

# Road Journey Action Plan

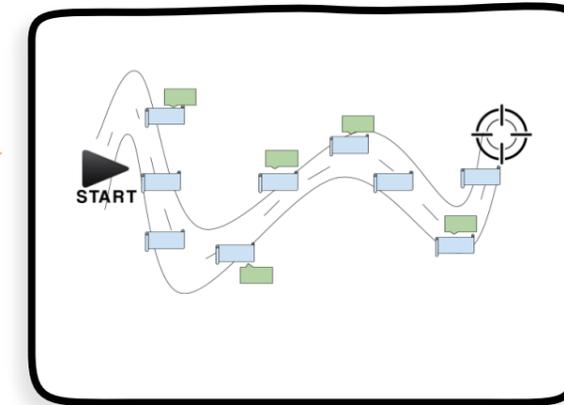

Creating a Road Journey Action Plan can help you to think through how you would implement your community project idea, one step at a time. Draw out a road and use colour coded paper to represent a) actions, b) support and c) challenges.

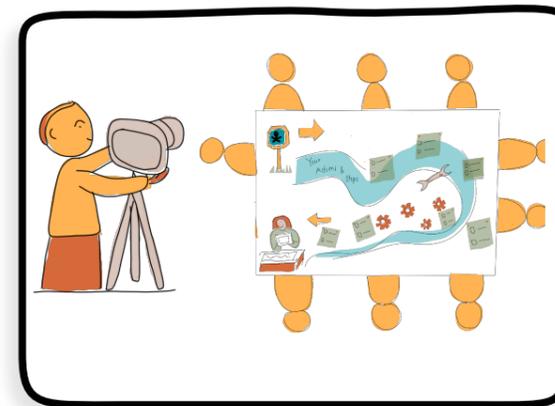

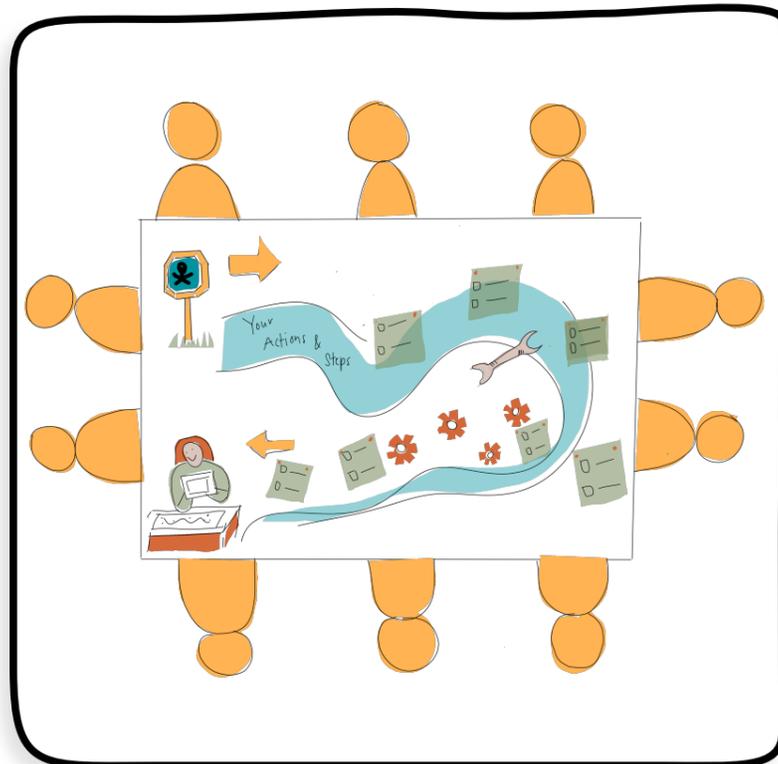

**Step 1:**  
The starting point represents where your project is now.

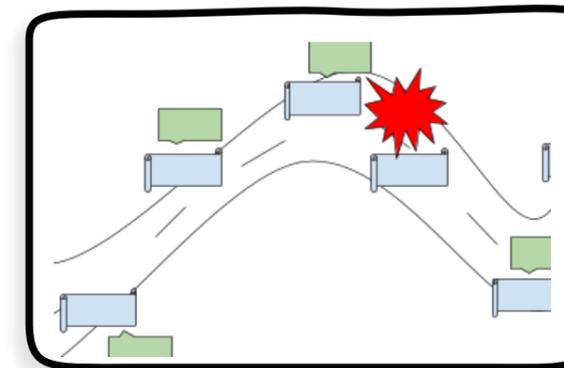

**Step 2:**  
Identify the actions or steps you will take along your journey, to implement your project idea.

**Step 3:**  
Identify partners & the support you need for each step.

**Step 5:**  
Take a photo of your completed road. Review and share to invite feedback from others.

**Step 4:**  
Identify the biggest challenges along the way.
