc)

1. A candidate shall take

(a)	PSY6305	F7	Fundamentals of Cognitive Neuroscience	15
	PSY6306	F7	Fundamentals of Neuroscience	15
	PSY6307	F7	Computational Neuroscience 1: Neurons and Neuronal Codes	15
	PSY6308	F7	Computational Neuroscience 2 : Neuronal Networks and Brain Systems	15
	PSY6309	F7	Mathematical Modelling and Research Skills	15
	PSY6310	F7	Brain Imaging	15
	PSY6315	F7	Current Issues in Systems Neuroscience	15
	PSY6316	F7	Current Issues in Cognitive Neuroscience	15
- (b) PSY6321 F7 Research Project in Cognitive and Computational Neuroscience 60
2. A candidate who has been awarded *one hundred and twenty* credits in respect of units listed in 1(a) above and who does not complete the requirements for the Degree of MSc shall be eligible for the award of the Postgraduate Diploma in Cognitive and Computational Neuroscience.
3. A candidate who has been awarded *sixty* credits in respect of units listed in 1(a) above and who does not complete the requirements for the Degree of MSc shall be eligible for the award of the Postgraduate Certificate in Cognitive and Computational Neuroscience.

PSYT15 LOW INTENSITY PSYCHOLOGICAL INTERVENTIONS (Postgraduate Certificate)

1. A person may be admitted as a candidate who

(a)	has a recognised degree at 2:1 or above in a health related discipline <i>or</i>
(b)	has extensive experience of work in a mental healthcare setting and a demonstrated capacity to work at a masters level, and will either be employed in a primary care setting or have managerial support for access to patients in primary care settings. Except with the permission of the Faculty it shall be a condition of registration that a candidate is to be an employee of the National Health Service or of an employer deemed to be equivalent.
2. The programme of study shall be pursued for one year full-time. Supervised clinical practice shall be for a minimum of four days per week in the candidate's work place throughout the programme of study with a total of 50 hours clinical and case management supervision study.
3. A candidate will take

PSY6014	F7	Low-intensity Interventions for Mental Health Problems	30
PSY6015	F7	The Social and Healthcare Context	30
4. A candidate who fails in any part of the examination may be permitted to retake that part of the examination on one occasion only.

**PSYT16 HIGH INTENSITY
PSYCHOLOGICAL INTERVENTIONS
(Postgraduate Diploma)**

1. A person may be admitted as a candidate who has a professional qualification that enables them to work in the mental health services, such as clinical psychology, psychotherapy, nursing, or counselling, and will either be employed in a primary care setting or have managerial support for access to patients in primary care settings. Persons without a professional training (such as graduate mental health workers) will be admitted under the British Association of Behavioural and Cognitive Psychotherapies Knowledge Skills and Attitude protocol (BABCP KSA). Except with the permission of the Faculty it shall be a condition of registration that a candidate is to be an employee of the National Health Service or of an employer deemed to be equivalent.
2. The programme of study shall be pursued for one year full-time or two years part-time. Supervised clinical practice shall be for a minimum of three days per week in the candidate's work place throughout the programme of study, with a minimum of 70 hours clinical supervision.
3. A candidate will take

PSY6011	F7	The Fundamentals of Cognitive Behavioural Therapy	40
PSY6012	F7	Cognitive Behavioural Therapy for Anxiety Disorders	40
PSY6013	F7	Cognitive Behavioural Therapy for Depression	40
4. A candidate who fails in any part of the examination may be permitted to retake that part of the examination on one occasion only.

General Regulations for Degrees in the Faculty of Social Sciences

- 1.(a) A candidate following a professionally validated and prescribed programme must pass all units mandatory for the purpose of professional accreditation in order to be eligible for the award of the degree. This applies to the following programmes within the Faculty,
- | | | |
|---------|---------|---------|
| ARCUI02 | ARCUI23 | ARCUI27 |
| ARCUI03 | ARCUI24 | ARCUI28 |
| ARCUI22 | ARCUI26 | |
- 1.(b) Where a candidate would have satisfied the Examiners in respect of a unit but for a failure in one or more components of that unit mandatory for the purpose of professional accreditation, the Examiners may recommend that the candidate be required to re-sit only in respect of that component or those components. Where the candidate satisfies the Examiners in the re-sit examination, the grade for the unit shall be determined as if a bare pass had been awarded in respect of that component or those components.

