University  
Of  
Sheffield.

MBChB Programme

# Virtual Graduation Celebration.

*Tuesday 13 July 2021  
11.00am*

# Welcome from the President and Vice-Chancellor

Today is a very special occasion as we celebrate your graduation. At the University, we are deeply proud of your achievements – particularly after such a challenging year for everyone.

However, this is not goodbye. Now that you have graduated, you join a worldwide community of more than 300,000 alumni who continue to be an important part of our University. We hope that you will keep in touch with us, and with each other, in the years to come.

I also hope that you will be able to join us in Sheffield next year for your rescheduled graduation ceremonies, where we can celebrate your achievements in the traditional way.

In the meantime, I wish you every success for the future.

Professor Koen Lamberts  
President and Vice-Chancellor

## The Sheffield Affirmation

Students in the Faculty of Medicine, Dentistry and Health are encouraged, and taught, to aspire to the highest standards of professional behaviour and practise and we expect our graduates to maintain their high professional standards throughout their careers.

For many centuries, physicians were expected to take the Hippocratic Oath to give voice to the ideals of professional practise. But the Oath itself is no longer seen as fit for purpose – it was written in the 4th Century BC – and the University of Sheffield educates healthcare students of many different professional groups. Now the University expects Faculty of Medicine, Dentistry and Health students to take part in the Sheffield Affirmation, which places the care and protection of patients, and high professional expectations, in a modern context.

- I will remain loyal to the high traditions and responsibilities of my profession.
- The health and welfare of my patients and the public will be my paramount consideration. I will do my best for my patients and the public at all times and refrain from any action which may be harmful.
- I will, in the course of my work, come into special relationships with my fellow human beings calling for great propriety and trust. I will avoid all wrong doing and anything mischievous or dishonourable.
- Whatsoever I see or hear during my practice that ought to be kept secret, I will not divulge.

## Presiding Officer

Professor Michelle Marshall, Interim Head of Department,  
Academic Unit of Medical Education

## Speaker

Dr Jennifer Swan, Phase 3a Director of Studies, Academic  
Unit of Primary Medical Care

## Affirmation Lead

Mr Andrew Maud