ARCUI02 ARCHITECTURE AND LANDSCAPE (BA) (JACS KK13)

Level 1

1.	A candidate shall take		
	ARC103	F4 Humanities 1	10
	ARC104	F4 Humanities 2	10
	ARC107	F4 Environment and Technology 1	10
	ARC108	F4 Environment and Technology 2	10
	ARC136	F4 Architectural Design (Landscape) 2	20
	LSC103	F4 Landscape Design Studio Project	10
	LSC105	F4 Landscape Processes	10
	LSC111	F4 What is Landscape Architecture?	10
	LSC136	F4 Introductory Environmental Design Studio	30

Level 2

2.	A candidate shall take		
	ARC204	F5 Humanities 4	10
	ARC207	F5 Environment and Technology 3	10
	ARC237	F5 Architectural Design (Landscape) 3	30
	ARC238	F5 Architectural Design (Landscape) 4	30
	LSC122	F4 Theories and History of Landscape Architecture	10
	LSC202	F5 Conceptual Design Studio	10
	LSC203	F5 Landscape Ecology	10
	LSC204	F5 Introduction to Planting Design	10

Level 3

3. A candidate shall take
- | | | | |
|--|--------|---------------------------------------|----|
| | ARC303 | F6 Humanities 5 | 10 |
| | ARC307 | F6 Environment and Technology 5 | 10 |
| | ARC326 | F6 Architectural Design 6 | 30 |
| | ARC337 | F6 Architectural Design (Landscape) 5 | 30 |
| | LSC303 | F6 Advanced Planting Design | 10 |
| | LSC304 | F6 Site Planning for Housing | 10 |
| | LSC306 | F6 Landscape Construction Design | 10 |
| | LSC308 | F6 Integrated Design Project 2 | 10 |
4. For candidates intending to proceed to the degree of MArch in Architecture (ARCUI23) or MArch in Architecture and Town and Regional Planning (ARCUI24), the provisions of the General Regulations for First Degrees as to progression from Level 2 to Level 3 for candidates pursuing integrated Master's programmes shall not apply to this programme.
5. A candidate must be awarded *one hundred and twenty* credits at Level 3 in order to be eligible for the award of the BA in Architecture and Landscape. A candidate who fails to satisfy this requirement may be recommended instead for the award of the Degree of BA in Architectural Studies and Landscape (ARCUI06).
6. The provisions of the General Regulations for First Degrees as to Level weighting shall not apply to this programme. A grade awarded at Level 3 has three times the weight of a grade awarded at Level 2.
7. Following first failure of any Level 3 module, a candidate who subsequently passes these units on resit shall be exempted from Regulation 36 of the General Regulations for first degrees and may still be considered for the award of Honours as outlined in Regulation 44 of the General Regulations for first degrees.
8. Following failure of an Autumn Semester Level 3 module to the value of *ten* credits, a candidate shall be allowed to resit the module within the same academic session.

ARCUI03 ARCHITECTURE (BA) (JACS K100)

Level 1

1.	A candidate shall take		
	ARC101	F4 Communication 1	10
	ARC102	F4 Communication 2	10
	ARC103	F4 Humanities 1	10
	ARC104	F4 Humanities 2	10
	ARC107	F4 Environment and Technology 1	10
	ARC108	F4 Environment and Technology 2	10
	ARC125	F4 Architectural Design 1	30
	ARC126	F4 Architectural Design 2	30

Level 2

2.	A candidate shall take		
	ARC202	F5 Communication 4	10
	ARC203	F5 Humanities 3	10
	ARC204	F5 Humanities 4	10
	ARC207	F5 Environment and Technology 3	10

Level 3

- A candidate shall take

ARC303	F6	Humanities 5	10
ARC308	F6	Environment and Technology 6	10
ARC322	F6	Special Study	20
ARC325	F6	Architectural Design 5	30
ARC326	F6	Architectural Design 6	30
ARC327	F6	Advanced Structures and Environment	10
ARC328	F6	Management Practice and Law	10
- A candidate must be awarded *one hundred and twenty* credits at Level 2 in order to be eligible to proceed to Level 3. A candidate who fails to satisfy this requirement may be recommended instead for transfer to the degree of BA Architectural Studies (ARCU105) provided that the candidate has successfully completed *one hundred* credits including components of ARC225 and ARC226.
- For candidates intending to proceed to the degree of MArch in Architecture (ARCU123) or MArch in Architecture and Town and Regional Planning (ARCU124), the provisions of the General Regulations for First Degrees as to progression from Level 2 to Level 3 for candidates pursuing integrated Master's programmes shall not apply to this programme.
- A candidate must be awarded *one hundred and twenty* credits at Level 3 in order to be eligible for the award of the BA in Architecture. A candidate who fails to satisfy this requirement may be recommended instead for the award of the Degree of BA in Architectural Studies (ARCU105).
- The provisions of the General Regulations for First Degrees as to Level weighting shall not apply to this programme. A grade awarded at Level 3 has three times the weight of a grade awarded at Level 2.
- Following first failure of any Level 3 module, a candidate who subsequently passes on resit shall be exempted from Regulation 36 of the General Regulations for first degrees and may still be considered for the award of Honours as outlined in Regulation 44 of the General Regulations for first degrees.
- Following failure of an Autumn Semester Level 3 module to the value of *ten* credits, a candidate shall be allowed to resit the module within the same academic session.

ARCU105 ARCHITECTURAL STUDIES (BA) (JACS K100)

Level 1

- A candidate shall take the programme of study prescribed at Level 1 in the Regulations for the Degree of BA in Architecture (ARCU103).

Level 2

- A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree BA in Architecture (ARCU103).

Level 3

- A candidate shall take

ARC303	F6	Humanities 5	10
ARC308	F6	Environment and Technology 6	10
ARC311	F6	Thesis 1	20
ARC313	F6	Thesis 3	20
ARC327	F6	Advanced Structures and Environment	10
ARC328	F6	Management Practice and Law	10

 unrestricted F5/F6 level units to the value of *forty* credits, of which not more than *thirty* credits to be taken at F5 level.

ARCU106 ARCHITECTURAL STUDIES AND LANDSCAPE (BA)

Level 1

- A candidate shall take the programme of study prescribed at Level 1 in the Regulations for the Degree of BA in Architecture and Landscape (ARCU102).

Level 2

- A candidate shall take the programme of study prescribed at Level 2 in the Regulations for the Degree BA in Architecture and Landscape (ARCU102).

Level 3

- A candidate shall take the programme of study prescribed at Level 3 in the Regulations for the Degree BA in Architecture and Landscape (ARCU102).

For candidates whose initial registration was prior to the Session 2011-2012:

ARCU123 ARCHITECTURE (MARCH) (Full-Time)

ARCU122 (Part-Time)

For candidates whose initial registration was for the Session 2011-2012 or later:

ARCU126 ARCHITECTURE (MARCH) (Full-Time)

ARCU128 (Part-Time)

- A person may be admitted as a candidate who
 - has reached a standard in Architectural Design satisfactory to the Faculty; and
 - has been exempted from the Part 1 Examination of the Royal Institute of British Architects, or a qualification recognised by the Board as equivalent.
- The Faculty may, in addition, require a candidate to have had relevant practical experience, gained away from the University, before commencement of the programme of study. In this instance, a candidate shall be initially registered on ARCU125, 'Architecture –Year In Practice', with the expectation of progression to ARCU126 upon completion of the practical experience. A person who has completed an equivalent course of practical experience at another institution may also be admitted.
- The programme of study shall be pursued for two sessions full-time. A person may be admitted as a part-time candidate in exceptional cases and subject to such conditions as may be prescribed by the Faculty.
- A candidate shall take
 - in the first session of full-time study (Part I)

(i)	ARC550	F7	Design 1	15
	ARC551	F7	Design 2	30
	ARC552	F7	Special Design 1	15

4. Before proceeding to the final year a candidate shall spend one session in an appropriate country, in attendance as a full-time student at a university or other approved institution, the arrangements being subject to the approval of the Head of Department. During this period the candidate shall attend courses of study in the host university. Examinations in that university in the subjects studied shall carry a value of *one hundred and twenty* credits for which no University of Sheffield grades shall be awarded.
5. A candidate must normally pass LAW255 (Spanish Law and Legal System) before commencing a session of study in an appropriate overseas country.

6. Where a candidate would have satisfied the Examiners in respect of a 20 credit HSS unit but for failure in one or more components of that unit, the Examiners may recommend that the candidate be required to re-sit only in respect of that component or those components. Where the candidate satisfied the Examiners in the re-sit examination, the grade for the unit shall be determined as if a bare pass had been awarded only in respect of that component or those components.
